Glossary	A-1
Budget Process of the Government of the Northwest Territories	B-1

INTRODUCTION

The Main Estimates represent the Government of the Northwest Territories' proposed appropriations for the 2006-2007 fiscal year. The Estimates detail all expenditures projected to be incurred, all revenues projected to be earned and the projected level of capital investment, for the period April 1, 2006 to March 31, 2007, in order to implement strategies and achieve the goals of the Government.

The 2006-2007 Budget Address is an integral part of these Estimates. The Budget Address and the Main Estimates together constitute the budget of the Northwest Territories.

The Legislative Assembly is being requested to appropriate funds at the departmental level, as detailed in the Main Estimates, for operations and capital investment expenditures for the fiscal year ending March 31, 2007.

The 2006-2007 Main Estimates are presented in two separate volumes, Operations Expenditures and Infrastructure Investment Expenditures.

Volume 1 - Operations Expenditures

Operations Expenditures include only the proposed operating expenses and amortization for each department.

The following detailed information is provided for each department:

- **Accounting Structure Chart:** detail on how the department's financial accounts are organized.
- **Organizational Chart:** details how the department is organized for administrative purposes.
- **Department Overview:** includes the vision, mission and goals of the department.
- **Graphs:** illustrate the allocation of proposed expenditures to major activities and a five-year comparison of actual and proposed expenditures.
- **Department Summary:** the following information is provided for each department:
 - **Operations Expenditure Summary:** the total appropriation requirements by control object for the department. The control objects included are compensation and benefits, grants and contributions, other expenses and amortization. This schedule also provides further details of the other expenses category.
 - **Active Position Summary – By Region:** the total number of positions, by category, serving the department in each region.
 - **Active Position Summary – Community Allocation:** the total number of positions, by category, serving the department by community groupings
 - **Revenue Summary.**
- **Activity Summary:** the following are provided for each activity;
 - **Activity Description:** an explanation of the purpose or programs delivered for each activity.
 - **Operations Expenditure Summary:** appropriation requirements for the activity summarized by major categories (control objects).
 - **Program Delivery Details:** details of appropriations required for each of the major program functions within each activity. This schedule is not provided for those activities that only provide administrative service to the department.

INTRODUCTION (continued)

- **Grants and Contributions:** details on the proposed grants and contributions included in the required appropriations for each activity.
- **Summary of Active Positions - By Region:** the total number of positions, by category, serving the activity in each region.
- **Summary of Active Positions – Community Allocation:** the total number of positions, by category, serving the activity by community groupings.
- **Summary of Work Performed on Behalf of Others:** the Government undertakes to perform certain functions, in the Northwest Territories, on behalf of the Government of Canada or others. Expenditures incurred for these activities are fully recovered and are not required to be voted on by the Legislative Assembly.
- **Other Information Items:** includes proposed departmental expenditures or financial activities related to various boards, agencies or revolving funds.

Volume 2 - Infrastructure Investment Expenditures

This volume of the Estimates provides a summary, by department and activity, of how much the Government is planning to invest in infrastructure assets during 2006-2007. The government-wide Infrastructure Acquisition Plan is included in the summary section of this volume. In addition, a separate departmental plan is included with each activity that has planned infrastructure investment expenditures in the 2006-07 fiscal period.

The Infrastructure Investment Plan includes projected infrastructure investment for a three year period. The infrastructure investment authority is being requested only for the 2006-2007 year. Prior Years' Costs and Future Years' Anticipated Costs are shown only for those infrastructure projects that are considered multiple year projects and for which an amount is included in the 2006-2007 Estimates. It should be clarified that the amount of infrastructure investment planned for 2006-2007 will not usually compare to the cost of infrastructure assets coming into service in 2006-2007. The assets coming into service during the year will include costs expended on those projects in prior years and included in prior years' work-in-progress. This calculation is shown in the Infrastructure Investment Summary for each department summary and activity summary.

Infrastructure Investment Summary

An infrastructure investment summary is provided for all departments and/or activities that have assets currently in service, regardless of whether any infrastructure is planned during 2006-07. The infrastructure investment summary provides the following information:

- The total historical cost of capital assets in service acquired in previous years and the total net book value of these assets. The net book value represents that portion of the original cost that has not been amortized. This should not be construed as being representative of market value.
- The changes that are projected to occur during the year. This includes the total cost of assets expected to be put into service during the year and any estimated disposals during the year.
- The estimated amortization expense for the year, based on assets in service at the beginning of the year adjusted for additions or disposals during the year.
- Work-in-Progress is the cost expended on capital projects that will be incomplete at the end of the year.
- A calculation of the value of the assets the department is projecting to come into service.

INTRODUCTION (continued)

For further clarification on terms used in the Main Estimates and the budget development process, please consult the Glossary in Appendix A and The Budget Development Process in Appendix B.

The 2006-2007 Main Estimates and Budget Address are available on the Net through the GNWT Home Page (www.gov.nt.ca) or through the Financial Management Board Secretariat Home Page (www.gov.nt.ca/FMBS) for Main Estimates and Business Plans, and the Department of Finance Home Page (www.fin.gov.nt.ca) for the BudgetAddress.

LEGISLATIVE ASSEMBLY

This page intentionally left blank

VISION

The Legislative Assembly provides, within a framework of accepted democratic principles, an environment in which the elected representatives of the people of the Northwest Territories can effectively, efficiently and to the best of their abilities, meet the needs and aspirations of residents, while taking into consideration the demographic diversity of the Northwest Territories.

MISSION

To safeguard and promote the principles of consensus government and the institution of the Legislative Assembly in order to foster an empowered and representative government that is relevant and accountable to the people of the Northwest Territories.

GOALS

The office of the Legislative Assembly has the following goals over the planning period:

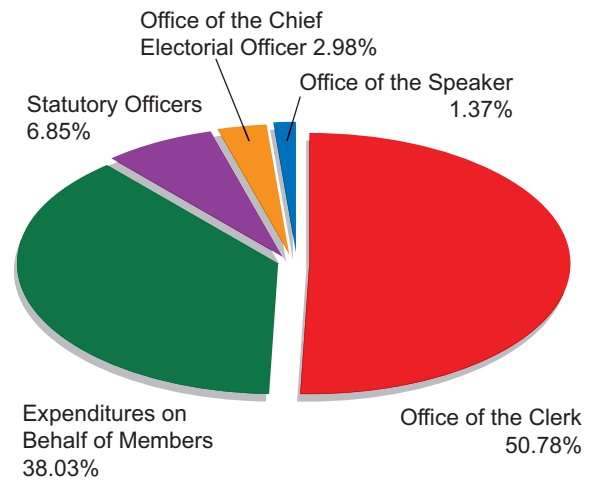

1. Provide the opportunity for meaningful input from all Members and the general public in the passage of laws.
2. The government is authorized to expend public monies in pursuit of clearly defined program and service delivery goals and objectives on behalf of the residents of the NWT.
3. Elected Members of the Legislative Assembly are assisted in achieving their vision for the Northwest Territories, as expressed in "The 15th Legislative Assembly's Vision and Goals document".
4. Ensure the independence and effectiveness of Statutory Offices in completing their legislated responsibilities.
5. Collaboration and communication amongst all Members, Standing Committees and Governments.
6. The Office of the Legislative Assembly is committed to ensuring that the general public is well informed and has access to Legislative Assembly processes.
7. To adhere to the highest standards of public sector governance within the legislative framework of the consensus system.
8. The promotion of the Legislative Assembly as the "Place of the People".
9. The Legislative Assembly provides a forum for meaningful and relevant debate about the issues and challenges facing the residents of the NWT.
10. Highly motivated, efficient staff with a shared understanding of the organization's future.

STATUTORY OFFICERS

Activity Description

This activity provides for the independent operation of the following Statutory Officers: Languages Commissioner, Information and Privacy Commissioner, Conflict of Interest Commissioner, Equal Pay Commissioner, Human Rights Commission, Director of Human Rights and the Human Rights Adjudication Panel. All Statutory Officers must table an annual report to the Legislative Assembly detailing the activities undertaken and discharged during the preceding year.

The Languages Commissioner's duty is to ensure that institutions of the Legislative Assembly and GNWT respect the spirit, intent and provisions of the NWT Official Languages Act and the provisions of any other act or regulation relating to the status or use of official languages.

The Information and Privacy Commissioner provides an independent review of discretionary decisions made by public bodies in response to requests for access to information that government creates and receives. The Commissioner also protects the privacy rights of individuals.

The Conflict of Interest Commissioner provides advice to Members on how to arrange their business and financial affairs to comply with the conflict provisions included in Part 3 of the Legislative Assembly & Executive Council Act. The Commissioner also conducts investigations into conflict of interest complaints against Members as well as maintaining a public disclosure registry, which is available for examination by the general public.

The Equal Pay Commissioner is responsible for ensuring that public service employees are not, on the basis of sex, paid a lower rate than other employees who perform work of equal value. The Commissioner receives complaints, conducts investigations and assists parties in resolving complaints.

The Human Rights Commissioner is responsible for promoting equality in order to reduce discrimination against territorial residents. The Commission fulfils its responsibilities through public education initiatives. The Director of Human Rights oversees the investigation/mediation and resolution of complaints of discrimination. The Adjudication Panel hears and decides complaints that are not dismissed or resolved through mediation.

EXECUTIVE

This page intentionally left blank

The Department of Executive provides support and advice to the Executive Council and its Committees.

The Department is composed of four separate and distinct programs under the authority of their own Ministers. The four Programs are:

- Executive Offices
- Financial Management Board Secretariat
- Department of Human Resources
- Department of Aboriginal Affairs and Intergovernmental Relations

Executive Offices provides overall direction, management and coordination to the Government of the Northwest Territories as a whole. The department provides policy, legislative, communications and strategic advice to Cabinet and the departments of the GNWT. The department also provides broad direction for the territorial public service and addresses national and international issues that have cross-departmental implications. The Executive Offices reviews all departmental initiatives to ensure that they support the government's agenda in a balanced manner and directs focus towards areas where that balance is not being achieved. The Executive Offices Program is managed by the Secretary to Cabinet/Deputy Minister of Executive and consists of the Commissioner's Office, the Ministers' Offices, Executive Offices, the Public Utilities Board and the Regional Operations.

The Chairman of the Financial Management Board and the Financial Management Board Secretariat have the mandate for the management and control of the financial and information resources of the GNWT, ensuring that these resources are managed in an efficient, effective and economical manner. The Financial Management Board Secretariat is established under the direction of the Chairman of the Financial Management Board. The Financial Management Board Secretariat's core business is to attain a highly competent level of financial and information management throughout the GNWT and its Boards and Agencies. The Secretariat does this largely through: the provision of a comprehensive and effective framework of policies, processes and systems that are well understood and used by departments and agencies to achieve the effective, efficient and economic acquisition, custody and use of financial, knowledge and physical resources; provision of a comprehensive and relevant accountability framework and reporting system that meets internal and external user needs for decision making and evaluation relative to government and agency operations, performance and financial position; and provision of high quality and relevant advice to internal decision makers relative to the management of the government's financial, and information resources.

The Department of Human Resources provides human resource services and advice to all GNWT departments, boards and authorities (except the Workers Compensation Board). Human Resources is responsible for assisting GNWT managers to implement the most efficient and effective human resource management practices to support recruitment and retention of a qualified, representative public service. Direct service to managers and employees is delivered through a network of local service centres. This service is supported by a framework of legislation, policies, guidelines and collective agreements that outline the parameters for effective human resource management in the GNWT.

The Department of Aboriginal Affairs and Intergovernmental Relations is mandated to protect and promote the interests of the territorial government and the residents of the Northwest Territories through the negotiation and implementation of lands, resources and self government agreements; contributing to the political and constitutional development of the Northwest Territories; and the enhancement and maintenance of mutually beneficial working relations with the Aboriginal leadership. As well, the Ministry promotes positive and effective relationships with departments and regions, other governments and non-government organizations, and coordinates the governments' participation in the Intergovernmental Forum, oversees the relationships with Federal, Provincial, Territorial and Aboriginal Governments and coordinates the governments' participation in international forums.

VISION

The vision of the Department of Executive is to contribute to governance within the Northwest Territories by providing superior service to Cabinet, sound advice to departments and innovative, results-oriented leadership within the territorial public service.

The Government of the Northwest Territories' Strategic Plan *Self-reliant People, Communities and Northwest Territories – A Shared Responsibility*, sets forth the following core values intended to guide the GNWT's actions:

Strategic Plan Core Values:

Self-reliance
Partnership
Accountability
Respect
Identity
Integrity

The following principles, upon which our departmental vision is based, are derived from the core values identified in the GNWT's Strategic Plan.

