## **WE ARE EXPANDING OUR NETWORK**

Metropolis is an international network for comparative research and public policy development on migration, diversity, and immigrant integration in cities in Canada and around the world. Its activities are carried out by a membership of research and policy organizations from over 20 countries who share a vision of strengthened immigration policy by means of applied academic research. The project is dedicated to creating an active network of researchers and decision makers and providing all levels of government, community organizations and business with solid information on which to anchor policy ideas and programs.

If you would like to become a member of the Metropolis network and receive our free publications, simply fill in this form.

Thank you,  
The Metropolis Project Team
