Corporate members are companies who foster productive and mutually beneficial relations between industry and IPAC Canada which are based upon an understanding of each other's goals and are of the highest ethical standards. See Corporate Partners page, policy and Corporate Member application at [www.ipac-canada.org](http://www.ipac-canada.org). Individual and Institutional Membership is welcomed from all business/industry members.

## PLATINUM

### Diversey

Diversey is a world leader in cleaning, hygiene and floor care solutions offering application expertise in disinfectant and cleaning solutions, dosing and dispensing technologies, and training

and consulting services. Solutions Designed for Healthcare™ is Diversey's integrated approach to help reduce the risk of healthcare-associated infections (HAIs), improve patient outcomes and satisfaction, and safely and sustainably enhance your facility's image. From a comprehensive portfolio of cleaners, disinfectants, UV devices, mattress repair systems, and floor care products, to innovative productivity tools, training and cleaning validation programs, our solutions enable facilities to work more effectively across departments to achieve improved cleaning results and patient outcomes.

### GOJO Industries, Inc.

With a 70-year history of innovation, GOJO continues to promote infection control and health through hand hygiene and skin care solutions. As one of the most trusted names

in hand hygiene, we've created a wide portfolio of products and programs that promote health and well-being, while helping you show dedication to quality care. Learn more at 1-800-321-9647 or [GOJOCanada.ca/healthcare](http://GOJOCanada.ca/healthcare).

- Clinically proven, skin-friendly PURELL® and GOJO® brand products
- Dispensing platforms that are easy to use and readily accessible
- Education programs to create awareness and engagement
- Electronic monitoring solutions with clinical-based support options to measure, build and sustain compliance

### The Clorox Professional Products Company

The Clorox Professional Products Company is a leading manufacturer of cleaning and disinfecting products. The Clorox Healthcare™ brand delivers some of the most trusted infection prevention solutions for healthcare settings. With a broad range of innovative ready to use disinfectants such as Clorox Healthcare™ Disinfecting Bleach Germicidal Wipes, Clorox Healthcare™ Hydrogen Peroxide Cleaner Disinfectant Wipes, Clorox Healthcare™ Fuzion™ Cleaner Disinfectant and Clorox Healthcare™ Optimum-UV\*. Clorox offers best-in-class solutions to help reduce HAI rates in healthcare facilities. Backed by over a century of disinfecting expertise, Clorox products are Health Canada registered to provide some of the fastest contact times in the industry. Learn more at [www.cloroxhealthcare.ca](http://www.cloroxhealthcare.ca).

### Virox Technologies Inc.

Virox Technologies Inc. is a Canadian company whose mission is to equip the entire spectrum of global markets that are concerned with infection control with the state-of-the-art antimicrobial technology Accelerated Hydrogen Peroxide® (AHP®). AHP® has been developed and patented by Virox and is under licence to leading infection control companies around the globe such as Steris Corp., Diversey, Bayer, DEB and SciCan among others who all proudly display the Accelerated Hydrogen Peroxide® logo on their product offerings. The AHP® technology offers healthcare professionals a broad array of products ranging from surface cleaners and disinfectants, hand sanitizers, instrument cleaners and instruments disinfectants for any medical device requiring high level disinfection or sterilization, including heat sensitive devices.

## SILVER

### 3M Infection Prevention Solutions

As a trusted global leader, 3M Infection Prevention has fundamentally laid the

foundation for infection prevention from pre-op to intra-op to post-op. Backed by the broadest portfolio of perioperative solutions, 3M understands your challenges and strives to make your job easier with reliable, quality products and solutions. We help you see more patients at lower costs, while improving overall health. That's health care progress made possible. For more information about our products please call 1-800-364-3577 or visit our website at [www.3m.com](http://www.3m.com).

### BD - Canada

BD is a global medical technology company that is *advancing the world of health* by improving medical discovery, diagnostics and the delivery of care.

The company provides innovative solutions that help advance medical research and genomics, enhance the diagnosis of infectious disease and cancer, improve medication management, promote infection prevention, equip surgical and interventional procedures, and support the management of diabetes. BD has nearly 50,000 associates across 50 countries who work with customers and partners to help enhance outcomes, lower health care delivery costs, increase efficiencies, improve health care safety and expand access to health. [www.bd.com](http://www.bd.com).

## SILVER

### DebMed

DebMed offers a comprehensive hand hygiene solution, including a full line of hand soap, sanitizer and hand lotion products designed specifically for healthcare, and a clinically proven electronic hand hygiene compliance monitoring system. The DebMed Electronic Hand Hygiene Compliance System is the only research-based, badge-free system able to track compliance based on the 4-Moments for Hand Hygiene. This cost-effective solution is able to capture 100% of hand hygiene events and opportunities 24/7 – beyond just room entry and exit. It uses the preferred method of measuring compliance performance of an entire unit, promoting a spirit of collaboration and accountability, and provides actionable feedback for the group without singling out individuals. Also included is a training and online toolkit of materials to promote the highest standards of hand hygiene behaviour. DebMed™ can help you create a culture of safety in your hospital. To learn more call 888-DEB-SOAP or visit [www.debmed.com](http://www.debmed.com).

### Ecolab

Ecolab partners with healthcare customers to deliver programs that help optimize patient care, provide hospital wide efficiency, improved patient and staff satisfaction and help build a hospital's reputation for quality in the markets they serve.

