

Agence des douanes et du revenu du Canada

FEDERAL FOREIGN TAX CREDITS

Use this form to calculate the amount you can deduct from federal tax and from the federal individual surtax for a tax year. You can claim this credit if you were resident in Canada at any time in the tax year, and you had to include, on your Canadian return, income which originated in a foreign country for which you paid non-business or business taxes to that foreign country. Attach a completed copy of this form to your return. If the total foreign taxes you paid to all foreign countries is more than \$200, complete a separate form for each foreign country to which you paid taxes.

See the back for details. For more information, get Interpretation Bulletin IT- 270, Foreign Tax Credit, or contact your tax services office.

Foreign non-business income					
Non-business-income tax paid to a foreign country *				_	
Net foreign non-business income **		Federal tax ****	1	=

* Non-business-income tax paid to a foreign country

(Note 1) is the total income or profits taxes you paid to that country or to a political subdivision of the country for the year (excluding business-income tax), minus any part of these taxes that is deductible under subsection 20(11) or deducted under subsection 20(12) of the *Income Tax Act*. It also does not include any part of these taxes that can reasonably be attributed to amounts that:

- any other person or partnership received or is entitled to receive from the foreign country;
- relate to employment income from that country for which you claimed an overseas employment tax credit;
- relate to taxable capital gains from that country for which you or your spouse claimed a capital gains deduction;
- were deductible as exempt income under a tax treaty between Canada and that country; or
- were taxable in the foreign country because you were a citizen of that country, and relate to income from a source within Canada.
- Net foreign non-business income (Note 2) is the net amount you calculate when the non-business income you earned in a foreign country exceeds the non-business losses you incurred in the same country. When you calculate the non-business income and losses, claim the allowable expenses and deductions relating to the foreign income or loss (including deductions claimed under subsections 20(11) or 20(12) of the Income Tax Act, and excluding any deduction you claimed for a dividend you received from a controlled foreign affiliate). Reduce this amount by any income from that foreign country for which you claimed a capital gains deduction, and by any income from that country that was, under a tax treaty between Canada and that country, either deductible as exempt income in Canada, or exempt from tax in that country. Also, reduce this amount by any part of employment income from that country for which you claimed an overseas employment tax credit. If the net foreign non-business income is more than **net income**, use **net** income in the calculation.
- *** Net income (Note 3) Line 236 of your return, minus any:
- amounts deductible as an employee home relocation loan deduction (line 248 of your return);
- amounts deductible as stock option and shares deductions (line 249 of your return);
- amounts deductible as an other payments deduction (line 250 of your return);
- net capital losses of other years you claimed (line 253 of your return);
- capital gains deduction you claimed (line 254 of your return); and
- income deductible as net employment income from a prescribed international organization or foreign income deductible as exempt income under a tax treaty (included on line 256 of your return).

- **** Federal tax (Note 5) Line 33 of Schedule 1, plus any:
- overseas employment tax credit (from Form T626, Overseas Employment Tax Credit);
- federal dividend tax credit (from line 30 of Schedule 1); and
- federal surtax on income you earned outside Canada (from Schedule 1 or line 9 of Form T2203, Provincial and Territorial Taxes – Multiple Jurisdictions);

and minus any:

- refundable Quebec abatement (from line 440 of your return or line 12 of Form T2203);
- federal refundable First Nations abatement (from line 441 of your return); and
- tax adjustments for CPP/QPP benefits for previous years (included on line 27 of Schedule 1).
- † Business-income tax paid to a foreign country (Note 1) is the total of business-income or profits taxes you paid to that country or to a political subdivision of the country for the year (Note 4).

It does not include any part of the business-income tax that can be reasonably attributed to an amount that any other person or partnership has received or is entitled to receive from that country, or was deductible as exempt income under a tax treaty between Canada and that country.

†† Net foreign business income (Note 2) is the net amount by which the business income you earned in the foreign country exceeds the business losses you incurred in the same country. When you calculate the business income and losses, claim the allowable expenses and deductions relating to the foreign income or loss. Reduce this amount by any income from that country that was, under a tax treaty between Canada and that country, either deductible as exempt income in Canada, or exempt from tax in that country. If the net foreign business income is more than net income, use net income in the calculation.

††† Basic federal tax (Note 5) – Line 33 of Schedule 1, plus any:

- overseas employment tax credit (from Form T626); and
- federal dividend tax credit (from line 30 of Schedule 1); and minus any:
- tax adjustments for CPP/QPP benefits for previous years (included on line 27 of Schedule 1).

Note 1

Any amount of tax paid to a foreign government in excess of the amount required to be paid, according to a tax treaty, is considered a voluntary contribution and does not qualify as foreign taxes paid.

Note 2

If you were a resident of Canada for part of the year, only include the income for the part of the year you were a resident of Canada.

Note 3

If you were a resident of Canada for part of the year, include the income for the part of the year you were a resident of Canada, and the taxable income you earned in Canada (before deductions in paragraphs 115(1)(d) to (f) of the Income Tax Act) as reported on your Canadian return, for the part of the year you were not a resident of Canada.

Note 4

If you were a resident of Quebec, multiply this amount by 55%.

Note:

If you were a resident of Quebec, **federal tax** or **basic federal tax** is the amount on line 33 of Schedule 1, plus any:

- overseas employment tax credit (from Form T626); and
- federal dividend tax credit (from line 30 of Schedule 1); and minus any:
- refundable Quebec abatement (from line 440 of your return or line 12 of Form T2203).
