All legislative references on this sheet refer to the *Income Tax Act* (the Act.)

Do you have to file this return?

Form T1134-A, *Information Return Relating to Foreign Affiliates that are not Controlled Foreign Affiliates*, must be filed annually by:

- a taxpayer resident in Canada (other than a taxpayer all of whose taxable income for the year is exempt from tax under Part I of the Act) for which a non-resident corporation is a foreign affiliate (other than a controlled foreign affiliate (CFA)) **at any time in the year**; and
- a partnership where:
 - the share of the income or loss of the partnership for the year of non-resident members is less than 90% of the income or loss of the partnership for the year, and
 - a non-resident corporation would be a foreign affiliate (other than a CFA) of the partnership **at any time in the year** if the partnership were a person resident in Canada.

Note: A trust deemed under paragraph 94(1)(c) of the Act to be resident in Canada for purposes of Part I (i.e., a non-resident discretionary trust) is also deemed to be so resident for the purpose of filing this return.

This return is to be filed by a reporting taxpayer only in respect of a foreign affiliate (other than a CFA) in which the reporting taxpayer or a CFA of the reporting taxpayer has a direct equity percentage at any time in the reporting taxpayer's taxation year.

If you are reporting on a CFA, you have to use Form T1134-B, *Information Return Relating to Controlled Foreign Affiliates*.

Do not file Form T1134-A for a foreign affiliate that is "dormant" or "inactive" for the affiliate's taxation year ending in your taxation year. For purposes of completing Form T1134-A, a dormant or inactive foreign affiliate means, for a taxation year of the affiliate, one that:

- had gross receipts (including proceeds from the disposition of property) of less than \$25,000 in the year; and
- at no time in the year had assets with a total fair market value of more than \$1,000,000.

For short taxation years, e.g., where there is a deemed year-end due to a change in control, reporting for the normal 12-month year-end is sufficient if the information that would otherwise be reported for the short taxation year is included on the T1134-A returns that are filed. A letter noting the short taxation year should accompany the returns.

As an individual (other than a trust) you do **not** have to file Form T1134-A for the year in which you first become a resident of Canada.

Note: In determining whether a non-resident corporation is a foreign affiliate of a taxpayer resident in Canada or of a partnership for purposes of these reporting requirements, the following rules apply:

- the reference to "any corporation" in paragraph (b) of the definition of "equity percentage" in subsection 95(4) of the Act should be read as if it were a reference to "any corporation other than a corporation resident in Canada";
- the definitions "direct equity percentage" and "equity percentage" in subsection 95(4) of the Act should be read as if a partnership were a person; and

- the definitions "controlled foreign affiliate" and "foreign affiliate" in subsection 95(1) of the Act should be read as if a partnership were a taxpayer resident in Canada.

Only the lowest tier subsidiary in a group of Canadian corporations under common control has to report for its foreign affiliate. However, if another corporation in the Canadian group has a direct equity percentage in the foreign affiliate, it too is required to report on that foreign affiliate.

If a foreign affiliate is owned indirectly by a partnership through a Canadian corporation(s), only the lowest tier Canadian corporation reports for the foreign affiliate. However, if a member of the partnership also has a direct equity percentage in the foreign affiliate, it too is required to report on that foreign affiliate.

Due date for filing this return

Form T1134-A is due within 15 months after the end of your taxation year.

Foreign currency conversion

Monetary values must be reported in Canadian dollars except where otherwise provided. A single value should be reported either in Canadian dollars or in a foreign currency, but not in both. When a monetary value is reported in a foreign currency, the currency in which the value is reported must be indicated using the currency codes listed on page 7. A nil amount should be reported by indicating "0" (zero) rather than leaving the box empty.

When converting amounts into Canadian dollars from a foreign currency, you should use the exchange rate in effect at the time of the transaction (e.g., the time the income was received). If income is received throughout the year, we will accept an average rate for the year.

Where you are required to provide an amount at the beginning or at the end of the year, you may use the exchange rate in effect at the relevant time.

If you need more information, you can write, phone or visit your local tax services office. For our address and telephone numbers, see the listings in the Government of Canada section of your telephone book.
