

## **BRITISH COLUMBIA MINING FLOW-THROUGH SHARE TAX CREDIT**

Complete this form to calculate your BC mining flow-through share (BC MFTS) tax credit. You can claim this credit if you received an Information slip T101, Statement of Resource Expenses, or T5013, Statement of Partnership Income, with an amount in box 141.

Attach a copy of Information slip T101 and/or T5013 to this form and include it with your paper return. If you are filing electronically, keep a copy of the documents for your records in case further verification is required. You must claim your BC MFTS tax credit no later than 12 months after your filing due date for the tax year for which you received an Information slip T101 or T5013.

The BC MFTS tax credit is 20% of BC flow-through mining expenditures renounced to an individual by a corporation under a flow-through share agreement entered into after July 30, 2001. The expenditures must have been incurred by the corporation in British Columbia after July 30, 2001, and before January 1, 2004. You can use the credit that you earn in a year to reduce your British Columbia tax payable for that year, a previous year, or a future year.

	Tax year		2002
