# T3 Guide and Trust Return

---

97

## What's New for 1997?

### Proposed changes

This guide and return includes income tax changes that had been announced but were not law at the time of printing. These changes are outlined in red in this guide under the heading "Proposed changes."

### Schedules

Schedule 1A, *Capital Gains on Gifts of Certain Capital Property*, and Schedule 6, *Trusts' Agreement to Allocate the Basic Exemption From Minimum Tax*, are new. However, because we do not expect these to be commonly used, they are not in this guide. You can get them from any of our offices, our Electronic Data Distribution System (EDDS), and the Internet.

#### **Schedule 1A, Capital Gains on Gifts of Certain Capital Property**

Use Schedule 1A to calculate the capital gains on certain capital property donated to a charity. For more information, see page 32.

#### **Schedule 6, Trusts' Agreement to Allocate the Basic Exemption From Minimum Tax**

Certain trusts can use Schedule 6 to allocate the \$40,000 basic exemption from minimum tax. For more information, see page 34.

### Ownership of foreign property

Under proposed changes, trusts will have to report certain foreign property owned in the 1998 and subsequent taxation years. There is no requirement to report any

foreign property owned in the 1996 or 1997 taxation years. As a Canadian resident, however, a trust has to report its income from all sources, both inside and outside Canada.

### Preferred beneficiary

Changes are proposed to the definition of a preferred beneficiary. For more information, see page 13.

### Charitable donations

For taxation years that begin after 1996, the maximum claim for charitable donations is increased. For more information, see page 45.

Taxable capital gains on certain capital property donated to a charity, after February 18, 1997, are reduced. For more information, see page 32.

### Provincial income tax and income surtax rate changes

Provincial income tax rates changed in 1997 for Nova Scotia, New Brunswick, Ontario, and British Columbia. Provincial income surtax rates changed for Ontario and British Columbia. The income threshold in the calculation of Prince Edward Island surtax also changed. The calculation of Ontario income tax reduction also changed in 1997.

### Where to file?

Trustees served by the Belleville, Hamilton, Kingston, Kitchener/Waterloo, London, Peterborough, St. Catharines, Sudbury, Thunder Bay, and Windsor Tax Services Offices should now send the return to Ottawa Tax Centre, Ottawa ON K1A 1A2.

This guide uses plain language to explain the most common trust income tax situations. For easier reading, we have used the word "you" throughout the guide to mean the trustee, executor, administrator, or anyone preparing the return, supplementary, or summary for the trust. If you need more help after reading this guide, please contact us. You can find the telephone numbers listed under "Revenue Canada" in the Government of Canada section of your telephone book.

Visually impaired persons can get information on services available to them and can order publications in braille or large print, or on audio cassette or computer diskette, by calling ~~1-800-267-1267~~ weekdays from 8:15 a.m. to 5:00 p.m. (Eastern time).

La version française de cette publication est intitulée T3 – Guide d'impôt et déclaration des fiducies.

## Chapter 1 – General Information ▲

This guide contains information to help you complete the 1997 T3, *Trust Income Tax and Information Return* (T3 return). The information is only a guide. It is not a substitute for the *Income Tax Act* (the Act) or *Income Tax Regulations* (the Regulations). The headings for most items contain references to relevant provisions of the Act and the Regulations.

Throughout this guide, we refer to other publications and guides that give more detailed information. These publications are available from your tax services office, tax centre, or the Internet.

When you ask for a publication, always ask for the most recent version. If you need more help after reading this guide, please contact us.

**Internet access** – If you have access to the Internet, many of our publications and forms are available on line. Our Internet address is: <http://www.rc.gc.ca>

Confidentiality procedures prevent us from providing personal tax information over the Internet. Therefore, you should continue to direct any inquiries to your tax services office or tax centre.

### You may not need to read the whole guide ▲

If you are filing a T3 return for an estate which has only pension income, investment income, or death benefits, you do not need to read the entire guide.

We will lead you directly to the information that may relate to your situation by using a ▲ symbol. You will also find this symbol in the left margin of the return, beside the lines that may relate to your situation.

You can follow the symbol throughout the rest of the guide and the T3 return.

Before you start completing the return, be sure to read:

- "Chapter 1 – General Information," pages 4 to 8;
- the general information and "Step 1 – Identification" in Chapter 3; and
- the part of Chapter 5 preceding "Completing the T3 Supplementary slip."

### Filing requirements ▲

#### Who should file?

As the trustee of a trust, you have to file a T3 return if income from the trust property is subject to tax, and the trust:

- has tax payable;
- has a taxable capital gain or has disposed of a capital property;
- has provided a benefit of more than \$100 to a beneficiary under subsection 105(2) for upkeep, maintenance, or

taxes for property maintained for the beneficiary's use (for more information, see "Line 43" on page 19); or

- receives from the trust property any income, gain, or profit that is designated, paid, or payable to one or more beneficiaries, and the trust has:
  - total income of more than \$500 on line 20 on page 2 of the T3 return; or
  - income of more than \$100 designated, paid, or payable to any single beneficiary; or
  - allocated any portion of the income to a non-resident beneficiary.

You may not have to file a T3 return if the estate is distributed immediately after the person dies, or if the estate did not earn income before the distribution. In these cases, you should give each beneficiary a statement showing his or her share of the estate.

### Additional guidelines

- The trustee for a **related segregated fund trust** has to file a T3 return for its registered and non-registered funds.
- The deemed trustee for a **communal organization** has to file a T3 return. See Information Circular 78-5, *Communal Organizations*.
- The custodian for an **employee benefit plan** and the trustee for an **employee trust** have to file a T3 return if the plan or trust has tax payable, has a taxable capital gain, or has disposed of capital property. The custodian or trustee should report the beneficiaries' income on Form T4, *Statement of Remuneration Paid*, rather than on Form T3 Supplementary, *Statement of Trust Income Allocations and Designations*. For more information, see Interpretation Bulletin IT-502, *Employee Benefit Plans and Employee Trusts*.
- The officers of a club, or the corporation if the club is incorporated, deemed to be the trustees for a **non-profit organization**, the main purpose of which is to provide dining, recreational, or sporting facilities for its members, have to file a T3 return if the organization has tax payable, has a taxable capital gain, or has disposed of capital property. See "Non-profit organization" on page 11.
- The trustee for an agricultural organization, board of trade, chamber of commerce, or non-profit organization that is exempt from tax under paragraph 149(1)(e) or (l) has to file Form T1044, *Non-Profit Organization (NPO) Information Return*, if either of the following applies:
  - The organization received, or was entitled to receive, more than \$10,000 in dividends, interest, rents, or royalties, or any combination thereof, in the fiscal period.
  - The total book value of its assets was more than \$200,000 at the end of the preceding fiscal period.

If you have to file Form T1044, *Non-Profit Organization (NPO) Information Return*, for this taxation year, you will also have to file one for all future years in which the organization exists, regardless of the dollar value of the organization's revenues or the book value of its assets.

For more information about non-profit organizations, see the income tax guide called *Income Tax Guide to the Non-Profit Organization (NPO) Information Return*.

- The trustee for each of the trusts listed below has to file a different type of T3 return for each trust or group of trusts:
  - registered retirement savings plan (T3R-G, T3R-IND);
  - amended registered retirement savings plan (T3R-G, T3R-IND);
  - registered retirement income fund (T3RIF-G, T3RIF-IND);
  - deferred profit-sharing plan (T3D);
  - revoked deferred profit-sharing plan (T3D);
  - registered pension fund or plan (T3P);
  - supplementary unemployment benefit plan (T3S);
  - registered investment (T3RI); and
  - qualified investment (T3F).

For more information, see Information Circular 78-14, *Guidelines for Trust Companies and Other Persons Responsible for Filing T3R-IND, T3R-G, T3RIF-IND, T3RIF-G, T3H-IND, T3H-G, T3D, T3P, T3S, T3RI, and T3F returns*.

- The trustee of a trust or group of trusts governed at any time in the year by a registered education savings plan has to file a T3E-G, *Registered Education Savings Plan (Group) Information Return*. For more information, see Information Circular 93-3, *Registered Education Savings Plans*.
- A registered Canadian amateur athletic association acting as a trustee for **amateur athlete trusts** has to file an annual return for the amateur athlete trusts. The return is Form T1061, *Canadian Amateur Athlete Trust Group Information Return*. If the trust makes a payment to a non-resident athlete, complete Form T3ATH-IND, *Amateur Athlete Trust Income Tax Return*. The trustee has to prepare a T3 Supplementary, *Statement of Trust Income Allocations and Designations*, for a resident athlete. For a non-resident athlete, the trustee has to prepare an NR4 Supplementary, *Statement of Amounts Paid or Credited to Non-Residents of Canada*.
- The custodian of a **retirement compensation arrangement (RCA) trust** has to file Form T3-RCA, *Part XI.3 Tax Return – Retirement Compensation Arrangement (RCA)*, and, if there is an employee benefit portion, Form T3, *Trust Income Tax and Information Return*. The custodian of an RCA trust has to prepare Form T4A-RCA, *Statement of Amounts Paid in Respect of a Retirement Compensation Arrangement (RCA)*, to report any distributions to retired employees made out of an RCA during the year. For more information, see the *Retirement Compensation Arrangement Guide*.
- The custodian of an **eligible funeral arrangement** has to file a T5 Summary, *Return of Investment Income*, and T5 Supplementary, *Statement of Investment Income*, for a taxation year in which funds were returned from an eligible funeral arrangement to a contributor, or his or

her estate. For more information, see the income tax guide called *T5 Guide – Return of Investment Income*.

- The trustee for a **registered charity** has to file Form T3010, *Registered Charity Information Return and Public Information Return*. For more information, see the income tax guide *Completing the Registered Charity Information Return*.
- A trustee or receiver appointed under the *Bankruptcy Act* who is acting for an individual has to file an individual income tax (T1) return rather than a T3 return.
- An agent, nominee, or custodian who is acting for a resident of Canada, but not acting in a fiduciary capacity, has to file a T5 Summary, *Return of Investment Income*, and T5 Supplementary, *Statement of Investment Income*, for payments of investment income. For more information, see the income tax guide called *T5 Guide – Return of Investment Income*.
- The trustee of a **mining reclamation trust** has to file Form T3M, *Environmental Trust Income Tax Return*. The instructions for filing this return are with Form T3M.

#### Proposed changes – From tax changes announced February 18, 1997

After February 18, 1997, the rules for mining reclamation trusts are extended to qualifying environmental trusts connected with the reclamation of property used for waste disposal or aggregate extraction.

- The trustee of a **trust with a foreign affiliate that is not a controlled foreign affiliate**, has to file Form T1134-A, *Information Return Relating to Foreign Affiliates That Are Not Controlled Foreign Affiliates*. Form T1134-A contains more information about filing.
- The trustee of a **trust with a controlled foreign affiliate trust or corporation**, has to file Form T1134-B, *Information Return Relating to Controlled Foreign Affiliates*. Form T1134-B contains more information about filing.
- The trustee of a **trust which, after 1995, has transferred or loaned any amount to a controlled foreign affiliate or a foreign trust**, or whose controlled foreign affiliate has transferred or loaned any amount to a controlled foreign affiliate or to a foreign trust (except specified foreign pension plans, specified foreign mutual fund trusts, and trusts governed by foreign retirement arrangements) has to file Form T1141, *Information Return in Respect of Transfers or Loans to a Non-Resident Trust*. Form T1141 contains more information about filing.
- The trustee of a **trust that receives distributions from, or is indebted to, a foreign trust** in which it has a beneficial interest, (except specified foreign pension plans and trusts governed by foreign retirement arrangements) has to file Form T1142, *Information Return in Respect of Distributions From and Indebtedness to a Non-Resident Trust*. Form T1142 contains more information about filing.

#### What to file?

- One copy of Form T3, *Trust Income Tax and Information Return*, and any related schedules, and statements.
- Special T3 returns, information returns, and other returns as required – see the appropriate section under

“Additional guidelines” on page 4 for the guidelines that apply to your trust.

- One copy of each of Forms T3 Summary, *Summary of Trust Income Allocations and Designations*, and T3 Supplementary, *Statement of Trust Income Allocations and Designations*.
- NR4 Summary and NR4 Supplementary for non-resident beneficiaries – for more information, see “Completing the NR4 return” on page 45.
- T4 Summary and T4 Supplementary for beneficiaries of employee benefit plans or employee trusts, and executor and trustee fees – see “Lines 22 to 24 – Trustee fees” on page 18.
- T4A-NR Summary and T4A-NR Supplementary for executor and trustee fees paid to a non-resident of Canada – see “Lines 22 to 24 – Trustee fees” on page 18.
- T4A Summary and T4A Supplementary for payments of scholarships, fellowships, bursaries, prizes, and research grants.

For more information on completing T4, and T4A slips, see the *Employers’ Guide to Payroll Deductions – Basic Information*. For more information on completing T4A-NR and NR4 slips, see the *Non-Resident Withholding Tax Guide*. You have to file these forms no later than the **last day of February** of the year following the year in which the amounts were paid.

You will find two copies of the T3 return, and commonly used schedules in the centre of this guide. You can get copies of the return, all schedules, summary forms, and supplementary slips (NR4, T3, T4, T4A, and T4A-NR) from any of our offices, our Electronic Data Distribution System (EDDS), or the Internet.

Use the most recent versions available. The year appears at the top-right corner of the return and at the top-left corner of the schedules.

If you are filing a return for an earlier year, please complete the return and schedules designed for that year, because different tax rates and rules may apply.

If you want to use customized forms, you have to get our approval. For details, see Information Circular 97-2, *Customized Forms – Returns and Information Slips*.

## When to file?

You have to file the T3 return no later than 90 days after the end of the trust’s taxation year. For more information on the trust’s taxation year, see “Taxation year” on page 7.

If the information slips required to determine the income to report on the T3 return are not available when the return is due, **estimate** the income. If, when you receive the slips, you determine that the estimate is inaccurate, send the slips and a letter to us, requesting an adjustment to the trust’s income. Include the trust’s account number on the letter.

The required filing date may fall on a Saturday, Sunday, or statutory holiday. In this case, we will accept the return as filed on time if it is delivered on the first working day, or if the postmark on the envelope is the first working day, after the **required filing date**.

If you mail the T3 return first-class, or if you use an equivalent delivery service, we consider the date of the postmark on the envelope to be the day you filed the return.

You should also pay any balance due no later than 90 days after the trust’s taxation year end. For information on late-filing penalties and interest on unpaid taxes, see “Penalties and interest” on page 7.

## Final return

If you are filing the final return for the trust, you have to enter the wind-up (discontinuation) date on page 1 of the T3 return. If a **testamentary trust** is wound up during a taxation year, the taxation year of the trust will end on the date of the final distribution of the assets. You have to file this final return, and pay any taxes owing no later than 90 days after the end of the trust’s winding-up date. If an **inter vivos trust** is wound up during a taxation year, you may want to file a final return before the end of the trust’s taxation year. However, you should get a clearance certificate before you distribute the trust property. For more information, see “Clearance certificate” on page 8.

## Where to file?

The mailing address of the trustee, rather than the address of the trust, determines the office to which you should mail the return. Trustees served by the tax services office listed on the left, should send the return to the office listed on the right.

Tax services offices	Office
Bathurst, Charlottetown, Halifax, Moncton, Newfoundland and Labrador, Saint John, and Sydney	St. John’s Tax Centre <a href="#">St. John’s NF A1B 3Z1</a>
Chicoutimi, Québec, Rimouski, Rouyn-Noranda, Sherbrooke, and Trois-Rivières	Jonquière Tax Centre <a href="#">Jonquière QC G7S 5J1</a>
Laval, Montréal, Montérégie-Rive-Sud, and Outaouais	Shawinigan-Sud Tax Centre <a href="#">Shawinigan-Sud QC G9N 7S6</a>
Belleville, Hamilton, Kingston, Kitchener/Waterloo, London, Ottawa, Peterborough, St. Catharines, Sudbury, Thunder Bay, Toronto Centre, Toronto East, Toronto North, Toronto West, and Windsor	Ottawa Tax Centre <a href="#">Ottawa ON K1A 1A2</a>
Calgary, Edmonton, Regina, Saskatoon, and Winnipeg	Winnipeg Tax Centre <a href="#">Winnipeg MB R3C 3M2</a>
Burnaby-Fraser, Southern Interior B.C., Northern B.C. and Yukon, Vancouver, and Vancouver Island	Surrey Tax Centre <a href="#">Surrey BC V3T 5E1</a>

If you have any questions about trusts resident in Canada, call or visit any of our offices. You will find the telephone numbers listed under "Revenue Canada" in the Government of Canada section of your telephone book.

## Non-resident trusts

If you are a trustee, executor, administrator, or other legal representative who manages the trust or controls trust assets, and you live outside Canada, you should mail the trust return to:

International Tax Services Office  
Revenue Canada  
2204 Walkley Road  
Ottawa ON K1A 1A8

If you have any questions about non-resident trusts, call the International Tax Services Office.

When calling from:

The Ottawa area .....952-8753  
Other Canadian and U.S. locations..... 1-800-267-5177  
Outside Canada and U.S.\* ..... 1-613-952-8753

\* We accept collect calls.

## Residence of trust ▲

A trust may be a resident of Canada, or a non-resident of Canada. It may be a resident of a province or territory within Canada. Residency is a question of fact to be determined according to the circumstances in each case. However, we usually consider a trust to reside where the trustee, executor, administrator, or other legal representative who manages the trust or controls the trust's assets lives. For more information, see Interpretation Bulletin IT-447, *Residence of a Trust or Estate*.

## Taxation year ▲

104(23), 248, 249(1)(b)

### Testamentary trust

A testamentary trust is a trust or estate that is created on the day a person dies. For a more complete definition, see "Testamentary trust" on page 9.

The taxation year of a testamentary trust may, but does not have to, coincide with the calendar year. The first taxation period of the trust begins on the day after the person dies, and ends at any time the trustee selects within the next 12 months. The tax rates used, and the tax year of the T3 slips issued to the beneficiaries, are based on the year end of the trust.

Once you establish the trust's year end, you cannot change it without our approval. For more information, see Interpretation Bulletin IT-179, *Change of Fiscal Period*.

There are several reasons why you may prefer to choose a calendar year end, that is, December 31, for a testamentary trust.

- Availability of forms – The current-year trust returns and related schedules are usually not available until the end of the calendar year. That is, the 1998 T3 returns and schedules will not be available until the end of 1998. A 1998 return due before the forms are available would

have to be filed on a 1997 form. Also, the 1997 return may not contain current-year changes or information.

- Minimum delay in assessing – Amendments to the Act generally require changing the return processing procedures. If the return has a taxation year ending early in a calendar year, we may have to delay assessing the return until Parliament passes the legislation and the new procedures are in place.
- Easier form completion – Generally, it is easier to complete forms and to interpret rules when the taxation year coincides with the calendar year.
- Availability of information – Most information slips for income amounts are issued for a calendar year (e.g., T5 slip for bank interest).

There also may be advantages if you choose a non-calendar year end as the date for the trust's year end. Elections to transfer certain estate losses incurred and certain gains realized on employee stock options during the first taxation year of the trust, to the deceased person's return for the year of death, and the timing of income receipts may play an important role when you choose the trust's taxation year.

## Inter vivos trust

An inter vivos trust is a trust other than a testamentary trust.

The taxation year of an inter vivos trust always has to coincide with the calendar year.

## Penalties and interest ▲

### Late-filing penalties

162(1), (2), (7), 238(1), Regulation 209

There is a penalty for not filing an **income tax return** by the required date. The penalty is the total of 5% of the unpaid tax, plus 1% of the unpaid tax for each full month, to a maximum of 12 months, that the return is late. This penalty will apply when income is taxable in the trust.

A greater penalty may apply if we issue a demand to file the return under subsection 150(2). The penalty will apply if we assessed a late-filing penalty for any of the three preceding taxation years. This penalty is the total of 10% of the unpaid tax, plus 2% of the unpaid tax for each complete month (to a maximum of 20 months) that the return is late.

There is a penalty for not filing an **information return** by the required date. The penalty is \$25 a day, with a minimum penalty of \$100, to a maximum of \$2,500. It applies when you allocate and designate income to recipients and you file the return late, or when you distribute the slips to the recipients late. This penalty will also apply if you fail to provide two copies of each information slip to each person to whom the information relates.

Persons who do not file an income tax or information return as required under the Act or Regulations are guilty of an offence. If convicted, they are liable to a fine ranging from a minimum of \$1,000 to a maximum of \$25,000, or to a fine and imprisonment for a term of up to 12 months.

## Interest

161, 164(3), 248(11), Regulation 4300, 4301, 4302

We charge interest at a prescribed rate on unpaid amounts. We compound interest daily from the date the return was due until the date of payment.

We pay compound daily interest on a tax refund starting on the latest of:

- the 46th day after the return is due to be filed (136 days after the year end of the trust);
- the 46th day after the return is filed; or
- the day the overpayment arises.

## Waiver of penalty and interest

220(3.1)

We may cancel, or waive all or a portion of the late-filing penalty and any interest if you file late because of circumstances beyond your control. If this happens, include a letter with the return giving reasons. For more information, see Information Circular 92-2, *Guidelines for the Cancellation and Waiver of Interest and Penalties*.

## Reassessments

152(3.1), 152(4), 152(4.1), 152(4.2), 244(14), 244(15)

We usually base our initial assessment on the income you report. Later, we may select your return for a more in-depth review or audit.

We can reassess your return, make additional assessments, or assess tax, interest, or penalties within:

- three years (four years for mutual fund trusts) from the date we mailed your original *Notice of Assessment* or a notice that no tax was payable for the taxation year. We consider the date appearing on the notice to be the date that we mailed it; or
- six years (seven years for mutual fund trusts) from the date we mailed your original *Notice of Assessment* to allow or change a carryback of certain deductions such as a loss or an unused investment tax credit.

For more information, see Information Circular, 75-7, *Reassessment of a Return of Income*.

In certain cases, we can reassess a **testamentary trust** as far back as 1985 to give you a refund or reduce the tax owing. For complete details, see Information Circular, 92-3, *Guidelines for Refunds Beyond the Normal Three Year Period*.

We can also reassess a T3 return at any time if:

- you file Form T2029, *Waiver in Respect of the Normal Reassessment Period*, with your tax services office before the normal reassessment period expires; or

- you have made a misrepresentation because of neglect, carelessness, willful default, or fraud in either filing the return or supplying information required by the Act.

If you want to revoke a waiver you previously filed to extend the reassessment period for a certain taxation year, file Form T652, *Notice of Revocation of Waiver*. The revocation will take effect six months after you file Form T652.

## Elections

220(3.2), Regulation 600

In certain cases, you can make a late or amended election, or revoke an original election, for taxation years back to 1985. To do this, you have to provide the details to us in writing. For more information, see Information Circular 92-1, *Guidelines for Accepting Late, Amended or Revoked Elections*.

## Books and records

230, Regulation 5800

You have to keep books and records to verify the accuracy of the reported gross and net incomes from business or property, for the period or periods outlined in the Act and Regulations. You can request written permission to dispose of such books and records. For details, see Information Circular 78-10, *Books and Records Retention/Destruction*.

## Clearance certificate

159(2), (3)

Every administrator, executor, and trustee has to get a clearance certificate before distributing any property under his or her control. However, you do not need a clearance certificate before each distribution provided you keep sufficient property to pay any liability to us. By getting this certificate, you will avoid being personally liable for unpaid taxes, interest, and penalties.

We cannot issue a clearance certificate until:

- you have filed all the required T3 returns and we have assessed them; and
- you have paid or secured all taxes, interest, and penalties.

After you receive the final *Notice of Assessment*, and have paid or secured any balances owing, complete Form TX19, *Asking for a Clearance Certificate*. Send the completed Form TX19 to the Assistant Director, Client Services Division, at the appropriate tax services office.

Please send us all the information that we request on Form TX19, such as the will or trust documents. This will help us to issue the certificate without delay. You do not have to resubmit documents that you have already filed with us. For more information, see Information Circular 82-6, *Clearance Certificate*.

## Types of trusts

### Testamentary trust

108(1), 248(8), (9.1)

A testamentary trust is a trust or estate that is created on the day a person dies. The terms of the trust are established by the will, by law where there is no will, or by court order pursuant to provincial dependant's relief or support legislation.

A testamentary trust does not include:

- a trust created by a person other than a deceased individual;
- a trust created after November 12, 1981, if any property was contributed to it other than by an individual on his or her death; or
- a trust created before November 13, 1981, if:
  - after June 28, 1982, property was contributed to the trust other than by an individual on his or her death or
  - more than 50% of the fair market value of the property owned by the trust was contributed to the trust other than by an individual on his or her death. In this case, the fair market value of property refers to its fair market value on the date that the trust acquired the property.

If you retain control of the assets instead of distributing them to the beneficiaries according to the terms of the will, the testamentary trust may become an inter vivos trust. If this is the case, you have to change the taxation year of the trust to the calendar year if the trust is not already filing on this basis. On the first return with a December 31 year end, attach a note to explain the situation. In the year of change, the taxation year may be less than, but not more than, 12 months.

### Inter vivos trust

108(1)

An inter vivos trust is a trust other than a testamentary trust.

The following paragraphs explain other definitions and terms that we use to further describe testamentary and inter vivos trusts.

### Grandfathered inter vivos trust

A grandfathered inter vivos trust is an inter vivos trust established before June 18, 1971, which:

- was resident in Canada without interruption from June 18, 1971, until the end of the taxation year;
- did not carry on any active business in the taxation year;
- did not receive any property by way of a gift since June 18, 1971; and
- after June 18, 1971, did not incur any debt or obligation to pay an amount to, or guaranteed by, any person with whom any beneficiary of the trust was not dealing at arm's length.

### Personal trust

248(1)

A personal trust can be either:

- a testamentary trust; or
- an inter vivos trust in which no beneficial interest was acquired for consideration payable either to the trust, or to a person who contributed to the trust.

The person or related persons who create an inter vivos trust may acquire all the interests in it without the trust losing its status as a personal trust.

We consider any trust that does not meet the definition of **personal trust** to be a commercial trust.

### Spousal trust

70(6), 73(1)(c)

The term spousal trust refers to both pre-1972 and post-1971 spousal trusts. The descriptions of those trusts appear below. Also see the definition of the term **spouse** on page 13.

### Pre-1972 spousal trust

108(1)

A pre-1972 spousal trust includes both a testamentary trust created before 1972, and an inter vivos trust created before June 18, 1971, for which the beneficiary spouse was entitled to receive all of the income of the trust during his or her lifetime. The trust will not qualify as a pre-1972 spousal trust if, during the period described below, a person other than the beneficiary spouse received or otherwise got the benefit of the trust income or capital.

These conditions must be met throughout the period that begins on the day the trust was created, and ends on whichever of the following dates is the earliest:

- the day the beneficiary spouse dies;
- January 1, 1993; or
- the day on which the definition is applied.

### Post-1971 spousal trust

104(4)(a)

A post-1971 spousal trust includes both a testamentary trust created after 1971, and an inter vivos trust created after June 17, 1971, when the living beneficiary spouse is entitled to receive all the income of the trust that may arise during the spouse's lifetime and is the only person who can receive, or otherwise get, the use of any income or capital of the trust during the spouse's lifetime.

### Trust for a minor

104(18)

A minor beneficiary of a testamentary or inter vivos trust may have a vested right to the income of a trust. In this case, income of the trust that has not become payable to a minor beneficiary in the year is considered payable to the minor if:

- the trust is resident in Canada throughout the year;

- the beneficiary is under 21 years of age at the end of the year; and
- the beneficiary's right to income is vested before the end of the year, did not become vested due to the exercise or non-exercise of a discretionary power, and is not subject to any future condition other than the condition that the beneficiary survive to an age of not more than 40 years.