Our principles:

- ***Self-reliance:*** In order to achieve self-reliance for the Northwest Territories, the GNWT and its partners must engage the federal government in negotiations on devolution and resource revenue sharing. Increasing federal awareness and understanding of northern issues is in the best interests of the Northwest Territories.
- ***Partnership:*** The GNWT should work in partnership with other northern governments in order to provide the best possible leadership for residents of the Northwest Territories. The GNWT should seek every available means to engage its partners in dialogue on northern issues and concerns.
- ***Accountability:*** NWT residents should be fully informed of the public business of government. NWT residents deserve demonstrable accountability for the conduct of government.
- ***Respect:*** The interests, desires and aspirations of the residents of the Northwest Territories should be reflected in Government of the Northwest Territories' legislation, policies, strategies, programs and services.
- ***Identity:*** The work done by the Department of Executive should reflect the qualities and values of the Northwest Territories' unique cultures, languages, and identity.
- ***Integrity:*** Advice provided to Cabinet, its committees, and to departments, should be objective and timely, with a government-wide perspective. Employees of the Department of Executive will conduct themselves with fairness and impartiality and will provide support to other employees of the GNWT to do the same.

MISSION

The mission of the Department of the Executive is to provide overall direction, management and coordination to the Government of the Northwest Territories as a whole.

The key areas for which we are responsible for achieving results in are:

- Coordination of the implementation of Cabinet direction across the NWT;
- Provision of objective and timely policy, strategic, legislative and protocol advice to support Cabinet;
- Provision of support and advice for northern political development initiatives and for government to government relationships;

MISSION continued

- The support and promotion of effective corporate communications and communication about government's agenda, activities and initiatives to government employees, the public and other governments;
- Ensuring government has high quality statistical information and providing statistical advice and assistance to departments, regional offices and central agencies;
- Specialist support to departments in policy and legislation development, communications, strategic planning and statistical collection and analysis.

LINKS TO THE GNWT STRATEGIC PLAN

Overall Responsibility

The Department of Executive has an overall responsibility to Cabinet to coordinate the development of the government-wide strategic plan and to ensure that the Strategic Plan, a living document, is modified and updated, as necessary, over the life of the government.

The Department of Executive ensures that Cabinet is provided with strategic plan options that reflect an overall balance in the government's priorities, such that each individual sector and area of importance to the people of the Northwest Territories is considered during the planning phase. The department also works to ensure that the over-arching vision and goals established by the 15th Legislative Assembly guides any planning options presented for Cabinet consideration.

With the strategic plan in place, the Department of Executive has an ongoing responsibility to screen all initiatives submitted for Cabinet consideration with a view to ensuring that they support the direction set out in the Strategic Plan. The Department is also responsible to ensure that the overall direction of government, as established in the Strategic Plan, is communicated effectively and that ongoing government messaging is consistent with the overall direction of the Strategic Plan.

Responsibility to Support Specific Strategic Plan Goals

There are a number of specific actions identified in the Strategic Plan that the Department of Executive has some degree of responsibility for carrying out. These include:

Strategic Plan Goal 1: A Strong Northern Voice and Identity

- Promote the NWT as a prime location to live, raise a family, visit and do business and build on initiatives that promote and distinguish the NWT's unique northern identity.
- Work in partnership with Members of the Legislative Assembly to make consensus government strong and effective.
- Ensure that the general public is informed throughout the process of devolution and resource revenue sharing
- Implement communications strategies to inform the public of the territorial government's plans and to support our commitment to transparent and accountable government.
- Expand partnerships and optimize federal contributions to economic and social development.

Strategic Plan Goal 2: Healthy, educated people living in safe communities who are able to contribute and take advantage of life's opportunities

- Maintain continued commitment to the Social Agenda and implement "Doing our Part" – the GNWT's response to the Social Agenda recommendations.

LINKS TO THE GNWT STRATEGIC PLAN continued

Strategic Plan Goal 3: Well-governed, sustainable communities and regions able to fulfill their potential

- Support all regions and communities to implement mutually agreed upon aspects of their agendas.
- Reform territorial boards and agencies to focus on accountability and on efficient and effective service.
- Promote and sustain a professional public service at all levels.
- Ensure regions and communities have access to information needed to monitor socio-economic conditions.

Strategic Plan Goal 4: A diversified economy that provides northerners with opportunities and choices

- Strengthen the focus on critical functions related to employment and labour to support employment development and mutually beneficial relationships between employees and employers.
- Work with the federal government to secure strategic federal investments in the NWT economy.
- Establish a new Business Development and Investment Corporation to meet business' financing needs.

Departmental Goals and Desired Outcomes

The Department has established the following specific goals that support the GNWT Strategic Plan:

Goal 1: An appropriate balance in furthering all government priorities.

OUTCOMES

1. A comprehensive implementation of actions in support of the goals and priorities, which together support an overall balanced agenda.
2. Current and relevant environmental scans which inform strategic goals and actions.
3. Detailed analyses are provided for all Cabinet Decision Papers submitted by Departments.
4. Recommendations to Cabinet take into account existing legislation, policy and overall GNWT priorities as expressed in the Strategic Plan.

Goal 2: Residents of the NWT who have knowledge about, and who actively support, the government's agenda, activities and initiatives, and are able to access and contribute to the development of the programs and services of government.

OUTCOMES

1. A GNWT communications policy and process framework that encourages strategic communications planning and implementation.
2. An engaged public that understands and supports the government's actions in the context of its agenda.
3. Communications plans designed to ensure that the public receives timely and relevant information concerning the GNWT's programs, services and initiatives.
4. Improved partnerships between governments and NGOs.

COMMISSIONER'S OFFICE**Activity Description**

The Commissioner of the Northwest Territories is appointed by the Prime Minister on the advice of the Minister of Indian and Northern Affairs Canada. The Commissioner exercises a function similar to that of a Lieutenant Governor, under a letter of instruction from the Minister of Indian and Northern Affairs. The Executive is responsible for providing office space and administrative staff to support the office of the Commissioner.

MINISTERS' OFFICES

Activity Description

The Ministers' Offices include:

- **The Premier's Office** – responsible for providing political advice to ensure all departments operate in a manner consistent with government policy, legislation, priorities and strategies. The Premier's Office directs the activities of the Executive Council and manages the executive functions of government, including the secretarial and administrative support to Executive Council committees and to the other Ministers. The Premier's Office also takes the lead in coordinating the government's activities related to the political and constitutional development of the Northwest Territories.
- **Ministers' Offices** – provides support for the Ministers, their offices and support staff. Includes salaries and operational expenses for the Ministers and their staff.
- **Women's Advisory** - provides a point of contact within the territorial government on issues of concern to women and advice and support to the Minister Responsible for the Status of Women. Women's Advisory also administers a Grants and Contributions program that supports and provides liaison with the Status of Women Council, the Native Women's Association and other organizations that enhance the cultural, economic, political and social participation of women in society.

EXECUTIVE OFFICES

Activity Description

Executive Offices includes:

- **Office of the Secretary to Cabinet** – responsible for the management of the Department of Executive including the planning, administration and other functions necessary to further the Department's mandate. The Secretary to Cabinet is accountable to the Premier for the proper conduct of business of the Department.
- **Cabinet Secretariat Policy** – provides broad policy advice on priorities, strategies, policies and legislation to the Premier and Cabinet; and support for all Cabinet operation, including communicating, monitoring compliance with, and assisting (as required) in the implementation of, Cabinet direction.
- **Office of Devolution** – manages the GNWT participation in and represents the GNWT interest in the negotiations of devolution and resource revenue sharing agreements.
- **Corporate Communications and Protocol** – provides broad communications advice across government to support the priorities, strategies and initiatives of Cabinet and leads the development of communications approaches on government-wide initiatives. The division promotes an integrated corporate approach to communications, administers the framework of policy and guidelines that direct and guide government communications, supports departmental communications efforts, and communicates the agenda, goals, strategies and initiatives of the GNWT within government and to the public.
- **Strategic Planning** - develops, and periodically updates the government-wide strategic plan and ensures that it is effectively coordinated, and provides strategic advice on matters that have government-wide implications.
- **Bureau of Statistics** - as the central statistics office develops, interprets and disseminates economic, social and demographic statistics to ensure that the statistics the government uses are current, consistent and accurate; assists departments with the analysis of statistical information and conducts statistical surveys on their behalf; provides for the continuing and effective representation of territorial statistical interests within the national statistical system; and provides a limited statistical service to the general public, to the private sector, and to other governments.
- **Corporate Services** - provides financial and administrative support to the Executive Offices, Commissioner's Office, Financial Management Board Secretariat, Department of Human Resources, Department of Aboriginal Affairs and Intergovernmental Relations, NWT Public Utilities Board, and the Women's Advisory Program.
- **Legislation and House Planning** - provides policy advice on individual legislative initiatives to Cabinet as well as advice to the Government House Leader and Cabinet on the development of the government's legislative agenda as a whole. The division also provides policy and procedural advice to departments and government agencies on the development of legislative initiatives. Legislation and House Planning chairs a committee of central agencies to support the development of policy advice on legislative initiatives. Legislation and House Planning also provides a full range of administrative support services to the Government House Leader, Cabinet, departments and agencies for Sessions of the Legislative Assembly. These support services include: facilitating daily meetings of Cabinet during Session, developing various planning documents in preparation for Session, coordinating the review and/or processing of all documents destined for the House and providing advice related to Legislative Assembly procedures and requirements.

PUBLIC UTILITIES BOARD**Activity Description**

The Public Utilities Board is an independent regulatory agency responsible for the regulation of the energy utilities in the Northwest Territories.

The main function of the Board, which derives its authority from the *Public Utilities Act*, is to protect the public interest by establishing utility rates that are just and reasonable to the consumer, while at the same time, allowing the utilities the opportunity to earn a fair rate of return.

VISION

The financial and information resources of the Government of the Northwest Territories are acquired and utilized efficiently, effectively and economically with integrity, and prudence, to achieve, communicate and report the government goals and results.

MISSION

The Financial Management Board Secretariat, working together with departments, and under the direction of the Financial Management Board, is jointly responsible for the management and control of the financial and information resources of the GNWT, ensuring that these resources are managed in an efficient, effective and economical manner.

GOALS

FMBS Goals:

1. A strong sustainable financial position.
2. Effective management of the government's assets and liabilities.
3. Public confidence in the prudence, integrity and accountability of the Government of the Northwest Territories.
4. Effective, efficient and economical management information systems support accountability by providing managers, decision-makers and the public with meaningful information,
5. Financially open and accountable government.
6. Government is organized for maximum efficiency.

CORE BUSINESS

The Government of the Northwest Territories, pursuant to the *Financial Administration Act*, establishes a Financial Management Board responsible for all matters related to the financial management and financial administration of the Government.

A Financial Management Board Secretariat is established under the direction of the Chairman of the Financial Management Board.

The Financial Management Board Secretariat's core business is to attain a highly competent level of financial and information management throughout the GNWT and its Boards and Agencies. The Secretariat does this largely by:

1. Provision of a comprehensive and effective framework of policies, processes and systems that are well understood and used by departments and agencies to achieve the effective, efficient and economic acquisition, custody and use of financial, knowledge and physical resources
2. Provision of a comprehensive and relevant accountability framework and reporting system that meets internal and external user needs for decision making and evaluation relative to government and agency operations, performance and financial position.
3. Provision of high quality and relevant advice to internal decision makers relative to the management of the government's financial, knowledge and physical resources.

Specifically, each of the Divisions of the FMB Secretariat support the core business as follows:

1. Budgeting and Evaluation

An effective and comprehensive business and capital planning system that is understood and relevant for departments, FMB and legislative committees

A comprehensive and relevant results measurement system and accountability framework that is used as an integral management decision-making tool and meets public demands for results reporting.

The provision of quality advice and support to FMB and departments that is valued and considered.

2. Government Accounting

The provision of financial management information that is comprehensive, accurate, timely, and efficient that is relevant to and extensively used by management in planning and decision-making.

The provision of accounts payable and receivable services and systems that are timely, accurate, relevant, courteous and helpful.

A comprehensive and clear framework of financial policies and procedures that promote probity and prudence and efficiency, economy and effectiveness is the acquisition, use and retirement of government resources that is widely understood, relevant to and applied by GNWT public servants.

The provision of timely, accurate, informative and relevant public accounts.

3. Audit Bureau

The provision of audit services and advice that address the achievement of value for money in government operations, compliance with authorities, adequate internal controls and risk management approaches, and computerized systems integrity and security.

The provision of investigative services to detect, confirm and address internal occurrences of fraudulent acts.

CORE BUSINESS (continued)4. CIO Office

An effective, comprehensive and current strategy for the development, management and utilization of the GNWT's information resources in a manner that supports both the GNWT's strategic business goals and operational needs.

An effective and comprehensive information management/information systems/information technology planning process that supports the strategy and is understood and relevant for departments, FMB and legislative committees.

Coordination for information management/information systems/information technology initiatives that span multiple departments and the identification of opportunities for collaboration.

Provision of quality advice and support to the Informatics Policy Committee and departments that is valued and considered.

VISION

The GNWT Human Resource Services is driven by a vision of:

Connecting with our clients to provide leadership and excellence in human resource management.

MISSION

We will achieve this vision by focusing on a mission of:

Supporting excellence in the GNWT public service through the delivery of innovative, quality human resource services.

CORE BUSINESS

The Government of the Northwest Territories establishes the Department of Human Resources responsible for providing timely, accurate high-quality human resource services and advice to all GNWT managers and employees.

The Department's core business is to support the effective management and direction of the GNWT public service.

Each of the Divisions support the core business as follows:

1. Client Services

The provision of general human resource services to management that support recruitment and retention of a qualified, competent and representative public service.

