NOVA SCOTIA

**Transportation and Infrastructure Renewal  
Office of the Minister**

---

PO Box 186, Halifax, Nova Scotia, Canada B3J 2N2

---

July 31, 2014

The Honourable John James Grant  
Lieutenant Governor of Nova Scotia  
Government House  
1451 Barrington Street  
Halifax, NS  
B3J 1Z2

May It Please Your Honour:

In accordance with the *Surplus Crown Property Disposal Act*, I respectfully submit the report of Surplus Crown Property Disposal for the Department of Transportation and Infrastructure Renewal for the fiscal year ending March 31, 2014.

I have the honour to be, Sir,

Your obedient servant,

  
Geoff MacLellan  
Minister

# **SURPLUS CROWN PROPERTY DISPOSAL REPORT FOR THE PERIOD APRIL 1, 2013 TO MARCH 31, 2014**

## **PREFACE**

The disposition of surplus items is conducted under the authority of the *Surplus Crown Property Disposal Act*.

There are many varied reasons for the disposal of items of surplus. They include, but are not limited to, the following:

- Condition;
- value in redistribution within government;
- market value;
- value to a non-profit group versus saleable value to government;
- physical location and subsequent cost to move, disconnect and/or otherwise dispose of;
- any restrictive policy of the user department on re-use of the item within the Government; and
- other specific directions or recommendations that may be provided by the department at the time the item is declared surplus;
- solid waste diversion program.

The Department of Transportation and Infrastructure Renewal disposes of surplus items after they have been officially identified and declared surplus, in writing, by the user department. The disposals are carried out in keeping with the *Surplus Crown Property Disposal Act*.

The descriptions listed are meant to be a guide to the type of surplus disposed of and may not include all of the items disposed of in the particular lot.

## **Definition of Codes**

TIR	Transportation and Infrastructure Renewal
NP	Non-Profit/Non-Government
AU	Auction
SW	Scrap Waste
RC	Recycle
SC	School Construction
PS	Public School Boards
CFS	Computers for Schools

## INDEX

Section A	Surplus Disposal	-	Real Property
Section B	Surplus Disposal	-	Public Auction
Section C	Surplus Disposal	-	Public Tender
Section D	Surplus Disposal	-	Non-Profit/Non-Government Agencies
Section E	Surplus Disposal	-	Scrap Waste
Section F	Surplus Disposal	-	Recycle/Secure Destruction/ACES
Section G	Surplus Disposal	-	Computers for Schools Program
Section H	Surplus Disposal	-	School Construction
Section I	Surplus Disposal	-	Public School Boards

### SECTION A

#### **Category One: Disposal - Real Property**

This category covers items of surplus in the Real Property classification. Real Property, in general, is considered land or buildings that are deemed surplus to the needs of the various government departments responsible for their management.

There were twenty-nine (29) transactions in this category.

### SECTION B

#### **Category Two: Auction (Agent)**

This category covers those items of surplus, not including Real Property, that have a minor monetary value but, after investigation by departmental supply technicians, are deemed to have no known future use within the government. In addition, it would be determined by surplus inventory staff that the item could not economically be refurbished.

Through a public Request for Proposals under Tender No. 60138437, Auction Advantage, 11 Mount Hope Avenue, Dartmouth, Nova Scotia, B2Y 4S1, was awarded a five (5) year contract to carry out auctioneering services for Government surplus goods covered under the Surplus Crown Property Disposal Act and the Public Highways Act for Halifax Regional Municipality.

There were six (6) transactions in this category.

### SECTION C

#### **Category Three: Purchase and Removal - Public Tender**

This category covers items of surplus, not including Real Property, that were publicly tendered for purchase and removal from specific locations throughout the Province.

There were seven (7) transactions in this category.

## **SECTION D**

### **Category Four: Disposal - Non-Profit/Non-Government**

This category covers items of surplus, not including Real Property, that do not have a current or foreseeable use within government. However, as a result of a written request to the Minister from a non-profit organization and subsequent approval consistent with the Surplus Crown Property Disposal Act and its Regulations, and an internal departmental recommendation, the surplus item is matched to an approved request. The dollar value of these items, based on their condition, is negligible; however the value to a non-profit agency is deemed adequate compensation in lieu of disposal of items through auction or public tender.

There were forty-eight (48) transactions in this category.

## **SECTION E**

### **Category Five: Scrap Waste**

This category encompasses items of surplus, not including Real Property, that have been determined to be, upon inspection, of no value to government and are in such condition that refurbishing is uneconomical. Any reusable or recyclable components are removed prior to disposal. The use of this option may also be based on environmental or safety considerations such as the obsolescence of the item; i.e., baby crib, mattresses, medical equipment, et cetera.

There were sixteen (16) transactions in this category.

## **SECTION F**

### **Category Five: Recycle**

This category encompasses items of surplus that have been removed from various pieces of furniture and equipment destined for landfills throughout the Province. These pieces are then sent to, or picked up by, various organizations committed to the Province's continuing program on the diversion of solid waste from Provincial or Municipal landfills. There are other pieces of surplus equipment, such as IT assets, that may be broken, causing removal of sensitive information to be impossible in the traditional manner. In such cases, these items are securely disposed of by the Province's contracted metal recycler. Other surplus or obsolete electronic items are recycled through the Atlantic Canada's Electronic Stewardship (ACES) in accordance with the **Electronic Product Stewardship Regulations**.

There were eighty-seven (87) transactions in this category.

## **SECTION G**

### **Category Seven: Disposal - Computer Equipment**

This category covers surplus computer equipment. In 1994 the Executive Council approved a plan that would have government embark on a program that would see all surplus government computer equipment redistributed throughout the Public School System under The Computers for Schools Program.

There were seventy (70) transactions in this category.

**SECTION H**

**Category Nine: Surplus Disposal - School Construction/Renovation**

This category covers surplus furniture and equipment that was used to reduce capital cost associated with outfitting new school construction or renovations. Financial savings earned through this process were put directly back into each individual project.

There were two (2) transactions in this category.

**SECTION I**

**Category Ten: Surplus Disposal - Public School Boards**

This category covers surplus furniture and equipment that was transferred to public schools throughout the Province.

There were ninety-two (92) transactions in this category.

**REVENUE GENERATED BY DISPOSAL (BY CATEGORY)**

<b>Section A</b>	Real Property	<b>\$1,226,390.81</b>
