

EMPLOYMENT OPPORTUNITY

**Structural Standards Engineer
(Transfer Assignments will be considered)
Structures Section / Highways & Marine Services Division
Department of Transportation
Yellowknife, NT**

If you are looking to join a dedicated team of engineering professionals that provides leadership and technical expertise in support of the Northwest Territories' development of highway bridge design guidelines and standards, then the Department of Transportation offers an outstanding opportunity to have a fast-paced, exciting, and varied career with excellent pay, benefits and career opportunities. Come experience the Northwest Territories.

The Structural Standards Engineer reports to the Head, Highway Structures and will review bridge designs and advise the Section on conformance with structural and safety standards, and effectiveness in cost and performance.

This position requires an individual with demonstrated knowledge and understanding of complex structural design and analysis; extensive working knowledge of related engineering areas including materials, fabrication, construction, corrosion, hydrotechnical, geotechnical, highway functional requirements, roadside safety, geometrics and environmental issues; and proven analytical and problem solving skills, combined with common sense and creativity.

These skills are typically acquired through a degree in civil engineering, professional membership with NAPEGG, and a minimum of ten years experience in the design of bridges. Equivalencies will be considered.

The salary starts at approximately \$83,597.00 per annum plus an annual Northern Allowance of \$2,500.00.

Candidates must clearly identify their eligibility in order to receive priority consideration under the Affirmative Action Policy.

Ref # 2006-31-4517-4

Closing Date: Open until a suitable candidate is found.