The provision of compensation and benefits services to the public service that are timely, accurate, relevant, courteous and helpful.

2. Corporate Human Resources

The provision of human resource management strategies, policy and planning frameworks and strategic support services across government to allow departments, boards and authorities to more effectively manage their human resources.

The coordination of government-wide human resource management planning, policies, guidelines, programs and practices, particularly in the areas of recruitment, retention, workforce adjustment, employee recognition, management/leadership development and employee training and development.

3. Employee Relations

A competitive and affordable Compensation Policy and structure that reflects the values and goals of the GNWT and makes a strong contribution to recruitment and retention success.

A comprehensive and clear framework of terms and conditions of employment that are broadly used and understood and promote harmonious labour management relations, fair and consistent treatment of staff, productive work environments and high service and ethical standards within the public service.

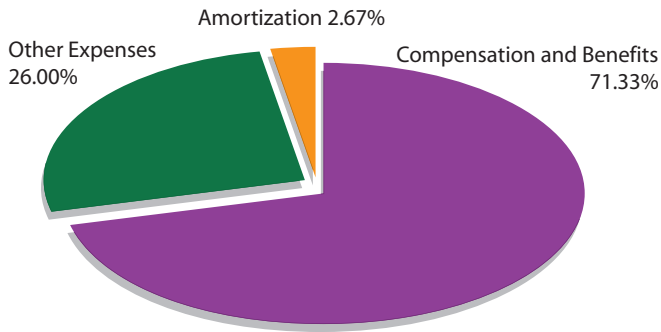

The provision of human resource management information that is comprehensive, accurate, timely and efficient that is relevant to and extensively used by management in planning and decision-making.

LABOUR RELATIONS AND COMPENSATION SERVICES**Activity Description**

Labour Relations and Compensation Services provides advice and assistance to departmental management related to compensation, job evaluation and benefits. The division also maintains the payroll and human resource information system for the territorial government and administers the centralized payroll functions.

Directorate – Manages and directs the Division.

Labour Relations and Equal Pay - Provides labour relations support and training, handles arbitrations and provides support during collective bargaining and is responsible for implementing the provisions of the Equal Pay Complaint Agreement.

Human Resource Systems and Payroll – Responsible for the maintenance, support, and training related to the Human Resource Management System and the production of the government's pay cheques.

Job Evaluation and Employee Benefits – Responsible for ensuring consistency of evaluations across the government, providing back-up and training on the Job Evaluation System to departments, boards and agencies, providing in-house expertise on the superannuation pension plan and employee insurances to government departments, boards and agencies, and ensuring that pension and benefits administration processes can meet legislated standards with respect to the provision of services to employees through the development and maintenance of an appropriate working relationship with the Public Works and Government Services Canada.

CORPORATE HUMAN RESOURCE SERVICES**Activity Description**

Corporate Human Resource Services is responsible for:

- Providing corporate human resource strategies, policy and planning frameworks and strategic support services across government to allow departments and boards to more effectively manage their human resources. It is responsible for the coordination of government-wide human resource management planning, policies, guidelines and practices, particularly in the areas of recruitment, retention, workforce adjustment, employee recognition, management/leadership development and employee development. This work includes a GNWT framework for human resource management and corporate approaches and supports for human resource planning. The unit also develops and monitors the government's recruitment policy, the Affirmative Action Policy, and other government-wide human resource policies.
- A variety of human resource programs including the Staff Retention Program, the Employee Recognition Program, the Management Assignment Program, Student Summer Employment Program and graduate employment efforts. The unit also is responsible for coordinating consistent government-wide approaches to areas such as exit interviews, casual staffing, and orientation of new staff. This unit coordinates GNWT-specific training as well. It provides specialist training and advice to government departments, boards and agencies and chairs the government-wide Interdepartmental Human Resource Committee and Human Resource Practitioners committee.
- Providing strategic reporting to assist in the effective management of human resources including an Affirmative Action report, Training Tracking report, Exit Interview report and Summer Student Employment report. The unit also develops and administers systems and process to support human resource policies and practices including training and development tracking system, a web-based exit interview system, an electronic training and development calendar and web-based recruitment tools.

EMPLOYEE RELATIONS

Activity Description

Directorate – Manages and directs the division. Provides investigation services and advice and support for employee health and wellness situations (eg. Return-to-service, disability accommodation, work hardening).

Human Resource Information Systems – Provides the development and maintenance of the GNWT's human resource information system and other human resource systems applications. Also provides user support and training for all human resource systems applications.

Labour Relations and Equal Pay – Provides more advanced labour relations advice and assistance to allow human resource staff to effectively support managers and employees. This assistance includes collective agreement interpretations, support in responding to grievances, handling arbitrations, and general labour relations training. Also responsible for implementing the provisions of the Equal Pay Settlement.

Job Evaluation and Organizational Design – Coordinates the evaluation of GNWT positions, ensuring consistency of evaluations. Also provides training on the job evaluation system, maintenance of all GNWT organization charts and advice and assistance to management on organization design options.

Collective Bargaining – Leads the collective bargaining process for the GNWT.

VISION

The department's vision is a workable and affordable system of governance with the Northwest Territories as a full partner in the Canadian federation. This system clarifies, respects and protects both the collective rights of Aboriginal people and the individual rights of all residents.

MISSION

The Department of Aboriginal Affairs and Intergovernmental Relations is responsible for negotiating lands, resources and self-government, agreements; implementing and monitoring lands, resources and self-government agreements; managing the government's relationships with Aboriginal, federal, provincial and territorial governments, and with circumpolar countries in all matters of intergovernmental significance; and providing strategic advice on matters pertaining to federal-provincial-territorial-Aboriginal relations.

GOALS

The Department wants to achieve:

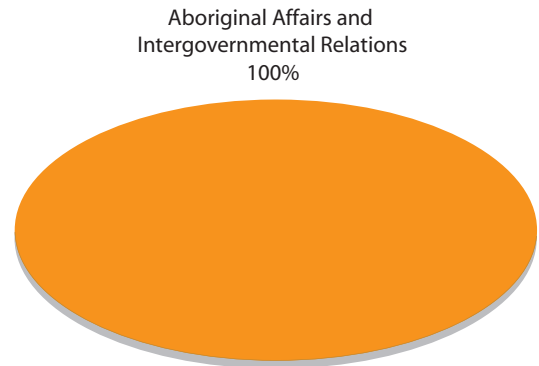

1. The successful conclusion of outstanding Aboriginal rights agreements, including lands, resources and self-government.
2. The negotiation of lands, resources and self-government, agreements in a manner that ensures an adequate level and quality of programs and services for all NWT residents;
3. A workable and affordable system of government in the NWT, which has the wide support of its citizens;
4. The successful implementation of lands, resources and self-government agreements by ensuring all GNWT obligations within the agreements are met;
5. Mutually beneficial working relationships with Aboriginal governments and leadership;
6. All governments in the Northwest Territories work together co-operatively through an ongoing process such as the Intergovernmental Forum or the Circle of Northern Leaders;
7. Government is organized to ensure an effective working relationship among regional and headquarters operations, elected leaders, Aboriginal governments and the public; and
8. Productive intergovernmental relationships with Aboriginal, federal, provincial and territorial governments, and with circumpolar countries in all matters of intergovernmental significance.

ABORIGINAL AFFAIRS AND INTERGOVERNMENTAL RELATIONS

Activity Description

The Department of Aboriginal Affairs and Intergovernmental Relations is a central agency that supports the Minister Responsible for Aboriginal and Intergovernmental Affairs and the Executive Council. The core activities of the Department are to manage and coordinate GNWT participation at lands, resources and self-government negotiations including implementation plans, and related financing negotiations; to provide strategic advice on political/constitutional development and national and territorial Aboriginal relations; and managing relations with federal, provincial, territorial, Aboriginal and international governments. The Department is organized into five functional units:

- Directorate – In addition to general administration, financial, and human resource management support to the Department and management responsibilities, it leads the Deputy Ministers' Committee on Aboriginal Rights; manages the government's Ottawa office, administers the grants and contributions program; promotes and maintains general Aboriginal relations; and promotes National Aboriginal Day celebrations.
- Policy, Legislation and Communications – The prime functions are to provide policy advice, information and assistance to the Minister in all aspects of the Department's mission. A central function is to develop the negotiating instructions and mandates necessary to negotiate lands, resources and self-government agreements and accompanying implementation plans as well as to develop legislation required to implement lands, resources and self-government agreements. The Policy Division also provides support to the Deputy Ministers' Committee on Aboriginal Rights, co-ordinates advice to the Minister on political and constitutional development, and develops and implements communication policies, strategies and frameworks.
- Negotiations - This division is responsible for managing the GNWT participation and representing the GNWT interest in the negotiation of lands, resources and self-government agreements. Self-government negotiations involve matters such as programs, services, jurisdictions and resources currently held by the Government of the Northwest Territories. Lands and resources negotiations focus on land selection; hunting, fishing and trapping rights; cash compensation; and economic benefits.
- Implementation - This division is responsible for the negotiation of implementation plans and manages and monitors the implementation of settled lands, resources and self-government agreements.
- Intergovernmental Relations – this division ensures that the interests and aspirations of the residents of the Northwest Territories are reflected in the Government of the Northwest Territories' participation in intergovernmental activities. The division is responsible for managing the government's relationships with Aboriginal, federal, provincial and territorial governments, and with circumpolar countries in all matters of intergovernmental significance. The division provides strategic advice on matters pertaining to federal-provincial-territorial-Aboriginal relations.

FINANCE

This page intentionally left blank

VISION

The Department of Finance will be the recognized leader in obtaining the financial resources necessary to establish and maintain a viable Northwest Territories.

MISSION

The mission of the Department of Finance is to foster an environment for stable, effective and efficient government in the Northwest Territories and to manage the Government's fiscal, financial and regulatory programs by:

1. Acquiring and managing the necessary financial resources to ensure delivery of programs and services to residents in an affordable and sustainable manner;
2. Maintaining a stable, fair and equitable taxation environment, meeting the needs of individuals and businesses; and
3. Regulating the insurance industry and liquor sales, distribution and consumption.

GOALS

The Department of Finance, for the most part, provides support to the executive branch and to program departments, rather than delivering programs and services directly to the public. However, the department, through its responsibilities for revenue generation and management plays an important role in ensuring that the GNWT is able to deliver the programs and to make the informed decisions necessary to achieve the goals it has set for itself. The goals of the Department of Finance are:

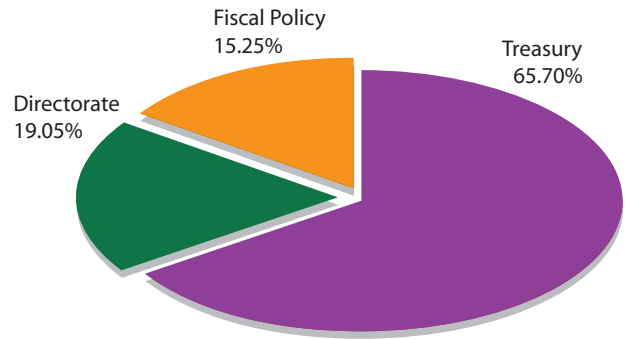

1. The fiscal regime of the Northwest Territories supports a stable political environment and a strong economy.
2. The Government has the fiscal information and analysis necessary to support policy development and decision-making, particularly for key social and economic initiatives.
3. The Department of Finance is more responsive to client needs.

TREASURY**Activity Description**

Treasury is responsible for managing the government's cash position; conducting the government's banking, borrowing and investing activities; providing related advisory and cash management services and protecting government activities and assets from risk of loss by means of insurance coverage and risk management activities.

Treasury is also responsible for the licensing and regulation of insurance companies, agents, brokers and adjusters operating in the Northwest Territories through the Office of the Superintendent of Insurance as well as administering legislated tax programs by collecting taxes owing and by issuing and controlling a system of permits and collection agreements. Treasury responds to taxpayer inquiries, provides taxation revenue analysis, maintains a database of taxpayer information and participates in inter-jurisdictional exchange agreements to minimize tax evasion.

FISCAL POLICY

Activity Description

Fiscal Policy is responsible for providing research, analysis, and recommendations on the fiscal policies of the government; monitoring economic conditions as they affect the government's fiscal policy; providing macroeconomic research and policy advice; providing analysis and advice on Canadian and NWT tax policies; monitoring and advising on intergovernmental fiscal relations, in particular, the formula financing arrangements with Canada; providing input into multi-year fiscal plans; and preparing the annual budget address. The division also provides technical support for the Minister and Deputy Minister of Finance in federal-provincial-territorial discussions, and represents the Government on intergovernmental Finance committees.

Liquor Revolving Fund

The Liquor Revolving Fund was established under the *Liquor Act* and provides working capital to finance the operations of the Liquor Licensing Board, Liquor Licensing and Enforcement and the Liquor Commission. The Liquor Licensing Board is responsible for the issuance of all types of liquor permits. Liquor Licensing and Enforcement provides support to the Board and is responsible for the enforcement of liquor-related regulations and restrictions. The Liquor Commission is responsible for the purchase, warehousing, distribution and sale of all alcoholic beverages in the Northwest Territories. The Board, Commission and Liquor Licensing and Enforcement are funded by the sale of alcoholic beverages.

