## CALCULATION OF CUMULATIVE NET INVESTMENT LOSS (CNIL) TO DECEMBER 31, 1994

- Use this form if you had any "investment income" or "investment expenses" for 1994.
- Your CNIL reduces the amount of your cumulative gains limit for the year and may affect the allowable amount of your capital gains deduction.
- Even if you are not claiming a capital gains deduction in 1994, you should still complete this form if you had any investment income or expenses in 1994. Since the balance in your CNIL account is a cumulative total, you may need this information in a future year. Keep one copy for your records and attach one copy to your return.
- If you need more information, see the income tax guide called Capital Gains, or contact your Revenue Canada income tax office.

If you have non-eligible capital gains in 1994, you may have additional investment income to include when you calculate your CNIL. If you do, complete Charts A and B on the other side of this form. If not, start at Part 1 and do not complete Charts A and B. To find out what a non-eligible capital gain is, see the chapter "Capital Gains Deduction" in the income tax guide called *Capital Gains*.
