

# Starting A Business In Saskatchewan

## [Table of Contents](#)

*Starting A Business In Saskatchewan* was first published in 1984 by Saskatchewan Industry and Resources (then Saskatchewan Economic and Co-operative Development) and has proved to be a valuable reference tool for potential and existing entrepreneurs. Seven editions have been produced and 50,000 copies distributed to people looking for basic business advice and information on programs and services to business.

The publication contains original material plus basic small business information adapted from the publications of other provinces and jurisdictions. The department appreciates assistance provided by these agencies, particularly the Ontario Ministry of Industry and Tourism, whose book, *Starting a Small Business in Ontario*, proved a valuable model for this Saskatchewan publication.

This online version of *Starting a Business in Saskatchewan* was produced by the staff of the Canada-Saskatchewan Business Service Centre, in co-operation with Saskatchewan Industry and Resources.