MUNICIPAL AND COMMUNITY AFFAIRS

This page intentionally left blank

VISION

Capable, accountable and self-directed community governments providing a safe, sustainable and healthy environment for community residents.

MISSION

The Minister and the Department are responsible for the development and maintenance of community governments, responsive and responsible to the residents, with sufficient legal authority and resources to carry out community responsibilities, to provide their public programs and services essential to good community life and to deal effectively with other governments and organizations.

GOALS

To support this vision and mission, the Department of Municipal and Community Affairs has set the following four goals for the 2006-2009 planning period:

1. Increase community government authority and responsibilities through policy, legislation and funding arrangements.
2. Enhance knowledge, skills and abilities of community staff, officials and other partners to better manage community affairs.
3. Contribute to the development of effective, accountable and democratic community governance structures, including self-government arrangements.
4. Support communities in their efforts to provide a safe, healthy and vibrant environment for residents.

DIRECTORATE**Activity Description**

Departmental Management coordinates the development and the implementation of the Department's strategies with the senior management team and links the Department's activity to the goals of the Minister and Government. Territorial Emergency Management and Pipeline Readiness are coordinated through the Directorate.

Regional Management oversees operations in the regional offices and the Office of the Fire Marshal (OFM), which administers the *Fire Prevention Act*, reviews plans for new construction and major renovation projects, conducts fire safety inspections and takes enforcement action when fire safety regulations are contravened.

Corporate Affairs coordinates planning and reporting activities for the Department, provides expert financial, policy and information systems advice and manages many administrative services. The division also coordinates the Department's involvement in Aboriginal land claims and self-government negotiations. Policy and Planning provides strategic planning, legislative, research and policy support to the Minister and Deputy Minister and supports many Departmental information and communications activities. Financial Services provides financial and administrative support to the Department and coordinates services such as the development and monitoring of departmental business plans and annual budgets. Information Systems supports the Department by providing expert advice on department-specific applications and information systems.

COMMUNITY OPERATIONS

Activity Description

Community Operations coordinates many of the functions that support community governments. Program Management coordinates the work of the division, undertakes environmental planning and regulatory review, administers consumer, lottery, business and real estate agent licensing and responds to consumer complaints.

The Community Financial Services section coordinates financial advisory services to community governments to help promote their financial viability, good financial management and proper financial reporting practices.

The Community Governance section coordinates the Department's involvement in the implementation of Aboriginal land claims and self-government processes; provides advice on community governance issues at the request of community governments; and processes bylaws requiring Ministerial or Executive Council approval. The Chief Municipal Electoral Officer function provides advice and support related to community government elections.

The Financial Policy and Infrastructure Leveraging section analyzes fiscal policy related to supporting community governments and pursues options for accessing alternate sources of revenue for community governments.

The Community Emergency Management section supports communities in the preparation of emergency response and recovery plans; assists in accessing training in emergency preparedness and response and supports communities during emergencies

The Capital Planning and Infrastructure section coordinates capital planning and infrastructure acquisition and provides technical advice and support regarding capital programs and infrastructure.

SCHOOL OF COMMUNITY GOVERNMENT**Activity Description**

The School of Community Government supports community government capacity building by providing training and development opportunities in broad areas of community government responsibilities including governance, management, lands, public safety and operations. The School provides an integrated approach to local governance capacity building through partnerships with GNWT and federal departments, Aboriginal and territorial organizations, professional associations and educational institutes.

LANDS ADMINISTRATION

Activity Description

The Lands Administration Division manages land leases and property assessment services on behalf of community governments. Program Management coordinates the work of the division, including management of emerging land issues.

The Lands section manages Commissioner's Land in accordance with the *Commissioner's Land Act* and *Territorial Lands Act* and prepares land disposition documents, as well as maintaining information on interests on all community lands.

The Surveys and Mapping unit contracts for legal surveys on Commissioner's Land and manages community air photo/mapping programs, and maintains mapping of all community lands on behalf of municipal governments.

The Property Assessment unit administers the assessment portion of the *Property Assessment and Taxation Act*, conducts property assessments and produces Certified Assessment Rolls.

In addition the division advises community governments on matters pertaining to community planning as well as administering the Planning Act.

SPORT, RECREATION AND YOUTH**Activity Description**

Sport, Recreation and Youth provides advice and assistance regarding recreation and sport programs and represents the GNWT in its partnership with the NWT Council of Sport and Recreation Partners and other stakeholders. The Division also coordinates volunteer recognition programs and assists with the promotion of volunteerism.

The Youth Secretariat within the Division assists the Minister Responsible for Youth to promote youth initiatives and acts as a first point of contact for youth issues within the GNWT.

REGIONAL OPERATIONS

Activity Description

Regional Offices are responsible for the coordination and delivery of many of the Department's programs and services to community governments.

Regional staff provide advice and support to community governments on a range of issues. They advise community governments on governance, budgeting, debt recovery, financial reporting and other activities to support the use of sound management and financial practices. They also support communities with capital planning and the operation and maintenance of community infrastructure and equipment.

Assistant Fire Marshals participate in training activities, local inspections and investigations.

Regional community development and recreation staff assist with local recreation, sport and youth programs. They also provide leadership for community capacity-building initiatives.

Regional lands and planning staff assist community governments with community planning activities and administer leases for Commissioner's Lands.

Regional staff provide practical support and advice to community governments in addressing resource development issues.

PUBLIC WORKS AND SERVICES

PUBLIC WORKS AND SERVICES

This page intentionally left blank

VISION

The Department of Public Works and Services is an essential partner in the achievement of government goals through the provision of high quality services, expert support and innovative leadership in:

- Asset management
- Information and communication technology
- Procurement
- Records management
- Community water supply
- Community fuel provision
- Telecommunications regulation
- Electrical and mechanical safety

MISSION

The Department of Public Works and Services' mission is to deliver quality services to satisfy the needs of its clients, while achieving the best value for government, communities, businesses and residents.

GOALS

1. Protection of life and property is achieved through the enforcement of the provisions of electrical, gas, boiler and pressure vessel legislation.
2. Protection of life is achieved through the provision of core expertise in water treatment to support the delivery of community water services.
3. Suitable facilities are available to support delivery of government programs.
4. Basic community needs for heating and transportation fuels are met through the safe and reliable provision of fuel services.
5. Suitable telecommunication services are available to NWT residents.
6. Suitable information technology infrastructure and services are available to support the delivery of government programs and services.
7. Effective management of government records.

DIRECTORATE**Activity Description**

The Directorate includes the Deputy Minister's office and Corporate Services Division at Headquarters. In the regions, the Directorate includes the Superintendent and the Finance and Administrative Services section. The Directorate is responsible for the senior management of the department, including effectively managing human and financial resources and providing overall direction and planning. Activities in the Directorate include financial administration, policy and planning, information technology, regional program delivery and representing GNWT interests at telecommunication regulatory hearings. Records management for the GNWT is another task in the PWS Directorate.

The Directorate co-ordinates activities in support of the GNWT's priorities and department's goals, and maintains effective communication with department staff as well as with other departments, governments, the private sector, and aboriginal and other interest groups.

ASSET MANAGEMENT

Activity Description

The Asset Management activity is responsible for the planning, design, construction, operation and maintenance of buildings and works throughout the Northwest Territories on behalf of government departments. Regional offices manage the delivery of maintenance and construction services, ensuring that client needs are met and facility lifetime costs are minimized. Headquarters supports the regions by providing facility programming, technical expertise for program and design standards, facility evaluations, granular materials planning and coordination, procurement support, and coordination of safe drinking water initiatives.

Inspection Services is responsible for the administration and regulation of electrical, elevator, boiler, pressure vessel and gas safety. This task protects the public in these areas by ensuring that all installations are constructed, all equipment is approved, and all workers are certified in accordance with the various codes and NWT Acts.

This activity also includes the planning, acquisition and management of general office space for the GNWT, including leases, and the disposal of the GNWT's surplus real property assets.

TECHNOLOGY SERVICE CENTRE**Activity Description**

The Technology Service Centre (TSC) is responsible for providing information technology support and services to meet the business objectives of the GNWT, including delivering programs to NWT residents and maximizing the effectiveness of GNWT employees.

Primary TSC Services include computer workstation upgrades and support, electronic mail, file management, Internet access, and application hosting. The foundation for these services is the Wide Area Network managed by the TSC. All services are provided to GNWT departments, while schools, colleges, health authorities, boards, and agencies throughout the GNWT receive a subset of these services.

PETROLEUM PRODUCTS

Activity Description

The Petroleum Products Division (PPD) purchases, transports, and stores the annual requirements for petroleum products in NWT communities not served by the private sector. The products are then sold to residents of the communities through local contractors, who are paid a commission.

The PPD has its administrative headquarters in Fort Simpson, with responsibilities for credit, invoicing, collections and financial planning. Operations oversees PPD functions in the communities and manages local delivery contractors. In addition, Operations determines re-supply quantities, provides quality control, capital standards and planning, and environmental management.

Petroleum Products Revolving Fund

The Petroleum Products Revolving Fund was established January 19, 1973. The fund provides working capital to finance inventory, accounts receivable and operating expenses, such as salaries, commissions, taxes and quality control, required for the distribution of petroleum products. Operating expenses are recovered through the price structure to achieve a break-even operation.

HEALTH AND SOCIAL SERVICES

This page intentionally left blank

VISION

The vision for the Health and Social Services System (HSS System) was developed in collaboration with the Health and Social Services Authorities (HSS Authorities):

Our children will be born healthy and raised in a safe family and community environment which supports them in leading long, productive and happy lives.

MISSION

The mission for the HSS System is:

To promote, protect and provide for the health and well-being of the people of the Northwest Territories.

GOALS

Departmental goals developed to support the Vision and Mission of the Department and *Self-reliant People, Communities and Northwest Territories - A Shared Responsibility: Government of the Northwest Territories Strategic Plan* are:

1. Improved health status of the people in the NWT.
2. Improved social and environmental conditions.
3. Improved access to and responsiveness of services.
4. Improved quality and effectiveness of services.

DIRECTORATE**Activity Description**

Under authority of the Minister, the Directorate provides leadership and direction to the Department and administrative services for Department operations.

The Operational Support Branch manages territorial-wide services to the NWT population through programs and health and social care providers.

The Policy, Legislation and Communications Division provides leadership and services in policy, legislation and regulation, intergovernmental affairs, communications and trustee training and orientation.

Financial Services provides budgetary, accounting and management services to the Department. These services include providing advice to senior management and HSS Authorities on financial management, financial control, information systems, contracts, contributions, facility planning, design, construction, renovation and the acquisition and maintenance of equipment.

Planning, Accountability and Reporting is responsible for setting a system-wide framework for planning. Department priorities must respond to system-wide health and social issues and reflect priorities set by the government.

PROGRAM DELIVERY SUPPORT**Activity Description**

Program Delivery Support provides a system-wide focus and assistance in the delivery of health and social service programs.

Information Systems is responsible for implementing and maintaining appropriate systems technology throughout the HSS System. The Division is also responsible for providing leadership and direction in information management, information technology and support services for the Department.

Human Resources includes various recruitment and retention activities to develop, recruit and retain front line service providers. Human Resources also includes various Department-wide employee services and benefits.

The Territorial Integrated Services Division is responsible for out-of-territories hospitals, physician negotiations as well as physician services in and out of the NWT. In addition, this Division is responsible for acute and long term care planning, coordination of all southern placements, homecare, seniors and persons with disabilities and the following primary community care programs and services: mental health and addictions, community health nursing, maternal and child health and community social work (community development and counselling).

Health Services Administration (HSA) is responsible for the collection and administration of Insured Services, Non-Insured Health Benefits, Vital Statistics, Health Management Information System, health benefits and registration. The HSA office ensures effective program and service delivery across the NWT health care system.

The Population Health Division is responsible for health promotion, health protection and Disease Registries. Under the guidance of the Director, each program area is assigned to a "team" that provides specific functions in support of the Department's and the HSS Authorities' mandates. The Director holds the statutory appointments of Chief Medical Health Officer and Registrar of Disease Registries.

Authority Administration are those portions of HSS Authorities' activities associated with management and administration.

HEALTH SERVICES PROGRAMS**Activity Description**

HSS Authorities provide services to eligible northern residents in areas such as inpatient and outpatient services, public health and chronic care. Pursuant to the *Hospital Insurance and Health and Social Services Administration Act*, HSS Authorities are established to operate, manage and control facilities, programs and services including, but not limited to, the following:

Funding for primary, secondary and emergency care, provided in NWT hospitals.

Funding for primary care or "first contact" care provided through a system of health centres located throughout the NWT.

Payment for insured hospital services provided outside the NWT to persons registered with the NWT Health Care Plan.

Provides eligible residents, through the NWT Health Care Plan, with coverage for insured physician services inside and outside the NWT.

