Adjusted cumulative loss amount reported after 1984 and before the current year

You have to make an adjustment if the trust claimed net capital losses of other years in a tax year after 1984 and before 1992 if, in the same tax year, the trust reported a pre-1985 reserve. You have to reduce the net capital losses of other years claimed in a year by the taxable portion of the pre-1985 reserve reported in the year. The following chart will help you calculate this adjustment for line 21. If you have never made this calculation, you have to make it in the current year for all the years from 1985 to 1991.
