Area III – Net capital loss for carryback

- Notes:**
- Use this area for applying 2003 net capital losses only (see Chapter 5 of the *Capital Gains* guide for more information).
 - You can only apply 2003 net capital losses against taxable capital gains.
 - Applying a net capital loss carryback will result in a reduction of the capital gains deduction, if claimed, in the year(s) of the loss application. It may also reduce capital gains deductions you claimed in the following years.
 - In 2000, we calculated your net capital losses using the inclusion rate (IR) that appears on your *Notice of Assessment* or *Notice of Reassessment* for 2000. For 2001 and the following years, we are using an IR of 1/2 to calculate your net capital losses. To apply a 2003 net capital loss against taxable capital gains in 2000, 2001, or 2002, you have to adjust the amount of the 2003 net capital loss to agree with the IR for the year to which you apply the loss.
