

## Graduate Research Assistants Aquaculture

The Department of Forestry and Natural Resources, Purdue University invites applications for Graduate Research Assistants at all levels. Current research topics include development of fish meal-free diets and integration of fish culture into Advanced Life Support Systems. Students will be expected to use modern analytical methods such as protein expression to answer basic nutritional and physiological questions about fish and shellfish aquaculture. Prior experience in aquaculture and molecular biology desirable. Species available for research include largemouth bass, yellow perch, hybrid striped bass, marine shrimp, rainbow trout and zebrafish. Please apply on-line at <http://www.gradschool.purdue.edu/Admissions/>. For more details, please contact Dr. Paul Brown, [pb@purdue.edu](mailto:pb@purdue.edu), 765-494-4968. Purdue University is an Equal Opportunity, Affirmative Action Institution.
