Mr. Mitsopulos

Please find a letter of direction from the Deep Geologic Repository (DGR) Joint Review Panel, attached. The Panel requests your immediate attention in this matter.

For your information, I have also attached is a summary of provincial involvement required by the Panel in the public hearing.

I am looking forward to hearing from your representative next week,

Debra Myles

Subject: Participation of the Ontario Ministry of Agriculture, Food and Rural Affairs in the Deep Geologic Repository (DGR) Public Hearing Process

Dear Ms Stark:

Thank you for your response to the June 18, 2013 letter from the Joint Review Panel inviting the Ministry of Agriculture, Food and Rural Affairs to participate in the DGR public hearing. The Panel accepts that the Ministry does not plan to make a presentation at the hearing.

The Panel understands that the Ministry does not have technical expertise or legislative authority in relation to the proposed project. However, hearing submissions from participants (see [registry Doc #1354](#) for example) have described perceived effects that the project may have on agriculture, including stigma and the potential loss of product sales. The Panel has therefore determined that it requires a representative of the Ministry of Agriculture, Food and Rural Affairs to be available to answer questions from the Panel on such issues at the Socio-Economic hearing sessions on Wednesday, October 9 and Thursday, October 10, 2013. The Panel's preference is that the representative appears in person at the hearing in Port Elgin, Ontario; however, if that is not possible, he/she may follow the hearing proceedings on the live Webcast and participate by phone.

Please have your representative contact Panel Co-Manager, Debra Myles, at 613-957-0626 or debra.myles@ceaa-acee.gc.ca to confirm the logistics related to the required participation of the Ministry of Agriculture, Food and Rural Affairs in the DGR hearing.

Thank you for your immediate attention to this matter.

Sincerely,

Below are the hearing sessions/dates for each provincial ministry where a representative is expected to either make a presentation or be otherwise available. Please note that the schedule is subject to change in advance of or at the hearing.

The Panel expects the primary presenter to appear at the hearing in person unless there are extenuating circumstances that make this very difficult or impossible. Additional subject matter experts or resource persons may be connected by phone if it is impractical for them to appear in person. Note that the time allotted for the presentation is the expected maximum length.

Where a ministry is required to be available, the Panel expects that a representative will attend the hearing in person or will follow the live Webcast of the proceedings and be prepared and available by phone to answer any questions from the Panel that may arise.
