

- Enter the applicable taxation year in the box above.
- Complete this schedule if the trust is a personal trust that has qualified farm property or qualified small business corporation shares, is reporting any investment income or claiming any investment expenses, and is:
 - designating taxable capital gains from qualified farm property, qualified small business corporation shares, or reserves on these properties to an individual beneficiary; or
 - a spousal or common-law partner trust claiming a capital gains deduction on Schedule 5, *Beneficiary Spouse or Common-Law Partner Information and Spousal or Common-Law Partner Trust's Capital Gains Deduction*, in the year the beneficiary spouse or common-law partner dies.
- The cumulative net investment loss (CNIL) is the trust's total investment expenses for years ending after 1987, minus the trust's total investment income for years ending after 1987. For purposes of the CNIL, investment income and expenses generally refer to income and expenses related to property including dividends, interest, rental income, and royalties.
- Trusts with qualified farm property or qualified small business corporation shares should complete this schedule each year and keep it with the trust's records. Do this even for years when the trust is not reporting capital gains or losses, and is not designating eligible taxable capital gains to its beneficiaries. The balance in the trust's CNIL account is a cumulative total. You need the total of the trust's investment income and expenses for 1988 and following years to calculate eligible taxable capital gains on Schedule 3, *Eligible Taxable Capital Gains*.
- The CNIL calculated on line 27 on this schedule will reduce the trust's cumulative gains limit calculated on Schedule 3. This may reduce the trust's eligible taxable capital gains that qualify for the capital gains deduction.
