Is the trust subject to minimum tax?

The following trusts are not subject to minimum tax:

- a mutual fund trust;
- a related segregated fund trust;
- a spousal or common-law partner trust, or a joint spousal or common-law partner trust, or an alter ego trust, if it reports in the year its first deemed realization under the 21-year rule; and
- a master trust.

Any other trust is liable to pay minimum tax if the net minimum tax payable on line 45 is more than the regular tax payable on line 48.

A trust may have to pay minimum tax for the year if it:

- reports taxable capital gains (line 01 of the return)
- reports taxable dividends (line 03 of the return)
- claims a loss resulting from, or increased by, resource expenditures, or claims resource and depletion allowances on resource properties (line 06 or line 19 of the return)
- makes an election on pension benefits under ITAR 40 (line 02 of the return and line 22 of Schedule 11)
- claims a loss resulting from, or increased by, capital cost allowance or carrying charges claimed on:
 - rental or leasing property (line 09 of the return); or
 - certified films or videotapes (line 06 of the return)

Part 1 – Calculating adjusted taxable income

Use Part 1 to calculate the net adjusted taxable income for minimum tax.

Net adjusted taxable income for minimum tax purposes applies to:

- certain losses that limited partners, specified members of a partnership, or partners of a tax shelter deduct for their partnership interest (for this purpose, losses allocated from a partnership are applied against gains from the same partnership source);
- losses from tax shelters; and
- carrying charges for interests in limited partnerships, tax shelters, rental and leasing, film and resource properties, which increase or create a loss from these sources.

Note

Net income from rental and leasing property, and film property includes income from these investments (before CCA and related carrying charges) **plus** any net taxable capital gains from the disposition of these investments **minus** any losses from these investments (before CCA and related carrying charges). You also have to subtract allocated partnership losses from gains from the same partnership source.

Line 24 – Adjusted non-capital losses of other years used in the current year

If the trust claimed non-capital losses of other years, you may have to reduce the non-capital losses for minimum tax purposes.

This reduction is any portion of the non-capital losses attributable to:

- capital cost allowance or carrying charges claimed on:
 - rental or leasing property; or
 - films certified by the Canadian Film and Videotape Certification office;
- resource expenditures; or
- resource and depletion allowances.

Enter the reduction on line 24.

For taxation years beginning after 1994, for minimum tax purposes, a non-capital loss which is carried forward is calculated according to the minimum tax rules in effect for the year in which the loss was incurred.

Line 26 – Net capital losses of other years used in the current year

You may have claimed a capital loss from prior years on line 52 of the return. If this is the case, you will have to adjust the trust's income for minimum tax purposes. On line 26A, enter the net capital losses of other taxation years that you claimed in the current year on line 52 of the return. Do not include capital losses on mortgage foreclosures and conditional sales repossessions.

If the amount on line 52 of the return is less than the capital gains remaining in the trust after allocation to beneficiaries, **and** the trust has additional unapplied losses of other years, you may be able to increase the amount on line 26A. Call us for details.

Line 28 – Basic exemption

We allow a basic exemption of \$40,000 to testamentary and grandfathered inter vivos trusts. Allocate the \$40,000 basic exemption among the trusts if more than one qualifying trust is formed from contributions by the same individual. To allocate the basic exemption, complete Schedule 6, *Trusts' Agreement to Allocate the Basic Exemption From Minimum Tax*. On line 28, enter the basic exemption, or the trust's allocated amount of the exemption from Schedule 6.

Part 5 – Calculating federal tax payable (minimum tax)**Line 56 – Refundable Quebec abatement**

For information, see Schedule 11, line 38 in the *T3 Trust Guide*.

Part 6 – Calculating this year's additional taxes paid for minimum tax carryover**Lines 57 to 67**

Use Part 6 to calculate the amount of any additional minimum tax payable by the trust for this year that you can carry over to a future year. You may be able to deduct this amount from the trust's regular tax liability on line 26 of Schedule 11 in future years. You can claim a carryforward for a period of seven years.

Part 7 – Calculating the total minimum tax carryover**Lines 68 to 77**

Use Part 7 to calculate the minimum tax carryover from previous years that you can claim on Schedule 11 in this year. You can carry over minimum tax from the seven previous taxation years. In the trust's best interests, apply the oldest available carryover first. For example, apply any carryover from 1997 before any carryover from 1998.

You also use Part 7 to calculate the total minimum tax carryover, if any, that may be carried forward to later years.

Provincial and territorial minimum tax payable

Use *Chart 2 – Calculation of Provincial and Territorial Minimum Tax*, on the next page, to calculate the trust's provincial and territorial tax payable.

- The trust is **not resident in Ontario** in 2003, but has business income in Ontario.
