

The Buyers' Guide is now available at www.ipac-canada.org

IPAC Canada Infection Control Audit Toolkit

IPAC Canada audit tools are designed to support you to measure your success at moving best evidence into best practices in your organizations. The audit tools are available to IPAC Canada members to download AT NO CHARGE in the Members Area of the website (www.ipac-canada.org). CD with or without links to online tools now available. Non-interactive audit tools may be purchased. See the Order Form. See a detailed listing of Audit Tools at <https://ipac-canada.org/ipac-canada-products-2.php>.

The Infection Control Toolkit: Infection Control in Emergencies and Disasters

CURRENTLY UNDER REVIEW

The only disaster planning document that presents information specific to the key issues of infection control. Includes all the tools and materials necessary for surveillance, education, communication, laboratory, and management of personnel and patients are included. Handy forms, references, fact sheets, flowcharts, checklists, and samples provide the framework to interface with healthcare facilities and local public health preparedness plans. No other disaster planning document presents information specific to the key issues of infection control.

The central graphic is a shield-shaped emblem with a dark background and light-colored text and graphics. At the top, it reads "IPAC CANADA NATIONAL CONFERENCE" in a curved banner. Below this, the main title "20/20 VISION" is written in large, bold, white letters. Underneath the title, the subtitle "What's on the Horizon?" is displayed in a smaller font. The center of the shield features a stylized illustration of three people in profile, looking towards the right. At the bottom of the shield, the text "WINNIPEG MB, CANADA" and "MAY 3-6 2020" is written in white. Above the shield, the logos for "ipac" (Infection Prevention and Control Canada) and "pci" (Prévention et contrôle des infections Canada) are displayed, each with a small maple leaf icon.

A horizontal strip of five small, square images is located at the bottom of the page. From left to right, the images depict: 1) A modern building with a distinctive triangular roof structure near a body of water. 2) A large, white, bear-shaped sculpture in a park setting with people in the foreground. 3) A modern building with a glass facade at night, illuminated from within. 4) A city skyline at night, featuring several tall buildings and a prominent tower. 5) A large, white, abstract sculpture in a park setting with a body of water in the background.

IPAC Canada 2019 Product Order Form

N/C: Some products are available for IPAC Canada members to download from the members area of www.ipac-canada.org at no charge. There is a nominal charge for members who wish to purchase these products from IPAC Canada. No returns except in the case of defective products when defective product will be exchanged for corrected product.

Corporate members are companies who foster productive and mutually beneficial relations between industry and IPAC Canada which are based upon an understanding of each other's goals and are of the highest ethical standards. See Corporate Partners page, policy and Corporate Member application at www.ipac-canada.org. Individual and Institutional Membership is welcomed from all business/industry members.

PLATINUM

Diversey

Diversey is a world leader in cleaning, hygiene and floor care solutions offering application expertise in disinfectant and cleaning solutions, dosing and dispensing technologies, and training and consulting services. Solutions Designed for

Healthcare™ is Diversey's integrated approach to help reduce the risk of healthcare-associated infections (HAIs), improve patient outcomes and satisfaction, and safely and sustainably enhance your facility's image. From a comprehensive portfolio of cleaners, disinfectants, UV devices, and floor care products, to innovative productivity tools, training and cleaning validation programs, our solutions enable facilities to work more effectively across departments to achieve improved cleaning results and patient outcomes. Please let us help you. Contact us at www.sdfhc.com or Customer Service at 800-668-7171.

GOJO Industries, Inc.

With a 70-year history of innovation, GOJO continues to promote infection control and health through hand hygiene and skin care solutions. As one of the most trusted names

in hand hygiene, we've created a wide portfolio of products and programs that promote health and well-being, while helping you show dedication to quality care. Learn more at 1-800-321-9647 or GOJOCanada.ca/healthcare.

- Clinically proven, skin-friendly PURELL® and GOJO® brand products
- Dispensing platforms that are easy to use and readily accessible
- Education programs to create awareness and engagement
- Electronic monitoring solutions with clinical-based support options to measure, build and sustain compliance

Visit www.gojocanada.ca/healthcare to learn more.

Sani Marc Group

SANI MARC.

