Notes:	
For financial institutions that are related at the end of the year, the taxable capital employ	ed in Canada is generally equal to the aggregate of the taxable capital
employed in Canada of each member institution of the related group for the year.	
For a financial institution that is not related to another financial institution at the end of the	year, the "Capital deduction claimed by this institution" is amount S calculated
above. For financial institutions that are related at the end of the year, an agreement can	be filed on behalf of the related group to allocate the capital deduction among the
members of the group. If such an agreement is made, Schedule 39 must be completed at amount allocated to it. Where a financial institution has more than one taxation year ending	nd tifed with this return and the "Capital deduction claimed by this institution" is the
another financial institution that has a taxation year ending in the same calendar year, the	capital deduction of the financial institution for each taxation year is the capital
geduction for its first taxation year.

Notes:  1. For life insurance corporations that are related at the end of the year, the amount at line 5	500 or 700 in each of the calculations above is equal to the appredate of the
taxable capital employed in Canada of each member corporation of the related group for	the year.
2. For a life insurance corporation that is not related to another life insurance corporation at	the end of the year, the capital allowance claimed by this corporation is amount U
calculated above. For life insurance corporations that are related at the end of the year, a allowance among the members of the group. If such an agreement is made, Schedule 40	in agreement can be filed on behalf of the related group to allocate the capital
this corporation is the amount allocated to it. Where a life insurance corporation has more	e than one taxation year ending in the same calendar year and in two or more of
those taxation years is related to another life insurance corporation that has a taxation ye	ar ending in the same calendar year, the capital deduction of the life insurance

corporation for each taxation year is the capital deduction for its first taxation year.

_	Part 8 – Additional temporary tax on life insurance corporations	
	If the corporation is a life insurance corporation that carries on a business in Canada, subsection 190.1(1.1) imposes an additional Part VI tax on the taxable capital employed in Canada for a taxation year of life insurers in excess of their "capital allowance." See section 190.16.	5.
