## Asham's Rotator Sole

**Asham curling shoes** are unique in that our soles are designed specifically for curling. Asham's patented **ROTATOR** sole is just one of the latest innovations in our endless pursuit of the perfect sliding platform. The **ROTATOR's** removable sliding disks, attached to the shoe by way of Velcro®, provide the solution to solve your sliding woes.

The **ROTATOR** sole was designed to solve the challenges faced when using a typical curling shoe, specifically: drifting, reduced balance and stability and poor slider performance.

### Eliminates Drifting & Increases the Life of Your Sliders

- The sole of a shoe is longer than it is wide so the natural tendency of the foot when sliding is to go in the direction it is pointed. Circles have equal force on all areas and only travel in the direction they are "pushed", completely eliminating drifting from the delivery. It will now be easy to slide on the path.
- The grain in some sliding material, as well as worn, warped and scratched sliders cause drifting. With the Asham Rotator disk, just remove the slider, "rotate" it and put it back on the shoe until you find the straightest sliding path. This extends the life of your sliders.

### Enhances Balance and Stability

- Unlike most athletic soles that are curved from side-to-side and back-to-front, the **ROTATOR's** sliding disks lay perfectly flat, providing unmatched stability and performance.
- The disks extend beyond the width of a normal sole, further enhancing balance and stability.

### Maximum Slider Performance

- A variety of leading sliding materials are available, and the removable disks can be changed "on-the-fly", enabling curlers to perfectly match the sliding surface every time.
- Old, worn and damaged sliders are quickly replaced – that can't be done with glues!

**"What a concept. This is a winner!"**  
- Ray Turnbull, Prominent Curling Analyst

The **ROTATOR** sole is based on more than 10 years of R & D that includes testing by some of the world's best curlers. It's time to take advantage of the latest in technology and make the game just that much easier.

The **ROTATOR** sole is featured on a full line of Asham shoes, including: The New Ultra Lites, The SLAM, and The Competitor.

This Rotator sole system combined with the lightweight technology will bring your game to a whole new level.

# Asham by Luca Lovero

### The Asham by Luca Lovero On-Ice Shoe

Asham is very excited about the new curling shoe designed by Italian Designer, Luca Lovero. Originally an off-ice shoe, Asham converted it to a curling shoe with our Ultra Lite Rotator Sole technology. Combining Luca Lovero's wonderful designs and Asham's innovative curling sole concept brings you the best of both worlds. This shoe has an all leather and suede upper and comes with two gripper disks and a slip-on gripper. Sliding disks sold separately  
**140099** (Men's) / **141099** (Women's)  
 Men's – Full and Half sizes 7-12, 13, 14  
 Women's – Full and Half sizes 6-11

### The Asham by Luca Lovero Off-Ice Shoe

Asham is very excited about the new off-ice leather and suede shoe designed by Italian Designer, Luca Lovero. Luca's creations add excitement and character through both his passion for the game and his gift for design.  
**000809** (Men's) / **001809** (Women's)  
 Men's – Full and Half sizes 7-12, 13, 14  
 Women's – Full and Half sizes 6-11

### Curling Clubs Only

Offer value to your members with the Asham Rental Shoe:

- ▶ Keep your ice pristine
- ▶ Add profit to your club
- ▶ Great alternative for recreational curlers
- ▶ Comes with an Ultra Lite Rotator Sole making it easy to accommodate all curlers!

**172100** Men's – Full sizes 3-12 (1/16" Asham White)  
**172200** Men's – Full sizes 3-12 (Red Brick)

### The Right Fit

The most important thing is that your shoe fits properly. Ensure your foot has enough room in the toe box. There should be about a half inch between your toes and the end of the shoe. The shoe should be wide enough in the toe that your toes can move freely. Your heel should not slip, and the shoe should not pinch or bind, especially across the arch or ball of your foot. Also, be sure to wear the same socks you curl in. This can make a huge difference in how the shoe fits. Try on both shoes. Your feet may not be the same size. If you have any questions regarding our shoes please call us. Our goal is to find the Asham shoe that is right for you!

### Ultimate Pad-Patent Pending

Asham's has revolutionized your game again with the new Ultimate Pad! Reuse the base of this pad and simply change the top layer for less than half the price of replacing the whole pad. Refills attach by way of Velcro® so they can be changed in seconds and can accommodate "sweeping enhancers" between the base and pad refill. They are the fastest, easiest and most economical choice to keep your pad dry and most effective for the whole game.

### Asham Grooved Synthetic Pads

When sweeping on frosty ice you will notice there is snow or frost around the outside edge of the brush pad. Obviously it is the edges picking up frost. This grooved pad is designed to have more edges to pick up more frost and will therefore be more effective on frosty ice.
