

### FORWARD AVERAGING TAX CREDITS FOR 1989

- One copy of this form is to be attached to the T1 General Individual Income Tax Return and filed not later than April 30, 1990 or, in the case of a deceased taxpayer, by the later of April 30, 1990 or within 6 months from the date of death.
- For use by an individual who was resident in Canada throughout 1989 and who elects under subsection 110.4(2) of the Income Tax Act to reduce the individual's Accumulated Averaging Amount.
- If an individual who died in 1989 was resident in Canada throughout the period commencing on January 1, 1989 and ending on the date of death, the individual is deemed for the purposes of subsection 110.4(2) to have been resident in Canada throughout 1989.
- In a taxation year in which an individual resident in Canada dies, all or any portion of the deceased taxpayer's Accumulated Averaging Amount at the end of the immediately preceding year may be added in computing the deceased's taxable income for the year of death. This form may be used to specify what amount, if any, of such Accumulated Averaging Amount is to be taxed in the year of death. Any balance remaining in the deceased's Accumulated Averaging Amount at the end of the year of death may be taxed under special provisions. Form T541, which provides for the required calculations, is available at any District Taxation Office.
- Block averaging is not permitted for a taxation year to a taxpayer who is a farmer or fisherman if, in that year or in any of the preceding years included in an averaging period of the taxpayer under section 119 of the Act, an amount has been added or deducted for forward averaging purposes in computing taxable income of the taxpayer.
- In computing Taxable income for 1989 "non-capital losses" and "farm losses" for the year will be offset against the Accumulated Averaging Amount Withdrawal specified for that year in this election. In other words, if the Net Income amount is negative for 1989 as a result of a "non-capital loss" or "farm loss" for that year, such loss(es) will be reduced by the Accumulated Averaging Amount Withdrawal specified for the year in this election.