Sani Marc is a Canadian manufacturer of innovative cleaning solutions and products distributed by its subsidiary Wood Wyant. Thanks to our innovation, creativity and know-how, we offer not just highly effective products – but solid disinfection expertise as well. We work in close partnership with customers and tailor our services

to help them optimize their operations with measurable results. Learn more at www.sanimarc.com.

The Clorox Company of Canada

CloroxPro™ is a leading manufacturer of cleaning and disinfecting products. The Clorox Healthcare® brand delivers some of the most trusted infection prevention solutions for healthcare settings. With a broad range of innovative ready to use disinfectants such as Clorox Healthcare® Disinfecting Bleach Germicidal Wipes,

Clorox Healthcare® Hydrogen Peroxide Cleaner Disinfectant Wipes, Clorox Healthcare® VersaSure™ Alcohol-Free Cleaner Disinfectant Wipes, Clorox Healthcare® Fuzion® Cleaner Disinfectant and no-touch disinfectant technologies such as Clorox Healthcare® Optimum-UV® & Clorox® Total 360° Disinfectant Cleaner offers best-in-class solutions to help reduce HAI rates in healthcare facilities. Backed by over a century of disinfecting expertise, Clorox products are Health Canada registered to provide some of the fastest contact times in the industry. Learn more at www.cloroxhealthcare.ca.

Virox Technologies Inc.

Virox Technologies Inc. is a Canadian company whose mission is to equip the entire spectrum of global markets that are concerned with infection control with the state-of-the-art antimicrobial technology Accelerated Hydrogen Peroxide® (AHP®). AHP® has been developed and patented

by Virox and is under licence to leading infection control companies around the globe such as Steris Corp., Diversey, Bayer, DEB and SciCan among others who all proudly display the Accelerated Hydrogen Peroxide® logo on their product offerings. The AHP® technology offers healthcare professionals a broad array of products ranging from surface cleaners and disinfectants, hand sanitizers, instrument cleaners and instruments disinfectants for any medical device requiring high level disinfection or sterilization, including heat sensitive devices.

SILVER

3M Canada Company

As a trusted global leader, 3M Medical Solutions Division has fundamentally laid the foundation to help improve patient outcomes across the continuum of care. 3M understands your challenges and strives

to make your job easier with reliable, quality products and solutions. We help you see more patients at lower costs, while improving overall health. That's health care progress made possible. For more information about our products please call 1-800-364-3577 or visit our website at www.3m.ca/medical.

BD Canada

BD

BD is one of the largest global medical technology companies in the world and is advancing the world of health by improving medical discovery, diagnostics and the delivery

of care. The company develops innovative technology, services and solutions that help advance both clinical therapy for patients and clinical process for health care providers. BD has 65,000 employees and a presence in virtually every country around the world to address some of the most challenging global health issues. BD helps customers enhance outcomes, lower costs, increase efficiencies, improve safety and expand access to health care. www.bd.com

Ecolab

Ecolab Healthcare is driven to help health systems and hospitals drive clinical, operational and financial value through

standardization, consistency and efficiency of evidence-based practices. Our analytics-driven solutions and processes help create repeatable and measurable workflows that reduce the complications and costs of infections – while keeping patients and staff safe. Our comprehensive line of infection prevention solutions includes products for environmental hygiene, hand hygiene, instrument reprocessing, surgical draping and temperature management. Visit www.ecolab.com for more information.

HandyMetrics Corporation

HandyMetrics
CORPORATION

HandyMetrics Corporation is a software services provider focusing on improving quality and patient

safety. We have a strong community of users within IPAC, in both acute and non-acute facilities. We provide intelligent health measurement and analytics services to reduce workload and increase the efficiency of processes. For hand hygiene auditing, we offer both HandyAudit (www.handymetrics.com) – our flagship evidence-based tool focusing on education and SpeedyAudit Lite / Pro / LTC (www.speedyaudit.com) – our affordable, entry-level tool for getting the job done. We are also launching a new tool for quality improvement tracking. For more information visit us at www.qipaudit.com.

