Arctic Back Issues Digitized

As the polar world gets set to celebrate the launch of the 4th International Polar Year (IPY) on March 1, 2007, the Arctic Institute of North America is pleased to announce the completion of its first IPY project: the digitization of the journal **Arctic**. All back issues of *Arctic* from Volume 1, Number 1 published in 1948 to Volume 57, Number 1 (2004) are now freely available on the **Arctic** contents page of the AINA website. More than 2400 articles, notes, commentaries, expedition reports, news items, and obituaries from the back issues are now mounted on the AINA publications server. For current issues, Portable Document Format

(PDF) files of papers and notes are made available three years after publication, at which time issues are marked with a PDF icon. All *Arctic* PDF files are also available via links from their records in Arctic Institute of North America's ASTIS database. More than 7200 ASTIS records now provide links to PDF files using standard web addresses (URLs) or digital object identifiers (DOIs).
