**Subject:** Refernces in APM DGR Preliminary Description December 2016

Hello Donna,

The Agency would like to request that OPG provide the references used in its document "APM DGR Preliminary Description December 2016", which are listed in Section 7. We only require the ones that are not currently on the public registry and/or are not publically available via another website. A listing of weblinks will suffice if references can be accessed in that manner or documents can be uploaded to the OPG FTP site. At that time, the Agency can easily access them and place them on the public registry for the DGR project.

If you have any questions, please contact me,

Thank you,  
Robyn