For more information, see Interpretation Bulletin IT-286, *Trusts – Amount Payable*.

### Unit trust

108(2)(a), (b)

A unit trust is an inter vivos trust in which the interest of each beneficiary in the trust can be described at any time by referring to units of the trust. The trust has to satisfy the other conditions of paragraph 108(2)(a) or (b) of the Act.

### Mutual fund trust

132(6), 132(7), Regulation 4801, 4803

A mutual fund trust is a unit trust that resides in Canada, and its only undertaking is the investing of its funds in property (other than real property), and/or acquiring, maintaining, leasing, or managing real property that is capital property of the trust. Such a trust has to comply with the conditions prescribed under Regulation 4801.

### Communal organization

143

We consider an inter vivos trust to exist when a congregation:

- has members who live and work together;
- does not permit its members to own property in their own right;
- requires that its members devote their working lives to the activities of the congregation; and
- carries on one or more businesses directly, or manages or controls the businesses through a business agency, such as a corporation or trust, to support or sustain its members or the members of another congregation.

The deemed trustee for a **communal organization** has to file a T3 return. The communal organization has to pay tax as though it were an inter vivos trust. However, it can elect to allocate its income to the beneficiaries. Information Circular 78-5, *Communal Organizations*, deals with this subject in detail.

### Employee benefit plan

6(1)(g), 6(10), 12(1)(n.1), 18(1)(o), 32.1, 248(1)

An employee benefit plan is an arrangement under which an employer makes contributions to fund benefits for employees or former employees. The employer can deduct contributions to the plan only when they are distributed to employees or to former employees, or to their legal heirs or representatives. At the same time, the recipient includes in income the amount received from the employee benefit plan, minus any contributions the employee made. We consider amounts the employee or heirs receive to be

income from an office or employment. Report these amounts on a T4 slip, not a T3 slip. For more information, see the *Employers' Guide to Payroll Deductions – Basic Information*.

When an employee benefit plan is a trust, the trust is taxed on its income under Part I of the Act:

- Contributions to the plan are not included in the trust's income when received, and they are not deducted from income when paid out.
- The trust has to include in its income the amount of income from the investment of trust property. The trust can deduct expenses related to earning this investment income and the income that is paid to the employees or employer. If you do not pay the income annually to the beneficiaries, distributions that you make in later years will be taxed again as employment income in the employee's hands.

To be recognized as an income beneficiary, the employer must have unrestricted right, title, and use of the income paid to the employer. If a payment is conditional on its repayment to the trust, we do not accept it as a bona fide payment. This income will be taxed in the hands of the trust.

The custodian for the **employee benefit plan** has to file a T3 return if the plan has tax payable, has a taxable capital gain, or has disposed of capital property. Complete Schedule 9 for any income allocated. If you paid out only part of the investment income in a taxation year, we need a *breakdown by type of income remaining in the trust*, such as taxable capital gains, dividends from taxable Canadian corporations, and other investment income. We need these amounts to help us calculate items such as the dividend tax credit and minimum tax, and to apply net capital losses of other years.

An agreement under a salary deferral arrangement, made in writing before February 26, 1986, is treated as an employee benefit plan if contributions are for services rendered:

- before July 1986; or
- after June 1986, if the employee is bound under contract to defer receiving that income.

For more information, see Interpretation Bulletin IT-502, *Employee Benefit Plans and Employee Trusts*, and its Special Release.

### Salary deferral arrangement

6(1)(l), 6(11), 6(12), 6(1)(a), 248(1)

A salary deferral arrangement is a funded or unfunded arrangement where the employee or another person has a right to receive salary or wages in a year after the services have been rendered. The employee has to include the amount of deferred salary or wages in income in the year services are rendered. The deferred amount is deemed to be an employee benefit. The employee also has to include in income, any interest or other amount earned by the *deferred amount*.

The terms **salary deferral arrangements**, and their exclusions, and **deferred amount** are described in subsection 248(1) of the Act.

## Retirement compensation arrangement

56(1)(x), 60(t), 8(1)(m.2), 248(1)

When an employer makes contributions for an employee's retirement, termination of employment, or any significant change in the services of an employee, the plan is likely a **retirement compensation arrangement (RCA)**. If the plan existed on October 8, 1986, the RCA rules will apply as of the earlier of January 1, 1988, or the day after October 8, 1986, on which the existing arrangement changed. Grandfathering provisions apply to plans that existed on October 8, 1986. These provisions allow employee benefit plan rules to apply to that portion of plan funding in place before the RCA rules became effective.

The custodian of an RCA trust has to prepare Form T4A-RCA Summary, *Return of Distributions in Respect of a Retirement Compensation Arrangement (RCA)*, to report any distributions made out of an RCA during the year. The custodian also has to file Form T3-RCA, *Part XI.3 Tax Return – Retirement Compensation Arrangement (RCA)* and, if there is an employee benefit portion, Form T3, *Trust Income Tax and Information Return*. For more information, see the *Retirement Compensation Arrangement Guide*.

## Segregated fund trust

138.1

Segregated funds of life insurers for life insurance policies are considered to be inter vivos trusts and are referred to as **related segregated fund trusts**. We consider the property and income of a segregated fund to be the property and income of such a trust, and the life insurer is the trustee of the related segregated fund trust.

The trustee has to file a separate T3 return and financial statements for each segregated fund.

When all the beneficiaries of the fund are fully registered plans, you may complete only the identification and certification areas of the T3 return and enclose the financial statements.

When the beneficiaries of the fund are both registered and non-registered plans, you may report and allocate on the T3 return, only the income that applies to the non-registered plans.

## Non-profit organization

122(1), 149(1)(l), 149(5), 149(12)

A non-profit organization, for example, a club, society, or association, is usually organized and operated exclusively for social welfare, civic improvement, pleasure, recreation, or any other purpose except profit. In this case, it will generally be exempt from tax if no part of the income is payable to, or available for, the personal benefit of a proprietor, member, or shareholder. For more information, see Interpretation Bulletin IT-496, *Non-Profit Organizations*.

As long as the non-profit organization remains exempt from tax, you do not need to file a T3 return.

However, the main purpose of some non-profit organizations is to provide dining, recreational, or sporting facilities to its members. In this case, we consider an **inter vivos trust** to have been created. The non-profit organization will then have to pay tax on its income from

property. Any capital gain from the disposal of any property that is not used to provide those services is also taxable.

The deemed trustee for the inter vivos trust has to file a T3 return when it has tax payable, has a taxable capital gain, or has disposed of capital property. The trust can deduct \$2,000 when calculating its taxable income.

Tax is payable by the trust on its taxable income for each year using the 29% federal income tax rate that applies to inter vivos trusts. For more information, see Interpretation Bulletin IT-83, *Non-Profit Organizations – Taxation of Income From Property*.

The trustee of a non-profit organization may also have to file Form T1044, *Non-Profit Organization (NPO) Information Return*. For more information, see "Who should file" on page 4.

## Employee trust

6(1)(h), 104(6), 248(1)

In general, an employee trust is an arrangement established after 1979, under which an employer makes payments to a trustee in trust for the sole benefit of the employees. The trustee has to elect to qualify the arrangement as an employee trust on the trust's initial return of income. The employer can deduct contributions to the plan only if the trust has made this election. To maintain its employee trust status, each year the trust has to allocate to its beneficiaries all non-business income for that year, and employer contributions made in the year.

Business income is excluded from the allocation and is taxed in the trust. The amounts allocated are taxed in the year of allocation as the beneficiaries' income from employment. Report this income on a T4 slip, **not** on a T3 slip. Complete Schedule 9, *Summary of Income Allocations and Designations to Beneficiaries*, and include it with the T3 return. For more information, see Interpretation Bulletin IT-502, *Employee Benefit Plans and Employee Trusts*, and its Special Release. For T4 reporting requirements, see the *Employers' Guide to Payroll Deductions – Basic Information*.

## Master trust

149(1)(o.4), Regulation 5001

A trust is a **master trust** if during the entire time since its creation:

- it was resident in Canada;
- its only undertaking was the investing of its funds;
- it never borrowed money except for a term of 90 days or less (for this purpose the borrowing cannot be part of a series of loans or other transactions and repayments);
- it has never accepted deposits; and
- each of its beneficiaries is a registered pension plan or a deferred profit-sharing plan.

A master trust can be exempt from Part I tax if it elects, in its income tax return for its first taxation year, to be a master trust. To make this election, enclose a letter with the T3 return. The trust does not have to file T3 returns for taxation years after it makes the election.

## Eligible funeral arrangement

148.1, 149(1)(s.1), 248(1), Regulation 204(3)(d)

An eligible funeral arrangement is a prepaid arrangement established and maintained by a person licensed or otherwise authorized under the laws of a province or territory to provide funeral services for one or more individuals, under which contributions, limited by the Act, are made only to pay for funeral services. Funeral services include property and services for funeral, burial, cremation, or cemetery arrangements in Canada.

### Note

The income of a trust governed by an eligible funeral arrangement is not taxable. Such a trust is not required to file a T3 return.

### Proposed changes – From tax changes announced on April 26, 1995

For 1993 and subsequent taxation years, eligible funeral arrangements include arrangements to provide cemetery services, under which contributions are made only to pay for cemetery care.

## Transfers and loans of property

74.1(1), 74.1(2), 74.2, 74.3, 74.5, 56(4.1) to (4.3), 248(25), 251, 252

An individual can transfer or lend property to a trust for the benefit of the transferor's spouse. In this case, the transferor, who is the individual, while alive and resident in Canada, may have to report the income from the property. The transferor may also have to report any taxable capital gain if the trust later disposes of the property.

An individual can transfer or lend property to a trust for the benefit of a beneficiary who is a **related minor**. In this case, the income from the property may be attributed to the transferor and taxed in the transferor's hands, while alive and resident in Canada. For this purpose, a related minor is a person under the age of 18 who is not dealing at arm's length with the transferor, for example, a child or descendant whether by blood relationship or adoption, or who is the niece or nephew of the transferor. The transferor does not have to report the income of the trust if the beneficiary turns 18 before the end of the year, or if the income is taxed in the trust.

The attribution rule does not apply if property is sold to the trust at fair market value. It also does not apply if loans bear a prescribed rate of interest, and the interest charged is paid no later than 30 days after the end of the taxation year. If this occurs, the income or loss from the property, and any taxable capital gains and allowable capital losses from the property, are income of the trust. In the case of loaned property, income is attributed to the transferor only if the property was lent to a trust for a spouse or related minor after May 22, 1985, or if the property was lent before May 23, 1985, and the loan is outstanding after 1987.

For more information, see interpretation bulletins:

- IT-258, *Transfer of Property to a Spouse*, and its Special Release;

- IT-260, *Transfer of Property to a Minor*, and its Special Release;
- IT-510, *Transfers and Loans of Property Made After May 22, 1985 to a Related Minor*;
- IT-511, *Interspousal and Certain Other Transfers and Loans of Property*; and
- IT-286, *Trusts – Amount Payable*.

Interpretation bulletins IT-510 and IT-511 contain sample calculations to determine the amount to be included in the transferor's income.

When the income is to be included in the income of the transferor, the trustee has to file a T3 return and issue a T3 slip reporting the income as that of the transferor.

An individual can receive a low-interest or interest-free loan from a trust to which property was transferred by another individual. If the main reason for the loan is to reduce or avoid tax on the income from the property or substituted property, and the two individuals do not deal at arm's length, the trust has to report the income from that loaned property or any property substituted for it. This rule also applies to an arm's length commercial loan the individual uses to repay the original low-interest or interest-free loan.

## Chapter 2 – Definitions

This chapter provides a general description of the technical terms that we use in this guide.

**Administrator (administratrix)** – A person that a court appoints to settle the estate of a person who has died.

**Allocate (allocation)** – To assign, set apart, or distribute income from the trust to a beneficiary. The amounts you allocate generally have to be included in the beneficiary's income. For more information, see "Allocations and designations" on page 36.

**Arm's length** – Describes a relationship such as one found in a business transaction where no party has a direct influence over the others.

**Arm's length transaction** – Describes a transaction between unrelated parties. Each party acts in his or her own self-interest. Related persons are not considered to deal with each other at arm's length. Related persons include individuals connected by blood relationship, marriage, or adoption, such as a husband and wife, or a father and son. Also, a corporation and a shareholder who controls the corporation are related.

Unrelated parties may not be dealing with each other at arm's length if, for instance, one is under the influence or control of the other. For more information, see Interpretation Bulletin IT-419, *Meaning of Arm's Length*, and its Special Release.

**Beneficiary** – The person or persons for whose benefit the trust is created, or the person to whom the amount of an insurance policy or annuity is payable.

**Deemed disposition** – This term is used when you are considered to have disposed of property, even though you did not sell it.

**Deemed proceeds of disposition** – This term is used when you are considered to have received an amount for property, even though you may not, or will not, receive any funds.

**Disposition (dispose of)** – This is usually an event or transaction where you give up possession, control, and all other aspects of property ownership.

**Distribution** – To divide the estate property among beneficiaries according to the terms of the trust document, or according to the statute that applies.

**Election (elect)** – These words mean that you can choose whether or not to do something allowed under the law.

**Eligible capital property** – This is property, used to earn business income, that does not physically exist but gives lasting economic benefit. Examples are farming or fishing quotas, licences, trademarks, customer lists, and goodwill.

**Executor (executrix)** – An individual or trust institution nominated in a will and confirmed by a court to settle the testator's estate. We define testator in this chapter.

**Fair market value (FMV)** – This is the highest dollar value that you can get for your property in an open and unrestricted market at a specific point in time. In an open and unrestricted market, the parties of the transaction deal with each other at arm's length, and are not forced to buy or sell.

**Flow-through entity** – A flow-through entity means an investment corporation, a mortgage investment corporation, a mutual fund corporation, a mutual fund trust, a partnership, a related segregated fund trust, a trust governed by an employee profit-sharing plan, a trust created to hold shares of the capital stock of corporations for the benefit of their employees, a trust established for the benefit of creditors to secure certain debt obligations, or a trust established to hold shares of the capital stock of a corporation to exercise the voting rights attached to such shares.

**Gift** – A gift is a voluntary transfer of property (including money) without valuable consideration. Also see the definition of inter vivos gift.

**Inter vivos** – Between living persons.

**Inter vivos gift** – A gift of property by a living person. To make such a gift effective, the property has to be delivered during the lifetime of the donor and without reference to his or her death.

**Listed personal property** – We explain this term on page 27.

**Non-arm's length** – Describes a relationship such as one found in a business transaction where one party could have a direct influence over the other or others. We consider that related persons are dealing with each other at non-arm's length.

**Non-arm's length transaction** – This is a transaction between people who were not dealing with each other at

arm's length at the time of the transaction. Please see the definition of arm's length transaction.

**Preferred beneficiary** – A preferred beneficiary of a trust is an individual resident in Canada who is a beneficiary under the trust at the end of the year, and who can claim a disability amount, or could claim the amount if no one claimed a medical expense for an attendant or care in nursing home for that beneficiary and is:

- the settlor of the trust (See the definition of **settlor** later on this page);
- the spouse or former spouse of the settlor of the trust;
- a child, grandchild, or great grandchild of the settlor of the trust; or
- the spouse of a child, grandchild, or great grandchild of the settlor of the trust.

**Proposed Changes – From tax changes announced February 18, 1997**

For taxation years ending after 1996, a preferred beneficiary of a trust is a beneficiary who:

- can claim a disability amount for the beneficiary's taxation year which ends in the trust's taxation year, or could claim the amount if no one claimed a medical expense for an attendant or care in a nursing home for that beneficiary; or
- is over 18 years of age and, for the beneficiary's taxation year which ends in the trust's taxation year, does not claim a disability amount and for whom another individual can claim an amount for infirm dependants 18 years of age and over for that beneficiary, or could claim the amount if the beneficiary's income is calculated before including the income from the preferred beneficiary elections.

**Principal residence** – A principal residence is a property that is a housing unit, a leasehold interest in housing unit or a share of a co-operative housing corporation acquired for the sole purpose of acquiring the right to inhabit a housing unit.

**Settlor** – The person who sets up a trust, or the person who transfers property to a trust. For more information about the restrictive meaning of settlor, see Interpretation Bulletin IT-374, *Meaning of Settlor*.

**Spouse** – The term spouse applies to a legally married spouse as well as a common-law spouse. A common-law spouse is a person of the opposite sex who, at that particular time, lived with another person in a common-law relationship, and either:

- had been living with that person in such a relationship for at least 12 continuous months, or had previously lived with that person in such a relationship for at least 12 consecutive months (when you calculate the 12 continuous months, include any period of separation of less than 90 days); or
- is the natural or adoptive parent (legal or in fact) of that person's child.

Once either of these two situations applies, we consider a person to have a common-law spouse, except for any period that they were separated for 90 days or more due to a *breakdown in the relationship*.

**Spousal trust** – A spousal trust is one which an individual creates for a spouse, under which the spouse is entitled to receive all the income of the trust that arises during the spouse's lifetime, and who is the only person who may receive the use of any income or capital during the spouse's lifetime.

**Testator (testatrix)** – The deceased person who made and left a valid will.

**Trust** – A trust is a binding obligation, voluntarily undertaken, but enforceable by law when undertaken. It may be created by:

- a person (either orally, or by a written instrument);
- a court order; or
- a statute.

When the trust is created, the trustee takes on the responsibility for real or personal property for the benefit of a person or persons on the instructions of the settlor, court, or statute.

There are three essential characteristics of a trust. There has to be certainty of:

- the intent to create a trust;
- the property to be placed in trust; and
- who the beneficiaries of the trust are.

**Trustee** – An individual or trust institution that holds legal title to property in trust for the benefit of the trust beneficiaries. An executor, administrator, assignee, or receiver who owns or controls property for some other person.

**Vested interest** – An immediate fixed interest in property, although the right of possession and enjoyment may be postponed.

**Will** – A legally enforceable document that declares the intentions of the testator about disposal and administration of his or her estate after his or her death. It is effective only at death and can be revoked at any time before death.

## Chapter 3 – Completing the T3 Return

The T3, *Trust Income Tax and Information Return*, is a four-page form with related schedules. As the preparer, you have to:

- complete the Identification area (page 1);
- report income and deductions to calculate net income (page 2);

- deduct trust income that is allocated to its beneficiaries (page 2);
- complete appropriate schedules using the questions under “Schedules and other required information” (page 3);
- claim the deductions to arrive at taxable income (page 4); and
- determine any tax payable (page 4).

### Step 1 – Identification ▲

Complete all items on page 1 of the return. You have to provide this information each year that you file a T3 return. We may have to delay the assessment of the return if you do not provide the necessary information.

Follow these guidelines when you complete this area of the return:

- **Name of trust** – Be sure to use the same name on all returns and correspondence for the trust.
- **Account number** – If we have assigned an account number to the trust, enter it in this space. Include this number on all correspondence related to the trust. If this is the first return filed, we will issue an account number to the trust shortly after we receive the return.
- **Residence of trust and type of trust** – It is important that you complete each item correctly because we use the information about the residence of the trust and type of trust to determine the correct rate of tax.  
  
Use box 10 to identify personal inter vivos trusts which are not spousal trusts or communal organizations. For more information about the types of trust, see “Types of trusts” on page 9.
- **Date of death (testamentary trust) or date trust created (inter vivos trust)** – Provide this information on each return filed.
- **Non-profit organization** – If the non-profit organization is incorporated, enter the business number.

### Question 1 ▲

You have to answer this question for each personal trust. If the trust is one of a number of trusts created from contributions made by the same individual, attach a list of those trusts. The list should show the name, address, and account number of each trust.

### Question 2 ▲

The sale of an income or capital interest in a trust is a change in ownership. Distributing estate property to beneficiaries is not a change in ownership for this question.

### Question 6

See Interpretation Bulletin IT-406, *Tax Payable by an Inter Vivos Trust*, for information about debts incurred in non-arm's length transactions.

## Question 7

If the last exempt beneficiary has died in the year, or all exempt beneficiary's interests have been settled, see "Form T1015, *Election by a Trust to Defer the Deemed Realization Day*" on page 29.

## Question 8

The terms of the will, trust document, or court order determine the requirement to allocate income.

## Question 9

You can make designations under subsections 104(13.1) and 104(13.2) only when you file the T3 return. After you file the return, you cannot make, withdraw, or change designations under subsections 104(13.1) and 104(13.2). For more information, see "Designated income to be taxed in trust" on page 37.

## Step 2 – Calculating total income Lines 01 to 20

### Line 01 – Taxable capital gains

3, 38, 39, 40(1), 110.6, 111, 138.1(3)

Calculate the taxable capital gains and allowable capital losses of the trust on Schedule 1, *Summary of Dispositions of Capital Property*. If the amount on line 122 of Schedule 1 is a taxable capital gain, enter it on line 01.

If the trust's allowable capital losses for the year (except allowable business investment losses as described under line 25) are more than the trust's taxable capital gains for the year, the difference becomes a **net capital loss** for the year. You cannot deduct the net capital loss from other income of the trust in the year, or allocate it to the beneficiaries (except as described under "Exceptions and limitations for income allocations" on page 37). The net capital loss can be applied back to the three previous years or forward indefinitely against any taxable capital gains of those years. For more information on losses, see "Line 51" and "Line 52" on page 20.

#### Note

In the first taxation year of a testamentary trust, the legal representative can elect to apply the net capital loss against income on the deceased's income tax return for the year of death. See "Testamentary trust – 164(6) election" on page 23.

If a trust sells capital property and realizes a gain, the gain is treated as a capital gain. If a trust sells eligible capital property and realizes a gain, the gain is treated as business income. If the eligible capital property is qualified farm property, the gain qualifies for the \$500,000 capital gains exemption. For more information on calculating business income from the disposition of eligible capital property, see the income tax guides called *Business and Professional Income* and *Farming Income*.

## Line 02 – Pension income

56(1)(a)(i), 147(10)

Enter on line 02, items such as a single payment out of a pension fund or deferred profit-sharing plan, or annuity payments out of a superannuation or pension plan.

Include any payments received from a foreign retirement arrangement. Foreign retirement arrangements are certain amounts received from individual retirement accounts (IRAs) as outlined in subsections 408(a), (b), or (h) of the United States *Internal Revenue Code of 1986*.

### Lump-sum payments

Income Tax Application Rules (ITAR) 40(1), (5), and (7)

If you are allocating the trust income to beneficiaries, include on line 02 any lump-sum payments (accrued to December 31, 1971) the trust received from a pension fund or a deferred profit-sharing plan. Attach all information slips the trust received.

You can choose to have these lump-sum payments taxed in the trust at a reduced rate. If income remains in the trust, and you will be applying ITAR 40 provisions, do not include the amount on line 02. Instead, enter "ITAR 40" on line 02 and on line 1109 of Schedule 11, and we will calculate the tax adjustment. Information Circular 74-21, *Payments out of Pension and Deferred Profit Sharing Plans – ITAR 40*, and Interpretation Bulletin IT-281, *Elections on Single Payments From a Deferred Profit Sharing Plan*, cover this subject in more detail.

## Line 03 – Actual amount of dividends

82

Transfer to line 03, the **actual amount** of taxable dividends the trust received from taxable Canadian corporations from line 805 of Schedule 8, *Statement of Investment Income and Calculation of Gross-up Amount of Dividends Retained by Trust*. Attach all information slips the trust received.

## Line 04 – Foreign investment income\*

Include on line 04, all interest and other investment income from foreign sources. Report foreign income in Canadian funds at the gross amount before withholding taxes are deducted.

## Line 05 – Other investment income\*

On line 05, enter the amount from line 815 of Schedule 8.

Include all interest and investment income from Canadian sources except the dividends from taxable Canadian corporations reported on line 03. Attach all information slips received.

#### \*Note

Interest a financial institution credited to the trust's account is interest the trust received.

In the first year of a testamentary trust, report on the deceased taxpayer's final individual income tax return, any interest income that has accrued to the person's date of death. Report on the trust return, any interest income accrued after the person's date of death.

## **Lines 06, 07, 08, and 09 – Business income, Farming income, Fishing income, and Rental Income**

If the trust acquires depreciable property by gift, bequest or, inheritance, and claims capital cost allowance on that property against income from business, farming, fishing, or real estate, see “Appendix A – Cost of Depreciable Assets” on page 60 for the rules for calculating the cost of these properties.

### **Line 06 (net), line 96 (gross) – Business income**

Enter net business income on line 06, and the gross business income on line 96. If the trust is a member of a partnership, enter the trust’s share of the net business income on line 06, and the partnership’s gross business income on line 96. If a trust is carrying on a business other than farming or fishing, it has to use the accrual method to determine net business income. Attach a separate profit and loss statement, such as Form T2124, *Statement of Business Activities*, and a balance sheet for each business the trust carried on. For more information, see the income tax guide called *Business and Professional Income*.

Gains from the disposition of eligible capital property are income from business. For more information, see the income tax guide called *Business and Professional Income*.

There are rules for calculating income from an unincorporated business which has a fiscal period that does not end on December 31. These rules do not apply to testamentary trusts. If a trust, other than a testamentary trust, operates a business with a fiscal period end other than December 31, you will need the income tax guide called *Reconciliation of Business Income for Tax Purposes*, to calculate the income from the business.

### **Lines 07 and 08 (net), lines 97 and 98 (gross) – Farming income and Fishing income**

Enter the net income from farming on line 07, and the gross farming income on line 97. Enter the net income from fishing on line 08, and the gross fishing income on line 98. If the trust is a member of a partnership, enter the trust’s share of the net farming income on line 07, the trust’s share of the net fishing income on line 08, the partnership’s gross farming income on line 97, and the partnership’s gross fishing income on line 98. Attach a statement of income and expenses to the return.

A trust that has income from farming or fishing can use either the cash or accrual method to determine income from these sources for the taxation year. Once you choose a method, you have to use the same method each year. If you want to change the trust’s method of determining income, contact your tax services office to find out how.

The income tax guide called *Farming Income* contains Form T2042, *Statement of Farming Activities*, to help you determine farming income. The income tax guide called *Fishing Income* contains Form T2121, *Statement of Fishing Activities*, to help you determine fishing income.

You will need the income tax guide called *Reconciliation of Business Income for Tax Purposes*, to calculate farming or fishing income if the trust, other than a testamentary trust, operates a farming or fishing business with a fiscal period that does not end on December 31.

### **Line 09 (net), line 99 (gross) – Real estate rental income**

Enter the net income from real estate rentals on line 09, and the gross rental income on line 99. If the trust is a member of a partnership, enter the trust’s share of the net rental income on line 09, and the partnership’s gross rental income on line 99.

Attach to the return, a statement of real estate rentals, such as Form T776, *Statement of Real Estate Rentals*. For more information and a copy of this form, see the income tax guide called *Rental Income*.

### **Line 10 – NISA Fund No. 2**

12(10.2), 104(5.1), 104(14.1), 104(6)(b), 248(1)

NISA Fund No. 2 is the portion of a farm producer’s net income stabilization account (NISA) that comes from third party sources, such as interest, bonuses, and government contributions.

The amounts the trust has to report include payments received, and amounts deemed to have been received by the trust out of its NISA Fund No. 2. They are property income of the trust, and are reported on line 10.

Payers of farm support payments issue information slip AGR-1, *Statement of Farm Support Payments*, to producers who receive such payments. The AGR slips, which are issued early in each calendar year to producers who received more than \$100 for each program, summarize payment information for the previous calendar year. Information on the AGR slips applies to most agricultural programs, including those delivered by Agriculture and Agri-Food Canada, provinces, municipalities, and producer organizations.

A NISA Fund No. 2 can be transferred to a testamentary post-1971 spousal trust when the settlor dies. In this case, if the beneficiary spouse dies, the trustee has to report a deemed payment on the day the beneficiary spouse dies. The deemed payment is equal to the fund’s balance at the end of the day of death. However, the trust and the legal representative of the beneficiary spouse can elect to report all or a portion of this deemed payment on the beneficiary spouse’s final return, rather than on the trust’s return. See “Election under subsection 104(14.1),” which follows this section.

