Provincial Chief Nursing Officer
Health Human Resources Strategy Division
Ministry of Health and Long-Term Care

SUBJECT: Call for Applications for Personal Digital Assistant (PDA) Initiative

On behalf of the Nursing Secretariat of the Ministry of Health and Long-Term Care (MOHLTC), I am delighted to invite you to consider the attached Call for Applications for the PDA Initiative.

The Ministry is embarking on an innovative new pilot project to optimize access and integration of research into practice through the use of personal digital assistants (PDAs) in frontline nursing care. This initiative builds upon efforts to date that have increased the availability of equipment to support nurses in the provision of patient care. The project builds upon the government's commitment to improve the quality of care delivered across the sector with particular attention to the needs of Long-Term Care homes, remote and rural settings. Additionally, the initiative is intended to support the government's commitment to enhancing the work environment of nurses and fostering the delivery of inter-professional care.

The application process is open to any organization that employs nurses for the purpose of delivering health care services in any of the following sectors/settings in Ontario: hospitals, Long-Term Care Homes, home health care/community health, public health and correctional facilities.

Thank you in advance for your consideration and support of this exciting new initiative.

Sincerely,

Vanessa Burkoski, RN(EC), BScN, MScN
Doctorate Health Administration (c)
Provincial Chief Nursing Officer