Hygie

Hygie Canada is a worldwide leader in managing body fluids to reduce the risk of HAI's. Its unique Hy21[™] technology includes

bedpan, urinal and vomit supports combined with Hygienic Covers[®] and their super-absorbent pad, designed to solidify human waste. The method, limiting spills, cross contamination and odors is completed by non-porous 100% Aluminum commode chairs for patients with reduced mobility. Well established in hospitals and long-term care residences, Hygie has developed a full line of products for home care to facilitate the caregiver's tasks and maintain the beneficiaries' comfort and dignity. To learn about Hygie, call 1-866-588-2221 or visit www.hygie.com.

Prescient^x

Prescient^x, formerly the IPC Technologies Division of Class 1 Inc., is the innovator and world leader in Engineered Infection Prevention,

named a 2017 Top 10 World Patient Safety Innovation by the Patient Safety Movement. We are committed to developing the Intelligent, Self-Disinfecting Hospital using the latest in built-in automated technology including AutoUV, ozonated water, and fast-acting, self-sanitizing copper-coated surfaces. We have partnered with global leaders like Sanuvox, Franke and Aereus Technologies to bring you the future – smart, rapid, automated, and continuous disinfection of healthcare facilities.

pre-scient – /'preSH(ə)ənt/ – having knowledge of events before they take place - prophetic, predictive, visionary.

SILVER

Sage Products

For over 45 years, Sage Products LLC has successfully developed and produced innovative prevention products that have significantly improved outcomes for patients and clinicians, while improving efficiency and

profitability for healthcare facilities, in 2016, Sage was acquired by Stryker Corporation and is a business unit within the Stryker Medical Division. For more information about Sage Products and how we can help you achieve extraordinary outcomes, call 800-323-2220 or visit www.sageproducts.ca.

SC Johnson Professional

SC Johnson Professional provides expert skin care, cleaning and hygiene solutions for industrial, institutional, and healthcare users. The SCJ Professional range now incorporates

DebMed's healthcare hand hygiene product line, electronic hand hygiene compliance monitoring, and well-known SC Johnson brands. This professional product line is built on a deep understanding of customer needs and a vision for protecting the patient, caregiver, and the environment. The DebMed Hand Hygiene Monitoring System is the only research-based, badge-free system able to track compliance based on the 4-Moments for Hand Hygiene. This cost-effective solution is able to capture 100% of hand hygiene events and opportunities 24/7 – beyond just room entry and exit. Utilizing the preferred method of measuring compliance performance of an entire unit, the system promotes a spirit of collaboration and accountability, and provides actionable feedback for the group without singling out individuals. SC Johnson Professional can help you create a culture of safety in your hospital. To learn more visit www.debmed.ca.

Vernacare Canada Inc.

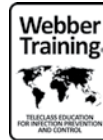

Vernacare is the recognized world leader providing environmentally responsible solutions for human waste disposal that improve infection prevention and nursing practices.

Vernacare's unparalleled approach combines the widest range of biodegradable pulp paper bedside products with its family of market leading disposal units incorporating our patented "Smartflow" disposal system. This comprehensive solution to human waste management provides a safety, efficiency and cost effectiveness that saves nursing time and reduces environmental contamination.

For more information about Vernacare, please call 800-268-2422 or visit www.vernacare.com.

Webber Training Inc.

Teleclass Education was created in 2001 with the purpose of providing the best possible infection prevention and control information, to the widest possible audience, with the fewest barriers to access. This year, tens of thousands of people, from almost every country on the planet, will participate in Teleclass Education. On behalf of healthcare professionals in developing countries, who benefit the most from this initiative, thank you very much to IPAC Canada members and the volunteers around the globe who make it possible.

BRONZE

Arjo Canada Inc.

Arjo's work is based on genuine care for human health and well-being, and contributes to a sustainable healthcare system – always with people in mind. We are a global supplier of

medical devices, services and solutions that improve quality of life for people with reduced mobility and age-related health challenges.

Arjo's core customers are private and public institutions within acute care and long-term care. Our offering includes products and solutions for patient handling, hygiene, disinfection, medical beds, therapeutic surfaces, and venous thromboembolism (VTE) prevention. Arjo also offers services such as clinical and/or technical training supporting our wide range of product solutions.