On line 10, the trust has to report the amount, if any, by which A is more than B, where:

A = the amount paid in the year out of the fund (or deemed to have been paid out of the fund, such as on the death of the beneficiary spouse); and

B = the amount, if any, by which:

- the total of all amounts previously deemed to have been paid out of the fund to the trust, or to the beneficiary spouse, or out of another person's fund on being transferred to the trust

is more than

- the total of all amounts previously applied to reduce income out of the fund.

Make separate calculations for each amount either paid or deemed paid.

Income reported on line 10 is taxable in the trust. Do not include it in "Total income allocations and designations to beneficiaries" on line 47, except for amounts reported by a testamentary spousal trust that relate to payments received while the beneficiary spouse was still alive. Use the space below line 10 to show any of the amount on line 10 that relates to payments received while the beneficiary spouse was, or is still, alive.

#### Election under subsection 104(14.1)

If the trust wants to make a subsection 104(14.1) election, you should submit the following information with the T3 return on which the trust is reporting, or would have reported, the deemed disposition:

- a statement making the election, stating the amount on which you are making the election, signed by both the trustee and the legal representative of the beneficiary spouse's estate; and
- a statement, signed by the trustee, showing the calculation of the NISA Fund No. 2 and the amount being reported on each return (T1 and T3).

#### Line 11 – Deemed realizations

104(4), (5), (5.2)

On line 11, report the trust's income resulting from "21-year deemed realizations." Calculate this amount on Form T1055, *Summary of Deemed Realizations*. For more information, see "Deemed realization (disposition) – 21-year rule" on page 28.

#### Line 19 – Other income ▲

On line 19, report the total income the trust received in the taxation year that is not included elsewhere on the T3 return or schedules, such as:

- royalties;
- commissions;
- any death benefits under the Canada Pension Plan or Quebec Pension Plan;
- retiring allowances, unless this amount is reported by a beneficiary, or reported in the retired person's income for

year of death as a **right or thing**. (for more information, see Interpretation Bulletin IT-337, *Retiring Allowances*); and

- certain employment-related income (see "Appendix B – Employment and Employment Related Income" on page 61 for details).

#### Death benefit

248(1)

If the trust receives an amount for a deceased person's employment service, and the income is to be taxed in the trust according to the provisions of the trust document, the trust may be able to exclude up to \$10,000 of the amount from income. Be sure to attach a copy of the T4A slip, or a statement from the deceased person's employer, that identifies the payment as a death benefit. For more information on the payments that qualify for the \$10,000 deduction, and to determine the taxable portion to report on line 19, see Interpretation Bulletin IT-508, *Death Benefits – Calculation*. Any amount of the death benefit you excluded from the trust's income on line 19 will reduce the amount of death benefit that you can designate to the beneficiaries. For more information, see "Line 935" on page 41.

#### Registered retirement savings plan (RRSP)

A trust may be entitled to the income earned by an unmatured RRSP after the death of the only or last annuitant. Usually, this income is shown on a T5 or T4RSP slip issued to the estate. The trust should usually include this amount in "Other income" on line 19. For more information on taxable benefits from matured and unmatured RRSPs, see the income tax guide called *RRSPs and Other Registered Plans for Retirement* and Interpretation Bulletin IT-500, *Registered Retirement Savings Plans – Death of an Annuitant*.

### Step 3 – Calculating net income Lines 21 to 50

#### Line 21 – Carrying charges ▲

20(1)(c), 20(1)(bb), 20(2.1)

On line 21, enter the total carrying charges from line 820 of Schedule 8.

Carrying charges paid to third parties include:

- interest on money borrowed to earn investment income;
- fees for the management or safe custody of investments;
- safety deposit box charges;
- accounting fees for recording investment income; and
- investment counsel fees.

Do not include brokerage fees the trust incurred to purchase and sell securities. If the trust incurred brokerage fees to purchase the security, they are part of the cost of a security. If the trust incurred them to sell the security, you can claim them as "Outlays and expenses from dispositions" in column 4 of Schedule 1.

The trust can deduct interest expense on a life insurance policy loan if the trust used the proceeds of the loan to earn income. If the trust elects to add the interest expense to the

adjusted cost basis of the policy, as defined in subsection 148(9) of the Act, then it cannot be deducted on line 21. If the trust is claiming interest paid on a policy loan during the year, the insurer has to complete Form T2210, *Verification of Policy Loan Interest by the Insurer*, no later than 90 days after the trust's year end. For more information, see Interpretation Bulletin IT-355, *Interest on Loans to Buy Life Insurance Policies and Annuity Contracts, and Interest on Policy Loans*.

### Lines 22 to 24 – Trustee fees

9(1), 20(1)(bb)

The trust can deduct trustee fees from the trust's income on line 22, if the fees were paid to a person for giving advice on purchasing or selling, or for administering or managing shares or securities. The person's principal business has to consist of either giving advice to others on how to purchase or sell shares or securities, or providing administration or management services for shares or securities. For more information, see Interpretation Bulletin IT-238, *Fees Paid to Investment Counsel*.

The above outlays do not include fees the trust incurred to gain or produce business or property income. You can deduct such fees when you calculate the trust's business or property income, but you cannot deduct them again at this line.

Trustee or executor fees for administering the trust or *looking after real property* (e.g., a residence) used by a lifetime beneficiary of a testamentary trust, are not fees incurred to earn business or property income. Therefore, you cannot deduct them when you calculate the income of the trust.

On line 22, enter the **total** trustee and executor fees the trust paid. Include any fees which were not incurred to earn income as well as those deducted from business or property income.

On line 23, enter the portion of the amount on line 22 which was not incurred to earn income or which has been deducted on another line of the T3 return.

Whether or not deductible by the trust, executor and trustee fees are income from office or employment of an individual if the trust pays them to an individual who does not act in this capacity in the usual course of business.

If the fees the trust paid for an executor or trustee are \$500 or more, the trust has to prepare a T4 slip for that individual. The individual has to report these amounts as income from an office, even if they do not receive a T4 slip. If the trust pays fees to a non-resident of Canada for services performed in Canada, complete a T4A-NR slip. Be sure to report the **total** amount of fees paid on the T4 slip or

T4A-NR slip. For more information, see the *Employers' Guide to Payroll Deductions – Basic Information, Non-Resident Withholding Tax Guide*, and Interpretation Bulletin IT-377, *Director's, Executor's and Juror's Fees*. You have to file T4 and T4A-NR slips by the last day of February after the calendar year in which the trust made the payment.

### Line 25 – Allowable business investment losses (ABIL)

38(c), 39(1)(c), 39(10), 50(1), 104(21.2)

The trust may have a business investment loss if it has a capital loss that results from the actual or deemed disposition of certain capital properties. This can happen if the trust has:

- disposed of a share or debt of a small business corporation to a person with whom the trust deals at arm's length; or
- a bad debt owed to it by a small business corporation.

When you calculate the allowable portion the trust can claim, you may have to reduce the business investment loss of the trust. If the trust designated part or all of its eligible taxable capital gains to a beneficiary of the trust in a previous year, you have to reduce the trust's business investment loss for the current year.

We explain this in the next section, called "Reduction in business investment loss."

The trust's ABIL is three-quarters of the business investment loss (whether or not reduced) the trust incurred in a taxation year ending after 1989. You can deduct the trust's ABIL from the trust's other sources of income for the year. If the trust's ABIL is more than its other sources of income for the year, include the difference as part of its non-capital loss for the year. The trust can carry a non-capital loss back three years and forward seven years. To carry back a non-capital loss complete Form T3A, *Request for Loss Carryback by a Trust*. For more information about this form, see page 21.

The trust may not be able to deduct its ABIL as a non-capital loss within the allowed time frame. If this is the case, the unapplied part becomes a net capital loss in the eighth year. You can then use it to reduce the trust's taxable capital gains in the eighth year or any year after.

### Reduction in business investment loss

The following chart will help you calculate the reduction in business investment loss. If the trust had more than one business investment loss in the year, you can use this chart to calculate the trust's total reduction for the year.

### Reduction in business investment loss

We adjust the amount of the eligible taxable capital gain designated by the trust to beneficiaries in previous years. We do this because capital gains were included in income at different rates in those years.

Total eligible taxable capital gain amounts designated by the trust in 1985, 1986, and 1987.....	_____	× 2 =	_____	1
Total eligible taxable capital gain amounts excluding eligible capital property designated by the trust in 1988 and 1989.....	_____	× 3/2 = +	_____	2
Total deemed taxable capital gain amounts from eligible capital property designated by the trust in 1988 and 1989.....	_____	× 4/3 = +	_____	3
Total eligible taxable capital gain amounts designated by the trust in years after 1989 and before the current year.....	_____	× 4/3 = +	_____	4
<b>Add</b> lines 1 to 4 .....			= _____	5
Total amount you used to reduce the trust's business investment losses in years after 1985 and before the current year.....	_____		_____	6
Line 5 <b>minus</b> line 6 .....			= _____	7
Business investment loss for the year before reducing the loss.....	_____		_____	8
Reduction in business investment loss for the year: Enter the amount from line 7 or line 8, whichever is <b>less</b> .....	_____		_____	9
Business investment loss for the year: Line 8 <b>minus</b> line 9 .....			= _____	10
Allowable business investment loss for the year: (amount from line 10 × 3/4) .....			= _____	11

Transfer the amount from line 11 to line 25 of the trust's T3 return.

The amount from line 9 becomes a capital loss for the current year. Enter this amount on line 113 of Schedule 1.

For more information, see Interpretation Bulletin IT-484, *Business Investment Losses*.

### Line 40 – Other deductions from total income 9(1), 18(1)(a) and (b), 18(2), 18(1)(h), 20(1)(v.1), 53

Other deductions that the trust can claim include legal and accounting fees. Claim only those amounts incurred to earn income for the trust. Do not claim outlays and expenses that apply to the capital assets of the trust. If these outlays were incurred to purchase the asset, they are part of the cost of the asset. If they were incurred to sell the asset, they can be claimed as "Outlays and expenses from dispositions" in column 4 on Schedule 1. Do not claim beneficiaries' or trustees' personal expenses such as funeral expenses or probate fees. Do not claim any amounts paid to beneficiaries on this line.

#### Resource allowance

20(1)(v.1), Regulation 1210, 1206(1)

A trust that reports resource profits can claim, on line 40, a resource allowance of up to 25% of its resource profits (as determined under Regulations 1204 and 1210). Generally, the resource profits of a trust would be earned as production royalties. For example, this includes royalties based on the amount or value of oil and gas production, and on which the recipient pays non-deductible Crown charges. If you are claiming a resource allowance in the trust, include a copy of your calculations and documents such as a T5 slip or a statement from the payer, to verify

that the income qualifies for the resource allowance. Resource profits lose their identity when allocated to a beneficiary. Therefore, a beneficiary cannot claim a resource allowance on income allocated from a trust.

#### Deductions have to be related to sources of income

You have to deduct trust expenses before income can be allocated to the beneficiaries. Apply the expenses directly to the income to which they relate. Apportion expenses that relate to more than one source of income to the applicable sources of trust income.

### Line 43 – Upkeep, maintenance, and taxes of any property used or occupied by any beneficiary

105(2)

The terms of the trust may require the trust to pay for the upkeep, maintenance, or taxes on property a beneficiary uses or occupies. If this is the case, the trust has to report on the beneficiary's T3 slip, the amounts paid. The beneficiary has to include them in income for the year they are paid. On line 43, enter only those amounts that have been included in the expenses of the trust (whether on a financial statement or on line 40). Give details of the amounts entered on this line, including the nature and amount of payment, and the line on the T3 return or financial statement where you have claimed the expenses.

## Line 44 – Value of other benefits to recipients 105(1)

Include on this line, the value of other benefits from a trust to an individual that are not otherwise included in the amounts allocated (e.g., amounts paid for the beneficiary's personal or living expenses). Include these benefits as income on the beneficiary's T3 slip, however, they cannot be deducted from the trust's income. Therefore, add-back the benefits on line 44 to offset the income allocations deducted on line 47 of the T3 return. Please provide details, including the nature of the benefits, for amounts entered on this line.

## Line 47 – Total income allocations and designations to beneficiaries

On line 47, enter the total amount of trust income allocated and designated to beneficiaries from line 928 of Schedule 9. If you enter an amount here, complete the applicable summary forms and supplementary slips (T3, T4, T4A, NR4).

## Line 49 – Gross-up amount of dividends retained by the trust

On line 49, enter the amount from line 826 of Schedule 8. This amount reflects the gross-up of dividends retained or not designated by the trust.

## Page 3 – Schedules and other information required

Please answer all questions and attach any necessary schedules or statements. The following information is to help you answer certain questions to determine if you need to complete any schedules or provide more information.

### Question 9

If the answer is *yes*, see "Preferred beneficiary election" on page 39. You have to make and file the preferred beneficiary election **no later than 90 days** after the end of the trust's taxation year.

### Question 14

If the answer is *yes*, you have to file an election to amend the deceased person's individual income tax return for the year of death. For more information, see "Testamentary trust – 164(6) election" on page 23 and "Testamentary trust – 164(6.1) election" on page 24.

### Question 15

If trust assets have been distributed to one or more beneficiaries, attach a statement and include the following information:

- name and address of the recipient or recipients;
- description of assets transferred;
- fair market value of the assets on the day they are transferred; and
- cost amount of the assets on the day they are transferred.

For details, see "Distribution of property to beneficiaries" on page 23.

## Step 4 – Calculating taxable income Lines 50 to 56

### Line 51 – Non-capital losses of other years 111(1)(a), 111(8)(b)

A non-capital loss could arise if the trust had a loss from business or property in a year, and the loss was more than the trust's income from all sources in that year. The trust can carry the unused portion of a non-capital loss forward seven years and back three years.

If the trust has an unused non-capital loss from a previous year, it can use the non-capital loss to reduce taxable income on the T3 return for the current year. Claim this amount on line 51.

If you claim a non-capital loss from a previous year, enclose a continuity statement of the non-capital loss balances.

Be sure to show the year the loss was incurred, the amounts applied in previous years, and the balance remaining at the beginning of the current year.

To carry back an unused non-capital loss, complete Form T3A, *Request for Loss Carryback by a Trust*. See page 21 for more information.

### Farming and fishing losses

31, 111(1)(c), (d), 111(8)(b.1)

If the trust had farming or fishing losses after 1982, it can carry them forward ten years and back three years from the year they arose. There are restrictions on the amount of certain farm losses you can deduct each year. For more information on farming or fishing businesses, see the income tax guides called *Farming Income* or *Fishing Income*.

To carry back an unused farming or fishing loss, complete Form T3A, *Request for Loss Carryback by a Trust*. See page 21 for more information.

### Line 52 – Net capital losses of other years 3, 38, 39, 104(21), 111(1)(b), 111(8)(a)

If the trust's allowable capital losses are more than the trust's taxable capital gains in a year, the difference is the trust's net capital loss for that year. The trust can carry the net capital loss back three years and apply it against the trust's net taxable capital gains in those years. The trust can also carry the net capital loss forward indefinitely and apply it against the trust's taxable capital gains.

Within certain limits, the trust can deduct all or a portion of the unused net capital losses of other years in the current taxation year (see "Form T3A, *Request for Loss Carryback by a Trust*," which follows). The trust can deduct them as follows:

- net capital losses that occurred before May 23, 1985:
  - from any net taxable capital gains in the current taxation year;
  - the balance, if any, up to \$2,000 from other sources of income; and

- net capital losses that occur after May 22, 1985:
  - from any net taxable capital gains in the current taxation year.

If the trust applies a net capital loss from a year before 1990 to a subsequent year taxable capital gain, you have to make an adjustment. This is because the inclusion rate was different in those years.

The inclusion rates for calculating the taxable portion of capital gains and the allowable portion of capital losses are:

- one-half for taxation years and fiscal periods ending in 1987 and earlier;
- two-thirds for taxation years and fiscal periods ending in 1988 and 1989; and
- three-quarters for taxation years and fiscal periods ending in 1990 and subsequent years.

If the trust claims a net capital loss carried forward from a previous year, please enclose a continuity statement of net capital loss balances, grouping them as follows:

- before May 23, 1985;
- from May 23, 1985, to the year end of the trust (taxation years starting in 1984 and 1985);
- taxation year starting in 1986 or 1987, and ending before 1988;
- taxation years ending in 1988 and 1989; and
- taxation years ending after 1989.

Be sure to show the year the loss occurred, the amounts applied in previous years, and the balance remaining at the beginning of the current year.

#### Listed personal property losses

41(2)

Losses on listed personal property (LPP) can be applied only against LPP gains. Claim the unused portion of an LPP loss from another year against a current year LPP gain on line 108 of Schedule 1, or on line 8 of Form T1055, *Summary of Deemed Realizations*, if applicable. See "Listed personal property" on page 27.

The trust can carry the LPP loss back three years and forward for seven years and apply it against the trust's LPP gains in those years.

To carry back an LPP loss, complete Form T3A, *Request for Loss Carryback by a Trust*.

If the trust claims an LPP loss from a previous year, please enclose a continuity statement of LPP balances. Be sure to show the year the loss occurred, the amounts applied in previous years, and the balance remaining at the beginning of the current year.

#### Form T3A, Request for Loss Carryback by a Trust

If you want to carry a trust's loss back to a previous year, you have to make your request on or before the due date of the T3 return for the year in which the trust incurred the loss. To make a request, use Form T3A, *Request for Loss*

*Carryback by a Trust*. You can use this form to carry back non-capital, farming, fishing, net capital, listed personal property, and restricted farm losses. You can file the form separately or attach it to the current year's T3 return.

If the losses are not fully absorbed by income of previous years, keep a schedule of the unused losses so you can deduct them in future years. Always apply the oldest loss within a class of losses first. For example, apply a 1993 non-capital loss before a 1994 non-capital loss.

If you allocated all or part of the previous year's income to beneficiaries, the trust cannot use a non-capital loss carryback to reduce the trust's income allocated to beneficiaries.

If you carry a net capital loss to a previous year, you cannot change the total amount of income you allocated to a beneficiary in that year. However, you may have to reduce the amount of taxable capital gain previously designated in that year. This is because you cannot apply more net capital loss than the net capital gain reported in any year, or designate more taxable capital gain than the trust reports as a taxable capital gain after the carryback.

If you apply a net capital loss carryback, a non-capital loss from business may be increased or created if the business loss was previously used to reduce the amount of taxable capital gain in the year of the carryback.

For more information, see Interpretation Bulletins IT-381, *Trusts – Deduction of Amounts Paid or Payable to Beneficiaries and Flow-Through of Taxable Capital Gains to Beneficiaries*, and IT-232, *Losses – Their Deductibility in the Loss Year or Other Years*.

#### Line 53 – Capital gains deduction for resident spousal trust only

110.6(12)

A spousal trust can claim the unused portion of the beneficiary spouse's capital gains deduction (if resident in Canada) in the year that the beneficiary spouse dies. The deduction is based on the premise that the spousal trust should be able to claim a capital gains deduction, to the extent the spouse would have claimed a deduction if the spouse had directly realized the eligible taxable capital gains of the trust. To calculate the deduction, complete Schedule 5, and attach it to the T3 return. Transfer the amount from line 525 of Schedule 5 to line 53 of the T3 return.

The deduction is not available to a pre-1972 spousal trust that has filed a Form T1015, *Election by a Trust to Defer the Deemed Realization Day*. For more information, see page 29.

#### Line 54 – Other deductions to arrive at taxable income

On line 54, the trust can claim prior year losses, such as limited partnership losses and farm losses. On this line, claim the \$2,000 deduction allowed to a non-profit organization reporting income from property. If, in its income, the trust has reported foreign income that is exempt from tax in Canada because of a tax convention, it can deduct the exempt amount on this line. If the trust is claiming more than one loss, or if a claim needs more

explanation, attach a note to the T3 return giving the details.

### **Line 56 – Taxable income** ▲

The amount on line 55, subtracted from line 50, is the taxable income of the trust. If the amount on line 56 is more than zero, enter that amount on line 1101 (testamentary trusts) or line 1107 (inter vivos trusts) of Schedule 11.

If the amount that you calculate for line 56 is zero or less than zero, enter zero on line 56 but enter the actual amount on Schedule 12 on line 1221. This is necessary because the trust (other than a mutual or segregated fund trust) may be subject to minimum tax. See "Schedule 12 – Calculation of Minimum Tax," on page 49.

## **Step 5 – Summary of tax and credits Lines 81 to 100**

### **Line 85 – Tax paid by instalments** ▲

If the trust made instalment payments, enter the amount of these payments on line 85. If the account number on the trust's receipt is not the same as the one on page 1 of the return, enter in the dotted space on line 85, the account number shown on the receipt.

### **Line 86 – Total tax deducted as shown on information slips** ▲

If the trust earned income from which tax was withheld, enter the amount of tax withheld on line 86. If an information slip is not available, attach a statement from the issuer to verify the income reported and tax withheld. Do not allocate to the beneficiaries, the tax that was withheld.

If the trust was resident in Quebec and earned income outside Quebec during the year, tax may have been deducted for a province or territory other than Quebec. You can transfer, to the Province of Quebec, up to 45% of the income tax withheld by payers outside Quebec.

Subtract the transfer amount from total tax deducted and enter the result on line 86. Show this calculation, including the amount of transfer, in the space below line 86.

If the trust's taxable income on line 56 is zero, no transfer is necessary.

### **Line 89 – Capital gains refund**

This refund applies only to a mutual fund trust that has refundable capital gains tax on hand at the end of the year. To calculate the refund, use Form T184, *Calculation of Capital Gains Refund for a Mutual Fund Trust*.

If the mutual fund trust is resident in Manitoba, complete Form T184 even if the only tax payable is the tax on net income, because the trust may still be eligible for a capital gains refund.

### **Line 90 – Part XII.2 tax credit**

If the trust is the beneficiary of another trust and has received a T3 slip from that trust, claim a Part XII.2 tax credit on line 90. Enter on line 90, the amount from box 38 on the T3 slip.

### **Line 94 – Balance due or refund** ▲

Your balance due or refund is the difference between your total taxes payable on line 84 and your total credits on line 93. If the difference is less than \$2, you do not have to make a payment, and you will not receive a refund.

### **Line 95 – Amount enclosed** ▲

Please make sure that every cheque and statement attached to it, shows the trust's name and account number (if we have assigned a number to the trust). This is necessary so that we can credit payments to the proper account.

### **Line 100 – Refund code** ▲

If the trust is entitled to a refund, enter one of the following codes in refund code box 100:

- 0, if you want us to refund the overpayment;
- 1, if you want us to keep the overpayment for next year; or
- 2, if you want us to hold the overpayment.

We will apply an overpayment of taxes to any outstanding balance. We will direct any amount left over according to the code you enter. If you do not enter a code, we will refund the overpayment.

If you enter code 1, we will keep the overpayment for next year. We will consider such a payment to have been received on the date we assessed your return.

Use code 2 if you want the year's overpayment applied to an expected assessment of an additional amount to be paid. Attach a letter to the return, providing details.

## **Certification area** ▲

### **Name of person or company (other than trustee, executor, or administrator) who prepared this return**

Complete this part if someone other than the trustee, executor, or administrator prepared this return.

## Certification

The trustee, executor, or administrator of the trust has to complete and sign this part.

## Chapter 4 – Trust Schedules

### Schedule 1 – Summary of Dispositions of Capital Property

Complete Schedule 1 and file it with the T3 return if the trust had dispositions or deemed dispositions of capital property during the year. Transfer from line 122, the total taxable capital gains to line 01 of the T3 return. If the amount is a loss, see Form T3A, *Request for Loss Carryback by a Trust*, on page 21.

A disposition of capital property includes:

- a sale of property;
- the distribution or exchange of property;
- the making of a gift;
- a redemption of shares;
- a debt settlement;
- a theft; or
- the destruction of a property.

Report deemed realizations resulting from the 21-year deemed realization rule, on Form T1055, *Summary of Deemed Realizations*. For more information, see page 28. Do not report these deemed realizations on Schedule 1.

### Canadian cultural property

39(1)(a)(i.1), 118.1(10)

For information on dispositions of Canadian cultural property, see "Selling or donating certified Canadian cultural property" in the income tax guide called *Capital Gains*. Interpretation Bulletin IT-407, *Disposition After 1987 of Canadian Cultural Property*, also has more information.

### Distribution of property to beneficiaries

104(5.3), 107(2), 107(4)

If a personal trust distributes property to a beneficiary (to settle in whole or in part the beneficiary's capital interest in the trust), attach a statement to the T3 return giving details about all dispositions to the beneficiary within the taxation year.

#### Proposed changes – From tax changes announced October 2, 1996

Any property (including certain taxable Canadian property) distributed to a non-resident beneficiary after October 1, 1996, other than Canadian real estate, Canadian business property and inventory, pension and other similar rights, stock options, and certain property of short-term residents, is deemed to be disposed of at the property's fair market value at that time. The trust or beneficiary may defer the payment of tax resulting from the deemed

disposition by providing acceptable security. Contact your tax services office to arrange security.

### Testamentary trust – 164(6) election

Regulation 600, 1000

The legal representative administering the estate can elect to transfer certain estate losses to the deceased person's income tax return for the year of death. This election applies only to the first taxation year of a deceased person's estate. Regulation 1000 describes the prescribed manner for making the election. To make this election, attach a letter to the T3 return with a schedule of the estate's losses that are being transferred to the deceased.

The trust cannot claim losses that the legal representative has elected to transfer to the deceased. Any portion of the losses not transferred are subject to the usual loss provisions available to the trust.

This election applies to estate losses that occurred when the trust disposed of:

- the estate's capital property, resulting in more capital losses than capital gains; or
- all the estate's depreciable property in a prescribed class, resulting in a terminal loss in that class at the end of the taxation year.

The elected amount of a terminal loss cannot be more than the trust's combined non-capital loss and farm loss calculated before the election.

File this election and an amended final income tax return for the deceased person for the year of death, or a request to adjust that return by the later of:

- the last day for filing the deceased person's return that the legal representative is required to file or has elected to file, and
- the filing deadline for the estate's T3 return for its first taxation year.

Clearly identify the amended final income tax return of the deceased person as a "164(6) election."

The election and the amended return do not affect the return of the deceased person for any year before the year of death.

#### Note

If the loss to be applied to the deceased person's final income tax return is known before that return is due to be filed, we will accept a claim for a subsection 164(6) election when the deceased's final income tax return is filed. Clearly identify the return as a "164(6) election."

#### Proposed changes – From tax changes announced December 14, 1995

If a capital loss from the disposition of shares of capital stock of a corporation occurred before 1997, and the estate's first taxation year ended between April 26, 1995, and January 1, 1997, the legal representative can elect to transfer the capital loss to the deceased individual's final income tax return, by filing a written election within six months of the month following the date the legislation receives Royal Assent.

In some circumstances, usually those beyond your control, we may accept a late or amended election, or revoke a valid election. Before asking us to consider accepting a late, amended, or revoked election, see Information Circulars 92-1, *Guidelines for Accepting Late, Amended or Revoked Elections*, and 92-2, *Guidelines for the Cancellation and Waiver of Interest and Penalties*. A late, amended, or revoked election is subject to a penalty of \$100 for each complete month from the due date of the election to the date of the request. The maximum penalty is \$8,000.

### Testamentary trust – 164(6.1) election

An election is also available for employee stock options that expired, or were exercised or disposed of, within the first taxation year of the estate. The trust can make this election if the disposition resulted in a gain that is less than the deemed employment benefit reported on the deceased person's final return. The trust can elect to treat this reduction in value as a loss from employment for the year in which the person died.

