

THE 20-Minute Cure for Cold & Flu: HAND HYGIENE PROGRAMS

A Master Class in Keeping Your Workplace Healthy and Productive

Cold and flu viruses can live on hands for up to an hour, spreading from person to person and costing Canadian businesses **over \$1 billion every year**. This 20-minute webinar provides the practical steps to building and implementing an effective hand hygiene program to keep your facility healthy and productive. Renowned expert in the science of hand hygiene, **Jim Arbogast, PhD**, and cleaning, hygiene and sanitation expert, **David L. Smith, ESP**, share:

- **The four steps to developing your workplace hand hygiene program**
- **Best practices to maximize compliance**
- **What to look for when choosing disinfecting options**
- **Cleaning methods that really work**

Attendees also receive a free Hand Hygiene Program Guide with step-by-step instructions on developing and implementing programs for office, educational and healthcare settings, along with proven surface disinfecting methods to complement hand hygiene initiatives.

Don't get caught by the flu. Space is limited – register today!
