

## **GNWT Knowledge Management Strategy**

On June 7th, 2002, the Financial Management Board approved the Government of the Northwest Territories' Knowledge Management Strategy.

The Knowledge Management Strategy is comprehensive and integrated set of initiatives to; standardize and support the technology infrastructure in use by the GNWT, plan and manage systems projects and, strengthen the use of information and the management of knowledge within the GNWT.

The Knowledge Management Strategy supports the vision of the Informatics Policy Committee for the use of information technologies in the GNWT, stated as:

"Information technologies will support the effective and efficient delivery of government programs and services to Northerners and, within available resources, the benefits of information technology will be extended to the Northern Public."