COMMUNITY HEALTH PROGRAMS

Activity Description

Programs are delivered outside health facilities and include institutional care, assisted living, counseling, intervention and health promotion. This program provides:

- Funding to the Authorities for community social service workers, in the areas of prevention, assessment, early intervention, counseling and treatment services related to children, youth and families. The Division is also responsible for planning and development of appropriate approaches to issues such as Early Childhood Development, Disabilities, Seniors, and Federal Wellness Initiatives.
- A broad range of prevention, assessment, intervention, counseling and treatment programs and services to children and families, in compliance with the *Child and Family Services Act* and the *Adoption Act*.
- Funding for long-term care facilities, including group homes and residential care, inside and outside the NWT. Funding to HSS Authorities to enable individuals with special living requirements to stay in their homes as long as possible. In accordance with legislation and policy, the Department maintains the ability to respond to the needs of persons requiring assisted decision-making through the Office of the Public Guardian.
- Funding to HSS Authorities and health care and social service providers to provide community programs and services to eligible NWT residents for:
 - promotion, prevention, assessment, treatment and rehabilitation services for addictions, mental health, disabilities, chronic illnesses, and seniors;
 - services designed to assist living in the home;
 - emotional and social problems such as suicide and dealing with residential school issues; and
 - emergency shelters and counseling services for victims of spousal assault and other forms of family violence.
- Health Promotion provides resources and professional assistance to community-based programs that encourage healthy lifestyles and healthy children.

Contributions				
Health Awareness, Activities and Education (Integrated Community Services) - Funding for non-government organizations in the areas of prevention, assessment, early intervention, counselling and treatment services related to children, youth and families. Includes: Dene Nation, Canadian Mental Health Association, Seniors 1-800 line / NWT Seniors Advisory Council, Canadian National Institute for the Blind, and the NWT Council of Persons with Disabilities.	592	792	612	470
Authority Social Service Delivery Staff (Integrated Community Services) - For Authorities that provide services to eligible Northwest Territories residents in the areas of Social Services Delivery. Includes: Mental Health and Addictions Services/Training Development, Mental Health and Addictions Initiatives, Salaries for Social Service Delivery Staff.	15,962	15,363	14,604	13,481
Children's Services - Funding for Authorities that provide services to eligible Northwest Territories residents in the area of Foster Care. Children's Services is responsible for ensuring the protection of children and youth from abuse, neglect or harm through the investigation of reports by delegated staff throughout the Territories. Care and guardianship responsibilities are undertaken for all children who are through consent or court order in the care of the Director of Child and Family Services - this is done through foster care and supportive living programs (residential care).				
- Foster Care	6,678	6,209	6,207	5,921
- Residential Care	3,275	3,065	2,985	3,074
- Protective Services	1,151	1,156	2,286	1,178

COMMUNITY HEALTH PROGRAMS

Grants and Contributions (continued)

	(thousands of dollars)			
	2006/2007 Main Estimates	2005/2006 Revised Estimates	2005/2006 Main Estimates	2004/2005 Actuals
Residential Care (Adult Services) - Funding for Authorities that provide services to eligible Northwest Territories residents in the areas of Residential Care - Elderly & Persons with Disabilities. Funding is for long term care facilities, including group homes and residential care, inside the NWT. The goal is to enable individuals with special living requirements to stay in their homes as long as possible.	10,868	11,586	10,262	10,226
Community Services - Funding flows directly to HSS Authorities and health care and social service providers to provide community programs and services to eligible NWT residents for:				
· Promotion, prevention, assessment, treatment and rehabilitation services for addictions, mental health, disabilities, chronic illnesses, and seniors;	2,752	2,665	2,478	2,618
· Emergency shelters and counselling services for victims of spousal assault and other forms of family violence;	2,175	2,220	2,119	2,113
· Emotional and social problems such as suicide and dealing with residential school issues; and	1,430	1,930	1,930	2,868
· Services designed to assist living in the home.	4,027	3,842	3,282	3,256
Health Promotion - provide resources and professional assistance to communities and other eligible groups, including Authorities, under programs that encourage healthy lifestyles and healthy children. Health promotion deals with primary prevention of illness and promotion of well-being. Seven broad priorities are in effect: Tobacco Harm Reduction and Cessation; Healthy Pregnancies; Active Living; Injury Prevention; Sexually Transmitted Infections; Addictions and Early Childhood Development.	1,394	1,043	711	823

JUSTICE

JUSTICE

This page intentionally left blank

VISION

Our vision is a Northwest Territories (NWT) where residents have a justice system that meets their needs, protects their rights and reflects their cultures and values. Communities are safe, levels of crime are reduced and residents play a meaningful role in the administration of justice. Offenders receive the support that they need to change their behavior and where victims of crime play a meaningful role in both community initiatives and the criminal justice system.

MISSION

Our Mission is to serve the residents of the NWT by:

1. Working with community members so that communities are safe and secure;
2. Ensuring that all residents have access to the courts, alternatives to the courts and other justice related services;
3. Providing quality legal services to the Government of the Northwest Territories (GNWT) and its agencies;
4. Protecting the rights and freedoms of individuals and groups; and
5. Promoting respect for the law and the Constitution of Canada.

GOALS

1. To increase the capacity and role of communities to address justice issues.
2. To provide programs, safe and secure custody and community supervision that supports the rehabilitation of offenders.
3. To support victims of crime so that they have a meaningful role in the justice system.
4. To ensure access to justice for all residents.
5. To promote safe communities.

LAW ENFORCEMENT**Activity Description**

Policing services are contracted to the Royal Canadian Mounted Police (RCMP) through an agreement between the Government of the Northwest Territories and the Solicitor General of Canada.

There are also cost sharing programs with the Solicitor General of Canada with respect to the First Nations policing in support of aboriginal participation in policing.

An agreement exists with the Solicitor General of Canada to cost share DNA testing and analysis.

COMMUNITY JUSTICE AND CORRECTIONS

Activity Description

This activity is comprised of two divisions; Community Justice and Corrections.

The Corrections Division administers the following tasks:

- Adult Facilities - providing safe custody and detention for adults
- Young Offender Facilities - providing safe custody and detention for young offenders
- Community Corrections - probation and parole
- Custodial Placement Programs - includes wilderness camps
- Corrections Administration
- Culturally relevant programs in the facilities in support of rehabilitation.

The Community Justice Division has the responsibility to provide community justice development, including the promotion and establishment of programs to prevent crime within the communities through greater community participation and control. The division provides communities with contribution funding to enable the direct control and development of community-based projects. The *Victims of Crime Act* is administered in this division. There is also contribution funding available to support initiatives for Victims of Crime.

NWT HOUSING CORPORATION

This page intentionally left blank

VISION

The Northwest Territories Housing Corporation is committed to working in partnership with communities and Aboriginal groups to facilitate improved housing conditions, increased employment and business development opportunities and assist them to become more directly and broadly responsible for their own housing choices and decisions in both the market and social housing sector. By working together, all community residents are provided with opportunities for homes that support a healthy, secure, independent and dignified lifestyle.

MISSION

The Northwest Territories Housing Corporation, in partnership with all NWT residents and community organizations, is responsible for the provision of adequate, suitable and affordable housing. Through the fulfillment of this responsibility, the Northwest Territories Housing Corporation contributes to the well-being of NWT residents and the development of a healthy NWT housing industry. Our mission is achieved by providing support to communities in the areas of technical research and services, financial support, information sharing, training and economic development.

GOALS

The long-term goals for the Northwest Territories Housing Corporation support the GNWT's goals.

1. Adequate, affordable and suitable housing for all northerners;
2. Affordable housing for elders and persons with disabilities to allow them to lead an independent lifestyle;
3. An improved delivery system of the NWT Housing Corporation's programs;
4. Community-based public training and support promotes resident's personal responsibility for their own housing; and
5. The supply of unsubsidized housing across the NWT and support to the housing sector is increased.

NWT HOUSING CORPORATION**Activity Description**

The Northwest Territories Housing Corporation provides public rental housing, homeownership, repair, independent housing and seniors' housing programs and related services to residents of the Northwest Territories. The Corporation, in partnership with Local Housing Organizations, municipalities and bands, continues to oversee portfolio management and maintenance functions related to the public housing portfolio in 26 communities. The contributions to the Corporation are the Territorial Government's share only. The Corporation receives additional funding through contributions provided through the Canada Mortgage and Housing Corporation, tenant rents and other income as disclosed in the following information items.

EXECUTIVE

Activity Description

The Executive provides overall management direction and administrative support to the Corporation and its community and government partners in housing across the NWT. Its mandate covers strategic planning, policy development and operational guidelines on Corporate matters for the Minister Responsible for the Northwest Territories Housing Corporation and for the Executive Council(Cabinet). The President is chiefly responsible for the provision of support and information to governing bodies and decision-makers, interfacing and communicating with various levels of government and clients, and corporate management to ensure consistent application of housing policies, procedures, and program delivery throughout the NWT.

DISTRICT OPERATIONS**Activity Description**

The District offices support communities in program and service delivery. District offices work with Local Housing Organizations and individual clients to achieve the best mix of programs and approaches to meet their needs. District offices are responsible for the administration of District capital and program delivery. District offices also play a pivotal role in lands acquisition and development, maintenance, and training, and work closely with external stakeholders at the community level.

VISION

The Department of Education, Culture and Employment's vision is one of Northern people leading fulfilled lives and contributing to a strong and prosperous society.

MISSION

The mission of the Department of Education, Culture and Employment is to invest in and provide for the development of the people of the Northwest Territories, enabling them to reach their full potential, to lead fulfilled lives and to contribute to a strong and prosperous society.

GOALS

Pride in our Culture: Communities reflecting the culture, language and heritage of Northern people.

Education of Children and Youth: An integrated system supporting a strong foundation for learning and schools that foster student development and success.

Education of Adults: Life-long learning opportunities available to residents of every NWT community.

A Skilled and Productive Work Environment: A comprehensive system of career, employment and labour programs and services maximizing Northerners' participation in their communities and the Northern economy.

People Participating Fully in Society: An integrated Income Security system supporting self-reliance and responsible personal choices.

DIRECTORATE AND ADMINISTRATION

Activity Description

Directorate and Administration provides overall management, planning, communications and administrative support to the Department and its partners in education across the NWT. The Branch operates under the direction of the Deputy Minister who makes recommendations to the Minister with regards to Departmental goals, objectives, and standards.

The Directorate provides leadership, management, planning, and public relations for the Department as well as its boards and agencies.

The Strategic and Business Services Division guides the development and review of departmental legislation and policy, briefing notes, decision-making documents, strategic planning, results reporting, and program evaluation. The Division also provides financial, budget and capital planning, as well as records management support to the Department. Finally, the Division provides for and maintains the systems that support the delivery of ECE programs.

EDUCATION AND CULTURE

Activity Description

Education and Culture is responsible for the delivery of programs and support services for early childhood development, K-12 education, culture and the arts, heritage and museums, public libraries, and distance learning.

The Early Childhood and School Services Division is responsible for the development of direction, standards, support programs and curriculum for children from early childhood through to the end of grade 12. The Division works to ensure standards are maintained through continuous monitoring and evaluation that allows for identification of areas that require further in-service training, as well as curriculum review, revision, or replacement, as appropriate.

Program areas:

- Curriculum Services (K-12)
- Student Support Services
- Early Childhood Services
- Language and Culture Services (Aboriginal and French, K-12)

The Education Operations and Development Division supports, monitors and reviews operations and service delivery by education bodies responsible for K-12 education. The Division is also responsible for the certification of teachers and principals, the maintenance of student records, the diploma exam program and the management of public library services. It also provides direct support to teachers through the Teachers' Qualification Service and the Professional Improvement Fund, and by assisting with recruitment and retention.

Program areas:

- Education Operations and Development
- Library Services
- Schools
- NWTTA Professional Improvement

The Culture and Heritage Division is responsible for preserving, promoting and enhancing the arts and the NWT's cultural heritage. The Division manages the territorial museum and NWT Archives, as well as the related archaeology, geographic place names and heritage education extension programs. Support is offered to the Arts Council, as well as community culture and heritage organizations through grants and contributions programs. Programs are delivered in partnerships with other agencies and funding is available to both individuals and larger organizations.

Program areas:

- Culture and Heritage

The Official Languages Division is responsible for preserving, promoting and enhancing Official languages in the NWT, including Aboriginal languages and French. The Division offers French translation services and support to Aboriginal broadcasters. Programs are delivered in partnership with other agencies and organizations.

Program areas:

- Language Services

Note: The Canada- NWT Agreement for French and Aboriginal Languages was not signed prior to the preparation of the Main Estimates. As a result an amount for 2006-07 has not been included in the Estimates. Due to a change in the accounting for the agreement, the 2005-06 amount is shown as a Vote 1 operational budget in the 2005-06 Revised Main Estimates. Other prior year amounts have not been restated and are shown in Departmental details on Work on Behalf of Others.

ADVANCED EDUCATION AND CAREERS

Activity Description

Advanced Education and Careers provides a range of programs and services related to career development, employment preparation and training, and college and continuing education. It also plays a major role in coordinating partnerships with other departments and organizations working in related areas, and provides support to organizations and industry to ensure the delivery of programming is appropriate and meets regional needs.