The amount that the trust can elect to carry back to the deceased person's final return is equal to the amount by which:

- a) the deemed benefit for the option included on the deceased person's final return;
- is more than the total of:
- b) the amount by which the value of the option immediately before it expired, was exercised, or disposed of, is more than the amount the deceased person paid to acquire the option; and
  - c) one-quarter of the amount by which a) is more than b), if a similar deduction was claimed on the deceased person's final return.

If the trust makes this election, reduce the trust's adjusted cost base of the option by the amount of the loss determined above, [a) – b)], without considering c). File this election and an amended final return for the deceased person for the year of death by the later of:

- the last day for filing the deceased person's return that the legal representative is required to file or has elected to file; and
- the filing deadline for the estate's T3 return for its first taxation year.

### Capital gains

3, 38, 39, 40

The taxable portion of a capital gain and the allowable portion of a capital loss is 75% (3/4).

#### Proposed changes – From tax changes announced on February 18, 1997

The taxable capital gain on certain gifts to charities, other than private charitable foundations, is reduced from 75% to 37.5%. For more information, see Schedule 1A – *Capital Gains on Gifts of Certain Capital Property*, on page 32.

The general rules to follow when you report a capital gain or loss depend on the type of asset the trust disposed of, or

was deemed to dispose of. For more information on capital gains or losses, see the income tax guide called *Capital Gains*.

### Capital dispositions – Other terms

#### Proceeds of disposition

107(2), 107(4)

This is usually the amount that the trust received or will receive for its property. In most cases, it refers to the sale price of the property. In certain situations, the proceeds of disposition are set by rules in the Act.

When a personal trust distributes property to a beneficiary, to settle in whole or in part, the beneficiary's capital interest in the trust, we consider the trust to have received proceeds of disposition equal to the "cost amount" of the property.

The cost amount of a capital property (other than a depreciable property) is its adjusted cost base. We define adjusted cost base on page 25. The cost amount of a depreciable property is the proportionate share of the undepreciated capital cost of the class that the capital cost of the depreciable property is of the capital cost of all depreciable property of that class that was not previously disposed of. Usually, the capital cost of a depreciable property is limited to an amount less than fair market value where non-income producing depreciable property begins to be used to produce income, the income producing use of depreciable property increases, or where income producing property is acquired in a non-arm's length transaction. When calculating the proportionate amount, this limitation does not apply. In this case, the capital cost of the depreciable property is its acquisition cost at fair market value.

When a post-1971 spousal trust, whose spouse beneficiary is still alive, distributes property such as capital property, resource property, or land inventory to a person who is not the beneficiary spouse, we consider the trust to have received proceeds of disposition equal to the property's fair market value.

#### Proposed changes – From tax changes announced on October 2, 1996

A trust which distributes to a non-resident beneficiary after October 1, 1996, any property (including certain taxable Canadian property), other than Canadian real estate, Canadian business property and inventory, pension and other similar rights, stock options, and certain property of short-term residents, is deemed to have disposed of such property for proceeds equal to the property's fair market value at that time. A trust or beneficiary can defer the payment of tax resulting from the deemed disposition by providing acceptable security. Contact your tax services office to arrange security.

A trust which ceases to be a resident of Canada after October 1, 1996, is deemed to have disposed of all property (including certain taxable Canadian property), other than Canadian real estate, Canadian business property and inventory, pension and other similar rights, stock options, and certain property of short-term residents, for proceeds equal to the property's fair market value at that time, and reacquired the property, at the same value, immediately thereafter. A trust can defer the payment of tax resulting

from the deemed disposition by providing acceptable security.

A trust which ceases to be a resident of Canada any time after 1995, and owns property with a fair market value more than \$25,000 at that time, has to file, with its income tax return for that year, a list of each property the trust owned at that time. A trust does not have to include personal-use property with a fair market value less than \$10,000.

### Adjusted cost base

53, 54(a)

Adjusted cost base (ACB) is usually the cost of acquiring property plus or minus adjustments allowed under the Act. The ACB can differ from the original cost if changes have been made to the property between the time it was acquired and the time it was sold. For example, the cost of additions to a building may be added to the original cost. For more information, see the income tax guide called *Capital Gains*, and Interpretation Bulletin IT-456, *Capital Property – Some Adjustments to Cost Base*.

### Proposed changes – From tax changes announced June 20, 1996

For 1994 and subsequent taxation years, new paragraph 53(1)(r) of the Act increases the adjusted cost base of each interest in, or share of, the capital stock of a flow-through entity by a pro rata portion of the amount of the unused exempt capital gains balance of the flow-through entity when the trust disposes of all interests in, and shares of, the capital stock of the entity.

For more information, see the income tax guide called *Capital Gains*.

### Outlays and expenses

40(1)

Outlays and expenses are the expenses incurred in disposing of capital property. They include certain fixing-up expenses, finder's fees, lawyer's fees, commissions, broker's fees, surveyor's fees, transfer taxes, and other expenses directly related to disposing of the property. You can use these outlays and expenses to reduce a trust's capital gain or increase its capital loss. In the case of depreciable property sold at a loss, these outlays and expenses reduce the proceeds from the sale to be credited to the class. Do not claim them as deductions from the trust's income.

### Assets acquired before 1972

Before 1972, capital gains were not taxed. Therefore, for property the trust acquired before 1972, the valuation day value has to be considered when you calculate the trust's capital gains and losses. This is so any gain on the property, which accrued to January 1, 1972, is not taxed.

Valuation day is December 22, 1971, for shares listed in the publication called *Valuation Day Prices of Publicly Traded Shares*. Valuation day for all other property is December 31, 1971.

To calculate the trust's capital gain or loss, you can use Form T1105, *Supplementary Schedule for Dispositions of Capital Property Acquired Before 1972*.

### Median rule – Income Tax Application Rules 24 and 26(3)

To calculate a capital gain or loss on property acquired before 1972, you need three values:

- the actual cost;
- the valuation day value; and
- the proceeds of disposition.

The median of these three amounts is the amount that is neither the highest nor the lowest. This amount becomes the deemed cost, unless the property was depreciable property or an interest in a partnership. Calculate the capital gain or loss using the deemed cost, unless the trust elects to use the **valuation day value**. When two or more of these three amounts are the same, that amount will be the median. For more information, see Interpretation Bulletin IT-84, *Capital Property Owned on December 31, 1971 – Median Rule (Tax-Free Zone)*.

### Valuation day value election

ITAR 26(7)

A trust can elect to use the valuation day value as the cost for all transactions instead of the median rule. Once this election is made, it will apply to most assets owned at the end of 1971, regardless of the year of disposition. Make this election on Form T2076, *Valuation Day Value Election for Capital Properties Owned on December 31, 1971*.

If there are no adjustments to the cost base, enter the median amount or the valuation day value in Column 3 of Schedule 1. A capital gain results if the proceeds of disposition are more than the greater of the cost and the valuation day value. A capital loss results if the proceeds of disposition are less than the lesser of the cost and the valuation day value.

### Lines 101 and 102

Capital gains reported on lines 101 and 102 qualify for the \$500,000 capital gains deduction by a spousal trust, or by an individual beneficiary to whom the trust designates the eligible capital gains. For more information, see "Footnotes for line 926 (and box 26)" and "Footnotes for line 930 (and box 30)" on page 41, and "Completing the T3 Supplementary slip" on page 54.

For more information on qualified small business corporation shares, see the income tax guide called *Capital Gains*. For more information about qualified farm property, see the income tax guide called *Farming Income*.

### Line 101 – Qualified small business corporation shares

110.6(1), 110.6(14), 248(1)

Personal trusts report a capital gain from disposing of this type of share on line 101. Do not report a loss the trust incurred in disposing shares of, or debts owing by, a small business corporation in an arm's length transaction. For information on these types of losses, see "Line 25" on page 18.

A share in a small business corporation is considered to be a **qualified small business corporation share** if:

- at the time of disposition, the trust or a partnership related\* to the personal trust owned the share;
- throughout the 24 months before the disposition, only the personal trust, or a person or a partnership related\* to the personal trust owned the share; and
- throughout that part of the 24 months immediately before the disposition, while the personal trust or person or partnership related\* to the personal trust owned the share, it was the share of a Canadian-controlled private corporation (CCPC), and more than 50% of the fair market value of the assets of that corporation were:
  - assets used principally in an active business carried on primarily in Canada by the CCPC, or by a corporation related to it;
  - certain shares or debts of connected corporations; or
  - a combination thereof.

\* For this definition, a person or a partnership is related to a personal trust:

- if that person or partnership is a beneficiary of the personal trust;
- if the personal trust is a member of the partnership; or
- when the personal trust disposes of the shares, all the beneficiaries are related to the person from whom the personal trust acquired the shares.

### **Line 102 – Qualified farm property** 110.6(1)

Personal trusts report a capital gain from the disposition of qualified farm property on line 102.

Qualified farm property of a personal trust includes property **owned** by the personal trust that is:

- a share of the capital stock of a family farm corporation;
- an interest in a family farm partnership; or
- real property or eligible capital property used in carrying on the business of farming in Canada by:
  - an individual beneficiary, or that beneficiary's spouse, child, or parent, to whom the personal trust has designated taxable capital gains; or
  - a family farm corporation or family farm partnership of the personal trust or beneficiary, or the beneficiary's spouse, child, or parent.

### **Line 103 – Other shares**

Use this line to report a gain or loss when the trust sells shares or securities that are not described in any other section of Schedule 1. For more information, see the income tax guide called *Capital Gains*.

### **Line 104 – Bonds, debentures, promissory notes, and other properties**

Use this line to report gains or losses when the trust sells these types of properties. The trust may receive Form T5008, *Statement of Securities Transactions*, or an account statement, showing details of the sale.

Also report on this line, gains or losses when the trust sells options. For information on disposing of options to sell or buy shares, see Interpretation Bulletins IT-96, *Options Granted By Corporations to Acquire Shares, Bonds, or Debentures*, and by *Trusts to Acquire Trust Units*, and IT-479, *Transactions in Securities*, and its Special Release.

### **Line 105 – Real estate and depreciable property**

54(a), ITAR 20(1)

The trust can have a capital gain on non-depreciable property, often real estate, or depreciable property if it sold the property for more than its capital cost. If the trust owned the property on December 31, 1971, the gain is limited to any gain since valuation day.

The trust cannot have a capital loss on the disposition of depreciable property. However, the trust can have a terminal loss under the capital cost allowance rules when it disposes of all the depreciable property of a class. For more information, see "Real estate and depreciable property" in the income tax guide called *Capital Gains*.

For more information about the disposition of depreciable property owned on December 31, 1971, see Interpretation Bulletin IT-217, *Capital Property Owned on December 31, 1971 – Depreciable Property*, and its Special Release.

### **Line 106 – Personal-use property**

40(2)(g)(iii), 46, 54(f)

**Personal-use property** of a trust includes property used primarily for the personal use or enjoyment of a beneficiary under the trust, or any person related to the beneficiary. It includes property such as personal and household effects, automobiles, boats, personal residences, cottages, and antiques. If the trust disposed of such an asset for more than its adjusted cost base, it may have to report a capital gain. Report a gain only if the selling price (proceeds of disposition) is more than \$1,000 for any asset. If the adjusted cost base is less than \$1,000, use \$1,000 as the adjusted cost base. A capital loss is not allowed on personal-use property. However, you may be able to deduct certain debts from the disposition of such property and listed personal property. For more information, see "Personal-use property" in the income tax guide called *Capital Gains* and Interpretation Bulletin IT-332, *Personal-Use Property*.

### **Principal residence**

40(4), 54(g), 107(2.01)

If a personal trust acquires a principal residence, the trust will usually be exempt from tax on any gain on the

disposition or deemed disposition of that residence. To be exempt, the residence has to qualify and be designated by the trust as its principal residence. Usually a residence can be so designated if it is inhabited by a **specified beneficiary**, or that beneficiary's spouse, former spouse, or child. A personal trust can only designate one property as a principal residence. Also, the specified beneficiary cannot designate any other property as a principal residence.

For this purpose, a specified beneficiary is a beneficiary who had a beneficial interest in the personal trust and who ordinarily lived in the housing unit or who had a spouse, former spouse, or child who ordinarily lived in the housing unit.

Make the trust's designation on Form T1079, *Designation of a Property as a Principal Residence by a Personal Trust*. You have to file this form with the T3 return for the year in which the disposition or deemed disposition occurs.

When a personal trust's principal residence is distributed to a beneficiary (to a spouse beneficiary if the personal trust is a post 1971 spousal trust), the trust can elect to have a deemed disposition of the principal residence at fair market value. Make this election on the trust's return for the year of distribution. You can then apply the principal residence exemption to any gain on the trust's deemed disposition. The beneficiary will acquire the property at fair market value.

For more information, see Form T1079, *Designation of a Property as a Principal Residence by a Personal Trust*, and Interpretation Bulletins IT-366, *Principal Residence – Transfers to Spouse, Spouse Trust or Certain Other Individuals*, and its Special Release, and IT-120, *Principal Residence*.

## Lines 107 to 109 – Listed personal property 41, 54(e)

Listed personal property (LPP) consists only of:

- prints, etchings, drawings, paintings, sculptures, or other similar works of art;
- jewellery;
- rare folios, rare manuscripts, and rare books;
- stamps; and
- coins.

Since an LPP is a type of personal-use property, calculate the gain or loss on the sale of an item or set of items in the same way as you would calculate the gain or loss on personal-use property. If the adjusted cost base or the selling price is less than \$1,000, use \$1,000. If the trust has sold such an item or set of items for less than its adjusted cost base, it may be able to claim a capital loss on the trust's return. Report the loss only if the adjusted cost base is more than \$1,000.

You can apply the trust's LPP losses only against its LPP gains. When these losses are greater than these gains in a year, you can use the excess to reduce the trust's net gains on LPP in the preceding three years and the seven subsequent years. See "Listed personal property losses" on page 21.

## Line 110 – Information slips

Use this line to report the following amounts:

- capital gains from box 21 and insurance segregated fund capital losses from box 37 of a T3 slip;
- capital gains (or losses) from box 34 of a T4PS slip;
- capital gains dividends from box 18 of a T5 slip; and
- capital gains (or losses) of a T5013 slip.

A T3 slip that the trust received may have an asterisk (\*) in box 30 and a footnote in the area below box 41. If this is the case, do not report these amounts on line 110. Instead, report the amount for qualified small business corporation shares on line 101, and report the amount for qualified farm property on line 102.

## Line 113 – Capital losses arising from reduction in business investment loss

For information on a reduction in business investment loss, see "Reduction in business investment loss" on page 18.

## Line 114 – Capital gains reduction on flow-through entities

If the trust elected to report a capital gain on the trust's interest in, or shares of a flow-through entity owned on February 22, 1994, it may have an exempt capital gains balance. The trust can use the exempt capital gains balance to reduce capital gains flowed to the trust by a flow-through entity, or capital gains it realizes on a later disposition of the interest in, or shares of, the flow-through entity. This will reduce the amount of capital gains allocated to beneficiaries so that the beneficiaries are not taxed again on the amount of capital gains which were allocated to them at the time of the election.

Use line 114 to claim a capital gains reduction. The reduction for each flow-through entity is limited to the extent of the exempt capital gains balance for that entity. Do not include the capital gains reduction on any flow-through entities the trust donated. Instead claim the capital gains reduction on those flow-through entities on Schedule 1A.

## Line 117 – Total amount of capital gains (or losses) from reserves

If the trust had a taxable capital gain but did not receive the full sale price, it can claim a reserve for the unpaid amount. Generally, the minimum amount of the trust's capital gain it has to report each year is one-fifth of the taxable capital gain. If the trust claimed a reserve in 1996, it has to bring it back into the trust's income in 1997. If any of the proceeds are payable after the end of the year, the trust can claim a new reserve. If you are claiming a reserve on the trust's return, you have to complete Schedule 2. For more information on reserves, see the income tax guide called *Capital Gains*, and Interpretation Bulletin IT-236, *Reserves – Dispositions of Capital Property*.

## Line 119 – 50% of capital gains on gifts of certain capital property

Proposed changes – From tax changes announced on February 18, 1997

Enter on line 119, the amount from line 195 of Schedule 1A, *Capital Gains on Gifts of Certain Capital Property*.

On line A, below line 119, enter the capital gains on gifts of property other than the gains included on line 195 of Schedule 1A. These are the total of any gains from gifts that are included in lines 101 to 107 minus any amount included on line 114 that relates to those gifts.

## Line 122 – Total taxable capital gains (allowable capital losses)

40(1)

Transfer from line 122, the total taxable capital gains to line 01 on page 2 of the T3 return. If you calculate an allowable capital loss for the trust on Form T1055, *Summary of Deemed Realizations*, see that form for a possible adjustment to line 122.

Do not enter a loss on line 01. The trust can use a capital loss only to offset a capital gain. Any excess becomes a net capital loss that you can apply against the trust's taxable capital gains in a previous or future year. You have to request a loss carryback on or before the due date of the T3 return for the year in which the loss occurred. See "Form T3A, *Request for Loss Carryback by a Trust*" on page 21.

## Capital gains deduction

110.6(12)

When the beneficiary spouse dies, you may be able to reduce the spousal trust's taxable capital gain. A post-1971 spousal trust reporting eligible capital gains can do this by claiming the unused portion of the beneficiary spouse's capital gains deduction. A pre-1972 spousal trust reporting a deemed realization on the death of the beneficiary spouse can also claim the unused portion of the beneficiary spouse's capital gains deduction, but only if the pre-1972 spousal trust does not make an election on Form T1015, *Election by a Trust to Defer the Deemed Realization Day*.

Calculate the capital gains deduction on Schedule 5, and claim it on line 53 of the T3 return.

## Records – Capital transactions

You will need to keep the records or vouchers that contain the information you use to calculate the trust's capital gains or capital losses for the year. Although you do not need to include these documents with the return, keep them in case we ask to see them later.

## Form T1055, Summary of Deemed Realizations

Deemed realization (disposition) – 21-year rule  
104(4), (5), (5.1), (5.2)

On specified dates during the life of a trust, a trust is deemed to have disposed of its capital property, land inventory, and Canadian and foreign resource properties. Report the resulting income, gains, or losses on the trust's T3 return in the taxation year in which the dispositions are considered to have occurred. For more information about those specified dates, see "Deemed realization day" which follows.

In addition to the properties referred to above, if a post-1971 testamentary spousal trust holds a NISA Fund No. 2 that was transferred to it on the death of the settlor, report a deemed payment out of the fund on the day the beneficiary spouse dies. For more information, see "Line 10 – NISA Fund No. 2" on page 16.

To calculate the income, gain, or loss, report the deemed realizations on Form T1055. Transfer to line 11 of the T3 return, the amount from line 42 of Form T1055. Unless the trust is a post-1971 spousal trust, do not report the trust's deemed realization on Form T1055 if the trust actually disposed of the property before the end of the taxation year. In this case, use Schedule 1, *Summary of Dispositions of Capital Property*, to report the actual disposition.

A trust is considered to have:

- disposed of its capital property (including depreciable property of a prescribed class), land inventory, and Canadian and foreign resource properties at the end of the day on these specified dates, at fair market value; and
- reacquired them immediately thereafter, at a cost equal to the same fair market value.

In the case of the trust's depreciable property, the trust has to report both capital gains and recapture of capital cost allowance.

Form T1055 also has areas you can use to calculate the:

- adjustments to line 122 of Schedule 1, and line 1203 of Schedule 12;
- amount of tax on which the trust can elect to defer payment; and
- amount of taxable and deemed taxable capital gains to which you can apply the trust's net capital losses of other years.

For more information about the deemed cost of the property, see Interpretation Bulletins IT-370, *Trusts – Capital Property Owned on December 31, 1971*, and IT-132, *Capital Property Owned on December 31, 1971 – Non-Arm's Length Transactions*.

## Deemed realization day

104(4)

The deemed realization day is the day the trust is considered to have disposed of its capital property, land inventory, and Canadian and foreign resource properties.

Generally, the deemed realization day can be summarized as follows:

- For a spousal trust, it is the day the beneficiary spouse dies.
- For a trust that elects to defer the deemed realization day, it is the first day of the first taxation year after the day the trust no longer has an exempt beneficiary, or January 1, 1999, whichever is earlier.
- For other trusts, it is 21 years after the trust was created.

Subsequent deemed realizations will occur every 21 years on the anniversary of the day established above.

## Exemption from the 21-year rule

108(1)

The following trusts are **excluded** from the 21-year deemed realization rules:

- an amateur athlete trust;
- an employee trust;
- a master trust;
- trusts governed by:
  - a deferred profit-sharing plan;
  - an employee benefit plan;
  - an employee profit-sharing plan;
  - a foreign retirement arrangement;
  - a registered education savings plan;
  - a registered pension fund or plan;
  - a registered retirement income fund;
  - a registered retirement savings plan; or
  - a registered supplementary unemployment benefit plan;
- a related segregated fund trust;
- a retirement compensation arrangement trust;
- a trust whose direct beneficiaries are one of the above-mentioned trusts;
- a trust governed by an eligible funeral arrangement or a cemetery care trust;
- a communal organization;
- a unit trust; and
- a trust in which all interests have been permanently vested, and in which no interest can become effective in the future. This provision applies primarily to those commercial trusts that do not qualify as unit trusts. It does not apply to:
  - a post-1971 spousal trust;

– a trust that elects on Form T1015 to defer the deemed realization day; or

– a trust that elects on its return for the first taxation year ending after 1992 not to apply this provision.

## Form T2223, Election by a Trust to Defer Payment of Tax

159(6.1), (7)

The trust can elect to pay its income tax arising from the deemed realization rule in up to 10 annual instalments. Interest at the prescribed rate will apply. Make the election on Form T2223, and file it at your tax services office no later than the day the T3 return is due for the taxation year the deemed realization occurs. To make security arrangements, contact Revenue Collections at your tax services office. For more information on this election, contact the General Enquiries service of your tax services office.

## Form T1015, Election by a Trust to Defer the Deemed Realization Day

104(5.3)

If the deemed realization day is before 1999, a trust can elect to postpone its deemed realization day if at least one living beneficiary of the trust qualified as an **exempt beneficiary** on the deemed realization day that would otherwise occur. For more information, see "Exempt beneficiary" on page 30.

Capital property, land inventory, and resource property held on January 1, 1999, by a trust that elects to defer the deemed realization day, will be deemed to be disposed of on January 1, 1999, for proceeds equal to fair market value.

Make the election on Form T1015 and file it within six months after the end of the taxation year in which the deemed realization would otherwise occur.

In some circumstances, usually those beyond your control, we may accept a late or amended election, or revoke a valid election. Before asking us to consider accepting a late, amended, or revoked election, see Information Circular 92-1, *Guidelines for Accepting Late, Amended or Revoked Elections*. Also see Information Circular 92-2, *Guidelines for the Cancellation and Waiver of Interest and Penalties*. A late, amended, or revoked election is subject to a penalty of \$100 for each complete month from the due date of the election to the date of the request (maximum \$8,000).

If the trust makes this election:

- The trust's deemed realization day is postponed to the first day of the first taxation year in which the trust does not have an exempt beneficiary, or January 1, 1999, whichever day is earlier. This would be the first day of the first taxation year following the death of the last exempt beneficiary, or January 1, 1999, whichever day is earlier. If the exempt beneficiary dies on the last day of the trust's taxation year, the trust's deemed realization day is postponed until the first day of the first taxation year following the year in which there is no exempt beneficiary, or January 1, 1999, whichever day is earlier. For example, if the trust has a year end of June 30, 1997,

and the exempt beneficiary dies on June 30, the trust's next deemed realization day is July 1, 1998.

- If the trust filed the election before March 1995, and distributes trust property to beneficiaries after February 1995, the proceeds to the trust and the cost to the exempt and non-exempt beneficiaries will be the cost amount of the property.
- The trust can transfer trust property to another trust during the period beginning on the day after the original deemed disposition day and ending on the newly determined realization day. If it does, the property will be considered to have been disposed of for proceeds equal to its fair market value. This rule does not apply if there is merely a change of trustees and if the transferee trust held no assets before the transfer.

This election is:

- not available to a post-1971 spousal trust when the beneficiary spouse dies. However, it can be used before 1999 to postpone the deemed realization occurring on the twenty-first anniversary of the beneficiary spouse's death;
- available to a pre-1972 spousal trust on either one of the following two dates:
  - on the first deemed realization that occurs on the day the beneficiary spouse dies; or
  - on the second deemed realization that occurs 21 years after the beneficiary spouse dies; and
- available to other trusts on the first deemed realization day that occurs on the day that is 21 years after the trust was created.

### **Exempt beneficiary**

104(5.4), (5.5)

An exempt beneficiary must be a living beneficiary of the trust. He or she must also be one of the following individuals:

- an inter vivos trust's **designated contributor** (see the definition that follows);
- the designated contributor's;
  - spouse or former spouse; or
  - grandparent, parent, brother, sister, child, niece, or nephew; or
- the grandparent, parent, brother, sister, child, niece, or nephew of the designated contributor's spouse or former spouse.

In addition to the above requirements, if the trust was created after February 11, 1991, the beneficiary, or a brother or sister of the beneficiary, must have been alive on the earlier of the:

- date the trust was created; and
- creation date of any trust that is transferring capital property, land inventory, or resource properties to the trust to which special rules apply. See "Transfer of trust property" on page 31.

A beneficiary is generally a person who has any contingent or absolute right under the trust. An individual is not an exempt beneficiary if all the interests of the beneficiaries depend on the discretion of a person, and if that discretion could be used to deny the individuals, or the children of deceased individuals, the enjoyment of any benefit in respect of their interests. This provision applies to trusts created or varied after February 11, 1991. An individual will not be considered an exempt beneficiary if one of the main purposes for creating that person's right under the trust was to defer the application of the 21-year deemed realization rule.

### **Designated contributor**

104(5.6), (5.7)

A designated contributor for:

- An inter vivos or a testamentary spousal trust is the individual who created, or whose will created the trust;
- A non-spousal testamentary trust as of the end of the taxation year for which you make an election on Form T1015, is the individual whose death created the trust; and
- Other trusts, is a qualifying individual who was a beneficiary under the trust, or was related to a beneficiary under the trust, and who is the individual designated on Form T1015.

### **Qualifying individual**

An individual is a **qualifying individual** of an inter vivos trust, if at each time in the relevant period the total amount of property transferred or loaned to the trust before that time by the individual:

- was greater than the total amount transferred or loaned before that time by each other individual who was born **before** the designated individual, and was related to a trust beneficiary; and
- was greater than, or equal to, the total amount transferred or loaned before that time by each other individual who was born **after** the designated individual and was related to a trust beneficiary.

If no individual qualifies, then the designated contributor may be the oldest individual who was related to the trust beneficiary, and who transferred or loaned property to the trust before the end of the relevant period.

An individual also generally qualifies as a designated contributor when throughout the relevant period, the property of the trust was mostly:

- shares of the capital stock of a corporation controlled (when the trust was created, or at the beginning of the relevant period) by the individual, or by the individual and one or more individuals born after and related to that individual, if no one individual would otherwise control the corporation;
- shares of the capital stock of a corporation where all or substantially all of the value comes (throughout the relevant period) from property transferred to the corporation by the individual, or by the individual and one or more persons born after and related to the individual;

- shares in a holding corporation, if all or substantially all of their value comes from the above shares;
- property substituted for the above shares;
- property attributable to profits, gains, or distributions on the above properties; or
- any combination of the above.

In determining if an individual is a designated contributor:

- **relevant period** refers to the period that begins one year after the day the trust was created and ends on the deemed realization day (if the election had not been filed);
- two individuals are considered to be related if one is the aunt, great-aunt, uncle, or great-uncle of the other; and
- an individual is considered not to be a designated contributor if one of the main purposes of a series of transactions or events was to defer the application of the 21-year deemed realization rule. This would include events such as appointing an individual as a trustee of the trust, or acquiring or borrowing property to allow the individual to be a designated contributor.