Chem-Aqua, A Division of NCH Canada Inc.

The Chem-Aqua Environmental and Healthcare Services Division provides products, services and information to IPAC Canada members and facilities on a wide range of scientifically validated

technologies to minimize the risks of healthcare associated infections caused by waterborne pathogens such as Legionella, Pseudomonas aeruginosa etc. The range of services available include systemic programs for the entire facility (Copper Silver Ionization, Chlorine Dioxide etc.); targeted solutions (Point of Use filters) for higher risk areas such as NICU, Burn Centres, Transplant; Ultraviolet Disinfection Systems for Air Handling Units, Ice Machines etc.; professional services for cooling tower and coil cleanings; and information seminars on evolving codes, standards and treatment options.

BRONZE

Citron Hygiene LP

Citron Hygiene has spent the last 40 years earning the trust of the world's most prestigious clients, one customer at a time. We are a leading provider of washroom hygiene, pest control, chemical solutions and life safety services for commercial facilities. By combining innovation and service excellence, we help health professionals and infection prevention managers deliver healthy environments to their patients, staff and guests. The design and delivery of our services and products reflects Citron Hygiene's understanding of long-term care, community and public health facilities.

For information about Citron Hygiene, its products and services, visit www.citronhygiene.com.

CSA Group

CSA Group is a global organization dedicated to safety, social good, and sustainability, and a leader in safety and environmental certification around the world including Canada, the U.S, Europe, and Asia. Our mandate is to hold the future to a higher standard.

The mission of CSA Group's Standard Development organization is to enhance the lives of Canadians through the advancement of standards in the public and private sectors. We are a leader in standards research, development, education, and advocacy. The technical and management standards developed with our 10,000 members improve safety, health, the environment, and economic efficiency in Canada and beyond.

Ophardt Hygiene Technologies Inc.

Ophardt is a global design and manufacturing company dedicated to breaking the chain of infection and making the world a more hygienic

place. Ophardt has been providing custom products and innovative solutions for high-quality dosage and dispensing systems to the Healthcare and JanSan markets for over 50 years. The incorporation of internet based data technology is helping us create healthy and efficient spaces within the healthcare industry and beyond... Saving lives and saving money.

Please visit our website at www.ophardt.com to learn more about how to put our hand hygiene equipment and hygiene compliance solutions to work for you!

SciCan Ltd.

Since 1957, SciCan has been innovating and designing its full spectrum infection control solutions for the medical and dental markets.

SciCan Infection Control Experts assist customers in the redesign of their reprocessing rooms, helping to reorganize and optimize workflow, while remaining focused on infection control and patient safety.

Our areas of expertise include medical device reprocessing, surface disinfection, and air quality for healthcare environment.

Visit www.scican.com/medical.

STERIS Canada

STERIS is a leading provider of infection prevention and procedural surgical products and services. As a result of a series of strategic acquisitions and continual innovation of new products, STERIS holds one of the broadest portfolios of products in the industry, including a long list of first to market products and industry leading service innovations. It stands at the forefront of efforts to prevent infection and contamination in healthcare, pharmaceutical and medical device environments. Please visit www.steris.com.

The Stevens Company Ltd.

The Stevens Company has been a pillar in the Canadian healthcare community since

1874. Originally founded in 1830 in London, England, the company is still owned and operated by the Stevens family, now in their 6th generation. Over the decades, Stevens has continued to grow and today has six distribution centres across Canada in Brampton, Vancouver, Calgary, Winnipeg, Halifax and most recently, Montréal. Partnering with the industry leaders in Infection Prevention, Stevens provides customized solutions to effect positive changes in patient outcomes.

Wood Wyant

As a subsidiary of Sani Marc Group, our reputation is built on our innovative products and systems, as well as on the efficiency of our team in helping

customers solve even the most difficult sanitation challenges. Our goal: Putting our expertise to work by offering you the right mix of products, tools, procedures and training so that you can reach your budgetary and hygiene goals quickly. We are proud to offer proven solutions that promote a safe and healthy environment, and are committed to developing innovative disinfection technologies. To learn more, visit www.sanimarc.com.
