

# LIVE WEBCAST

**Infection Control and Surveillance Standards  
Febrile Respiratory Illness (FRI)  
in Non-Outbreak Conditions  
Acute Care Hospitals**

On **January 9, 2004** the Ministry of Health and Long-Term Care will facilitate a presentation on the proposed standards through a live webcast via the internet. From **8:00am until 9:00am**, Dr. Mary Vearncombe and Dr. Bonnie Henry will review the standards and answer questions. Allison Stuart, Director, Emergency Management Unit and Lead, Emergency Readiness Project, will facilitate the session.

To access the webcast, please insert the following address into your web browser address box <http://webevents.broadcast.com/cnw/moh012004> . You will be asked to register for the webcast by providing name and e-mail address in a pop-up window. Registration is free and necessary for participation.

**A password is NOT required**

If you wish to submit a question in advance simply click on the “ask a question” button on the above website and follow instructions. All questions will be answered but only a few will be addressed during the webcast. If you are unable to join the live webcast, you will be able to access it at your convenience later by visiting the same URL <http://webevents.broadcast.com/cnw/moh012004> .

***Please copy and circulate this bulletin to  
appropriate healthcare workers***
