

## Parti Hearti! The Scotties Tournament of Hearts is coming to Regina!

Sunday, January 27th was a busy day at the Delta Hotel where over 600 volunteers gathered to receive their final volunteer instructions before the 2008 Scotties Tournament of Hearts hits the city. A number of SaskEnergy employees were present to help hand out the volunteer uniforms, handbooks and pins. Thank you to those employees who volunteered their time to help out with this event.

Honourable Bill Hutchinson, Minister for Municipal Affairs was in attendance to thank the many volunteers for their commitment and support on behalf of SaskEnergy.

The 2008 Scotties Tournament of Hearts (Canadian Women's Curling Championship), as part of the Canadian Curling Association's Season of Champions, will be hosted by Regina from February 15th-24th. The Brandt centre will welcome 60 of Canada's top female curlers, alongside officials, coaches, media and families.

A SaskEnergy employee greets a volunteer as they arrive at the volunteer rally.

A SaskEnergy employee is looking for a volunteer's information package.

SaskEnergy has established itself as a champion of volunteers for many sporting events. We focus on supporting volunteers because we understand how important they are to the success of community events and activities. We are proud to champion volunteers because Saskatchewan people are in a class by themselves when it comes to helping others. Without the help of volunteers these events would not be possible.

**SaskEnergy**  
*Champion of Volunteers*

We are also proud to sponsor the Junior Stars Program, giving an opportunity for twelve young Saskatchewan curlers to meet Canada's best and be inspired to reach their own potential. These young athletes were selected through a province-wide writing contest where applicants explained why they should be chosen. There will be an official news conference on February 7th to announce the lucky winners.