### Transfer of trust property

104(5.8)

If property is transferred from one trust to another, rules apply to determine the deemed realization day.

If one trust (transferor) transfers capital property, land inventory, or resource property to another trust (transferee), the deemed realization day of the transferee trust becomes the earliest of the following dates:

- the transferor's deemed realization day that occurs after the transfer, if the transfer had not been made;
- the transferee's deemed realization day that occurs after the transfer;
- the day after the transfer, if the transferee had filed an election on Form T1015, and the new deemed realization day has not occurred; and
- the day after the transfer, if the transferee is a spousal trust and the beneficiary spouse is still alive at the time of the transfer.

This last rule will not apply when the transfer took place:

- on or before December 20, 1991, if either the transferor or transferee trust was a spousal trust; or
- after December 20, 1991, if both the transferor and transferee are spousal trusts.

The transferee trust can file an election on Form T1015 to postpone the deemed realization day, unless the trust had a previous deemed realization and has already had the opportunity to make such an election.

Summary of options available for deemed realization under the 21-year rule (subject to the provisions of the will or trust document)			
Options	Post-1971 spousal trust	Pre-1972 spousal trust	Other trusts and spousal trusts 21 years after first deemed disposition
Gains or losses from the deemed dispositions taxed in the trust	yes	yes	yes
Elect to defer tax (Form T2223)—applies to 1993 and subsequent years	yes	yes	yes
Claim capital gains deduction, in the year in which the beneficiary spouse dies (Schedule 5)	yes	yes	no
Designate capital gains (box 21 of T3 Supplementary slip)	no	yes	yes
Preferred beneficiary election	no	no	yes (no, if the trust previously made an election on Form T1015)
Elect to defer deemed realization day, if the trust has an exempt beneficiary (Form T1015)	no (yes, 21 years after beneficiary spouse dies)	yes (choice of two dates)	yes (only on first deemed realization)

## Schedule 1A – Capital Gains on Gifts of Certain Capital Property

### Note

Schedule 1A is not contained in this guide. However, you can get it from any of our offices, our Electronic Data Distribution System (EDDS), and the Internet.

### Proposed changes – From tax changes announced on February 18, 1997

The taxable capital gain on gifts made between February 18, 1997, and January 1, 2002, to charities, other than private charitable foundations, is reduced from 75% to 37.5% for the following securities:

- shares, rights and debt obligations listed on the Vancouver, Alberta, Winnipeg, Toronto, Montréal, and certain foreign stock exchanges;
- units or shares of mutual funds;
- an interest in a segregated fund; and
- certain other debt obligations.

For more information, see the pamphlet called *Gifts and Income Tax*.

Calculate the capital gains on these securities on Schedule 1A. Include the capital gains reduction on any flow-through entities the trust donates, e.g., units or shares of a mutual fund, on line 163, not on line 114 of Schedule 1. Transfer the amount from line 195 of Schedule 1A to line 119 of Schedule 1.

## Schedule 2 – Calculation of Reserves on Dispositions of Capital Property

### Note

Schedule 2 is not contained in this guide. However, you can get it from any of our offices, our Electronic Data Distribution System (EDDS), and the Internet.

When a trust sells capital property, it usually receives full payment at that time. However, a trust may sell property but receive only part of the selling price at that time and the balance over a number of years. In this case the trust can claim a reserve.

Complete Schedule 2 if you:

- claimed a reserve on the disposition of the trust's capital property at the end of the previous year; or
- are going to claim a reserve on the disposition of the trust's capital property at the end of the current taxation year.

### Proposed changes – From tax changes announced on July 31, 1997

For 1997 and subsequent taxation years, a trust which makes a charitable gift of a non-qualifying security may claim a reserve in respect of any gain realized from the gift.

For more information, see our income tax guide called *Capital Gains*.

Include the reserve on line 214.

If you are completing Schedule 2, you will need the information from Schedule 2 to complete Schedules 1, 3, and 12.

## Schedule 3 – Calculation of a Trust's Eligible Taxable Capital Gains

104(21), 104(21.1), 104(21.2), 104(21.3)

### Note

Schedule 3 is not contained in this guide. However, you can get it from any of our offices, our Electronic Data Distribution System (EDDS), and the Internet.

Complete Schedule 3 if the trust is a personal trust that is:

- designating taxable capital gains from qualified farm property, qualified small business corporation shares, or reserves on these properties, to an individual beneficiary (T3 Supplementary slip, box 21); or
- a spousal trust claiming a capital gains deduction on Schedule 5.

If you complete Schedule 3, you have to also complete and submit Schedule 4, *Calculation of Cumulative Net Investment Loss*.

### Lines 301 to 317 – Part I – Trust's annual gains limit for the year

110.6

Use Part I of Schedule 3 to calculate the trust's annual gains limit for the year.

Eligible capital gains include only gains from dispositions or deemed dispositions of qualified farm property or qualified small business corporation shares.

### Lines 320 to 328 – Part II – Trust's cumulative gains limit for the year

110.6

Use Part II of Schedule 3 to calculate the trust's cumulative gains limit. See the next heading to calculate the taxable portion of reserves from pre-1985 dispositions.

### Line 323 – Adjusted cumulative loss amount reported after 1984 and before the current year

You have to make an adjustment on line 323 if the trust claimed net capital losses of other years in a taxation year after 1984 and before 1992 if, in the taxation year, the trust reported a pre-1985 reserve. You have to reduce the net capital losses of other years claimed in a year by the taxable portion of the pre-1985 reserve reported in the year. The following chart will help you calculate this adjustment for line E on Schedule 3. If you have never made this calculation, you have to make it in 1997 for all the years from 1985 to 1991.

Calculation for line E on Schedule 3					
Year	1 Net capital losses of other years claimed in the year	2 Reserves related to capital dispositions before 1985	3	4 Taxable portion of reserve (column 2 × column 3)	5 Lesser of amounts in column 1 and column 4 (if negative, enter "0")
1985	\$ _____	\$ _____	× 1/2 =	\$ _____	\$ _____
1986	\$ _____	\$ _____	× 1/2 =	\$ _____	\$ _____
1987	\$ _____	\$ _____	× 1/2 =	\$ _____	\$ _____
1988	\$ _____	\$ _____	× 2/3 =	\$ _____	\$ _____
1989	\$ _____	\$ _____	× 2/3 =	\$ _____	\$ _____
1990	\$ _____	\$ _____	× 3/4 =	\$ _____	\$ _____
1991	\$ _____	\$ _____	× 3/4 =	\$ _____	\$ _____
<b>Total</b>					\$ _____

Transfer the total of column 5 to line E of Part II on Schedule 3.

- Net capital losses of other years claimed in the year—for 1985 and 1986, from Part I of Form T672, line 6; for 1987, from line 523 on Schedule 5B; for 1988 and 1989, from line 536 on Schedule 5B; and for 1990 and 1991, from line 307 on Schedule 3. Also include any capital loss carrybacks claimed in each year.
- Reserves related to capital dispositions before 1985—for 1985, from Schedule 2, prior-year reserve; for 1986, from line 511 of Schedule 5; for 1987, from Schedule 5A, 1985 and prior net reserve (line 513 minus line 514); for 1988 and 1989, from line 575 of Schedule 5C; and for 1990 and 1991, from line 215 of Schedule 2.

**Lines 330 to 334 – Part III – Trust’s eligible taxable capital gains for the year**  
108(1)

The trust’s eligible taxable capital gains for the year are the lesser of the trust’s:

- annual gains limit for the year; and
- cumulative gains limit at the end of the year minus the total amounts of eligible taxable capital gains designated in previous years.

For more information, see Interpretation Bulletin IT-381, *Trusts – Deduction of Amounts Paid or Payable to Beneficiaries and Flow-Through of Taxable Capital Gains to Beneficiaries*.

You will need the amount you calculated on line 334 when you complete Schedules 5 and 9. This is the amount of the trust’s taxable capital gain that qualifies for a capital gains deduction for a spousal trust (line 501 on Schedule 5) or an individual beneficiary (line 930 on Schedule 9).

**Schedule 4 – Calculation of Cumulative Net Investment Loss**  
110.6

**Note**

Schedule 4 is not contained in this guide. However, you can get it from any of our offices, our Electronic Data Distribution System (EDDS), and the Internet.

The cumulative net investment loss (CNIL) is the trust’s total investment expenses for years ending after 1987, minus the trust’s total investment income for years ending after 1987. For purposes of the CNIL, investment income and expenses refer to income and expenses related to property including dividends, interest, and rental income.

Complete Schedule 4 if the trust is a personal trust which has qualified farm property or qualified small business shares, is reporting any investment income or claiming any investment expenses, and is:

- designating taxable capital gains from qualified farm property, qualified small business corporation shares, or reserves on these properties, to an individual beneficiary; or
- a spousal trust claiming a capital gains deduction on Schedule 5 in the year the beneficiary spouse dies.

Trusts with qualified farm property or qualified small business corporation shares should complete this schedule each year and keep it with the trust's records. Do this even for years when the trust is not reporting capital gains or losses, and is not designating eligible taxable capital gains to its beneficiaries. The balance in the trust's CNIL account is a cumulative total. You need the total of the trust's investment income and expenses for 1988 and following years to calculate eligible taxable capital gains on Schedule 3.

Reduce the trust's cumulative gains limit by the CNIL that you calculated on line 433. This may reduce the trust's eligible taxable capital gain for the capital gains deduction.

## **Schedule 5 – Beneficiary Spouse Information and Calculation of Spousal Trust's Capital Gains Deduction**

110.6(12)

### **Note**

Schedule 5 is not contained in this guide. However, you can get it from any of our offices, our Electronic Data Distribution System (EDDS), and the Internet.

Complete Schedule 5 for a spousal trust in the taxation year that the beneficiary spouse died and the trust is claiming the capital gains deduction. If the spousal trust is subject to the deemed realization rule, see "Form T1055, *Summary of Deemed Realizations*" on page 28.

If the spousal trust is claiming a capital gains deduction, you also have to complete Schedule 3, *Calculation of a Trust's Eligible Taxable Capital Gains*.

A **post-1971** spousal trust can claim a capital gains deduction on qualified farm property or qualified small business corporation shares in the taxation year the beneficiary spouse dies. The trust can claim the deduction to the extent that the beneficiary spouse could have claimed a deduction for the eligible taxable capital gains if the gains had belonged to that spouse and not to the trust.

A **pre-1972** spousal trust can claim the capital gains deduction on qualified farm property or qualified small business corporation shares when reporting a deemed realization on the day the beneficiary spouse dies. The trust can claim this deduction if the trustee does not file Form T1015 to defer the deemed realization day. For more information, see "Form T1015, *Election by a Trust to Defer the Deemed Realization Day*" on page 29.

Before completing this schedule, you have to calculate:

- the trust's eligible taxable capital gains (Schedule 3, line 334); and
- the spouse's unused lifetime capital gains deduction limit for the year the spouse died (Form T657).

Attach a copy of the spouse's Form T657 to the T3 return.

## **Schedule 6 – Trusts' Agreement to Allocate the Basic Exemption From Minimum Tax**

122(2), 127.53

### **Note**

Schedule 6 is not contained in this guide. However, you can get it from any of our offices, our Electronic Data Distribution System (EDDS), and the Internet.

We allow a \$40,000 basic exemption from minimum tax to testamentary trusts and grandfathered inter vivos trusts. For more information, see the definition of grandfathered inter vivos trusts on page 9.

When more than one qualifying trust is formed from contributions by the same individual, you have to allocate the \$40,000 basic exemption among the trusts and complete Schedule 6. The "Agreement" section of Schedule 6 has to be signed jointly by the trustee or legal representative of each trust in the group.

### **Example**

Mr. Cee is an individual who created five trusts. Mr. Cee was divorced twice before 1970, and when he divorced he set up trusts for his former spouses. In his will, Mr. Cee created three separate trusts—one for his grandchildren, one for his children, and one for his current spouse.

If minimum tax applies to any of the trusts, you would have to attach Schedule 6 to each of the trust returns. For details, see "Question 1" on page 1 of the T3 return and "Question 1" on page 14 of this guide.

If we request, in writing, Schedule 6, and you do not send us the completed schedule within 30 days, we may allocate the \$40,000 exemption among the qualifying trusts.

## **Schedule 7 – Statement of Pension Income Allocations and Designations**

104(27) ▲

Complete this schedule if a testamentary trust is allocating pension income to beneficiaries and it wants the beneficiaries to have favourable treatment on their individual income tax returns for that pension income. You need the amounts from Schedule 7 to complete Schedule 9.

There are four columns on Schedule 7 to help you determine what pension income the trust can designate to beneficiaries and the reason for the designation.

- |          |  |
|----------|--|
| Line 922 | Report on line 922, a lump-sum pension income designated to a beneficiary spouse if it qualifies for a paragraph 60(j) transfer to a registered retirement savings plan or to a registered pension plan. |
| Line 926 | Report all other pension income on line 926.   |
| Line 931 | Report on line 931, the amounts designated to a beneficiary spouse that qualify as eligible pension income for the pension income non-refundable tax credit under subsection 118(3).                     |

Line 936-1 Report at footnote line 936-1, the amounts eligible for acquiring an annuity, as described in subclause 60(l)(v)(B.1)(II).

The total of the pension amounts entered on lines 922 and 926 cannot be more than the lesser of:

- the pension income you reported on line 02 of the T3 return; and
- the income before allocations on line 46 of the T3 return.

For the purpose of designating pension income to a beneficiary, a spouse includes a common-law spouse. For more information, see the definition of **spouse** on page 13.

For more information about pension income, see the income tax guide called *RRSPs and Other Registered Plans for Retirement*.

## **Schedule 8 – Statement of Investment Income and Calculation of Gross-up Amount of Dividends Retained by Trust** ▲

### **Line 805 – Actual amount of dividends from taxable Canadian corporations** 82(1), 260(5)

Attach a statement listing the actual amount of dividends the trust received from taxable Canadian corporations. These amounts are shown in box 23 on the T3 slips, and in box 10 on the T5 slips issued to the trust. On this list, include actual and deemed taxable dividends. Do not include non-taxable dividends, as explained below, or capital gains dividends that you report on line 110 of Schedule 1. Include all dividends credited through such institutions as banks, trust companies, and brokers, even if you did not receive a T3 or T5 slip.

Taxable dividends received from taxable Canadian corporations qualify for the dividend tax credit on the grossed-up amount. This may reduce the trust's tax payable. If the trust designated the taxable dividends to individual beneficiaries, the tax payable by the individual beneficiaries may be reduced.

### **Lines 806 to 808 – Foreign investment income**

On these lines, report investment income from foreign sources in Canadian dollars. To convert foreign funds to Canadian dollars, use the foreign exchange rate in effect when the trust received the income. Report the full amount of the foreign income. Do not reduce it by tax foreign authorities withhold.

### **Lines 809 to 815 – Other investment income**

Report on these lines, bond interest, bank interest, mortgage interest, and other dividends, including dividends under a dividend rental arrangement as defined in subsection 248(1) of the Act. Do not include dividends the trust received from taxable Canadian corporations you reported on line 805, capital gains dividends you reported

on line 110 of Schedule 1, and non-taxable dividends discussed under the next heading. On line 814, report interest on tax refunds in the year it is received. We consider interest credited to the trust's account by a financial institution to have been received by the trust. For more information on the method of reporting interest and other investment income, see the *General Income Tax Guide* and Interpretation Bulletin IT-396, *Interest Income*.

### **Non-taxable dividends received by a trust**

53(2), 83(1), 83(2), 104(20)

If the trust receives a non-taxable dividend, do not include it in the trust's income. An example of a non-taxable dividend is a tax-free dividend that a Canadian private corporation pays from its capital dividend account.

Certain non-taxable dividends that the trust receives, other than dividends paid out of the capital dividend account, may reduce the adjusted cost base of the shares on which the dividends were paid. This may be relevant in calculating a capital gain or loss if the trust later disposes of the shares.

If the trust pays out non-taxable dividends to its beneficiaries, inform the beneficiaries that they should not include these dividends when they calculate their income. You also have to file a statement with the T3 return containing the following information:

- name of payer corporation; and
- names of the beneficiaries, and the amount of non-taxable dividends each beneficiary receives.

### **Lines 816 to 820 – Carrying charges**

Attach to the T3 return, a list of the types and amounts of carrying charges the trust claimed. If the trust is claiming interest expense, provide the following details:

- name of lender;
- date and amount of loan;
- interest rate;
- terms of repayment; and
- balance of loan at the end of the taxation year.

If the trust incurred carrying charges on both Canadian and foreign investment income, you have to apportion them reasonably and attach the calculation to the T3 return.

Transfer the amount from line 820 (the total of lines 816 to 819) to line 21 on page 2 of the T3 return.

### **Lines 821 to 826 – Part B – Calculating gross-up amount of dividends retained by the trust**

On this part of Schedule 8, calculate the gross-up amount of actual dividends from taxable Canadian corporations that you included on line 805 and that the trust retained. The gross-up rate for dividends received in the 1997 taxation year is 25% of the dividends received.

**Proposed changes – From tax changes announced April 26, 1995**

The gross-up does not apply to taxable Canadian dividends received by the trust to the extent that such dividends are allocated to a non-resident beneficiary under the trust.

Enter dividends allocated to non-resident beneficiaries on line 824, "Dividends allocated to non-resident beneficiaries but not designated."

**Line 821 – Total dividends reported before applying expenses**

Transfer from line 805, the actual amount of dividends from taxable Canadian corporations.

**Line 822 – Dividends designated to beneficiaries**

104(19)

Transfer from line 923 of Schedule 9, the amount of net dividends, after related expenses, you designated to beneficiaries. If you have allocated dividends by including them in the amount on line 926 of Schedule 9, the dividends are not designated. Therefore, do not include them on line 822.

**Line 824 – Dividends allocated to non-resident beneficiaries but not designated**

82(1)

Transfer the amount of net dividends, after related expenses, included in Column II, line 926 of Schedule 9. If the dividends have been allocated to non-resident beneficiaries on line 923, do not include them on line 824.

**Line 826 – Gross-up amount of dividends retained or NOT designated by the trust**

82(1)(b)

Multiply the amount on line 825 by 25% to calculate the amount you have to enter on line 826. You have to apply the gross-up rate to actual dividends that have been retained in the trust, or allocated but not designated to beneficiaries, before you deduct related expenses.

Transfer this amount to:

- line 49 on page 2 of the T3 return; and
- the space at the beginning of the line 1111 calculation on Schedule 11; or
- line A on Schedule 12, if applicable.

Claim the carrying charges that relate to dividends on line 819 of Schedule 8.

For more information, see Interpretation Bulletin IT-524, *Trusts – Flow Through of Taxable Dividends to a Beneficiary – After 1987*.

**Schedule 9 – Summary of Income Allocations and Designations to Beneficiaries** ▲

Complete this schedule if the trust is allocating income to beneficiaries. You also have to complete T3 Supplementary slips and a T3 Summary form if you are allocating income to resident beneficiaries, or NR4 Supplementary slips and an NR4 Summary form if you are allocating income to non-resident beneficiaries.

**Allocations and designations** ▲

104(6), (13), (19), (20), (21), (22), (27), (27.1), (29)

In this guide and on the T3 return we use:

- **allocated** and **allocation** to refer to amounts deducted from the income of the trust on line 47, and that are included in the beneficiary's income;
- **allocation** to refer to the flow-through of trust income to a beneficiary when:
  - the beneficiary is entitled to the income under the trust document; or
  - the trust makes a preferred beneficiary election to include the trust income in the beneficiary's income; and
- **designated** and **designation** to maintain the identity of allocated amounts according to special provisions of the Act. Generally, you report amounts designated to a beneficiary in the appropriate box on the T3 slip. This allows the beneficiary to take advantage of some deduction or credit that applies to that income (such as the capital gains deduction or dividend tax credit).

▲ A trust can choose to designate the following income amounts to a beneficiary:

- net taxable capital gains;
- certain lump-sum pension benefits;
- dividends from taxable Canadian corporations;
- foreign business income;
- foreign non-business income;
- pension income eligible for a paragraph 60(l) transfer;
- retiring allowances eligible for a paragraph 60(j.1) transfer; and
- eligible pension income.

You have to designate all insurance segregated fund capital losses to a beneficiary.

To provide more information about designated amounts, use Part B of Schedule 9, and boxes 30 to 41 of the T3 slip. This includes non-income amounts such as foreign income tax paid, Part XII.2 tax credit, income which can be transferred to tax deferral plans, and other tax credits that are flowed through to the beneficiary.

For more information, see the following Interpretation Bulletins:

- IT-342, *Trusts – Income Payable to Beneficiaries*.
- IT-381, *Trusts – Deduction of Amounts Paid or Payable to Beneficiaries and Flow-Through of Taxable Capital Gains to Beneficiaries*.
- IT-524, *Trusts – Flow Through of Taxable Dividends to a Beneficiary – After 1987*.

## Exceptions and limitations for income allocations

Trust income has to be allocated to beneficiaries or taxed in the trust according to the provisions of the will or trust document, subject to the following exceptions and limitations:

- A post-1971 spousal trust cannot deduct:
  - deemed proceeds realized when capital property, land inventory, and Canadian and foreign resource property are distributed to someone other than the beneficiary spouse, while the beneficiary spouse is alive;
  - proceeds realized from deemed dispositions of capital property, land inventory, and Canadian and foreign resource property that arose on the death of the beneficiary spouse; or
  - the deemed payment from NISA Fund No. 2 that arose on the death of a beneficiary spouse.
- The trust cannot deduct income that came from payments out of NISA Fund No. 2 (except a testamentary spousal trust if this income was received while the beneficiary spouse was alive).
- A trust that was a post-1971 testamentary spousal trust on December 20, 1991, or is a spousal trust created after December 20, 1991, cannot deduct amounts payable in a taxation year to anyone except the beneficiary spouse while the beneficiary spouse is alive.
- Certain inter vivos trusts created since 1934 may have property (or property substituted for it) that:
  - has not been absolutely vested;
  - is subject to the discretionary power of the property contributor; and
  - could revert to the contributor or pass to persons to be determined by the contributor.

We consider any income, including taxable capital gains and allowable capital losses from that property, to belong to the contributor during the contributor's lifetime while a resident of Canada. For more information about these certain inter vivos trusts and the attribution rules, see Interpretation Bulletin IT-369, *Attribution of Trust Income to Settlor*.

- A trust cannot allocate net capital losses and non-capital losses to beneficiaries of a trust except:
  - capital losses of an insurer's related segregated fund trust. Report these capital losses in box 37 on the beneficiary's T3 slip; and

- losses of revocable trusts and from blind trusts. Report these losses in brackets in the appropriate box on a separate T3 slip for the beneficiary. Clearly indicate the type of loss in the footnote area below box 41 on the T3 slip.

### ■ Designated income to be taxed in trust ▲ 104(13.1), 104(13.2), 108(1)

Trusts, except employee trusts, employee benefit plans, segregated fund trusts, communal organizations, and non-profit organizations, that are resident in Canada throughout the year and not exempt from tax can choose to retain income in the trust rather than report it in the hands of the beneficiaries. This applies to income paid or payable to beneficiaries.

The choice of retaining income in the trust is called a **designation under subsection 104(13.1)**. You make the choice by not deducting the amount designated, and stating on the T3 return for the year that a designation is being made under subsection 104(13.1).

You have to make this designation for each beneficiary. This designation reduces a beneficiary's income from the trust by that beneficiary's proportionate share of the income. We describe the proportionate share formula under the next heading in this chapter.

You can make a similar **designation under subsection 104(13.2)** if taxable capital gains are included in the income retained in the trust. This will reduce the beneficiary's taxable capital gains by the beneficiary's proportionate share of taxable capital gains retained in the trust.

In a year when a trust has a taxable capital gain, the trust may have a non-capital loss carryforward. By using subsection 104(13.2) provisions, you can choose not to deduct the full amount the trust is entitled to under subsection 104(6). This allows the non-capital loss carryforward to absorb the current-year taxable capital gain.

Generally, amounts designated under subsections 104(13.1) and 104(13.2) will reduce the adjusted cost base (ACB) of a beneficiary's capital interest in the trust unless the interest was acquired for no consideration and the trust is a personal trust.

If the trust is using subsections 104(13.1) or 104(13.2) to designate any portion of the beneficiary's income to be retained in the trust, answer *yes* to Question 9 on page 1 of the T3 return.

Attach a statement to the T3 return showing the income you are designating and the amounts you are designating for each beneficiary.

You have to make the trust's designation under subsections 104(13.1) and 104(13.2) when you file the T3 return. After you file a T3 return, the trust cannot make, change, or withdraw a designation under subsections 104(13.1) and 104(13.2).

For more information, see Interpretation Bulletins IT-342, *Trusts – Income Payable to Beneficiaries*, and IT-381, *Trusts – Deduction of Amounts Paid or Payable to Beneficiaries and Flow-Through of Taxable Capital Gains to Beneficiaries*.

### Proportionate share formulas

Use the following summarized formulas to calculate designations under subsections 104(13.1) and 104(13.2). You have to apply these formulas to each beneficiary. If the trust designates income under subsections 104(13.1) or 104(13.2), the designation applies to each beneficiary. A trust cannot use these designations to tax one beneficiary's share in the trust and allocate another share to a beneficiary unless the trust agreement entitles one beneficiary to the trust's income and another beneficiary to the trust's capital.

#### Subsection 104(13.1)

$$\frac{A}{B} \times C$$

where

A = Beneficiary's share of trust income (calculated without reference to the Act)

B = Total of amount A for all beneficiaries

C = Trust income designated under subsection 104(13.1)

#### Subsection 104(13.2)

$$\frac{A}{B} \times C$$

where

A = Beneficiary's share of the taxable capital gains of the trust calculated under income tax rules

B = Total of amount A for all beneficiaries

C = Net taxable capital gains designated under subsection 104(13.2)

#### Example

A trust has investment income of \$6,000 and capital gains of \$4,000. Both are shared equally between the trust's two beneficiaries, X and Y. The trust's income calculated using income tax rules is \$9,000, comprised of investment income of \$6,000 and taxable capital gains of \$3,000. The trust has \$6,000 in losses from prior years to apply. \$5,000 is a non-capital loss carryforward and \$1,000 is a net capital loss carryforward. Therefore, the trustee decides to retain \$6,000 of income in the trust by designating \$5,000 under subsection 104(13.1) and \$1,000 of taxable capital gains under subsection 104(13.2), against which the losses are applied.

Determine the amount designated under subsection 104(13.1) for beneficiary X by the following:

$$\frac{A}{B} \times C$$

$$\frac{\$3,000}{\$6,000} \times \$5,000 = \$2,500$$

Therefore, the amount designated under subsection 104(13.1) for beneficiary X is \$2,500.

Because beneficiary Y shares equally, the calculation for beneficiary Y would be the same.

Determine the amount designated under subsection 104(13.2) for beneficiary X by the following:

$$\frac{A}{B} \times C$$

$$\frac{\$1,500}{\$3,000} \times \$1,000 = \$500$$

Therefore, the amount designated under subsection 104(13.2) for beneficiary X is \$500.

Because beneficiary Y shares equally, the calculation for beneficiary Y would be the same.

### Part A – Total income allocations and designations to beneficiaries Lines 921 to 928

Answer all three questions, and attach any necessary statements. For more information about income attributed to the transferor, see "Transfers and loans of property" on page 12.

The allocation of income to beneficiaries includes:

- income paid or payable to **resident** beneficiaries (column I);
- income paid or payable to **non-resident** beneficiaries (column II); and
- accumulating income which both the trustee and a **preferred beneficiary** have jointly elected to tax in the hands of the preferred beneficiary (column III).

