WEBSITES OF INTEREST

<http://www.library.utoronto.ca/guides/canparl>

Canadian Parliamentary Publications: A Research Guide.

This reference resource is a guide to the major publications produced on behalf of Canada's Parliament since Confederation (1867). The primary focus is on publications widely available to the general public.

The information provided in this guide includes a brief description of the parliamentary publication, coverage dates and index availability. A section on Reference Resources supplements this information by providing references to key internet sites and print research resources. Links are provided to relevant online sites. The print resources are linked to titles available in Data, Map and Government Information Services at the University of Toronto Library.

http://www.hm-treasury.gov.uk/independent_reviews/stern_review_economics_climate_change/stern_review_report.cfm

The Stern Review Report on the Economics of Climate Change is a major report from the UK Treasury on how economies can be green and grow at the same time. The report covers economics, ethics and climate change, policy responses for mitigation, implications of climate change for development, accelerating technological innovation, the challenges of international collective action, and many other issues including the economics of adaptation.

The Stern Report is available to be downloaded on a chapter-by-chapter basis or in parts covering broader themes.
