

Medical Humanities Presentation

Arts for Health: A Presentation and Workshop

JAN STEEN. *The Sick Lady*. Mid 17th century. Oil on canvas.

Since 1990 when they founded the Waterford Healing Arts Trust, Drs. Jordan and Bulbulia have been pro-active in promoting the practice of arts for health both in Ireland and abroad. They have also contributed to several European conferences on this subject, and have recently been invited by the Director of the new graduate entry medical school at the University of Limerick, Prof. Paul Finucane, to devise a course module on medical humanities. There is a possibility that this would become a standard component of Irish medical courses.