See the appropriate column heading in the following section for more information. Any amounts allocated to a beneficiary on lines 921 to 926 are deducted from the trust's income. These amounts are included in the beneficiary's income in boxes 21 to 26 on the T3 slip.

If you deducted expenses on line 41 of the T3 return, you have to apply them against specific types of income before the trust can allocate income to beneficiaries. You have to apportion expenses that relate to more than one source of income to the applicable sources of income. When you have allocated all the income to beneficiaries, we will allow an alternative apportionment of expenses to provide the maximum flow-through to a beneficiary of the dividend tax credit. For more information, and the conditions that the trust has to meet before we can accept this alternative apportionment of expenses, see Interpretation Bulletin IT-524, *Trusts – Flow-Through of Taxable Dividends to a Beneficiary – After 1987*.

### Income paid or payable to resident beneficiaries Column I, lines 921 to 926 Boxes 21 to 26 104(13)

This column allocates and designates the different types of income paid or payable to **resident** beneficiaries, as well as any taxable benefits to be allocated to these beneficiaries. If the income is allocated, but no amounts are designated, enter the allocated amount on line 926 (and in box 26 of the T3 slip). If you are designating the income, enter the

amounts at the appropriate lines and in the appropriate boxes of the T3 slip. In addition, use Part B and the corresponding boxes of the T3 slip for other amounts you are designating to the beneficiaries.

For more information, see Interpretation Bulletins IT-286, *Trusts – Amounts Payable*, and IT-342, *Trusts – Income Payable to Beneficiaries*.

## **Income paid or payable to non-resident beneficiaries**

### **Column II, lines 921 to 926**

104(13), 212(1)(c)

This column allocates the income paid or payable to **non-resident** beneficiaries. The different types of income, such as taxable capital gains and taxable dividends from taxable Canadian corporations lose their identity when you allocate them to non-resident beneficiaries. Report the total of the amounts in column II as estate or trust income on a NR4 Supplementary, *Statement of Amounts Paid or Credited to Non-Residents of Canada*, not on a T3 slip.

Most amounts paid or payable to non-resident beneficiaries are subject to a Part XIII withholding tax. See “Non-resident beneficiaries” on page 44. Transfer the total of column II to line 1020 of Schedule 10, Part XIII, “Non-resident withholding tax.”

If you allocate income to non-resident beneficiaries, the trust may also be subject to Part XII.2 tax. For information on Part XII.2 tax, see “Schedule 10, *Calculation of Part XII.2 tax and Part XIII Non-Resident Withholding Tax*” on page 42.

## **By preferred beneficiary election**

### **Column III, lines 921, and 923 to 926**

#### **Box 21, and boxes 23 to 26**

104(14), 108(1), Regulation 2800

A trust and a preferred beneficiary can jointly elect to have the trust’s accumulating income taxed in the hands of the preferred beneficiary. Use column III to allocate and designate that elected accumulating income. Complete a separate T3 slip for this income.

For the definition of **preferred beneficiary**, see page 13.

You can designate the following types of trust income to retain their identity under a preferred beneficiary election:

- taxable capital gains (line 921);
- actual amount of dividends from taxable Canadian corporations (line 923);
- foreign business income (line 924); and
- foreign non-business income (line 925).

You have to make the designations on the trust’s return for the year in which you include the relevant amounts in the trust’s income. If you do not designate elective income in one of the above categories, include it in the beneficiary’s hands as other income (line 926).

## **Preferred beneficiary election**

104(12), (14), and (15), 108(1),

Regulation 2800

A trust and a preferred beneficiary can jointly elect, in the year, to include in a preferred beneficiary’s income for that year, all or part of the trust’s accumulating income for the year. The trust can then deduct from its income, the elected amount. The elected amount must not be more than the preferred beneficiary’s share of the accumulating income.

Accumulating income for a spousal trust does not include:

- the income (taxable capital gains minus allowable capital losses, and other income) arising as a result of the deemed realization of property under subsections 104(4), 104(5), 104(5.2), and 107(4), or for which a trust has previously filed a subsection 104(5.3) election for those sources of income. For more information, see the heading “Deemed realization (disposition) – 21-year rule” on page 28, or;
- amounts paid or deemed to have been paid from NISA Fund No. 2. However, a preferred beneficiary election can include NISA Fund No. 2 amounts paid to a testamentary spousal trust while the beneficiary spouse was still alive.

### **Note**

Accumulating income is calculated as if the maximum deductible for the year under subsection 104(6) is claimed. If the trust is a post-1971 spousal trust and the beneficiary spouse died in the trust’s taxation year, calculate the trust’s accumulating income for the year as if there was also no disposition of capital property, land property in inventory, or resource property, before the end of the day the beneficiary spouse died.

Trusts that are excluded from the 21-year rule cannot make a preferred beneficiary election. These trusts are listed under “Exemption from the 21-year rule” on page 29.

You can make a preferred beneficiary election for a taxation year by filing the following:

- a statement making the election for the year, stating the part of the income on which you are making the election, and signed by both the preferred beneficiary (or guardian) and the trustee with the authority to make the election;
- a statement, signed by the trustee, showing the computation of the preferred beneficiary’s share in the accumulating income of the trust for the year, along with information about the provisions of the trust and its administration; and
- a statement signed by the preferred beneficiary (or guardian) indicating the beneficiary’s social insurance number, his or her relationship to the settlor of the trust, and whether:
  - the beneficiary is claiming a disability amount;
  - a supporting individual is claiming a disability amount for that beneficiary (if yes, provide the name, address, and social insurance number of the supporting individual); or

- the beneficiary is over 18 years of age, and in the beneficiary's taxation year which ends in the trust's taxation year, another individual can claim an amount for infirm dependants 18 years of age and over for that beneficiary, or could claim the amount if the beneficiary's income is calculated before including the income from the preferred elections (if yes, provide a statement from the doctor, optometrist or audiologist confirming the beneficiary's infirmity in the first year the claim is made).

File the election, with the T3 return or separately, no later than 90 days after the end of the trust's taxation year for which the election was made. For a preferred beneficiary election to be valid, you have to file it on time. If you file the election late, we will tax the accumulating income in the trust. Usually, once you make an election and we assess the return, the trust cannot rescind the election. You have to follow these filing requirements each year that you make a preferred beneficiary election.

**Proposed changes – From tax changes announced June 20, 1996**

We may accept a late, amended election or revoke a preferred beneficiary election if the late or amended election, or revocation of the election is made only because of a late, amended, or revoked capital gains election. In this case, the filing, amendment, or revocation deadline is the same date as the deadline for filing, amending or revoking the capital gains election.

In some circumstances, usually those beyond your control, we may accept a late or amended election, or revoke a valid

election. Before asking us to consider accepting a late, amended, or revoked election, see Information Circular 92-1, *Guidelines for Accepting Late, Amended or Revoked Elections*. Also see Information Circular 92-2, *Guidelines for the Cancellation and Waiver of Interest and Penalties*. A late, amended, or revoked election is subject to a penalty of \$100 for each complete month from the due date of the election to the date of the request (maximum \$8,000).

If you are making a preferred beneficiary election, see Interpretation Bulletin IT-394, *Preferred Beneficiary Election*, which deals with the subject in detail.

**Line 921 – Taxable capital gains designated by a trust to beneficiaries**  
104(21), 104(21.3)

You may allocate all or a portion of a Canadian resident trust's net taxable capital gains to a beneficiary. If you designate this amount, we consider the amount to be the beneficiary's taxable capital gain.

A trust's net taxable capital gain is the amount by which the total of the trust's taxable capital gains for a taxation year is **more than** the total of:

- the trust's allowable capital losses for the taxation year; and
- net capital losses of other years deducted in calculating the trust's taxable income for the taxation year.

Use the following chart to calculate the amount of net taxable capital gains you can designate.

Net taxable capital gains designated in the current year	
Taxable capital gains <b>minus</b> allowable capital losses (from line 122, Schedule 1 and line 25, Form T1055) .....	1
Net capital losses of other years deducted in the current year (line 52, page 4 of the T3 return) .....	2
Net taxable capital gains of the current year (line 1 <b>minus</b> line 2) .....	3
Any expenses the trust incurred to earn income included on line 1 .....	4
Amounts designated under subsection 104(13.2) to be taxed in the trust, other than amounts for which a deduction has been claimed on line 52* .....	5
Line 4 <b>plus</b> line 5 .....	6
Line 3 <b>minus</b> line 6 .....	7
Amount from line 46, page 2 of the T3 return .....	8
Net taxable capital gains designated in current year (Line 7 or 8, whichever is less) .....	9
Transfer the designated amount to line 921 on Schedule 9.	
*If the trust chooses to reduce its current-year taxable capital gains with a non-capital loss carryforward according to subsection 104(13.2), you have to reduce the net taxable capital gain you designate to a beneficiary accordingly. See "Designated Income to be taxed in trust" on page 37.	

If you complete line 921, you also have to complete line 930 if you are allocating capital gains eligible for deduction. The only taxable capital gains eligible for deduction are from the disposition of qualified farm property and qualified small business corporation shares.

The trust may have disposed of foreign property and is designating the capital gains to a beneficiary. Although the beneficiary reports this as a capital gain, the gain can be considered foreign non-business income when the beneficiary calculates a foreign tax credit for foreign taxes

paid. Show as a footnote to box 21 on the beneficiary's T3 slip, the taxable portion of the amount included on line 921-3 from the disposition of foreign property.

**Line 922 – Lump-sum pension benefits**  
104(27), 104(27.1), 60(j) ▲

A testamentary trust can designate to a beneficiary, certain pension benefits, superannuation benefits, and amounts received from a deferred profit-sharing plan.

Enter on line 922, those amounts from Schedule 7 that are eligible for a paragraph 60(j) transfer to a registered pension plan or a registered retirement savings plan.

## Line 926 – Other income ▲

Enter on line 926, all income allocated to beneficiaries that is not shown on lines 921 to 925. This includes business income, rental income, farming income, fishing income, interest income, eligible pension income, death benefits, retiring allowances, and dividends under a dividend rental arrangement.

A testamentary trust may be able to designate a lump-sum payment out of a registered pension plan to a beneficiary to acquire an annuity under subclause 60(1)(v)(B.1)(II). Include these amounts on line 926 and show the amount eligible for transfer on line 936-1. The lump-sum payment is eligible if that beneficiary is a child or grandchild of the deceased person, and was under 18 when the deceased person died. See “Testamentary trust” on page 9.

### Footnotes for line 926 (and box 26)

Enter on line 926-1, the amount of business income reported in box 26, from the disposition of eligible capital property that is qualified farm property eligible for the capital gains deduction.

A communal organization should show on line 926-3, the total amount of business income (farming, fishing, and other business) allocated to a member of a communal organization. Business income that the member received from the communal organization is considered self-employment earnings for determining Canada Pension Plan contributions.

## Line 928 – Total ▲

The total of lines 921 to 926 is the income allocated to the beneficiaries. The amount cannot be more than “trust income before allocations” on line 46, on page 2 of the T3 return.

## Part B – Summary of other amounts designated to beneficiaries

### Lines 930 to 941 ▲

Complete this area only when there are designations such as dividends from taxable Canadian corporations, foreign taxes paid for credit purposes, and pension income or retiring allowances eligible for transfer.

## Line 930 – Taxable capital gains eligible for deduction

104(21.2)

A personal trust that makes the designation on line 921 and has eligible taxable capital gains also has to designate a portion of the trust’s eligible taxable capital gains to the beneficiary for the beneficiary’s capital gains deduction.

Calculate the trust’s eligible taxable capital gains on Schedule 3, line 334. Enter on line 930, the amount you determined on line 921, or line 334 minus the amount on line 926-1, whichever is less.

## Footnotes for line 930 (and box 30)

The eligible taxable capital gains for each beneficiary from qualified farm property is the lesser of the:

- taxable capital gains from qualified farm property; and
- taxable capital gains eligible for deduction.

The eligible taxable capital gains for each beneficiary from qualified small business corporation shares is the lesser of the:

- taxable capital gains from qualified small business corporation shares and;
- taxable capital gains eligible for deduction minus the taxable capital gains from qualified farm property.

## Line 931 – Eligible pension income ▲

104(27), 118(3), 118(7)

Enter on line 931, those amounts from Schedule 7 that are eligible for the pension income non-refundable tax credit under subsection 118(3). This designation applies only if the beneficiary was the spouse or common-law spouse of the deceased, and if the trust received the benefits of a life annuity from a superannuation or pension fund. For more information, see “Schedule 7” on page 34.

## Line 934 – Foreign non-business income tax paid

104(22)(b), 126(1)(a)

If you are designating a foreign tax credit to a beneficiary, you have to submit the trust’s valid receipt or information slip from the foreign country. This is necessary to support the claim that the trust paid foreign non-business income tax, or that it was withheld from foreign non-business income the trust earned.

The portion of foreign taxes you designate to a beneficiary has to be in proportion to the foreign income you designate to that beneficiary. You have to convert any foreign taxes paid in foreign currency to Canadian funds.

For more information, see Interpretation Bulletins IT-270, *Foreign Tax Credit*, and IT-201, *Foreign Tax Credit – Trusts and Beneficiaries*, and the “Federal foreign tax credit” section on page 47.

## Line 935 – Eligible death benefits ▲

104(28), 248(1)

A testamentary trust may receive a payment as a result of the employee’s death to recognize the employee’s service in an office or employment. Such a payment is usually from the deceased person’s employer or from a trust fund the employer established. This payment may qualify as a **death benefit** under subsection 248(1) of the Act.

When you allocate the death benefit payment to a beneficiary according to the provisions of the will, the beneficiary may be able to exclude up to \$10,000 of the payment from income. Use box 35 on the T3 slip to inform the beneficiary of the amount in box 26 that is a death benefit eligible for this exemption.

If you allocate the death benefit to more than one beneficiary, apportion the eligible amount among those beneficiaries. The beneficiaries can use this information to calculate the taxable portion that they have to report on their individual income tax returns.

If you deduct the eligible death benefit from the trust's income, then only the taxable portion flows out to the beneficiary. Make sure that you report only the taxable portion of the death benefit on line 19 of page 2 of the T3 return. Also complete only box 26 (not box 35) on the T3 slip. See "Line 19 – Other income" on page 17.

Payments from the Canada Pension Plan (CPP) and the Quebec Pension Plan (QPP) are not considered to be paid to recognize an employee's service in an office or employment. Consequently, CPP or QPP death benefits are not eligible for the \$10,000 exemption. Do not include them in box 35 on the T3 slip.

### **Line 936 – Miscellaneous** ▲

60(j.1), 60(l), 143(3.1)

On line 936-1, enter any designated pension income eligible for a paragraph 60(l) transfer. On line 936-2, enter any retiring allowance eligible for a paragraph 60(j.1) transfer. On line 936-3, enter charitable donations designated to the beneficiaries of a communal organization.

### **Line 937 – Insurance segregated fund capital losses**

138.1(3)

On line 937, enter the designated portion of a net allowable capital loss from a disposition of property by an insurance segregated fund. This is the negative amount on line 122 of Schedule 1.

### **Line 938 – Part XII.2 tax credit**

104(31), 210.2(3)

Enter the amount from line 1010 of Schedule 10. Generally you can designate the Part XII.2 tax credit only to those resident beneficiaries to whom you allocated income on line 928 in column I of Schedule 9.

### **Lines 940 and 941 – Investment tax credit (ITC) designated**

127(7), 143(1)

Only testamentary trusts and communal organizations that are deemed inter vivos trusts can designate the investment tax credit to their beneficiaries.

Complete Section 1 of Form T2038(IND), *Investment Tax Credit (Individuals)*, to calculate the amount of the investment cost or expenditure, and the investment tax credit available. You will need the eligible amounts the trust invested to acquire property and the eligible expenditures for this part of the form. You have to reduce the trust's investment tax credit by any amount allocated to beneficiaries under subsection 127(7).

On line 940 of Schedule 9, enter the beneficiaries' share of the trust's investment cost or expenditures. You need this amount to determine the amount of the investment tax credit you can designate to each beneficiary. Report each

beneficiary's share in box 40, "Investment eligible for ITC," of the beneficiary's T3 slip.

On line 941 of Schedule 9, enter the amount of the trust's investment tax credit from Form T2038(IND) that you designated to a beneficiary, and did not deduct on line 1120 of the trust's Schedule 11.

Insert the applicable code number from Form T2038(IND) in the footnote space on the T3 slip. For more information, see "Completing the T3 Supplementary slip" on page 54.

## **Schedule 10 – Calculation of Part XII.2 Tax and Part XIII Non-Resident Withholding Tax**

### **Part A – Calculating Part XII.2 tax and refundable Part XII.2 tax credit**

#### **Lines 1001 to 1010**

104, 210 to 210.3

Use Schedule 10 to calculate this tax. Pay any Part XII.2 tax no later than 90 days after the end of the trust's taxation year.

Part XII.2 tax does **not** apply to a trust that was one of the following throughout the year:

- a testamentary trust;
- a mutual fund trust;
- a trust that was exempt from Part I tax under subsection 149(1);
- a trust described in paragraph (a) of the definition **trust** in subsection 108(1) such as a trust governed by a deferred income plan;
- a communal organization; or
- a non-resident trust.

Part XII.2 tax **applies** when a trust:

- has specified income as described under the next heading;
- has a designated beneficiary as described after the next heading; and
- allocates or designates any of its income.

#### **Specified income**

210.2(2)

Specified income of a trust is the total of the following:

- net income, or loss, from business carried on in Canada;
- net income, or loss, from real property located in Canada, for example, land or buildings;
- net income, or loss, from timber resource property;
- net income, or loss, from Canadian resource property the trust acquired after 1971; and
- any taxable capital gain, or allowable capital loss, from the disposition of property defined as taxable Canadian property.

#### Note

Although **designated income** is used in Part XII.2 of the Act, we use **specified income** in this guide and on Schedule 10 to avoid confusion with designated income used in other parts of this guide.

#### Designated beneficiary

210

A designated beneficiary for the purpose of Part XII.2 tax includes a beneficiary who is a:

- non-resident person;
- non-resident-owned investment corporation;
- trust, other than a testamentary trust, a mutual fund trust, or trust exempt from tax under subsection 149(1), resident in Canada whose beneficiaries include a designated beneficiary;
- partnership whose members include a designated beneficiary; or
- person exempt from Part I tax under subsection 149(1), if that person acquired an interest in the trust, directly or indirectly, from a beneficiary of the trust after October 1, 1987.

#### Note

A person exempt from Part I tax is not a designated beneficiary if:

- after either October 1, 1987, or the creation of the trust, whichever is later, the beneficiary continuously held the interest; or
- the tax-exempt person is a trust governed by a registered retirement savings plan or registered retirement income fund, and the trust acquired its interest directly or indirectly from its beneficiary or the beneficiary's spouse or former spouse.

A designated beneficiary is usually not entitled to the refundable tax credit for Part XII.2 tax the trust paid. This means that you will generally not complete box 38 on the T3 slip for a designated beneficiary who is a Canadian resident. Also, before you calculate Part XIII non-resident withholding tax, you have to reduce the income payable to a non-resident beneficiary by the non-resident's share of the Part XII.2 tax. For more information, see the comments under "Line 1009" on page 44.

#### Eligible beneficiary

The term eligible beneficiary identifies a beneficiary who is not a designated beneficiary as described above. An eligible beneficiary is generally a resident beneficiary, and is entitled to a refundable Part XII.2 tax credit in proportion to the share of allocated or designated trust income. You have to include in the income allocated to the beneficiary, an amount equal to the Part XII.2 tax credit. In effect, the credit replaces the income that the beneficiary would have received if the trust did not have to pay Part XII.2 tax.

#### Line 1006 – Total specified income

Line 1006 is the total of lines 1001 to 1005, and represents the specified income of a trust. If the amount on line 1006 is negative, Part XII.2 tax does not apply.

#### Line 1007 – Adjusted amount allocated or designated to beneficiaries

On lines A and B in the calculation area for line 1007, enter the amounts from columns I and II of line 928, Schedule 9. On line D, subtract the subsection 105(1) taxable benefit amount you reported on line 44 of the T3 return.

Part XII.2 tax does not apply to the value of other benefits to recipients you reported on line 44 of the T3 return, or to the total amount in column III of Schedule 9.

The total on line 1007 represents the following provisions of the Act:

- the subsection 104(6) deduction from trust income for the portion of the trust's income you distribute to resident and non-resident beneficiaries to be included in their income;
- the subsection 104(30) deduction from trust income for the tax the trust paid for the year under Part XII.2; and
- the subsection 104(13) and subsection 104(31) amounts to be included in the income of an eligible beneficiary from the trust.

Withhold the Part XII.2 tax from income you distribute to the beneficiaries and remit it to the Receiver General for Canada. Part XII.2 tax ensures that designated beneficiaries pay their share of taxes on specified income. The total of Parts XII.2 and XIII tax is approximately equal to the Part I tax, plus provincial or territorial taxes that would apply to specified income if the designated beneficiaries earned it directly.

Eligible beneficiaries will receive refundable tax credits for their share of the tax. For information about calculating the refundable tax credit, see line 1010 on page 44.

#### Line 1008 – Part XII.2 tax

Multiply the lesser of the amounts on line 1006 or line 1007 by 36%. The result is the amount of Part XII.2 tax payable by the trust. Transfer this amount to line 83 on page 4 of the T3 return.

Under subsection 210.2(1) of the Act, you have to calculate three amounts. Use the least of these for the Part XII.2 tax calculation.

Paragraph 210.2(1)(a) refers to the specified income on line 1006. Use this amount unless the income distributed to the trust's beneficiaries after Part XII.2 tax is less than 64% of the trust's specified income for the year.

Paragraph 210.2(1)(c) refers to an amount that is 100/64 of the income you allocated to beneficiaries under subsection 104(6), before calculating Part XII.2 tax. This grossed-up amount is equal to the adjusted amount on line 1007.

Paragraph 210.2(1)(b) refers to the income of the trust after deducting the amount of its accumulating income included in a preferred beneficiary election, but before subsection 104(30) and subsection 104(6) deductions. This third amount is not included in the calculation on Schedule 10 because it is never less than line 1007, the amount determined under paragraph 210.2(1)(c).

## Line 1009 (Adjustment for Part XIII tax purposes)

On line 1009, calculate the amount of Part XII.2 tax you attribute to designated beneficiaries. Transfer the amount from line 1009 to line 1026 to reduce the income subject to Part XIII tax.

## Line 1010 – Part XII.2 refundable tax credit for eligible beneficiaries

Line 1010 is the amount of Part XII.2 tax attributable to eligible beneficiaries, and is the amount eligible for the Part XII.2 refundable tax credit for these beneficiaries.

If there is more than one eligible beneficiary, use the following formula to determine the amount of refundable tax credit to report in box 38 of the T3 slip for each eligible beneficiary:

$$A \times \frac{B}{C}$$

where

A = Part XII.2 tax payable by the trust (line 1008);

B = each eligible beneficiary's share of the amount from line 1007 (the trust income you allocated to the eligible beneficiaries); and

C = total allocations or designations for the year (line 1007).

### Example

An inter vivos trust resident in Canada has two beneficiaries—Adam, a resident of Canada who is an **eligible** beneficiary, and Meg, a non-resident who is a **designated** beneficiary. Each beneficiary is entitled to receive an equal share of the trust income which is distributed annually.

The \$1,400 net income of the trust for the year includes net business income of \$1,000, and net interest income of \$400.

On Schedule 10, Part A, "Calculation of Part XII.2 tax and refundable Part XII.2 tax credit," you would:

- enter \$1,000 on lines 1001 and 1006, since there are no other sources of specified income (the \$400 interest is not specified income);
- enter \$1,400 on line 1007, since this is the total amount from columns I and II on Schedule 9, line 928;
- enter the lesser of lines 1006 and 1007 (\$1,000) in the first blank space on line 1008;
- calculate 36% of \$1,000, and enter the result (\$360) in the second blank space on line 1008;
- calculate the amount that is not subject to Part XIII non-resident tax by completing the entries in the area for line 1009 (divide \$700 by \$1,400 and multiply by \$360). Enter the result (\$180) on line 1009 and in Part B on line 1026; and
- calculate the amount of refundable Part XII.2 tax credit on line 1010 by subtracting line 1009 from line 1008. Enter the result (\$180) in box 38 on the T3 slip.

Adam received \$520, but he will include \$700 (\$520 + \$180) in his income for the year. This amount, which you enter in box 26 on the T3 slip, is the 50% portion of the trust income that you distribute to him under the terms of the trust agreement. On his individual income tax return for 1997, he will claim a refundable Part XII.2 tax credit of \$180.

Meg received \$520. This amount, which you enter on the NR4 Supplementary, is the 50% portion of the trust income that you distribute to her under the terms of the trust agreement. On Schedule 10, reduce the total income paid or payable to non-resident beneficiaries (line 1020) by the Part XII.2 tax (line 1026). Line 1028, the difference, (\$700 – \$180 = \$520) is the amount subject to non-resident tax.

## Part B – Part XIII Non-resident withholding tax Lines 1020 to 1031

Complete this part if the trust allocated income to non-resident beneficiaries.

### Line 1025 – Amounts not subject to Part XIII tax – Other

One example of an amount to enter on this line is an amount you paid or credited to a beneficiary resident in the United States, when the amount is derived from income sources outside Canada and the amount is not subject to withholding tax under the *Canada – U.S. Tax Convention*.

### Line 1026 (Part XII.2 tax amount)

On this line deduct the amount of Part XII.2 tax you attribute to designated beneficiaries.

You have to deduct the Part XII.2 tax here because the total amount in column II, line 928, of Schedule 9, includes income under subsection 104(31), which is Part XII.2 tax, and is not subject to Part XIII tax.

## Lines 1029 to 1031 – Non-resident tax payable

Part XIII tax, 212(1)(c)

Complete the rest of this schedule by referring to the NR4 return for the trust.

### Non-resident beneficiaries

Every non-resident person has to pay Canadian income tax of 25% under Part XIII of the Act, unless a tax treaty provides a lower rate. Part XIII tax is paid on amounts that a Canadian trust paid or credited, or is considered to have paid or credited, to non-residents. The trustee has to withhold and remit tax on these amounts. This tax has to be received by Revenue Canada or a Canadian financial institution on or before the 15th day of the month after the month during which the tax was withheld.

Calculate the amount of non-resident tax payable and any balance due by following the steps in Part B of Schedule 10. Send any balance due to us, with Form NR-76, *Non-Resident Tax Statement of Account*, which is a combined remittance statement and receipt. If you are remitting Part XIII tax for the first time, include with the payment the trust's name and address, the type of payment, for example Part XIII tax,

and the month during which you withheld the tax. When we receive the payment, we will issue a Form NR-76 receipt, the bottom portion of which you can tear off and use for remitting future payments.

You also have to complete Form NR4 Summary, *Return of Amounts Paid or Credited to Non-Residents of Canada*, and Form NR4 Supplementary, *Statement of Amounts Paid or Credited to Non-Residents of Canada*.

For more information on non-resident income tax, see Information Circular 76-12, *Applicable Rate of Part XIII Tax on Amounts Paid or Credited to Persons in Treaty Countries*, and its Special Release, 77-16, *Non-Resident Income Tax*, and Interpretation Bulletin IT-465, *Non-Resident Beneficiaries of Trusts*.

## Completing the NR4 return

The *Guide for Filing the NR4 Return* tells how to report amounts the trust paid or credited to non-residents of Canada, and explains how to complete and distribute the NR4 return.

Report as estate and trust income, the total trust income you allocated to a non-resident beneficiary. Income items, except for taxable capital gains from a mutual fund trust, lose their identity when allocated to a non-resident beneficiary. Therefore, you have to total and report them as "estate or trust income" in box 16 of the NR4 Supplementary slip.

