

## **Fisheries Biologists Positions**

Rescan Environmental Services Ltd. is a leader in providing environmental and engineering solutions to the resource industry. In 25 years, Rescan has completed hundreds of projects on 6 continents around the world. Due to incredible demand for our services we are currently seeking Fisheries Biologists for our Vancouver office.

The ideal candidates will have a Masters or a Ph.D. in Fish Biology. We are seeking individuals with ample field experience. Responsibilities will include conducting fisheries surveys (stream and lake inventories, and habitat assessments), data analysis, and report writing. Electrofishing and gillnetting experience would be assets as well as experience with fish habitat restoration. Candidates with a Bachelors degree and five years of professional experience will be considered.

Rescan offers competitive salary, excellent benefits package, and a very friendly work environment. To apply, send a cover letter and resume to François Landry at [flandry@rescan.com](mailto:flandry@rescan.com). For more information, contact François at 604-689-9460. We are planning to fill these positions immediately. Website: [www.rescan.com](http://www.rescan.com).

We thank all candidates for their interest; however, only those selected for an interview will be contacted.
