# **PUBLIC NOTICE**

## **CHILDREN SHOULD AVOID FLOODWAY CONSTRUCTION ZONES**

**With children now out of school for the summer holidays, the Manitoba Floodway Authority is requesting parents to warn their children to avoid travel on the floodway at all times as construction on the floodway expansion project proceeds.**

Over the next four years, work on the Red River Floodway Expansion Project will create an “active construction zone” along the length of the floodway channel. This will mean that workers and heavy equipment will be on site at all times and new construction hazards will arise and change throughout the year. Please remember, workers operating heavy equipment are concentrating on the work they are doing and do not expect to have children or individuals – either on foot, on bicycle, or on motor bike - in the vicinity of where they are working.

Thank you for your cooperation in keeping the construction site safe for the public and for floodway workers.