The College, Career Development and Labour Division provides support to Northerners in developing and implementing career and educational plans that include postsecondary and career education, training and employment programs and related services. In addition, the Division establishes and enforces minimum labour standards. The Division works closely with industry and Aurora College in a number of areas including apprenticeship training, trades, and occupational certification. Partnership with other GNWT departments, industry and Aboriginal organizations and other governments is an essential component of the maximizing northern employment strategy and training programs in the non-renewable resource sector.

Program areas:

- College
- Adult Basic Education/Literacy
- Apprenticeship and Employment Training Programs
- Career & Employment Development
- Labour Standards

Regional Operations are responsible for managing area offices as well as the Career Centres that are located in regional centres. These frontline service centres deliver career and employment development, income support, and early childhood programs for ECE.

INCOME SECURITY

Activity description

Income Security provides a range of programs and services that pertain to adult and postsecondary education assistance, income support and public housing subsidies.

Income Security Programs provide temporary financial supports to individuals and their families in ways that recognize the importance of the family and community in promoting self-reliance. Assistance is available through a range of programs intended to meet basic needs, including those of adult and postsecondary students, seniors, and child care users. These programs encourage people to make productive choices through their own efforts and in line with their interests and abilities.

Program areas:

- Income Support
- Public Housing Subsidies
- Student Financial Assistance

COLLEGE PROGRAMS

Aurora College delivers adult and postsecondary education programs under the direction of the Minister and Department of Education, Culture and Employment. The Board of Governors of the College is responsible for the effective delivery of programs and services, including the establishment of academic and operational policies, direction of financial operations, monitoring and evaluation of programs, and making recommendations to the Minister regarding priorities for college programming.

Aurora College delivers education programs that are designed to meet the specific needs of the northern labour force and economy. Courses are offered at the diploma and certificate levels, in trades, technical programs and certified occupations. Upgrading programs are offered through the College that enable students to access postsecondary education and training, and university level programming, including transfer programs. The College also delivers programs on a contractual basis for employers, including Aboriginal groups, government departments and agencies.

Through the Aurora Research Institute, the College coordinates science, technology and northern research activities, in cooperation with the business and scientific communities.

The College operates primarily with funds received through an annual contribution from the Department as approved by the Legislative Assembly. Contributions to the College are allocated for each academic year, which runs from July 1 to June 30.

COLLEGE FUNDING ALLOCATION

(Thousands of dollars)

	<u>2006/2007</u> <u>Academic</u> <u>Year</u>	<u>2005/2006</u> <u>Revised</u> <u>Academic</u> <u>Year</u>
Aurora College		
Base Operation	4,929	4,633
Campus Delivery	8,067	8,002
Community Delivery	4,125	3,546
Service Adjustment	2,812	2,631
Building and Works	7,125	7,118
Developmental	430	425
Total College Contributions	<u>27,488</u>	<u>26,355</u>

Notes:

1. The above information has not been finalized with the College. Adjustments to budgets will be made based upon the approved program and services proposal for 2006-2007.

2. Glossary:

Base Operations - minimum service level for administration of head office, campuses and student services

Campus Delivery - courses and programs offered at regional campuses

Community Delivery - programs and services offered through community learning and program centres

Service Adjustment - for regional cost differences and to enhance service levels at specific locations

Building and Works - college facilities, equipment and utilities

Developmental - development of new programs to address specific GNWT priorities

3. Contributions to the College are calculated on an academic year basis. The fiscal year of the College matches the academic year of July 1 - June 30.

4. The above numbers do not include \$175,000 for Capital Infrastructure.

Note: The Canada- NWT Agreement for French and Aboriginal Languages was not signed prior to the preparation of the Main Estimates. As a result an amount for 2006-07 has not been included in the Estimates. Due to a change in the accounting for the agreement, the 2005-06 amount is shown as a Vote 1 operational budget in the 2005-06 Revised Main Estimates. Other prior year amounts have not been restated and are shown in Departmental details on Work on Behalf of Others.

TRANSPORTATION

VISION

The Department of Transportation envisions an integrated transportation system in the Northwest Territories that meets the needs and aspirations of northern residents by providing:

1. Safe, secure, affordable, reliable and accessible personal mobility;
2. A higher standard of living for the territory and its communities through more efficient and lower cost movement of freight; and
3. Sustained economic growth and prosperity by developing better access to the territory's renewable and non-renewable natural resources.

MISSION

Our Mission is to provide for the safe, secure, accessible and reliable movement of people and goods to serve the social and economic needs and aspirations of the people of the Northwest Territories.

The Department accomplishes its Mission through seven main activities:

1. AIRPORTS

To provide airport facilities and services and to encourage and support the provision of regular, safe, cost effective and reliable air services.

2. HIGHWAYS

To provide highway facilities and to encourage and support the provision of safe, reliable and cost-effective inter-community travel and road transportation services.

3. FERRIES

To provide safe and reliable ferry crossing services on the highway system.

4. ROAD LICENSING & SAFETY

To protect public safety and the environment by supporting the safe operation of motor vehicles in the NWT.

In addition to its regulatory responsibilities for transportation safety, the Department delivers public education programs, in conjunction with the federal government and other GNWT Departments, on transportation safety, such as the Strategy to Reduce Impaired Driving and Occupant Restraint Campaigns.

5. LOCAL COMMUNITY ACCESS ROADS

To provide assistance to communities for building locally owned roads and trails to points of interest, tourism and recreational opportunities and renewable resource harvesting areas.

6. COMMUNITY MARINE INFRASTRUCTURE

To provide assistance to communities to implement marine facilities. The Department provides financial and technical assistance to communities for the construction of breakwaters, docks and wharves in support of subsistence marine harvesting and recreational boating.

MISSION continued

7. CORPORATE SERVICES

To provide support and department-wide corporate programs in 10 areas.

GOALS

The Department of Transportation has six goals that support the achievement of the Government's vision for the future of the Northwest Territories.

1. The NWT transportation system continues to improve,
2. The NWT has an ongoing high level of Northern business and employment opportunities in the public and private transportation sectors,
3. The NWT has a safe and secure transportation system in all modes,
4. The Department has a high performance workplace that is effective in delivering programs and services,
5. The Department demonstrates environmental sustainability in all transportation activities,
6. The Department provides funding for local transportation infrastructure.

AIRPORTS

Activity Description

The purpose of the Airports Program is to provide airport facilities and services and to encourage and support the provision of regular, safe, cost-effective and reliable air services. The Department is responsible for the maintenance, operation, and rehabilitation and upgrading of airports.

The Department operates 27 airports in the Northwest Territories, of which one is a Gateway hub, (Yellowknife), two are Regional hubs, (Norman Wells and Inuvik), and the remaining 24 are community airports. Connected with the Airports Program, the Department maintains a close watch over air transportation legislation, regulation and policy activities of other governments, overall trends in air transportation safety, costs, infrastructure technology development/change and opportunities for partnership to finance the improvement of airport infrastructure.

There are four areas of program support:

- Management
- Program Development
- Operations
- Facilities

HIGHWAYS

Activity Description

The purpose of the Highways Program is to provide highway facilities and to encourage and support the provision of safe, reliable and cost-effective inter-community travel and road transportation services. The Department is responsible for operating, maintaining, rehabilitating and upgrading all highway infrastructures.

The Department maintains 2,200 kilometers of all-weather highways and 1,425 kilometers of seasonal winter roads. The Highway system also includes over 70 bridges and well over 3,000 culvert structures. Connected with the Highways Program, the Department monitors current trends in highway construction, engineering, safety, design and technology. The Department actively seeks new partnership opportunities with other governments and industry to finance the development of new highway infrastructure and to finance enhanced operations.

There are four key areas of program support:

- Management
- Winter Roads
- Infrastructure
- Operations

FERRIES

Activity Description

The purpose of the Ferry Program is to provide safe and reliable ferry crossing services on the highway system. The Department is responsible for the maintenance, operation and upgrading of vessels and support facilities.

The Department provides ferry services at five river crossings where territorial all-weather highways traverse waterways. Connected with the Ferries Program, the Department maintains a close watch over federal marine legislation, regulation and policy activities.

There are three areas of program support:

- Management
- Maintenance and Refits
- Operations

ROAD LICENSING AND SAFETY**Activity Description**

The purpose of the Road Licensing & Safety Program is to ensure the protection of public safety and the environment in all areas related to the use of motor vehicle and commercial vehicles.

The Department is responsible for the testing, registration and inspection of all drivers and vehicles that use the Territorial transportation network. The Department establishes and enforces the Acts, Regulations and Safety Codes that apply to drivers and motor vehicles including commercial motor carriers throughout the Territory.

Connected with the Road Licensing & Safety Program, the Department ensures the safe operation of all commercial vehicles through transportation legislation, inspections, regulations and policy activities. The Program ensures compliance with National and other jurisdictions in all areas. The Program researches trends in highway transportation safety, technology development, and future opportunities for partnerships to ensure regulatory harmonization, implementation of new ideas and ensuring all drivers and vehicles are safe to share the roadways.

There are three areas of program support:

- Management
- Driver & Vehicle Licensing Program
- Carrier & Inspections Program

(thousands of dollars)

	2006/2007 Main Estimates	2005/2006 Revised Estimates	2005/2006 Main Estimates	2004/2005 Actuals
The Alberta Road Maintenance - The Alberta Road Maintenance program is for the maintenance of 50.9 kilometers of highway in northern Alberta. This road is a continuation of NWT Highway #5 in the Fort Smith area connecting to the community of Fort Fitzgerald and the Wood Buffalo National Park Highway system.	130	130	130	99
The GNWT, Department of Transportation has a Memorandum of Understanding with the Regional Municipality of Wood Buffalo, (Fort McMurray), to maintain the Fort Fitzgerald road and the Regional Municipality of Wood Buffalo pays for the work.				
Community Aerodrome Radio Services - On behalf of NAV Canada, the Department of Transportation manages the Community Aerodrome Radio Station Program. This program provides air navigation services at seventeen airports and accounts for more than thirty full time jobs at the community level. Agreement ended March 31, 2005.	-	-	-	3,208
Coast Guard Facilities Maintenance Services - This program is managed by the Department of Transportation, on behalf of Coast Guard Canada Remote Resupply Ports Program providing public marine facilities in the western NWT. The program was initiated in 1992-93 to provide northern-based marine expertise to the Coast Guard and to address recommendations from communities and marine operators for the repair and enhancement of public marine facilities.	450	487	450	450
French Language Service - Interim Funding for Canada - NWT Agreement for French and Aboriginal Languages.	-	-	15	12

INDUSTRY, TOURISM AND INVESTMENT

The Corporate Shared Services provides services to the Department of Industry, Tourism and Investment and the Department of Environment and Natural Resources. These services are shared proportionately between the two Departments.

VISION

The Department of Industry, Tourism and Investment will be recognized as a client focused organization contributing to a vibrant, diverse and sustainable economy for the Northwest Territories.

MISSION

The Department of Industry, Tourism and Investment, in partnership with others, will provide quality programs and services to promote and support Northwest Territories economic prosperity and community self-reliance.

GOALS

To promote and support a diversified economy that provides opportunities for Northwest Territories residents.

To promote and support the development of business opportunities, including agriculture, commercial fishing, the traditional economy, tourism, trade, investment, manufacturing, and secondary industries.

To promote the sustainable development of natural resources that respects the conservation and protection of the environment for our future generations.

To promote and support the efficient development, utilization and marketing of energy resources to achieve self-sufficiency, maximize economic opportunities, and realize affordable energy costs.

To secure economic and employment opportunities from responsible resource development for Northwest Territories residents.

To develop partnerships with individuals, businesses, communities, Aboriginal organizations and other governments to foster prosperity and community self-reliance.

CORPORATE MANAGEMENT

Activity Description

The Corporate Management activity consists of Directorate, Policy, Legislation and Communications, and Corporate Shared Services (Finance and Administration, and Informatics).

Directorate includes the Deputy Minister, the Assistant Deputy Minister – Programs and Operations, and the Assistant Deputy Minister - Energy, Mines and Petroleum Resources, and is responsible for overall direction and coordination of departmental programs.

Policy, Legislation and Communications provides policy, legislative, strategic planning, coordination and communications support to enable the Department to respond effectively to economic and resource development issues of concern to the Northwest Territories. This function is responsible for coordinating environmental assessment and land use planning activities for Industry, Tourism and Investment. This function also coordinates Industry, Tourism and Investment participation in Aboriginal lands, resources and self-government negotiations, and provides input to negotiations for devolution of land and resources management from the Federal Government.

Corporate Shared Services provides services to the Department of Industry, Tourism and Investment and the Department of Environment and Natural Resources. Finance and Administration provides financial management and administrative services to the Department. This includes providing services in budget development and control, authorizing financial transactions, and financial reporting. Informatics provides information management expertise and support to the Department related to database application development, systems analysis and maintenance. Informatics also monitors the centralized delivery of the computer Information Technology Services and is the liaison between Industry, Tourism and Investment and the Technology Service Centre to ensure the Department is provided services in an efficient and timely fashion. It also coordinates the provision of basic computer training and library services for Industry, Tourism and Investment and Environment and Natural Resources. Informatics, through the Northwest Territories Geomatics Centre, also provides access to remote sensing and geographic information systems and databases, expert support, coordination and leadership in the use of Geomatics by GNWT and its partners.

