Subject: Opposition to location of nuclear waste site
Date: March 7, 2017 7:01:09 PM

Hello,

My name is Laura Donahue and I am a medical student at the University of Michigan in Ann Arbor, Michigan. I am writing in opposition to the location of the "Deep Geologic Repository Project for Low and Intermediate Level Radioactive Waste," due to its proximity to Lake Huron. As someone from "The Great Lakes State," I treasure safety of my drinking water and the ecological wellbeing of the Great Lakes, which is why I am requesting the relocation of the geologic repository to an area further from the Great Lakes and their tributaries to reduce the risk of contamination.

Thank you,
Laura Donahue
