Ms. Laurie Swami  
Vice-President Nuclear Services  
Ontario Power Generation  
889 Brock Road, 6<sup>th</sup> Floor  
Pickering, ON L1W 3J2

**Subject: Deep Geologic Repository Project - Consolidated Project Description**

Dear Ms. Swami

On October 17, 2014, Ontario Power Generation submitted the Deep Geologic Repository Project - Consolidated Project Description in response to the Joint Review Panel's request of July 7, 2014.

In Section 4.1 of its written closing remarks, Ontario Power Generation states that no new information was provided in the 'annotated Project Description', referring to the annotated version of Chapter 4 of the Environmental Impact Statement (EIS) provided to the Joint Review Panel in June 2014. The Panel therefore requires Ontario Power Generation to confirm that the Consolidated Project Description submitted on October 17th, 2014 contains only information that was previously available on the record for the review – that it is strictly, as stated, a compilation of the information in Chapter 4 of the EIS, changes to the project description identified in the annotated version of Chapter 4 submitted on June 6, 2014 and text and figures from other project documents.

Thank you in advance for your immediate attention to this matter.

Sincerely,

original signed by

Stella Swanson  
Chair, Deep Geologic Repository Joint Review Panel
