

MINIMUM TAX SUPPLEMENT – MULTIPLE JURISDICTIONS

Use this form to calculate your 1996 minimum tax if:

- you resided in a province or territory on December 31, 1996 (if you ceased to reside in Canada during 1996, use the last day you resided in Canada), and all or part of your business income for the year was earned and is allocable to a permanent establishment outside that province or territory, or outside Canada; or
- you were a non-resident throughout 1996 carrying on business in any province or territory.

Attach a completed copy of this form to your 1996 income tax return. Also attach a completed Form T691, *Calculation of Minimum Tax*. If you need to allocate your federal forward-averaging tax credit, attach a completed Form T2203A, *Forward-Averaging Supplement for 1996 – Multiple Jurisdictions*.

Part 1 – Income allocated to various jurisdictions

Net income from line 236 of your return	_____	1
Business income earned in the year: Add self-employment income from lines 135 to 143 of your return, and business income from a partnership from line 122 of your return (exclude losses)	—	2
Excess income: Line 1 minus line 2 (if negative, enter "0")	=	3

In column 2, allocate the amount from line 2 to each province and territory where you had a permanent establishment in 1996. Refer to Part XXVI of the *Income Tax Regulations* if you need instructions. If you are a resident of Quebec, you must allocate to Quebec any business income you earned outside Canada in the year.

In column 3, allocate to your province or territory of residence the amount from line 3, if any.

In column 4, add columns 2 and 3. If the amount from line 1 is less than the amount from line 2, determine the percentage of income allocation in column 2, apply it to the amount from line 1, and enter the result in column 4.

In column 5, determine the percentage for each jurisdiction based on of the income you allocated in column 4.

Column 1	Column 2	Column 3	Column 4	Column 5