File this return no later than 90 days after the end of the trust's taxation year.

## Schedule 11 – Calculation of Federal Income Tax

117, 122

### Line 1101 – Testamentary and grandfathered inter vivos trusts

Federal income tax rates for individuals apply to all testamentary trusts.

The individual rates also apply to grandfathered inter vivos trusts.

For more information, see Interpretation Bulletin IT-406, *Tax Payable by an Inter Vivos Trust*.

### Line 1107 – Inter vivos trusts

An inter vivos trust, other than a grandfathered inter vivos trust, is taxed at 29% of its taxable income.

### Line 1109 – Tax adjustments – Lump-sum payments

Income Tax Application Rules (ITAR) 40

Use this line when you add to the trust's tax, items such as the reduced tax that applies to lump-sum payments under ITAR 40. You do not have to enter an amount on this line if you specify ITAR 40 on this line and on line 02, page 2 of the T3 return. We will then calculate your tax adjustment. Attach to the T3 return, any information slips the trust received.

### Line 1111 – Federal dividend tax credit

121

On line 1111, enter the amount of the federal dividend tax credit on dividends the trust received in the taxation year.

The dividend tax credit is 66.67% (2/3) of the grossed-up amount you calculated on line 826 of Schedule 8.

#### Proposed changes – From tax changes announced on April 26, 1995

For taxation years ending after April 26, 1995, the gross-up does not apply to taxable Canadian dividends that a trust received, if such dividends are allocated to a non-resident beneficiary under the trust.

### Line 1112 – Donations and gifts tax credit

104(6), 118.1, 143(3.1)

Include with the T3 return an official receipt for all donation claims. There are four classes of donations:

- Charitable donations – See the *General Income Tax Guide* for types of organizations that are included in this class.
- Gifts to Canada, a province, or a territory.
- Gifts of cultural property – Attach both the official receipt from the institution and the T871 certificate the Canadian Cultural Property Export Review Board issues.
- Gifts of ecological property – Attach the official receipt and the certificate called *Certificate for Donation of Ecologically Sensitive Land* which the Minister of the Environment issues.

#### Testamentary trust

- If the donation is a one-time payment provided for in the deceased person's will, do not claim it on the T3 return. Instead, claim the donation on the deceased person's individual income tax return, either in the year of death or in the year before the year of death. If necessary, we will reassess the individual's returns to allow the claim.
- If the donation is not a one-time payment, for example donations that will continue to be made according to the terms of the will, treat the charity as an income beneficiary and deduct the donation as an allocation of trust income on line 47 on page 2 of the T3 return. You also have to include the donation on the appropriate line of Schedule 9.
- If the will provides that a donation can be made at the discretion of the trustee, you can choose to treat the charity as an income beneficiary and deduct the amount on line 47 of the T3 return, or claim a non-refundable tax credit on line 1112 of Schedule 11.

When you are claiming a donation on the T3 return, either as an income allocation or for a non-refundable tax credit, you should state in the T3 return whether the donation is a one-time or periodic payment as provided in the will, or was made at the trustee's discretion.

#### Inter vivos trust

If the charity is an income beneficiary according to the terms of the trust agreement, deduct the donation on line 47

on page 2 of the T3 return, and include it on the appropriate line of Schedule 9.

In all other cases, calculate a non-refundable tax credit for the donation on line 1112 on Schedule 11.

**Proposed changes – From tax changes announced February 18, 1997**

**Maximum claim and carryover**

If the trust claims the non-refundable tax credit, the maximum amount the trust can claim in a year is limited to 75% of the trust's net income on line 50 on page 4 of the T3 return, plus 25% of the taxable capital gains resulting from the gifting of capital property in the year, minus any capital gain deduction claimed on that property, plus, if the gift is depreciable property, 25% of the recapture of capital cost allowance reported as a result of making the gift. The 75% of net income limit does not apply to gifts to Canada, a province or territory, which were made or agreed to before February 19, 1997, or to gifts of cultural or ecological property.

For more information on calculating the maximum claim, see our pamphlet called *Gifts and Income Tax*.

If the trust donates an obligation of the trust or a related person, a share issued by a corporation related to the trust, or any other security issued by a person related to the trust, contact the General Enquiries service of your tax services office.

Claim any portion of the trust's total donations up to the maximum limit. A trust can carry any unused portion forward for five years.

A communal organization that made charitable donations can choose not to claim its donations and elect to designate its donations to beneficiaries in the same proportion that it allocates income to those beneficiaries.

**Line 1113 – Minimum tax carryover from previous year**  
120.2

If the trust paid an amount of minimum tax in the 1990 to 1996 taxation years, and does not have to pay minimum tax for the 1997 taxation year, you can deduct part or all of that amount from 1997 taxes payable. We provide the following table to help you calculate the claim. Attach a copy of your calculation to the T3 return if the trust is claiming a minimum tax carryover.

**Note**

You can carry over minimum tax from the seven previous taxation years. You have to apply the oldest available carryover first. For example, you have to apply any carryover from 1991 before the carryover from 1992.

**Calculating minimum tax carryover**

**Minimum tax carryover from previous years which can be applied in 1997**

Minimum tax carryover balance at the end of 1996  
(from 1996 Schedule 12, line 1269, or from line l of this table for 1996) ..... a

Minimum tax carryover from 1989 not used before 1997 ..... - b

Minimum tax carryover available (line a minus b) ..... = c

Tax payable before minimum tax carryover  
(1997 Schedule 11, line 1110) ..... d

Federal dividend tax credit (1997 Schedule 11, line 1111) ..... e

Tax credit for donations and gifts (1997 Schedule 11  
line 1112) ..... + f

Subtotal (add lines e and f) ..... = → g

Line d minus line g ..... = h

Minimum amount (from 1997 Schedule 12, line 1232) ..... - i

**Maximum amount of minimum tax carryover which you can apply in 1997**

Line h minus line i ..... = j

**Minimum tax carryover from previous year, applied in 1997**

Claim an amount not more than the lesser of c or j ..... - k

Transfer this amount to Schedule 11, line 1113.

**Minimum tax carryover available for 1997**

Line c minus line k ..... = l

Include a copy of this calculation with the T3 return when you claim a minimum tax carryover. If there is a balance, keep a copy for your records.

**Line 1116 – Surtax on income not subject to provincial or territorial income taxes**

120(1)

Canadian resident trusts that carry on business through a permanent establishment in a foreign country have to pay a federal surtax of 52% of their basic federal tax attributable to the income earned in the foreign country.

Non-resident trusts pay this tax instead of provincial or territorial tax. However, business income the trust earned in a province or territory through a permanent establishment in Canada is subject to provincial or territorial tax instead of this surtax.

If you need more information, see Form T2203, *Calculation of Tax for 1997 – Multiple Jurisdictions*, and Form T691A, *Minimum Tax Supplement – Multiple Jurisdictions*.

**Line 1118 – Federal foreign tax credit**

126, 20(11), (12)

This credit is available to trusts resident in Canada for foreign income or profit taxes the trust paid to a foreign government on income it earned outside Canada. When you calculate the foreign tax credit, convert all amounts to Canadian currency.

In general, the foreign tax credit you can claim for each foreign country is the lesser of:

- the tax the trust paid to a foreign country; and
- the tax payable to Canada on the portion of income the trust earned in the foreign country.

You have to make a separate calculation for each foreign country for which you claim a foreign tax credit. You also have to make a separate calculation for business income taxes and non-business income taxes the trust paid to each foreign country unless the total tax paid to all foreign countries is \$200, in Canadian dollars, or less.

The total of all business income taxes and non-business income taxes the trust paid to foreign countries may be more than the total amount allowed as a foreign tax credit. In this case, you may be able to claim the excess, or a portion thereof, on line 1125 of Schedule 11 as an "Additional federal foreign tax credit." For details of all

these calculations, see Form T2209, *Calculation of Federal Foreign Tax Credits*.

When you complete Form T2209, base the calculation of the credit on amounts the trust retains. Do not include any amounts relating to the designation of foreign income and foreign tax credits to the beneficiaries. Transfer the amount from line 10 of Form T2209 to line 1118 of Schedule 11.

Excess amounts of foreign business income tax are called unclaimed foreign tax credits. A trust can carry these unclaimed credits back three years and forward seven years. Attach a note to the T3 return explaining the amount of unclaimed foreign tax credits you are applying to other years.

The trust cannot carry forward or carry back excess amounts of any foreign non-business income tax. It can claim some or all of the excess as:

- a provincial foreign tax credit on Form T2036, *Calculation of Provincial Foreign Tax Credit*;
- a deduction on line 40, on page 2 of the T3 return; or
- an additional foreign tax deduction against the individual surtax otherwise payable.

Attach proof of the tax the trust paid to a foreign country.

For more information, see Interpretation Bulletins IT-270, *Foreign Tax Credit*, and IT-201, *Foreign Tax Credit – Trust and Beneficiaries*.

**Line 1119 – Federal political contribution tax credit**

127(3)

The trust can claim this credit if it contributed to a registered federal political party or to a candidate for election to the House of Commons. Calculate the credit using the chart on this page and enter the credit on line 1119. If total federal political contributions are \$1,150, or more, enter \$500 on line 1119. Attach an official receipt signed by the registered agent of the registered party, or by the official agent of the candidate (unless the amount is indicated in box 21 of Form T5013 Supplementary, or in the financial information from a partnership) as proof of the contribution.

**Calculating federal political contribution tax credit**

Total federal political contributions (transfer this amount to line C of line 1119 of Schedule 11) .....	_____	
<b>Allowable credit:</b>		
75% of first \$100 of total federal political contributions .....	_____	<b>a</b>
50% of next \$450 of total federal political contributions .....	+ _____	<b>b</b>
33 1/3% of total federal political contributions that are more than \$550 .....	+ _____	<b>c</b>
Total allowable credit—(add lines a, b, and c — <b>not</b> to exceed \$500) .....	= _____	

Transfer the allowable credit amount to line 1119 of Schedule 11.

For more information, see Information Circular 75-2, *Contributions to a Registered Political Party or to a Candidate at a Federal Election*.

## Line 1120 – Investment tax credit

127(5), (12.3), 37(1), 13(7.1)

A trust can earn investment tax credits on eligible properties and expenditures that are listed on Form T2038(IND), *Investment Tax Credit (Individuals)*. For example, a trust can earn these credits on certain buildings, machinery, or equipment to be used in Canada for farming, fishing, logging, or manufacturing.

### Proposed changes – From tax changes announced February 18, 1997

There is a time limit to complete and submit Form T2038(IND) for a qualifying expenditure. To be able to claim a credit for such an expenditure, you have to send the completed form to us no later than 12 months after the due date of the return for the year the expenditure arises.

Attach a completed copy of Form T2038(IND) to the T3 return if the trust:

- earned an investment tax credit (ITC) in the taxation year;
- is carrying forward a credit;
- is carrying back a credit; or
- is claiming a refundable ITC in the taxation year (on line 88 on page 4 of the T3 return).

Reduce the cost of eligible properties or expenditures by the portion of the credit deducted or refunded. Reduce these costs in the year after the trust:

- claims the credit; or
- acquired the asset if it:
  - made the claim or refund in the year of acquisition; or
  - applied the claim to a previous year.

For example, the capital cost of property is reduced in 1997 by any ITC which the trust earned in 1996, and which was claimed or refunded on the 1996 return or applied to a previous year.

Only testamentary trusts or communal organizations can designate an ITC to beneficiaries. When you calculate the trust's ITC for the taxation year, do not include the part of the ITC which is designated on line 941 of Schedule 9, according to the terms and conditions of the trust agreement or by choice of the trustee. Reduce the cost of the qualified property acquisitions or expenditures by the amount of any ITC that you designated to the beneficiaries in the taxation year. If the trust made eligible expenditures in different regions, and the ITC rates differ, prepare a separate T3 slip for each designation to beneficiaries.

For more information about ITCs, see the income tax guides called *Business and Professional Income*, *Farming Income*, or *Fishing Income* and Information Circular 78-4, *Investment Tax Credit Rates*, and its Special Release.

## Line 1121 – Other credits

Examples of credits you can claim at this line are:

- federal logging tax credits; and
- federal environmental trust tax credits.

## Lines 1124 to 1128 – Individual surtax

180.1

Trusts that are liable to pay tax under Part I of the Act for a taxation year also pay a 3% individual surtax, calculated on the following amounts:

- for a trust other than a mutual fund trust:
  - the basic federal tax on line 1115 of Schedule 11, or, if subject to minimum tax, on line 1242 of Schedule 12.
- for a mutual fund trust:
  - the basic federal tax on line 1115 of Schedule 11, minus the least of the amounts (a), (b), and (c) on Form T184, *Calculation of Capital Gains Refund for a Mutual Fund Trust*.

If the above basic federal tax amount is more than \$12,500, the trust has to pay an additional 5% surtax on the amount that is more than \$12,500.

If the trust is entitled to claim a federal foreign tax credit or an investment tax credit, it may be able to reduce its individual surtax by the unused portion of these credits.

## Line 1125 – Additional federal foreign tax credit

180.1(1.1)

Use line 1125 to subtract the additional federal foreign tax credit that you calculate on Form T2209, *Calculation of Federal Foreign Tax Credits*.

Complete Part 2 of Form T2209, using the following instructions:

- If the amount on line i in Part II of Schedule 12 is more than the amount on line 7 in Part 1 of Form T2209, then no more federal foreign tax credit is available to reduce the individual surtax payable. In this case, enter "0" on line 1125 of Schedule 11 or, if the trust is subject to minimum tax, on line 1251 of Schedule 12.
- If an additional federal foreign tax credit is available to reduce the individual surtax payable, transfer the amount from line 22 of Form T2209, to line 1125 of Schedule 11 or, if the trust is subject to minimum tax, to line 1251 of Schedule 12.

## Line 1127 – Additional investment tax credit

180.1(1.2)

Use line 1127 to deduct the additional investment tax credit from the individual surtax payable. You can calculate the amount on Form T2038(IND), *Investment Tax Credit (Individuals)*, section II.

You can reduce the individual surtax by the lesser of:

- the unused investment tax credit you determine on line E of Form T2038(IND); and
- the amount by which the individual surtax payable, on line 1126 of Schedule 11 or on line 1252 of Schedule 12, is more than the additional federal foreign tax credit on line 1125.

## Line 1130 – Refundable Quebec abatement

120(2)

A trust is entitled to the maximum abatement of 16.5% of its basic federal tax if it was resident in Quebec on the last day of its taxation year and it did not have income from a business with a permanent establishment outside Quebec.

The abatement is refundable and is provided instead of direct cost-sharing by the federal government under federal-provincial fiscal arrangements.

Use Form T2203, *Calculation of Tax for 1997 – Multiple Jurisdictions*, to calculate the refundable Quebec abatement if the trust:

- was a resident in Quebec and had income from a business with a permanent establishment outside Quebec; or
- resided outside Quebec and had income from a business with a permanent establishment in Quebec.

## Schedule 12 – Calculation of Minimum Tax

127.5 to 127.55

### Note

Schedule 12 is not contained in this guide. However, you can get it from any of our offices, our Electronic Data Distribution System (EDDS), or the Internet.

The following trusts are not subject to minimum tax:

- a mutual fund trust;
- a related segregated fund trust;
- a spousal trust for the taxation year in which it reports its first deemed realization under the 21-year rule.

### Proposed changes – From tax changes announced on June 20, 1996

For 1992 and subsequent taxation years, trusts prescribed to be master trusts are not subject to minimum tax.

Any other trust is liable to pay a minimum tax if the net minimum tax payable on line 1234 of Schedule 12 is more than the regular tax payable, on line 1237 of Schedule 12. A trust may have to pay minimum tax for the year if it:

- reports taxable dividends (on page 2, line 03);
- reports taxable capital gains (on page 2, line 01);
- makes an election on pension benefits under ITAR 40 (on page 2, line 02 and on Schedule 11, line 1109);
- claims a loss resulting from, or increased by, resource expenditures, or claims resource and depletion allowances on resource properties (on page 2, line 06 or 19); or
- claims a loss resulting from, or increased by, capital cost allowance on:
  - rental or leasing property (on page 2, line 09); or
  - certified films or videotapes (on page 2, line 06).

## Net adjusted taxable income for minimum tax

Use Part I of Schedule 12 to calculate the net adjusted taxable income for minimum tax. Use Part I of Schedule 12 to recalculate taxable income by **adding** back the following amounts:

- non-taxable portion of capital gains, minus an amount equal to capital gains designated or allocated to beneficiaries; and
- certain deductions, including losses caused by capital cost allowances and carrying charges.

### Proposed changes – From tax changes announced on June 20, 1996

For taxation years beginning after 1994, net adjusted taxable income for minimum tax purposes is extended to apply to:

- certain losses that limited partners, specified members of a partnership, or partners of a tax shelter deduct for their partnership interest. For this purpose, losses allocated from a partnership are applied against gains from the same partnership source;
- losses from tax shelters; and
- carrying charges for interests in limited partnerships, tax shelters, rental and leasing, film, and resource properties which increase or create a loss from these sources.

Also **deduct** the following amounts:

- a basic exemption of up to \$40,000 allowed to testamentary trusts and to grandfathered inter vivos trusts (see “Line 1101” on page 45);
- the grossed-up amount of dividends retained by the trust; and
- the non-deductible portion of a business investment loss (one-third of the allowable business investment loss on line 25 on page 2 of the T3 return).

## Obligation to pay minimum tax

Use Part III of Schedule 12 to determine if the trust has to pay minimum tax. Under this part, you have to apply a tax rate of 17% to the net adjusted taxable income amount. If the result is positive, subtract the tax credits for charitable donations, gifts, and special foreign tax, then compare the result to the regular federal tax payable. If this result is more than zero, the trust has to pay minimum tax.

## Line 1202 – Taxable capital gains allocated and designated to beneficiaries

On this line include the amount of taxable capital gains you designated to beneficiaries on line 921 of Schedule 9.

## Line 1203 – Non-taxable portion of capital gains retained in the trust

127.52(1)(d)

This amount usually equals one-third of the taxable capital gains retained in the trust after designation or allocation of capital gains to beneficiaries. Do not include taxable capital gains from mortgage foreclosures and conditional sales repossession.

**Proposed changes – From tax changes announced on February 18, 1997**

For taxation years beginning after 1996, only the taxable portion of any capital gain from the donation or gift of property is included in the base for determining minimum tax.

If the trust reports a capital gain from donated property, or a capital gains reserve that relates to a disposition before 1986, you have to make an adjustment for the non-taxable portion of capital gains. To make the adjustment, use the following table. If you completed Form T1055, *Summary of Deemed Realizations*, you should use that form to make the adjustment.

**Adjusted line 1203**

1/3 of taxable capital gains from line 122, Schedule 1.....	_____	a
Reserve (1985 and previous dispositions) 1/4 of amounts in column 2, lines 210 and 215 of Schedule 2.....	+ _____	b
<b>Add</b> lines a and b.....	= _____	c
Reserve (1985 and previous dispositions) 1/4 of amounts in column 1, lines 210 and 215 of Schedule 2.....	_____	d
Net taxable capital gains allocated or designated, Schedule 9, Part A (1/3 of line 921).....	+ _____	e
1/4 of reduced capital gains on donated securities from line 119, Schedule 1.....	+ _____	f
1/4 of capital gains on other donated property from line A, Schedule 1.....	+ _____	g
Subtotal ( <b>add</b> lines d to g).....	= _____	→ - h
Total (line c <b>minus</b> line h). Transfer this amount to line 1203 of Schedule 12.....	= _____	i

**Line 1221 – Taxable income**

On line 1221, enter the taxable income amount from line 56 on page 4 of the T3 return. If the amount you calculated on line 56 is zero or less than zero, enter the actual amount on this line.

**Line 1222 – Non-capital losses of other years used in current year**

127.52(1)(i)(i)

If the trust claimed non-capital losses of other years on line 51 on page 4 of the T3 return, you may have to reduce the non-capital losses for minimum tax purposes. This reduction is any portion of the non-capital losses attributable to:

- capital cost allowance you claimed on:
  - rental or leasing property; or
  - films certified by the Canadian Film and Videotape Certification office;
- resource expenditures; or
- resource and depletion allowances.

On line 1222, enter the reduction.

**Proposed changes – From tax changes announced June 20, 1996**

For taxation years beginning after 1994, for minimum tax purposes, a non-capital loss which is carried forward is calculated according to the minimum tax rules in effect for the year in which the loss was incurred.

**Line 1224 – Net capital losses of other years used in current year**

127.52(1)(i)(ii)

**Proposed changes – From tax changes announced June 20, 1996**

For taxation years beginning after 1994, in which a loss from any other year is claimed, the taxable income for minimum tax purposes is adjusted to reflect the non-deductible portion of the capital loss.

For minimum tax purposes, adjust income to reflect the non-deductible portion of capital losses from capital property dispositions occurring in taxation years beginning after 1985 that you used in the current year. This will reflect 100% of those capital losses.

On line 1224, enter one-third of the net capital losses of other taxation years beginning after 1985 that you claimed in the current year on line 52 on page 4 of the T3 return. Do not include capital losses on mortgage foreclosures and conditional sales repossession.

**Line 1226 – Basic exemption**

122(2), 127.53

We allow a basic exemption of \$40,000 to testamentary and grandfathered inter vivos trusts.

Allocate the \$40,000 basic exemption among the trusts if more than one qualifying trust is formed from contributions by the same individual. To allocate the basic exemption, complete Schedule 6, *Trusts' Agreement to Allocate Basic Exemption From Minimum Tax*.

On line 1226, enter the basic exemption, or the trust's allocated amount of the exemption from Schedule 6.

## Lines 1248 to 1254 – Individual surtax payable

For information, see “Lines 1124 to 1128” on page 48.

## Line 1256 – Refundable Quebec abatement

For information, see “Line 1130” on page 49.

## Lines 1260 to 1269 – Part VI – Calculating of additional taxes paid for minimum tax carryover

Use Part VI of Schedule 12 to calculate the amount of any additional minimum tax payable by a trust that you can carry over to a future year. You may be able to deduct this amount from the trust’s regular tax liability on line 1113 of Schedule 11 in subsequent years. A carryforward is permitted for a period of seven years.

## Schedules 13 and 14 – Provincial or Territorial Income Tax Payable ▲

### Canadian resident trusts

A trust is liable for provincial or territorial tax, at the rate that applies for the province or territory of residence, if it:

- was a resident in a province, other than Quebec, or a territory on the last day of its taxation year; and
- did not have income from a business with a permanent establishment outside the province or territory of residence.

Schedule 13 provides space to calculate provincial income tax for Newfoundland, Prince Edward Island, Nova Scotia, New Brunswick, and Ontario.

Schedule 14 provides space to calculate provincial income tax for Manitoba, Saskatchewan, Alberta, British Columbia, and territorial income tax for the Northwest Territories and the Yukon Territory.

The Province of Quebec collects its own income tax. Therefore, do not calculate provincial income tax on the trust’s federal tax return if it was resident in Quebec on the last day of its taxation year. However, if the trust had income from a business with a permanent establishment in another province or territory, you have to calculate the provincial income tax on the trust’s federal tax return.

A trust resident in Canada may have earned income during the year from a business:

- with a permanent establishment in a province other than the one in which the trust resided at the end of the taxation year; or
- in a country other than Canada.

In these cases, you have to allocate the trust’s income to determine the liability for:

- provincial or territorial income tax; or
- federal surtax for income the trust earned outside of Canada.

Allocate income from a business for each province, territory, or foreign country in which the business had a permanent establishment during the taxation year. Attach a copy of this allocation to the T3 return. In general, you should allocate all other income to the province or territory in which the trust resided at the end of the taxation year.

A trust resident in a province, other than Quebec, or a territory on the last day of its taxation year may have a federal foreign tax credit that is less than the tax the trust paid to a foreign country. In this case, you should use Form T2036, *Calculation of Provincial Foreign Tax Credit*, to calculate any provincial or territorial foreign tax credit to which the trust may be entitled. You can apply this credit against provincial or territorial income tax.

### Non-resident trusts

A non-resident trust that carries on a business through a permanent establishment in a province or territory is subject to provincial or territorial tax on the business income it earned in that province or territory.

A non-resident trust may carry on a business in Canada without a permanent establishment in Canada. In this case, it may be subject to the federal surtax on line 1116 of Schedule 11 on the Canadian business income if the income is not exempt from Part I tax in Canada because of an income tax treaty.

## Lines 1314, 1324, 1414, 1452, 1467, 1472, and 1482 – Political contribution tax credit for Prince Edward Island, Nova Scotia, Manitoba, Alberta, British Columbia, Northwest Territories, and the Yukon Territory

A trust can deduct from the taxes otherwise payable to the above provinces and territories, a portion of amounts paid to a registered:

- political party of that province or territory;
- constituency association of that province or territory; or
- candidate seeking election to the legislature of that province or territory.

Attach to the T3 return, proof of payment in the form of an official receipt signed by the chief financial officer of the registered party, constituency association, or candidate.

Calculate the allowable credit for **Prince Edward Island, Nova Scotia, Manitoba, British Columbia, and the Yukon Territory** as follows:

Total political contributions in the year \_\_\_\_\_ \*

**Allowable credit:**

75% of first \$100 of total contributions \_\_\_\_\_

50% of next \$450 of total contributions + \_\_\_\_\_

33 1/3% of total contributions over \$550 + \_\_\_\_\_

Total allowable credit (maximum \$500) = \_\_\_\_\_ \*

Calculate the allowable credit for **Alberta** as follows:

Total Alberta political contributions in the year \_\_\_\_\_ \*

**Allowable credit:**

75% of first \$150 of total contributions \_\_\_\_\_

50% of next \$675 of total contributions + \_\_\_\_\_

33 1/3% of total contributions over \$825 + \_\_\_\_\_

Total allowable credit (maximum \$750) = \_\_\_\_\_ \*

Calculate the allowable credit for the **Northwest Territories** as follows:

Total Northwest Territories political contributions in the year \_\_\_\_\_ \*

**Allowable credit:**

100% of first \$100 of total contributions \_\_\_\_\_

50% of total contribution over \$100 + \_\_\_\_\_

Total allowable credit (maximum \$500) = \_\_\_\_\_ \*

\* Enter these amounts on the appropriate lines of the provincial or territorial schedule.

**Line 1345 – Ontario tax reduction**

If the trust has to pay minimum tax, calculated on Schedule 12, it is not entitled to claim an Ontario tax reduction on line 1345 of Schedule 13.

**Line 1403 – Net income tax (Manitoba)**

Generally, you apply the 2% tax on line 1403 to an amount that is the trust's net income that you determined on line 50 on page 2 of the T3 return. If, on line 54, you deduct any foreign income that is exempt from tax because of a tax convention, deduct the same amount from line 50, "Net income," before you calculate the tax on line 1403.

A mutual fund trust that is subject to only the net income tax on capital gains may still be eligible for a capital gains refund. See Form T184, *Calculation of Capital Gains Refund for a Mutual Fund Trust*.

**Line 1410 – Manitoba mutual fund trust net income tax credit**

For 1988 and subsequent taxation years, mutual fund trusts can deduct an amount from tax equal to the least of:

- the net Manitoba tax from line 1403 of Schedule 14 plus Manitoba surtax from line 1406 minus the Manitoba capital gains refund from line 54 of Form T184, *Calculation of Capital Gains Refund for a Mutual Fund Trust*;
- 4% of the grossed-up amount of dividends retained by the trust on line 49 of the T3 return; and
- any unused federal dividend tax credit on line 1111.

Enter the amount on line 1410.

**Line 1412 – Manitoba tax reduction**

If the trust is subject to Manitoba income tax but was not resident in Manitoba on the last day of the trust's taxation year, you can claim only that portion of the "Manitoba tax reduction" which reflects the portion of the trust's total income earned in Manitoba.

