SUBJECT: IT-Index

**Income Tax Interpretation Bulletins and** 

**Technical News** 

DATE: December 31, 2009

REFERENCE:

### **Application**

This index reflects interpretation bulletins, special releases, and technical news issued on or before **December 31, 2009**. It cancels and replaces the index of December 31, 2008. The index is updated on an annual basis.

#### **General Comments**

- 1. The purpose of interpretation bulletins (ITs) is to provide the Canada Revenue Agency's (CRA) interpretation of the income tax law that it administers and to announce significant changes in the CRA's interpretations and their effective dates. Interpretation bulletins are not law; the law is contained in the Acts themselves and in the Regulations. However, these bulletins can generally be relied upon as reflecting the CRA's interpretation of the law to be applied on a consistent basis by its staff.
- 2. Due to their technical nature, ITs are used primarily by the CRA staff, tax specialists, and other individuals who have an interest in tax matters. An ongoing effort is made to improve the readability of the bulletins while still maintaining technical precision and accuracy. For example, all new and revised bulletins are written using plain language writing techniques. Each bulletin has a summary that provides a clear overview of the contents of the particular bulletin and an Explanation of Changes that is provided to assist readers in understanding the reasons for the revisions to a bulletin. In addition, the bulletins include, where appropriate, references to relevant case law and other CRA publications as well as examples to illustrate how the law is applied. For those readers who prefer a less technical explanation of the law, the CRA offers other publications, such as tax guides and brochures.
- 3. Bulletins reflect the CRA's interpretation of the law in force at the time the bulletins are published. In cases where a bulletin has not yet been revised to reflect legislative changes, readers should refer to the amended law and its effective date. Readers should also take into account court decisions since the date of publication of a bulletin when considering the relevancy of the comments in the bulletin or special release.

- **4.** When an existing bulletin needs updating, the CRA will either revise the bulletin or issue a consolidated version to revise parts of the bulletin, depending on the nature and extent of the change and its overall effect on the existing bulletin.
- 5. An interpretation described in a bulletin applies as of the date the bulletin is published, unless otherwise specified. When there is a subsequent change in a previous interpretation or position, and the change is beneficial to taxpayers, it is usually effective for all future assessments and reassessments. However, if the change is not favourable to taxpayers, it is normally effective for the current and subsequent taxation years or for transactions entered into after the date of the bulletin
- **6.** A change in an interpretation or position may also be announced in the *Income Tax Technical News*. This newsletter is issued ad hoc to provide immediate CRA reaction to specific issues of significant impact.

### Complete Review of an IT

7. When there has been a complete review of all paragraphs of an IT, the number identifying the IT changes (e.g., IT-426 becomes IT-426R and, upon a subsequent review, it will become IT-426R2). The *Explanation of Changes* section at the end of the IT indicates the paragraph numbers that have been changed as a result of the review and provides a short explanation of the reasons for the changes.

#### Consolidated IT

8. In some situations, such as when there has been a substantial change in the law or a significant court case, only certain paragraphs of an IT are revised in order to update it as quickly as possible. When such is the case, the word "(Consolidated)" will appear at the end of the IT number (e.g., IT-481 (Consolidated)). The paragraphs that have been revised by the current consolidation are identified at the front of the IT beside the heading *Latest Revisions*. The reasons for all of the changes made since the last complete review of the IT are indicated in the *Bulletin Revisions* section at the end of the IT. The date of the revision appears after the description of each change.

- **9.** This index consists of the following:
  - Part 1 Sectional Index by Primary References
  - Part 2 Topical Index
  - Part 3 Numerical Listing of Current Interpretation Bulletins
  - Part 4 Numerical Listing of Technical News
  - Part 5 List of Cancelled Bulletins Since the Last Publication of the Index

**Note**: Throughout this index, bulletins for which the CRA has issued a special release are indicated by an "(SR)" placed to the right of the bulletin number. Also, consolidated versions of bulletins are indicated by a "(C)" placed to the right of the bulletin number. In Part 3, an underlining of the number of a bulletin indicates that a new release, a revision or a consolidated version has been issued since the index was last published. Cancelled and archived publications are not listed in the index.

To better serve our clients, the CRA consults with many affected groups and individuals about the content of selected bulletins. If you have any comments or suggestions to improve a bulletin, a technical news, or this index, we would like to hear from you. Please send your comments to:

Income Tax Rulings Directorate
Legislative Policy and Regulatory Affairs Branch
Canada Revenue Agency
Ottawa ON K1A 0L5

All Interpretation Bulletins can be found on the Canada Revenue Agency Web site at: www.cra.gc.ca/menu/ITSC-e.html
