Grades 9-12

# MARINE INSTITUTE Summer Camps

The Marine Institute offers summer camps that will allow you to explore exciting career options available in the marine and related industries!

## Marine Pursuits

An amazing opportunity to learn about exciting career options available in the marine and related industries. Participants of the week-long residential program are provided with the chance to explore marine careers through hands-on learning activities in a variety of disciplines.

July 16-20, 2007  
St. John's campus

## NEW CAMP! Marine Pursuits 2

Completed Marine Pursuits? Join Marine Pursuits 2 and use your newly learned skills in marine systems design, marine engineering, geographic information systems, marine environmental technology, fisheries science, and marine sampling to complete an integrated team project.

July 23-27, 2007  
St. John's campus

## Underwater Robotics

Through lecture material and labs, students in this one-week residential camp will learn the basic concepts to design, build and test a small remote operated vehicle underwater in a team of four or five students.

July 16-20, 2007  
July 23-27, 2007  
St. John's campus

## Camp Glow

A free firefighting camp for young women who are interested in experiencing and learning more about a career in firefighting – a joint initiative between the Women in Resource Development Committee and the Marine Institute.

July 16-20, 2007  
Foxtrap

August 13-17, 2007  
Stephenville
