

CALCULATION OF PARTS IV.1 AND VI.1 TAXES (1998 and later taxation years)

SCHEDULE 43

Name of corporation, Business Number, Taxation year end (Year, Month, Day)

- Use this schedule to calculate a corporation's Part IV.1 tax for dividends received on taxable preferred shares and taxable RFI shares... If Part IV.1 or VI.1 taxes are payable, file one completed copy of this schedule with the corporation's T2 return no later than six months after the end of the taxation year.

Part 1 - Calculation of dividend allowance

For taxation years shorter than 51 weeks, prorate the dividend allowance at line 210 by the number of days in the taxation year divided by 365. Paragraph 191.1(6)(b) provides a special rule for a corporation with two or more taxation years ending in the same calendar year during which it is associated with another taxable Canadian corporation that has a taxation year ending in that calendar year.

Basic dividend allowance \$500,000

Minus: Taxable dividends [other than excluded dividends under subsections 191(1), 191(4), and 191(5)], to the extent the total exceeds \$1,000,000, that were paid in the calendar year immediately preceding the calendar year in which the taxation year ended on taxable preferred shares or shares that would be taxable preferred shares if they were issued after June 18, 1987, and were not grandfathered shares [subsection 191.1(2)]

Agreement for calendar year

Associated corporations

According to subsection 191.1(3), if a corporation is associated with one or more corporations, it should allocate the total dividend allowance (amount B) among associated corporations, as indicated below. The amount that is more than \$1,000,000 (amount A) includes non-excluded dividends paid by all associated corporations [subsection 191.1(4)].

In cases where an associated corporation has more than one taxation year ending in a calendar year, it is required to file an agreement for each taxation year ending in that calendar year.
