Subject: RE: Deep Geologic Repository Project for Low and Intermediate Radioactive Waste –Request for Assistance with locating responses to Information Request.

Good Afternoon,

To follow up on the telephone conversation of April 23, 2013 with a representative of your office, we would like to provide some additional information that will be of assistance to you when searching for Information Requests or Responses to Information Requests in the future.

The Joint Review Panel requested Ontario Power Generation (OPG) to submit a consolidated table of all of the Panel's Information Requests (IRs) and the Responses to those IRs to make it easier for participants to look at one document versus the overwhelming number of documents that are now contained on the registry. The Consolidated Table is regularly updated and is in a PDF format which is searchable. CELA will be able to search on a key word or phrase from one of its original proposed information request (PIR) submissions and be able to determine if the Panel incorporated it into any IR Packages submitted to OPG.

The most current version of the table was posted on May 3, 2013 and includes IR Package #10 and OPG's IR Responses except for EIS-10=483, 486 and 492. The CEARIS Document # is 1031 and it can be accessed at this link <http://www.ceaa-acee.gc.ca/050/documents/p17520/89000E.pdf>

As well, CELA's PIR submission of October 24, 2012 (CEARIS Doc #800) has been updated with the version provided on April 19, 2013.

Thank you for your participation in this process,

DGR Joint Review Panel Secretariat