You can claim a maximum amount on line D equal to:

$$\$430 \times \frac{\text{trust's income earned in Manitoba}}{\text{trust's total income for the year}}$$

**Line 1421 – Saskatchewan flat tax**

If you deduct on line 54, any foreign income that is exempt from tax because of a tax convention, deduct the same amount from line 50, "Net income," before you calculate the flat tax on line 1421.

**Lines 1429 to 1432 – Saskatchewan tax credits and tax rebate**

If the trust has a Saskatchewan Labour-Sponsored Venture Capital Tax Credit, claim it on line 1430. Attach a copy of Form T2C(Sask).

If the trust paid royalties or similar payments to the federal or a provincial government in respect of oil wells, gas wells, or mineral resources during the year, it may qualify for the Saskatchewan royalty tax rebate. Complete Form T82, *Saskatchewan Royalty Tax Rebate Calculation (Individuals)*, and attach it to the T3 return. On line 1431 of Schedule 14, enter the Saskatchewan royalty tax rebate from Form T82.

**Line 1444 – Alberta royalty tax rebate**

If the trust paid royalties or similar payments to the federal or a provincial government in respect of oil or gas wells, bituminous sands, oil sands, or coal deposits during the taxation year, it may qualify for the Alberta royalty tax rebate. Complete Form T79, *Alberta Royalty Tax Rebate Calculation and Application (Individuals)*, and attach it to the T3 return. On line 1444 of Schedule 14, enter the Alberta royalty tax rebate from Form T79.

## Line 1462 – British Columbia royalty and deemed income rebate

To claim the British Columbia royalty and deemed income rebate, complete and attach Form T81, *British Columbia Royalty and Deemed Income Rebate Calculation and Application*. On line 1462 of Schedule 14, enter the rebate from Form T81.

## Chapter 5 – T3 Supplementary and T3 Summary ▲

The trustee has to complete a T3 Supplementary, *Statement of Trust Income Allocations and Designations*, for each resident beneficiary, including a preferred beneficiary who elects to be taxed on accumulating income of the trust, to whom the trust allocated amounts in the year.

The T3 Supplementary slip is available in two formats:

- three copy carbon-loaded in continuous-feed; and
- single-copy for laser printers.

If the total amount allocated in the year to a beneficiary is only interest income and is less than \$100, you do not have to complete a T3 slip for that beneficiary. However, if you allocate an amount to a beneficiary, you have to notify the beneficiary of the allocated amount. Beneficiaries have to report allocated amounts as income, even if they do not receive a T3 Supplementary slip.

Use the T3 Summary, *Summary of Trust Income Allocations and Designations*, to record the totals of the amounts you reported on all the related T3 slips. Complete a T3 Summary even if you prepare only one T3 slip.

## Magnetic media filing

If you are a large-return filer and use computerized systems to generate the T3 slips, we would like you to file them on magnetic media, such as tape, cartridge, or diskette. Magnetic media filing is available to inter vivos trusts, and to testamentary trusts with taxation year ends of December 31.

Mutual fund trusts that file T3 slips on magnetic media may consolidate the income and capital gains from several funds onto one T3 slip for each unit holder. However, when you consolidate the slips you have to:

- prepare the tape, cartridge, or diskette of summaries and supplementaries which you submit to Revenue Canada at the individual fund level;
- provide unit holders with statements that allow them to reconcile income, capital gains, and other amounts reported on the combined information slips; and
- maintain an audit trail so the combined information slips can be verified if Revenue Canada audits these funds later.

If you file on magnetic media filer, send us a tape, cartridge, or diskette on or before the filing deadline. Do not send us a paper copy of the T3 Summary or T3 Supplementary slips.

Anyone who wants to file on magnetic media for the first time has to submit a tape, cartridge, or diskette for our approval. Send the test tape, cartridge, or diskette at least two months before the filing deadline. The tape, cartridge, or diskette has to meet the specifications for the year of filing.

For specifications and more information, see the booklet called *Computer Specifications for Data Filed on Magnetic Media – T5, T5008, T4RSP, T4RIF, NR4, and T3*. To obtain this booklet or to find out more about this method of filing, contact:

Magnetic Media Processing Team  
Ottawa Tax Centre  
875 Heron Road  
Ottawa ON K1A 1A2

Telephone: 1-800-665-5164

Internet: <http://www.rc.gc.ca.magmedia/>

## Social insurance number (SIN)

237, 162(5), 162(6)

- **Beneficiary or unit holder (individual)** – Individuals have to give their SINs, when requested, to any person who has to prepare an information slip for them. If the individual does not have a SIN, he or she has to apply for one at a Human Resources Centre of Canada no later than 15 days after the request. When the individual receives a SIN, he or she has 15 days to give it to the person preparing the information slip. A penalty of \$100 per failure applies to a beneficiary who does not provide a SIN once he or she has received one.
- **Trustee (filer)** – You have to get the SINs of all individuals for whom you are preparing information slips. If you do not get the SINs, you must have made a reasonable effort to get them. A penalty of \$100 per failure applies to a trustee who has not done so. The penalty does not apply to a trustee if an individual has applied for, but not received a SIN, when the return is filed.

You should:

- advise, preferably in writing, existing beneficiaries or unit holders who have not given their SINs to you that they have to do so;
- advise them of the penalty as described above for failing to provide their SINs; and
- ask new beneficiaries or unit holders to give their SINs whenever income of a trust may be allocated to them.

For more information, see Information Circular 82-2, *Social Insurance Number Legislation That Relates to the Preparation of Information Slips*.

## Use of the SIN

239(2.3)

You cannot knowingly use, communicate, or allow an individual's SIN to be communicated, except for a purpose for which the individual provided it, as required or authorized by law, or with the written consent of the individual. Information return preparers as well as their employees, officers, or agents who use an individual's SIN for unauthorized purposes are guilty of an offence and are liable on summary conviction to a fine of not more than \$5,000 or to imprisonment for a term of not more than 12 months, or to both a fine and imprisonment.

## Interest on penalties

161(11), 248(11)

We charge interest, compounded daily, at the prescribed rate on the total amount of penalties levied. Both interest and penalties are payable to the Receiver General.

## How to amend, cancel, or replace T3 Supplementary slips

After you file the information returns, you may need to correct or amend a T3 slip. When you amend a T3 slip, complete all the necessary boxes, even the information that was correct on the original T3 slip. Put report code 1 in box 16. Distribute and file the amended T3 slips the same way you did the original T3 slips. You also have to file an amended T3 Summary, T3 return, and Schedule 9 to show the changes. Print the word "AMENDED" or "CANCELLED," whichever applies, at the top of each form. Send a covering letter to your tax centre with copy 1 of the amended T3 slip to explain the change. For more information about the report codes, see the "Box 16" instructions, in the next section called "Completing the T3 Supplementary slip."

If you correct errors on the slips before you file them with us, prepare a new slip and delete any incorrect copies from the return. If you do not prepare a new T3 slip, initial any changes you make on the slip. In this case, do not change the report code on that slip.

If you issue a duplicate T3 slip to replace one the beneficiary lost, **do not** send us a copy. Enter in box 16, the applicable report code for the slip you are replacing and print the word "DUPLICATE" at the top, or in the footnotes area of the replacement slip. Give copies 2 and 3 to the beneficiary.

## Completing the T3 Supplementary slip

Please type or print the information on the T3 slip.

If there is a preferred beneficiary election and other income is also allocated to the same beneficiary, complete one slip for the elected income and a separate slip for all other allocated income.

### Box 12

Enter the beneficiary's or unit holder's SIN in this box.

### Box 14

If we have assigned an account number to the trust, enter the number in the space provided on the T3 slip. Otherwise, leave this box blank.

### Box 16

Enter one of the following report codes in box 16. The code will help us determine if this is the original T3 slip issued to the beneficiary, or if it is an amendment to the original T3 slip.

Enter    If this is:

- 0      the original slip
- 1      an amended slip

If you use code 1, make sure you enter **all** the financial data in the necessary boxes, even the information that was correct on the original T3 slip.

### Box 18

Enter one of the following beneficiary codes to identify the type of beneficiary:

Enter    If the beneficiary is:

- 1      an individual;
- 2      a joint beneficiary;
- 3      a corporation;
- 4      an association, a trust (fiduciary, trustee, nominee, or estate), a club, or a partnership; or
- 5      a government, a government enterprise, an international organization, a charity, a non-profit organization or other tax-exempt entity, or a deferred income plan that is exempt from tax.

**Trust year ending** – Enter the trust's taxation year end for which you are preparing the T3 slip. Use numbers to indicate the month.

### Information from Schedule 9

Schedule 9, lines 921 to 926, provides a summary of the income allocations and designations you have to enter in boxes 21 to 26. Schedule 9, lines 930 to 941, provides a summary of other designated amounts that you have to enter in boxes 30 to 41.

If information slips received by the trust show that tax was deducted, you cannot reduce the amount of income that you allocate on lines 921 to 926 by this tax when you complete the beneficiary's T3 slip. For more information, see "Line 86" on page 22.

### Box 21

Transfer from line 921 of Schedule 9, 4/3 of the beneficiary's designated portion of any net taxable capital gains.

If box 21 includes capital gains from foreign property, you have to identify these amounts to enable the beneficiary to claim the foreign tax credit on any foreign taxes paid. We consider these capital gains to be non-business income for the purposes of the foreign tax credit. Put an asterisk (\*) beside the amount in box 21. In the footnote space below box 41, add "non-business income for foreign tax credit"

and show the taxable portion of the amount included in box 21 that relates to the disposition of foreign property.

For more information, see "Line 921" on page 40.

#### **Box 22** ▲

Transfer from line 922 of Schedule 9, the beneficiary spouse's designated portion of lump-sum pension benefits that qualifies for a paragraph 60(j) transfer to a registered pension plan or registered retirement savings plan. For more information, see "Schedule 7, *Statement of Pension Income Allocations and Designations*" on page 34.

#### **Box 23** ▲

Transfer from line 923 of Schedule 9, the beneficiary's designated portion of the actual amount of taxable dividends the trust received from taxable Canadian corporations.

#### **Box 24**

Transfer from line 924 of Schedule 9, the beneficiary's designated portion of the trust's foreign business income (before withholding taxes).

#### **Box 25**

Transfer from line 925 of Schedule 9, the beneficiary's designated portion of the trust's foreign non-business income (before withholding taxes).

##### **Note**

If you complete boxes 24 or 25, identify in the footnotes area below box 41, each foreign country and the amount of business or non-business income from each country.

#### **Box 26** ▲

Enter the beneficiary's designated and allocated portion of all other income that you did not record in boxes 21 to 25.

Include in box 26 amounts such as:

- eligible death benefits;
- retiring allowances;
- pension income that is eligible for a paragraph 60(l) transfer to an annuity for certain minors;
- net rental income;
- net business income; and
- interest income.

If you include in box 26 any farming income from the disposition of eligible capital property which is qualified farm property, put an asterisk (\*) beside the amount. In the footnote space below box 41, add a note showing:

- a description of the property, for example, eligible capital property – qualified farm property; and
- the amount that qualifies for the capital gains deduction.

If you include in box 26, business income from a communal organization, put an asterisk (\*) beside the amount. In the footnote space below box 41, note "self employment earnings for CPP purposes," the type of income, for example, "farming," "fishing," or "business," and the amount.

#### **Box 30**

Only personal trusts complete box 30.

Enter 4/3 of the beneficiary's designated portion of the trust's eligible taxable capital gains for the beneficiary's taxable capital gains deduction. This amount does not include business income from the disposition of eligible capital property, which is identified in the footnotes to box 26. Put an asterisk (\*) in box 30, and in the footnote space below box 41, add either "qualified farm property" or "qualified small business corporation shares," whichever applies, and the amount eligible for the capital gains deduction.

For more information, see "Line 930" and "Footnotes for line 930 (and box 30)" on page 41.

#### **Box 31** ▲

Enter any pension amounts you designated to the deceased's beneficiary spouse that qualify for the pension income non-refundable tax credit. Include these amounts in box 26.

#### **Box 32** ▲

If you entered an amount in box 23 and the beneficiary is an individual or a trust other than a trust which is a registered charity, you have to enter an amount in box 32. Enter the beneficiary's designated portion of the taxable amount of dividends from a taxable Canadian corporation. This portion is 5/4 of the actual amount you reported in box 23.

#### **Box 33**

If you entered an amount in box 24, you may have to enter an amount in box 33. Enter the beneficiary's designated portion of the foreign business income tax the trust paid that is based on the amount in box 24.

#### **Box 34**

If you entered an amount in box 25, you may have to enter an amount in box 34. Enter the beneficiary's designated portion of the foreign non-business income tax the trust paid that is based on the amount in box 25.

##### **Note**

If you complete boxes 33 or 34, identify each foreign country and the amount of business or non-business income tax for each country in the footnotes area below box 41.

#### **Box 35** ▲

Enter the beneficiary's designated portion of eligible death benefits. See "Line 935" on page 41. Include this amount in box 26.

**Box 36** ▲

Enter the beneficiary's designated portion of the following amounts:

- pension income that is eligible for a paragraph 60(l) transfer to an annuity for certain minors (from line 1.b on Schedule 7 and included in box 26);
- a retiring allowance which qualifies for a paragraph 60(j.1) transfer to a registered pension plan or registered retirement savings plan (and included in box 26); and
- charitable donations of a communal organization.

Put an asterisk (\*) beside the amount in box 36. In the footnote space below box 41, add a note giving the details of the amount and the type of transfer. If you are designating more than one of these items to a single beneficiary, prepare a separate T3 Supplementary slip for each item.

**Box 37**

Transfer from line 937 of Schedule 9, 4/3 of the beneficiary's designated portion of allowable capital losses from insurance segregated fund trusts.

**Box 38**

Enter the beneficiary's designated portion of the Part XII.2 tax credit. See "Schedule 10 – Calculation of Part XII.2 Tax" on page 42.

**Box 39** ▲

If you entered an amount in box 32, you have to enter an amount in box 39. Calculate and enter the federal dividend tax credit. This credit amount is 13.33% of the taxable amount that you entered in box 32.

**Box 40**

Report the portion of the trust's investment in eligible property acquisitions or eligible expenditures that you used to calculate the beneficiary's share of investment tax credit. See "Lines 940 and 941" on page 42, and "Line 1120" on page 48.

**Box 41**

Report the beneficiary's designated portion of the investment tax credit. See the "Calculation of investment tax credit" area on Form T2038(IND), *Investment Tax Credit (Individuals)*. Insert the applicable code from Form T2038(IND) in the footnote space under box 41. See "Lines 940 and 941" on page 42, and "Line 1120" on page 48.

**Footnote space**

If you need more room to include an explanation in the footnote space under box 41, prepare a separate statement and attach one copy of the statement to each copy of the T3 slip.

**Distributing the T3 Supplementary slip** ▲

**Copy 1:** Send this copy to us, with the T3 Summary and T3 return, no later than 90 days after the end of the trust's taxation year. For addresses and more information on filing requirements, see "General Information" on page 4.

**Copies 2 and 3:** Send these copies to the beneficiary's last known address no later than 90 days after the end of the trust's taxation year.

**Copy 4:** Keep this copy with the trust records.

If you use the T3 Supplementary slip for laser printers, see the instructions on the back of the laser form.

**Example**

T3 Supplementary – The trust has the following income and deductions:

<b>Dividends from taxable Canadian corporations:</b>	Box 23 – Actual amount .....	\$ 1,000.00
	Box 32 – Taxable amount .....	\$ 1,250.00
	Box 39 – Federal dividend tax credit .....	\$ 166.67
<b>Capital gains:</b>	Box 21 – Capital gains not eligible for deduction .....	\$10,000.00
<b>Other income:</b>	Interest income .....	\$2,000.00
	Minus: Carrying charges .....	\$ 200.00
	Rental income (net) .....	\$2,000.00
	Upkeep, maintenance per Ss 105(2) .....	\$ 500.00
	Box 26 – Other income .....	\$4,300.00

The trust has one resident beneficiary and all income is allocated or designated to the beneficiary. Complete the T3 Supplementary as follows:

Trust year ending		Supplementary – Supplémentaire		STATEMENT OF TRUST INCOME ALLOCATIONS AND DESIGNATIONS ÉTAT DES REVENUS DE FIDUCIE RÉPARTIS ET ATTRIBUÉS				
Year	12	14	16	18

## Completing the T3 Summary ▲

### Identification

Enter the same information in this area that you entered on Form T3, *Trust Income Tax and Information Return*.

### Total number of T3 Supplementary slips filed

Enter the total number of T3 slips you are including with this T3 Summary.

### T3 Supplementary totals

The line numbers on this return are the same as the box numbers on the T3 slips. Add together the amounts from all the T3 slips for a particular box number, and enter that amount on the corresponding line of the T3 Summary.

### Summary of footnote amounts

The footnote amounts are amounts you included in boxes 21, 26, or 30, on the T3 slips and that you identified with an asterisk (\*). You should have explained these amounts in the footnote space on the T3 slip. Total these footnote amounts and enter them in the appropriate space on the T3 Summary.

## Filing the T3 Summary ▲

Send the completed T3 Summary, the T3 return and copy 1 of the related T3 slips to us no later than 90 days after the end of the trust's taxation year. For addresses and more information on filing requirements, see "General Information" on page 4. We have also listed addresses on the back of the T3 Summary.

Keep a copy of the T3 Summary with the trust records.

### Note

If you are filing on magnetic media, do not send us a completed T3 Summary.

### Corrections, amendments, and replacements

If you prepare any amended T3 slips after you have filed the originals with us, please file an amended T3 Summary with revised totals. If applicable, you also have to file an amended T3 return and Schedule 9.

Print the word "AMENDED" at the top of the amended T3 Summary, T3 return, and Schedule 9.

### Reminder

When you file a T3 Summary, you also have to file a T3 return. For more information, see Chapter 3 on page 14.

### SUMMARY OF TRUST INCOME ALLOCATIONS AND DESIGNATIONS

- Complete this form if, in the year, the trust allocated income to a resident beneficiary, including a preferred beneficiary.
- File this form with the T3 return no later than 90 days after the end of the trust's taxation year.
- Attach copy 1 of the T3 Supplementary slips to this summary.

If you file your T3 Supplementary slips on magnetic media (on tape, cartridge, or diskette), do not send us a copy of this form. For filing instructions, see box B on the back of this form.

## Appendix A – Cost of Depreciable Assets

For depreciable property that a trust acquires by gift, inheritance, or bequest, the following rules determine its cost.

### 69(1), 73(1)

Property acquired by inter vivos gift – The cost is the fair market value of the property when the trust acquired it. An exception occurs for a spousal trust if, when it acquired the property, both the settlor and the trust were resident in Canada. The cost to the spousal trust is the undepreciated capital cost of the property to the settlor, unless the settlor elects otherwise.

### 70(5)

Property acquired by bequest or inheritance – If the trust is not a spousal trust whose settlor was resident in Canada just before his or her death, and the trust was resident in Canada just after the property vested in the trust, the cost of each property the trust acquired after 1992 will equal the fair market value of the property just before the settlor's death.

If the trust acquired the property before 1993, the cost is an amount that is the average between the fair market value of the property when it was acquired, and the undepreciated capital cost of the property to the settlor just before death.

### 70(6)

Property acquired by bequest or inheritance, and the trust is a spousal trust – If the settlor was resident in Canada just before his or her death, and the trust was resident in Canada just after the property vested in the trust, the cost amount of each property the trust acquired after 1992 is the lesser of:

- the capital cost; and
- the cost amount of the property to the settlor just before death.

If the trust acquired the property before 1993, the cost amount is the undepreciated capital cost of the property to the settlor just before death.

### 70(9)

Property that is a Part XI farm asset acquired as a bequest or inheritance which is permanently vested in a resident child of the settlor within 36 months of death – If, just before the death of the settlor, the property was principally used in the business of farming in which the settlor, spouse, or a child of the settlor was regularly and actively engaged, the cost of each property the trust acquired after 1992 is the lesser of:

- the capital cost; and
- the cost amount of the property to the settlor just before death (unless the legal representative of the deceased elects otherwise).

If the trust acquired the property before 1993, the cost is the undepreciated capital cost of the property to the settlor just before death, unless the legal representative of the deceased elects otherwise. For more information, see Interpretation Bulletin IT-349, *Intergenerational Transfers of Farm Property on Death*.

If the property is a Part XVII asset acquired as a inter vivos gift, bequest, or inheritance, the cost is the fair market value of the property when it was acquired.

### 73(3)

If the property is a depreciable farm asset of a prescribed class in Canada, acquired by inter vivos gift or sale for the transferor's child who was resident in Canada just before the transfer, the cost of each property the trust acquired cannot be:

- more than the greater of:
  - the fair market value of the property just before the transfer; and
  - the undepreciated capital cost of the property just before the transfer; or
- less than the lesser of the two amounts described above.

If the property is sold to the trust for an amount between the fair market value of the property and its undepreciated capital cost, the cost will be equal to the sale price. The proceeds of disposition to the transferor will be equal to the cost of the property to the trust. For more information, see Interpretation Bulletin, IT-268, *Inter Vivos Transfer of Farm Property to Child*, and its Special Release.

#### Note

If there is more than one property in a prescribed class, you have to calculate the undepreciated capital cost of the property. To do this, you have to divide the undepreciated capital cost of the class based on the ratio between the fair market value of the property and the fair market value of all the property in the class.

If the original capital cost of depreciable property to the transferor is more than the cost at which the trust acquires the property, the trust is considered to have acquired the property at its original capital cost, and to have claimed the difference as capital cost allowance.

## Appendix B – Employment and Employment Related Income

If a person dies while employed, there are several entitlements that the employer may pay to the employee's estate. The employer will pay these entitlements after the employee's death, and in most cases will make out the T4 or T4A information slip to the estate of the employee. For taxation purposes, these payments fall into three groups:

- amounts to be reported on the deceased person's final individual income tax return or the optional rights or things return;
- amounts to be reported on the estate's T3 return; and
- non-taxable amounts.

### 1. Amounts to be reported on the deceased person's final individual income tax return

These payments form part of the employee's employment income for the taxation year in which the employee died, regardless of when the employer paid them. Report the payments on the deceased person's final income tax return, even if you receive a payment in a year after the year of death. The following section describes the payments and whether they qualify as rights or things.

Type of payment	Info slip	Deceased person's final individual return	Rights or things return*
a) Salary or wages (including overtime) from the end of the last pay period to the date of death (e.g., last pay period: May 16-31; date of death: June 4; accrued period: June 1-4; paid: June 19)	T4, Box 14	X	
b) Salary or wages (including overtime) for a pay period completed before the date of death, but paid after death (e.g., pay period: June 1-15; date of death: June 16; paid: June 19)	T4, Box 14	X	X
c) Payment for accrued vacation leave	T4, Box 14	X	X
d) Retroactive adjustments to amounts in a), b), or c) as a result of an agreement or promotion when the authorizing instrument was signed <b>before</b> the date of death	T4, Box 14	X	X
e) Refund of employer's reduction of E.I. premiums	T4, Box 14	X	X

\*Rights or things are amounts that were not paid at the time of death and that, had the person not died, would have been included in his or her income when received. Rights or things are usually reported on the deceased person's final individual income tax return. However, under certain conditions, rights or things can be reported on a separate, optional return. Some rights and things can be directly transferred to and reported by a beneficiary. For more information, see the income tax guide called *Preparing Returns for Deceased Persons*.

## 2. Amounts to be reported on the estate's T3 return

Report the following payments on the T3 return of the estate for the year in which you receive a payment. If a payment is received in a year after the year of death, report it on the T3 return for that subsequent year.

Type of payment	Info slip	T3 return
a) Salary or wages (including adjustments) paid for the period after the date of death usually to the end of the month, or payment for the full month of death for which the employee was not receiving pay but was on authorized leave	T4A, Box 28	X
b) Severance pay received because of death (as this is a death benefit, an amount up to \$10,000 may be non-taxable)	T4A, Box 28	X
c) Future adjustments to severance pay regardless of when the collective agreement was signed	T4A, Box 28	X
d) Refund of pension contributions payable because of death	T4A, Box 18	X
e) Guaranteed minimum pension payment (not a death benefit)	T4A, Box 18	X
f) Deferred profit-sharing plan payment	T4A, Box 18	X
g) CPP/QPP Death benefit (if not reported by the recipient)	T4A(P), Box 18	X

## 3. Non-taxable amounts

The following amounts are non-taxable:

- a) retroactive adjustments to amounts in 1a), b), or c) when the collective agreement or other authorizing instrument has been signed **after** the date of death; and
- b) group term insurance such as the federal government's supplementary death benefit.

## Contacting Us

Once a trust return is filed, the information on it becomes confidential. For this reason, we follow certain procedures before giving out information about the trust. Information can be given only to the trustee (or other legal representative who filed the return, such as an executor, administrator, assignee, or receiver) or to an authorized representative. The authorized representative could be an accountant, lawyer, or tax preparer, acting for the trustee. Although beneficiaries are entitled to information related to their personal tax situation, they are not entitled to information from us about the tax affairs of the trust.

### Getting information in person

If you visit us, we will ask for:

- personal identification, which may be one piece of signed identification with your picture or two pieces of signed identification;
- trust identification, which may be a copy of the will, trust agreement or letters of administration, or confirmation that a copy of one of these documents has been filed with us. We will also accept other identification, such as a copy of the *Notice of Assessment* or other information about the contents of the trust return; and
- a business card or some other form of corporate identification, if you are an employee of a corporate trustee.

If your representative visits us, we will ask for the same identification. We will also ask for evidence that you have authorized this person.

Some of the trust's tax information is readily available and can be given to you as soon as we confirm that you are entitled to it. However, a pre-arranged appointment will ensure that the information you need will be available when you visit.

### Getting information by telephone

If you call us, we will ask:

- for your name, address, and date of appointment as trustee;
- whether a copy of the will, trust agreement, or letters of administration has been filed with us. If not filed, we will ask for a copy or for some other form of proof that will allow us to give you the information you need. If you are inquiring about the assessment of the trust return, we may also ask for information from the return; and
- for the date that your company was appointed as trustee, if you are an employee of a corporate trustee.

If your representative calls us, we will ask for evidence that you have authorized this person, in addition to the trust-related identification.

If the information you require is not readily available, we may tell you that we will call back as soon as it is available.

When we call back, we will ask for the date that the trust was established. For inter vivos trusts, this is the date the trust was created. For testamentary trusts, it is the date of death of the individual upon whose death the trust was created.

### Giving authorization or cancelling an authorization already given

You can authorize a representative or cancel an authorization already given by writing to us, or by sending in a completed Form T1013, *Consent Form*.

The authorization, or cancellation of an authorization already given, should include:

- the name, address, and account number of the trust;
- your representative's name (only the business name of a firm or partnership need appear, unless authorization is to be restricted to a certain member) and telephone number;
- the taxation year or years to which the authorization, or cancellation of the authorization, applies; and
- your signature and title as the authorized signing person (trustee, executor, or administrator), your telephone number, and the date.

You have to complete a separate written authorization or consent form for each representative appointed or cancelled, for a taxation year or years.

### Sending information by fax

Please use facsimile service for correspondence only. Because this service relies on the telephone network, we are not responsible for misdirected, incomplete, or unclear documents.

### Problem Resolution Program

Revenue Canada is always looking at ways to make it easier for you to file your tax return, and to resolve any problems you may have.

We deal with the majority of your questions and concerns through normal channels. In other words, if you have a problem, you should call, write, or visit the Enquiries service of your tax services office or tax centre. However, if your problem is still not resolved to your satisfaction, you can contact a Problem Resolution Program Co-ordinator.

To contact the co-ordinator of the Problem Resolution Program at your tax services office or tax centre, see the listings under "Revenue Canada" in the Government of Canada section of your telephone book.
