About the Yukon Real Estate Survey

The Bureau of Statistics first undertook the Yukon Real Estate Survey in 1977. The survey is a census of all real estate transactions occurring anywhere in Yukon, with the exception of 'not-at-arm's-length' transactions ('not-at-arm's-length' transactions are those that do not reflect open market values). All single and multiple-residential property transactions, as well as commercial and industrial property sales are included.

¹ Total also includes multiple-residential sales which are generally too low to release due to confidentiality requirements. Rows may not total due to rounding.

² Residential Lots include country residential lots and do not include sales by governments.

³ Duplex refers to one side only.

⁴ Due to relatively small numbers of sales, especially in the 1st and 4th quarters, there is a fair degree of variability in the average home prices. This should be considered when comparing one quarter to another.
