

# Occupational Health & Safety Resource Guide

*Produced by the Workers Compensation Board of  
Manitoba and the Workplace Safety and Health Division of  
Manitoba Labour and Immigration*

**JANUARY 2005**

**Updates Available at [www.wcb.mb.ca](http://www.wcb.mb.ca) and [www.gov.mb.ca/labour](http://www.gov.mb.ca/labour)**

## SECTION 1: PROBLEMS AND RESOURCES

### Occupational Health & Safety Resource Guide

The development of sound health and safety programs in the workplace leads to fewer accidents, fewer claims to the Workers Compensation Board and lower costs for everyone. This Occupational Health and Safety Resource Guide has been prepared by the Workers Compensation Board of Manitoba and the Workplace Safety and Health Division of the Department of Labour and Immigration to encourage employers and workers to improve safety in their workplaces. It does this by providing a guide to various organizations that offer workplace health and safety resources and/or services. The resource guide provides assistance on where to go for help when dealing with various workplace safety issues such as training, hazardous chemicals, WHMIS, etc.

The guide is divided into two sections as follows:

**Section 1** lists various health and safety problems together with those organizations (government, non-profit and private-sector companies and consultants) which may be able to offer some assistance with a particular issue. In most cases the organizations are based in Winnipeg but are willing to provide services outside Winnipeg. Some have offices outside Winnipeg as well, and others are based in other communities.

A number of organizations referenced in Section 1 charge on a “fee for service” basis. Generally, organizations that charge fees for service do not do so for information and advice, provided that long consultations or on-site visits are not involved.

**Section 2** provides information that will assist you to make contact with the various organization listed in the first section.

The information provided, while as comprehensive as possible, is not necessarily a complete list of all the various organizations providing some health or safety assistance. To be included on this list, please contact the Communications Branch of the Workers Compensation Board at 1-800-362-3340.

**Note:** Persons and companies are included in this guide on a voluntary basis. The Workers Compensation Board of Manitoba and the Workplace Safety and Health Division of the Department of Labour and Immigration do not approve, endorse or accept responsibility for the use of any products or services offered for sale by the listed suppliers. The guide is intended for information only.