ENERGY, MINES AND PETROLEUM RESOURCES**Activity Description**

This activity consists of Minerals, Oil and Gas, the Mackenzie Valley Pipeline Office, Energy Planning, and Industrial Initiatives.

Minerals, Oil and Gas participates in developing strategies to increase economic benefits from resource development to Northwest Territories residents and businesses, and works with communities and other government departments and agencies to identify and realize opportunities from resource extraction activities in the Northwest Territories. It also participates in developing strategic plans for the transfer of provincial-type responsibilities with respect to oil, gas and mineral resources from the Federal Government to the GNWT. The C.S. Lord Northern Geoscience Centre is a joint program between Industry, Tourism and Investment and the Federal Department of Indian Affairs and Northern Development, funded through the Division on behalf of the Government of the Northwest Territories, which administers geoscience research activities. Minerals, Oil and Gas also has responsibility for the administration of rough diamond supply agreements; monitoring of Approved NWT Manufacturers rough, cut and polished stones; and management of the GNWT Diamond Certification Program.

Mackenzie Valley Pipeline Office delivers focused Government-wide coordination, planning and strategy formulation to maximize the benefits and mitigate the adverse impacts of the development of the proposed Mackenzie Gas Project.

Energy Planning is responsible for providing the broad energy sector intelligence required for the development of increased use of domestic energy resources and the reduction of energy supply costs. The Energy Planning Division has the lead in the development of Government of the Northwest Territories policies regarding use and supply of all non-renewable, non-conventional and renewable energy sources in the Northwest Territories, including hydroelectric power.

Industrial Initiatives facilitates the Government of the Northwest Territories industry-related socio-economic activities that ensure northern resources provide northern benefits. It negotiates agreements with industry on commitments made to Northwest Territories residents to mitigate any adverse industrial social and economic impacts.

ECONOMIC DEVELOPMENT

Activity Description

Economic Development activity is realized through programs and service activities in Investment and Economic Analysis, Tourism and Parks, and the Northwest Territories Business Development Investment Corporation.

Investment and Economic Analysis provides advice, coordination and support to a number of sectors, including businesses, arts and crafts, trade and investment, manufacturing and marketing, and acts as a link to national and international businesses and organizations. This function is responsible for the administration of the Business Incentive Policy and provides support to NWT diamond factories and diamond programs marketing. Traditional Economy is part of Investment and Economic Analysis and is responsible for the coordination, support and promotion of Northwest Territories agriculture, fisheries, trapping and commercial game harvesting to increase economic benefits for Northwest Territories residents, communities and businesses.

Tourism and Parks provides for the development, operation and maintenance of public tourism facilities such as parks, visitor centres, interpretive displays, and promotional signs and supports the Diamond Tourism Marketing Program. It also supports strategic tourism development by providing guidance and resources to Northwest Territories Tourism.

Northwest Territories Business Development Investment Corporation was established by legislation that came into force on April 1, 2005. The Northwest Territories Business Development and Investment Corporation supports the economic objectives of the Government of the Northwest Territories by encouraging the creation and development of sustainable businesses in the Northwest Territories. The Corporation does this by providing financial assistance on its own or in partnership with other financial institutions; by providing information relating to the establishment and operation of businesses; and by directly investing in business enterprises.

LEASE COMMITMENTS - INFRASTRUCTURE

(thousands of dollars)

Type of Property	Community	2006/2007 Main Estimates	Future Lease Payments
Mackenzie Valley Pipeline Office	Hay River	56	56
Visitors Centre	Inuvik	17	208
		<u>73</u>	<u>264</u>

Note: The above leases do not include capital leases. In the event a lease is deemed to be a capital lease the associated asset is included in tangible capital assets and amortized over the useful life of the asset; and the lease is recorded as a financial liability.

Fur Marketing Service Revolving Fund

Purpose: To provide working capital for the operation of a fur advance system. Trappers receive interest free advances on fur sent to southern auction houses. More than 1,000 trappers take advantage of this program.

(thousands of dollars)

	2006/2007 Main Estimates	2005/2006 Revised Estimates	2005/2006 Main Estimates	2004/2005 Actuals
Authorized Limit	<u>900</u>	<u>900</u>	<u>900</u>	<u>900</u>
Operating Results:				
Opening Accounts Receivable	285	251	446	276
Advances to Trappers	770	754	360	772
Repayment of Fur Account Loans	<u>(735)</u>	<u>(720)</u>	<u>(301)</u>	<u>(797)</u>
Closing Accounts Receivable (Note 1 & 2)	<u>320</u>	<u>285</u>	<u>505</u>	<u>251</u>

Notes:

1) Some fur remains unsold at auction for extended periods. The spring sale proceeds which are received after fiscal year end pay off most of the remaining advances from the season's trapping.

ENVIRONMENT AND NATURAL RESOURCES

The Corporate Shared Services provides services to the Department of Industry, Tourism and Investment and the Department of Environment and Natural Resources. These services are shared proportionately between the two Departments.

VISION

Our children will inherit a secure future that relies on a healthy environment that is capable of supporting traditional lifestyles within a modern economy. The protection of our environment's ecosystems and the wise use of its natural resources will ensure ecological integrity and provide individuals and communities with opportunities to be productive and self-reliant.

MISSION

Environment and Natural Resources works with other government departments, Aboriginal governments, co-management boards, non-government organizations, industry and the public to protect our environment. The environment is protected by ensuring the responsible management and sustainable use of natural resources, energy conservation, fostering acceptance of individual responsibility for the condition of the environment and providing efficient, effective programs and services for residents of the Northwest Territories.

GOALS

1. The quality and integrity of the NWT's air, land, water, wildlife and forests are protected.
2. The NWT's natural resources are used and developed in a sustainable manner.
3. A comprehensive knowledge base is developed through effective and cooperative relationships with the public, other governments, industry, agencies and organizations concerned with environmental stewardship.
4. The environment and natural resources of the NWT are managed by an effective, efficient and integrated resource management regime.

CORPORATE MANAGEMENT

Activity Description

The Corporate Management activity consists of **Directorate, Policy, Legislation and Communications**, and **Corporate Shared Services** (Finance and Administration and Informatics).

Directorate includes the Deputy Minister and the Assistant Deputy Minister, Operations. The Directorate is responsible for the overall direction and coordination of departmental programs and to encourage compliance with environmental and renewable resource law.

Policy, Legislation and Communications provides policy, legislative, strategic planning, coordination and communications support to enable the department to respond effectively to environmental and resource management issues of concern to the Northwest Territories. The Public Affairs and Communications Unit provides public information, education and communications advice and support to the Divisions and regions. The coordination function is in regards to Departmental input into: negotiation of Aboriginal lands, resources and self-government agreements; land and water regulatory reviews of development projects; land use planning; cumulative effects assessment and management; water management initiatives; and negotiations for devolution of land and resources management from the federal government. As well as coordinating the regulatory review function, the Environmental Assessment Unit coordinates GNWT-wide interests in the environmental impact assessment of development projects. Other GNWT-wide interests coordinated include: land use planning; cumulative effects; and federal water initiatives. Deputy Minister Committees provide oversight and direction to the coordination of actions taken in regards to GNWT-wide interests.

Corporate Shared Services provides services to the Department of Environment and Natural Resources and the Department of Industry, Tourism and Investment. Finance and Administration provides financial management, and administrative services to the Departments. This includes providing services in budget development and control, authorizing financial transactions, and financial reporting. Informatics is also responsible for records management, library and information services and basic computer training within the Departments. Informatics assists the Departments to develop and manage database systems efficiently so that timely information is available to decision-makers and the public. The NWT Geomatics Centre, part of the Informatics service, provides access to remote sensing and geographic information systems and databases, expert support, coordination and leadership in the use of Geomatics by GNWT and its partners.

ENVIRONMENTAL PROTECTION

Activity Description

Ensuring the protection and enhancement of the natural environment is a shared responsibility in the NWT. The Department works with other governments, industry and citizens to maintain a high quality environment for the benefit of current and future generations.

The Environmental Protection activity consists of Program Management, Environmental Protection and Energy Management.

Program Management is responsible for the planning, coordination, administration and management of divisional resources and programs designed to influence human activities that have an impact on the natural environment.

Environmental Protection includes monitoring environmental quality, regulating activities that may impact the environment and sharing timely and accurate information so citizens can make informed decisions. Programs include environmental emergency response; contaminated site management; solid and hazardous waste management; air quality; assessment of community, mining and oil and gas activities; and, public awareness.

Energy Management promotes the use of environmentally sustainable energy sources and the reduction of consumption of fossil fuels, energy and other utilities. Working in partnership with the Arctic Energy Alliance, programs encourage the use of energy efficient technologies and alternative energy sources, facilitate development of community energy plans, and promote energy awareness. As well, programs coordinate the Government's response to climate change by developing strategies to control greenhouse gas emissions, identify impacts, and adapt to a warming climate.

FOREST MANAGEMENT

Activity Description

The Forest Management Division is responsible for the sustainable management of NWT's forest resources and provides the means to meet the challenges relative to forest fire response within the NWT.

This activity consists of Program Management , Presuppression, Fire Suppression and Forest Resources.

Program Management provides common services in support of divisional programs on an integrated basis for forest management at the regional and territorial levels. Included are program planning and strategic direction, administration and management of divisional resources, forest management legislation and policy development and management of regulatory processes.

Presuppression, established as a separate component of Program Management, ensures preparedness for forest fire management. Presuppression involves fire management activities in advance of fire occurrence. Activities are related to the organization, training, and management of a fire fighting force. Also included are the procurement, and maintenance of improvements, equipment, supplies and information to ensure the GNWT is in a position to respond effectively to forest fires. It includes fire operations, aviation services, fire science, infrastructure management, communications, and material management.

Fire Suppression is responsible for providing resources to respond to forest fires within the NWT. Fire Suppression is concerned with protection of people, property and forested areas from wildfire. Fire response is carried out in accordance with the NWT Forest Fire Management Policy. Forest fire management programs are carried out in a manner that considers environmental, social and economic criteria affecting the residents of forested areas.

Forest Resources is responsible for the sustainable management and administration of the forest resources of the NWT. Forest inventories are carried out to provide information on the state of the forest resource, forest productivity and forest ecosystems. Forest health is monitored through surveys. The data collected supports planning, monitoring, environmental assessment, as well as development of a viable and environmentally sustainable forest industry. Best practices and standards are established to ensure forest operations and other industrial activity are planned and carried out in a sustainable and environmentally acceptable way. Reforestation standards are developed and implemented in support of sustainable development of forest resources. Forest Resources collects timber cutting charges, reforestation fees, and other revenue in support of the sustainable management of the forest resource.

WILDLIFE

Activity Description

The Wildlife activity is responsible for maintaining productive populations of all native wildlife in their natural habitats, encouraging the wise use of wildlife populations within the limits of sustainable yield, and encouraging the active participation of northern residents in the management of wildlife resources. This activity consists of Wildlife Management and Protected Areas.

Wildlife provides support to resource user organizations to enable them to become more involved in wildlife management. Wildlife initiatives assess and monitor wildlife, habitat, species at risk, and biodiversity. As well this function coordinates initiatives that address impacts on wildlife from human activity. Wildlife is also responsible for developing plans and programs that support the sustainable development of wildlife resources, including the administration of the sport fishery.

The Wildlife activity also works in cooperation with the Department of Industry, Tourism and Investment to provide expert advice, contacts and experience on matters relating to the traditional economy.

Protected Areas (PA) provides a secretariat function to the NWT Protected Areas Strategy (PAS) in partnership with Indian and Northern Affairs Canada, and Aboriginal, environmental and industry organizations. Environment and Natural Resources represents the GNWT on the PAS Steering Committee; the alternate is the department of Industry, Tourism and Investment.

