ACADEMIC NEUROMUSCULAR NEUROLOGIST

Queen's University Department of Medicine, Division of Neurology, is seeking a qualified Academic Neuromuscular Neurologist. The Division of Neurology at Queen's University provides clinical care to a large catchment area with specialty clinics and has an active subspecialty training program. Members of the Department of Medicine enjoy a competitive compensation package, including a generous benefit plan. Academic rank will be commensurate with experience.

In addition to the experience of providing exemplary clinical service, the ideal candidate must demonstrate strong potential for outstanding teaching at both the undergraduate and postgraduate level, and demonstrate engagement in collaborative research. Preference will be given to applicants with a strong academic portfolio and excellent track record of high quality research output. The successful applicant must demonstrate strong leadership skills in an academic or hospital setting and he/she would be expected to provide evidence of the ability to work in a collaborative environment with excellent communication skills. The successful applicant will attend general neurology and EMG clinics, cover in-patient service, the stroke unit and night and weekend call in conjunction with the Division of Neurology and contribute to the administrative functions of the University and hospitals. The candidate will also join our multidisciplinary Neuromuscular team for monthly clinics at Providence Care Hospital. Protected research time would be considered for an appropriate candidate.

Candidates must be eligible for licensure by the College of Physicians and Surgeons of Ontario. Preference will be given to those who either hold or are eligible for certification in neurology by the Royal College of Physicians and Surgeons of Canada.

One of Canada's leading universities, Queen's has a reputation for academic excellence, research, and a diverse and vibrant learning environment. Kingston is situated in the heart of historic Southeastern Ontario on the shores of beautiful Lake Ontario, midpoint between Montreal and Toronto.

The University invites applications from all qualified individuals. Queen's is committed to employment equity and diversity in the workplace and welcomes applications from women, visible minorities, Aboriginal peoples, persons with disabilities, and LGBTQ persons. All qualified candidates are encouraged to apply; however, in accordance with Canadian immigration requirements, Canadian citizens and permanent residents of Canada will be given priority.

To comply with federal laws, the University is obliged to gather statistical information as to how many applicants for each job vacancy are Canadian citizens/permanent residents of Canada. Applicants need not identify their country of origin or citizenship; however, all applications must include one of the following statements: "I am a Canadian citizen/permanent resident of Canada"; OR, "I am not a Canadian citizen/permanent resident of Canada." Applications that do not include this information will be deemed incomplete.

Applications are to include a letter summarizing expertise, qualifications and accomplishments relevant to the position together with a curriculum vitae, a brief biography and the names and full contact information of three referees. Complete applications are to be directed to:

Dr. S.L. Archer, Professor and Head
Department of Medicine, Queen's University
c/o Jennifer Andersen, Etherington Hall, 94 Stuart Street
Kingston, Ontario K7L 3N6
Email jennifer.andersen@queensu.ca

Review of applications will commence immediately and will continue until the position is filled.

The University will provide support in its recruitment processes to applicants with disabilities, including accommodation that takes into account an applicant's accessibility needs. If you require accommodation during the interview process, please contact Mrs. Jennifer Andersen above.

4632

ACADEMIC CARDIOLOGIST WITH HEART FAILURE EXPERTISE

The Department of Medicine, Division of Cardiology at Queen's University is seeking a qualified Academic Cardiologist with expertise in Heart Failure. The Division of Cardiology at Queen's University provides specialist clinical care to a large catchment area. Members of the Department of Medicine enjoy a competitive compensation package, including a generous benefit plan. Academic rank will be commensurate with experience.

The successful candidate will be expected to coordinate and lead the Heart Function Clinic and to develop an inpatient advanced heart failure service. There will also be an expectation to attend on Cardiac Sciences Unit and Cardiology ward teams, participate in general cardiology clinic, and also have a role in the management of pulmonary hypertension patients. The successful candidate will be expected to assist in the development of regional solutions including coordination and support with other partners in Southeastern Ontario.

In addition to a major focus of providing exemplary clinical service, the successful applicant will provide evidence of high quality scholarly output that demonstrates potential for research leading to peer assessed publications and the securing of external research funding, as well as strong potential for outstanding teaching contributions at both the undergraduate and graduate levels. The successful applicant will also be expected to contribute to the administrative functions of the University and to collaborate with, and support, other research activity in the Department of Medicine. Protected research time will be considered for an appropriate candidate.

Candidates are also required to demonstrate excellent communication skills and provide evidence of the ability to work in a collaborative, multi-disciplinary environment.

