PUBLIC NOTICE

SNOWMOBILE SAFETY DURING FLOODWAY CONSTRUCTION

Over the next five years, work on the Red River Floodway Expansion Project will create an “active construction site” along the length of the floodway channel. This will mean that workers will be on site at all times and new construction hazards will arise and change throughout the year. As a result, the public, and in particular snowmobilers, should avoid travel on the floodway to ensure their safety and the safety of workers on the project.

Thank you for your cooperation in keeping the construction site safe as we improve flood protection, generate long lasting recreational opportunities, and benefit future generations for years to come.

“Remember - Ride Safe”
