

CALCULATING THE AMOUNT OF RRSP EXCESS CONTRIBUTIONS MADE BEFORE 1991 THAT ARE SUBJECT TO TAX

- Use this schedule for 1995 and later years only, to calculate the amount of excess RRSP contributions made **before 1991** that are subject to tax. You may also need to complete a T1-OVP return if the excess RRSP contributions are subject to tax for a year before 1995. Get the version of the T1-OVP return for that particular year(s) to calculate the amount of tax you have to pay for that year.
- If you have undeducted RRSP contributions made **after 1990** that are subject to tax, get the version of the T1-OVP for the year that you made the undeducted contributions to calculate the amount of tax you have to pay. If you did not withdraw the undeducted contributions in the year you contributed them or in a later year, you may be subject to tax on those contributions until you withdraw them. Get the version of the T1-OVP return for each year that you may be subject to tax to calculate the amount of tax you have to pay.
- If the excess contributions are subject to tax for the year indicated in Area II, you have to complete this schedule, and complete Areas IV and V of a **T1-OVP return** for the year indicated in Area II. Submit the return and schedule to your tax centre no later than 90 days after the end of the year you indicate in Area II below.