Candidates must be eligible for licensure in Cardiology by the College of Physicians and Surgeons of Ontario. Preference will be given to those who either hold or are eligible for certification by the Royal College of Physicians and Surgeons of Canada in Cardiology, with fellowship training in Advanced Heart Failure.

One of Canada's leading universities, Queen's has a long reputation for academic excellence, research, and a diverse and vibrant learning environment. With its strong tradition of public service, the University has helped to shape Canadian values and policies, educating notable political and cultural figures. Queen's is located in the heart of the community in historic Kingston, midpoint between Montreal, Toronto and Ottawa, the nation's capital.

The University invites applications from all qualified individuals. Queen's is committed to employment equity and diversity in the workplace and welcomes applications from women, visible minorities, Aboriginal peoples, persons with disabilities, and LGBTQ persons. All qualified candidates are encouraged to apply; however, in accordance with Canadian immigration requirements, Canadian citizens and permanent residents of Canada will be given priority.

Extraordinary Caring. Every Person. Every Time.

Our client, Niagara Health (NH), is one of the largest multi-site health care systems in Ontario serving 434,000 residents within the Regional Municipality of Niagara. With over 900 beds, 4800 employees, and a \$500M budget, NH provides a wide range of inpatient and outpatient services across six sites encompassing operations in Fort Erie, Niagara Falls, Niagara-on-the-Lake, Port Colborne, Welland, and a new one million square foot state-of-the-art hospital in St. Catharines.

The transformation of healthcare service delivery across Niagara continues with planning underway to build an additional ultramodern hospital in South Niagara Falls. Strong academic partnerships are a priority for NH as the organization builds on a robust relationship with McMaster University's Michael G. DeGroote School of Medicine. Playing a pivotal role for the growth of several key programs including regional services, NH is seeking a visionary leader who can champion innovation, academic and clinical program expansion, and the delivery of safe, high quality, leading edge practice. Join the NH Leadership Team as

Chief, Department of Medicine and Program Medical Director

Reporting to the Chief of Staff & Executive Vice President Medical and to the Executive Vice President, Clinical Services, the Chief, Department of Medicine and Program Medical Director will possess an FRCPC in a medical specialty / sub-specialty, be eligible for licensure in Ontario, and have a proven track record of clinical leadership excellence. The next Chief will have the exciting mandate of further developing a top tier team while participating in the planning for the new hospital in the beautiful South Niagara Region.

Build your career...at the hospital that's built for the future

Humber River Hospital (HRH), North America's first digital hospital and one of Canada's largest acute care community hospitals, is a healthcare setting like no other. Supported by cutting edge technology and a recognized leader provincially, nationally and internationally for its excellence and innovation in patient care, HRH is fueled by a strong and professional workforce committed to compassionate, quality and reliable healthcare that puts patients, their families and their needs at the centre of all they do. Humber River is affiliated with the University of Toronto and Queen's University with the strategic aim of becoming a community academic hospital.

EXCELLENT CAREER OPPORTUNITY

Right now, we are looking for a:

Division Head of Cardiology

Our Division of Cardiology is made up of 10 cardiologists and currently provides specialty inpatient care, echocardiography, nuclear cardiology and pacemaker services for Northwest Toronto. We are looking to grow the scope of this important division to better meet the needs of our community and are looking for a medical leader who can help us achieve our vision.

The selected candidate may have additional cardiology subspecialty training, as well as proven excellence in teaching medical learners. Our affiliation with the University of Toronto and Queen's University attracts medical students and residents to the hospital, providing academic opportunities and supporting an environment for excellence in patient care.

In addition to demonstrated clinical excellence and outstanding interpersonal skills, you are a member of the Royal College of Physicians & Surgeons of Canada in Cardiology and are a member of the College of Physicians & Surgeons of Ontario.

If you are interested in this exceptional opportunity, we ask that you forward a detailed letter of interest along with your curriculum vitae in confidence by **April 30, 2020** to:

Dr. Michael Gardam, Chief of Staff
Humber River Hospital, 1235 Wilson Avenue, Toronto, ON M3M 0B2
E-mail: mgardam@hrh.ca

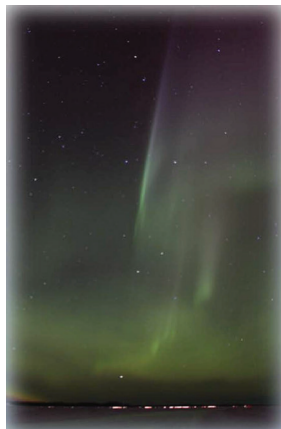

Interested candidates who qualify will be contacted and may be asked to attend a pre-application interview. Selected candidates will be invited to submit a formal application for the position. The hospital reserves the right not to appoint anyone to this position.