GLOSSARY

GLOSSARY

Activity	A division of a Program.
Accumulated Amortization	The total to date of the periodic amortization charges relating to tangible capital assets since they were placed in use.
Amortization	The systematic process of allocating the cost of capital assets to expense for the periods in which they provide benefits. For the purpose of tangible capital asset accounting in the GNWT, amortization is calculated using the straight-line method, which assumes that an equal benefit is received in each year of the asset's estimated useful life. This term is used interchangeably with depreciation and is generally understood to mean the same thing.
Appropriation	A budget approved by the Legislative Assembly that permits obligations to be incurred and expenditures to be made. Appropriations are usually made for fixed amounts and are typically for a period of one year.
Capital Assets in Service	Assets currently being used in the production or supply of goods, delivery of services or program outputs.
Budget	An estimate of proposed expenditures for a given period and the proposed means (revenue estimates) of financing those expenditures.
Capital Asset	Property of a relatively permanent nature used in the operations of the government, and not intended for sale. Capital assets will have a useful life that extends over more than one fiscal period.
Capital Expenditures	An outlay of government resources, normally not of a recurring or continuing nature, for the purchase or construction of a capital asset, or an outlay which increases the expected useful life of an existing capital asset.
Capital Projects	Projects established for the purchase or construction of capital assets. Typically a capital project encompasses a purchase of land or equipment and/or the construction of a building or other facility.
Capital Recovery	Receipt from a second or third party for the acquisition or construction of a capital asset by the Government of the Northwest Territories.
Contribution	A conditional transfer of appropriated funds to a public agency, community government or other organization that is accountable to the government for the use of the funds and fulfillment of the objectives for which the funding is provided.
Control Object	Appropriations for operations expense are further broken down into control objects. The control objects are as follows: <ul style="list-style-type: none">• Compensation and Benefits• Grants and Contributions• Other Expenses• Amortization Expense

GLOSSARY

Department	Organizational entity established by Cabinet to deliver programs and services within a specified mandate.
Departmental Overview	A summary of the vision, mission and goals of a government department.
Disposals	Voluntary (through sale, exchange, etc.) or involuntary (through damage or theft) disposal of capital assets. Upon disposal, the net book value of the asset is removed from the accounts.
Estimates	The estimated expenditures, to be approved by the Legislative Assembly, and forecasted revenues, for all government departments.
Expenditure	Funds paid or payable to acquire goods and services, consumed in Government operations or an investment in capital assets.
Financial Management Board	The Financial Management Board is a committee of the Executive Council, consisting of all members of the Executive Council, that is responsible for the financial management and administration of the Government of the Northwest Territories.
Fiscal Year	A consecutive twelve-month period designated as the reporting year of a government or organization. The Government of the Northwest Territories' fiscal year starts April 1 and ends March 31 of the following calendar year.
Goal	A high-level statement of the desired outcome of government activities to be achieved over an unspecified period of time.
Grant	An unconditional transfer of appropriated funds to a public agency, group or organization for which the recipient is, with the exception of meeting the eligibility criteria for the grant, not accountable to the government.
Infrastructure	The permanent facilities and organization structure in place for the purpose of delivering government programs.
Net Book Value	The cost of a tangible capital asset, less both accumulated amortization and the amount of any write-down.
Position	A job description established within the public service. The term "active positions" includes positions that are occupied, or that are temporarily vacant but will be staffed.
Program	The term used in the Government's Financial Information System to describe a department of the GNWT.
Public Agency	A statutory body or territorial corporation specified in Schedule A or B of the Financial Administration Act.
Regions	Geographical sub-divisions of the Northwest Territories for administrative purposes.

GLOSSARY

Tangible Capital Asset

A non-financial asset of physical substance that is purchased, constructed, developed or otherwise acquired and has the following characteristics:

- It is held for use in the production or supply of goods, delivery of services or program outputs;
- It has a useful life extending beyond one fiscal year and is intended to be used on a continuing basis; and
- It is not intended for resale in the ordinary course of operations.
- The major categories of tangible capital assets are:
 - Land (other than land acquired at no cost to the government)
 - Roads and Bridges
 - Ferries
 - Airstrips and Aprons
 - Buildings
 - Water and Sewer Works
 - Leasehold Improvements
 - Mobile and Heavy Equipment
 - Other Major Equipment
 - Major Medical Equipment

Vote

A specific segregation of spending authority into a broad category according to intended use such as operations expenses or capital investment authority.

Work in Progress

Records the value of capital assets under development or construction and not yet substantially complete or in service.

Budget Development Process

Budget Development Process

INTRODUCTION

Commencing with the 1996-97 fiscal year, the Government of the Northwest Territories has used a comprehensive three-year business planning approach, which guides the development of the Main Estimates. Business planning is a process used by many governments and other organizations to provide a link between strategic planning and resource allocation. Generally, business plans flow from an organization's longer-term strategic plan, but deal with a shorter time frame, propose further information on implementation, and include details on resource allocation.

The Main Estimates reflect the Government of the Northwest Territories' plan of action for the upcoming fiscal year. Specifically, they represent all anticipated expenditures and all anticipated revenues for the fiscal year, which commences April 1.

The Main Estimates seek appropriation authority for the fiscal year, which begins April 1. The Budget Address, presented by the Minister of Finance at the time of presentation of the Main Estimates, is an integral part of the total budget package. In addition, the Government's Business Plans are tabled in the Legislative Assembly at the time of the Budget Speech and tabling of the Main Estimates.

Many individuals and organizations, both from within the government and from the public have been consulted during the planning and development stages of the budget process. However, the exact content of the Main Estimates is not public until tabled in the Legislative Assembly by the Minister of Finance. Traditionally, the budget presentation process prevents special interest advantages being obtained through advance information on government fiscal initiatives.

PROCESS

The Main Estimates process consists of several phases:

1. *Fiscal Strategy development.*
2. *Pre-Budget Consultation.*
3. *Multi-year Business Plan development and review.*
4. *Main Estimates development process.*
5. *Budget Address development.*
6. *Presentation to the Legislative Assembly.*
7. *Preparation and entry of budgets into the Financial Information System.*

During the course of any given fiscal year, there are three other processes that are used to monitor and adjust the budget:

1. *Variance Reporting - Monitoring of Expenditures and Revenues against Budgets.*
2. *Supplementary Estimates.*
3. *Results Reporting.*

Budget Development Process

1. *Fiscal Strategy Development*

Under the direction of the Minister of Finance, the Financial Management Board Secretariat prepares a multi-year fiscal framework. The framework is an overview of the projected financial position of the government based on a set of assumptions about revenues, expenditures, and federal transfer payments.

In the development of a fiscal strategy, the framework is used as a modeling tool to project the fiscal position of the government, assuming current policies and trends are maintained, as well as alternate positions based on various policy changes, new policies and new initiatives. This allows the Financial Management Board and Cabinet to assess whether the current mix of expenditures and taxes are appropriate. If the mix cannot be sustained, or change is desired for policy reasons, it allows for an evaluation of alternatives in expenditures, taxation, and borrowing.

Based on the government's current financial position, program objectives and the fiscal alternative chosen, targets for each department are approved by the Financial Management Board and instructions are issued to departments for the development of multi-year business plans.

2. *Pre-Budget Consultation*

Beginning in 2005, the Standing Committee on Accountability and Oversight has begun conducting Pre-budget consultations in a cross-section of NWT communities. These consultations offer an opportunity for community leaders and residents to communicate their thoughts on Government priorities and spending to the Committee. The Committee provides a comprehensive report to the Legislative Assembly on the input from these consultations.

3. *Multi-year Business Plan Development and Review*

The multi-year business planning approach links strategic planning with resource allocation. The business planning process includes setting goals, developing strategies to achieve the goals, and establishing targets and outcome measures. The Executive Council approves a multi-year Business Plan, which sets goals and strategic priorities for the government. The departmental business plans are developed to support the overall Government's goals. As part of the process, departments identify the challenges and pressures confronting them, and map out how to meet those challenges within available resources. Business Plans identify key strategies that each department will implement to achieve its goals, and also identify outcome measures and targets to be achieved.

Multi-year business plans focus on two areas of expenditure:

a) Operations Expenditures

The Financial Management Board establishes departmental planning targets. Individual departments develop and document projections of forced expenditure growth in existing programs on the basis of demographics or utilization trends, possible expenditure reductions, required service level increases and other anticipated changes for each departmental program. This is done in accordance with Financial Management Board instructions.

New or expanded programs are justified in relation to government priorities, policy directives, and/or changes to industrial norms or national standards.

Departmental multi-year business plans are submitted for review, analysis, and compilation by the Financial Management Board Secretariat and Cabinet Secretariat before presentation to the Financial Management Board and Cabinet. They are then referred to Legislative Standing Committees for review.

Budget Development Process

b) Infrastructure Investment

Commencing with the 2002-2003 Main Estimates, the Government adopted a revised capital planning process. The capital planning process provides for one capital investment target with all Departmental projects competing for the available funding. The result is that projects are prioritized on a government wide basis versus a departmental basis.

The capital planning process for each planning cycle starts with community consultations. Community consultations are conducted to ensure communities are:

1. consulted annually on their capital needs;
2. provided explanations on the allocation of resources to capital investment; and the application of priority criteria along with the political and other influences on the process will be provided; and
3. provided direct feedback on the consultations, including feedback to communities on the inclusion or exclusion of community projects in the capital plan or capital needs assessment; and if requested, a follow-up meeting with the communities to explain the capital plan and disposition of their proposed projects.

The results from community consultations are taken into consideration in the development of the initial capital needs assessments completed by departments. Projects included in the first five years of the needs assessment are then rated against a common set of criteria.

The rating of the proposed Infrastructure projects and the available funding are taken into consideration in developing a preliminary Infrastructure acquisition plan. The preliminary plan is first reviewed by a Deputy Ministers Steering Committee and secondly by the Financial Management Board prior to a review by Standing Committees and the final approval when presented in the Main Estimates to the Legislative Assembly. Changes to the plan can be affected through any of the reviews prior to final approval.

Draft Multi-Year Business Plans are reviewed by the Financial Management Board and then released to the Legislative Assembly for review by Standing Committees. Standing Committee comments and recommendations are considered by the Government in finalizing the Business Plans and preparing the Main Estimates.

3. *Main Estimates Development Process*

Once the multi-year business plans and infrastructure acquisition plan have been reviewed by Standing Committees, departments proceed to prepare their annual estimates.

There is a minimum level of detail required in the development of the Main Estimates; departments may budget at more detailed levels, for internal purposes, as deemed necessary. Each department is responsible for the development of their budget. In this development a minimum level of detail is established which will meet the requirements of the Main Estimates and provide for the budget to be loaded into the Financial Information System.

The Financial Management Board Secretariat coordinates all department information to produce the Main Estimates and is responsible for coordinating the input of the budget into the Financial Information System once it is approved by the Legislative Assembly.

The Main Estimates are reviewed by the Financial Management Board Secretariat for uniformity, consistency of presentation and adherence to targets and guidelines. The Financial Management Board then approves the Draft Main Estimates for forwarding to the Legislative Assembly Standing Committees for their review prior to the commencement of the Budget Session.

Budget Development Process

4. *Budget Address Development*

Under the direction of the Minister of Finance, the Department of Finance drafts the text of the budget address.

The budget address includes an outline of current trends and anticipated developments and identifies the government plan of action, related to its established strategies and priorities, for the upcoming fiscal year.

In addition, the address highlights or announces new tax and program initiatives and their expected impacts on the economy and government revenues or expenditures.

5. *Presentation to the Legislative Assembly*

Following the presentation of the Budget Address to the Legislative Assembly by the Minister of Finance, the Main Estimates are released to Members of the Legislative Assembly, the general public, and the media. After the Legislative Assembly has completed its review, the Assembly approves the Appropriation Act.

6. *Preparation and Entry of Approved Budgets into the Financial Information System*

The departments are required to provide the detailed data and coding structure, in a format established by the Financial Management Board Secretariat, for entry of the budget into the Financial Information System.

This function of budget entry consists primarily of the distribution of the annual budget by months. A number of computer-assisted tools are available to departments for this purpose (e.g. historical records, budget year payroll patterns).

The Financial Management Board Secretariat reviews the monthly budget flows and budget totals are confirmed against the amounts approved by the Legislative Assembly before transference to the Financial Information System.

The actual transfer is completely automated and is organized so that departmental budgets are in place on April 1.

7. *Variance Reporting - Monitoring of Expenditures and Revenues against Budgets*

During the course of the year, the Financial Information System produces monthly reports comparing year-to-date revenues and expenditures to the year-to-date budget.

Departments must formally respond monthly to the Financial Management Board on the status of their expenditures and revenues-to-date, as compared to budget, and provide projections to year-end.

The Financial Information System is fully automated and exercises absolute control at the Vote/Department/Regional level. The system will not allow further expenditures by a department if the expenditure will cause the department to exceed its budget. At the activity level, the system issues a warning when an activity budget is about to be exceeded.

In the capital process, this absolute system control extends to the capital project level. A formal project variance/status review is conducted by the Financial Management Board, quarterly, on a schedule that relates to critical stages of the capital expenditure process.

The variance information and revised year-end projections, obtained through the expenditure and revenue monitoring mechanisms, are used during the year to monitor actual performance against the Government's fiscal framework and anticipate requirements for supplementary appropriations.

Budget Development Process

8. *Supplementary Estimates*

During the course of any given year, increases may be required to a department's spending authority. This is accomplished by way of Supplementary Estimates. They are presented to the Legislative Assembly, for approval, during regular sittings of the House.

In emergency situations, the Financial Management Board may recommend a Special Warrant to the Commissioner for advanced spending authority, to allow a department to respond quickly to a new or unforeseen need that meets the criteria of an emergency as defined by the Financial Administration Act. The Special Warrant is included in the subsequent Supplementary Estimate.

Upon approval of Supplementary Estimates by the Legislative Assembly, budget entries are prepared and entered into the Financial Information System.

9. *Results Reporting*

All departments establish performance measurement systems to monitor both the administrative outputs and the broader outcomes of their programs and services. In addition, departments publish key outcomes, measures and targets in their multi-year Business Plans. At the end of each fiscal year, the Financial Management Board Secretariat co-ordinates the development of a departmental report to the Legislative Assembly on results achieved during the year, with specific reference to the outcomes and measures in the Business Plan.

The report "Toward Improved Accountability" relates the departmental goals and strategies to the Government-wide goals as well as reporting the results achieved and how the department measured up against the targets included in the Business Plans. The report also includes a series of Government-wide measures mainly comprised of statistical information, which illustrates how the Northwest Territories compares to other jurisdiction