Our comprehensive line of infection prevention solutions includes products for environmental hygiene, hand hygiene, instrument reprocessing, surgical draping and temperature management. Everywhere safety matters. Everywhere health matters. Ecolab is everywhere it matters. Visit [www.ecolab.com](http://www.ecolab.com) for more information.

### HandyMetrics Corporation

**HandyMetrics**  
CORPORATION

HandyMetrics Corporation is a software services provider focusing on improving quality and patient safety. We have a strong community of users within IPAC, in both acute and non-acute facilities. We provide intelligent health measurement and analytics services to reduce workload and increase the efficiency of processes. For hand hygiene auditing, we offer both HandyAudit ([www.handymetrics.com](http://www.handymetrics.com)) – our flagship evidence-based tool focusing on education and SpeedyAudit Lite / Pro / LTC ([www.speedyaudit.com](http://www.speedyaudit.com)) – our affordable, entry-level tool for getting the job done. We are also launching a new tool for quality improvement tracking. For more information visit us at [www.qipaudit.com](http://www.qipaudit.com).

### Hygie

Hygie Canada is a worldwide leader in managing body fluids to reduce the risk of HAIs. Its unique Hy21™ technology includes bedpan, urinal and vomit supports combined with Hygienic Covers® and their super-absorbent pad, designed to solidify human waste. The method, limiting spills, cross contamination and odors is completed by non-porous 100% Aluminum commode chairs for patients with reduced mobility. Well established in hospitals and long-term care residences, Hygie has developed a full line of products for home care to facilitate the caregiver's tasks and maintain the beneficiaries' comfort and dignity. To learn about Hygie, call 1-866-588-2221 or visit [www.hygie.com](http://www.hygie.com).

### Sage Products

Now part of Stryker

For over 45 years, Sage Products LLC has successfully developed and produced innovative prevention products that have significantly improved outcomes for patients and clinicians, while improving efficiency and profitability for healthcare facilities, in 2016, Sage was acquired by Stryker Corporation and is a business unit within the Stryker Medical Division. For more information about Sage Products and how we can help you achieve extraordinary outcomes, call 800-323-2220 or visit [www.sageproducts.ca](http://www.sageproducts.ca).

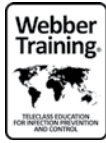

### Vernacare

Vernacare is the recognized world leader providing environmentally responsible solutions for human waste disposal that improve infection prevention and nursing practices. Vernacare's unparalleled approach combines the widest range of biodegradable pulp paper bedside products with its family of market leading disposal units incorporating our patented "Smartflow" disposal system. This comprehensive solution to human waste management provides a safety, efficiency and cost effectiveness that saves nursing time and reduces environmental contamination.

## Webber Training Inc.

Teleclass Education was created in 2001 with the purpose of providing the best possible infection prevention and control information, to the widest possible audience, with the fewest barriers to access. This year, tens of thousands of people, from almost every country on the planet, will participate in Teleclass Education. On behalf of healthcare professionals in developing countries, who benefit the most from this initiative, thank you very much to IPAC Canada members and the volunteers around the globe who make it possible.

## Wood Wyant

**WOOD WYANT**  
Cleaning Products | Equipment | Expertise

Our reputation is built on our innovative products and systems, as well as on the efficiency of our team in helping customers solve even the most difficult sanitation challenges. Our goal: Putting our expertise to work to you by offering the right mix of products, tools, procedures and training so that you can reach your budgetary and hygiene goals quickly. We are proud to offer proven solutions that promote a safe and healthy environment, and are committed to developing innovative technologies that advance the field of disinfection. To learn more, visit [www.woodwyant.com](http://www.woodwyant.com).

## BRONZE

### Arjo

**arjo**

*with people in mind*

Arjo's work is based on genuine care for human health and well-being, and contributes to a sustainable healthcare system – always with people in mind. We are a global supplier of medical devices, services and solutions that improve quality of life for people with reduced mobility and age-related health challenges.

Arjo's core customers are private and public institutions within acute care and long-term care. Our offering includes products and solutions for patient handling, hygiene, disinfection, medical beds, therapeutic surfaces, and venous thromboembolism (VTE) prevention. Arjo also offers services such as clinical and/or technical training supporting our wide range of product solutions.

### Chem-Aqua

The Chem-Aqua Environmental and Healthcare Services Division provides products, services and information to IPAC Canada members and facilities on a wide range of scientifically validated

technologies to minimize the risks of healthcare associated infections caused by waterborne pathogens such as Legionella, Pseudomonas aeruginosa etc. The range of services available include systemic programs for the entire facility (Copper Silver Ionization, Chlorine Dioxide etc.); targeted solutions (Point of Use filters) for higher risk areas such as NICU, Burn Centres, Transplant; Ultraviolet Disinfection Systems for Air Handling Units, Ice Machines etc.; professional services for cooling tower and coil cleanings; and information seminars on evolving codes, standards and treatment options.

### Citron Hygiene

**citron**  
HYGIENE

Citron Hygiene has spent the last 40 years earning the trust of the world's most prestigious clients, one customer at a time. We are a leading provider of washroom hygiene, pest control, chemical solutions and life safety services for commercial facilities. By combining innovation and service excellence, we help health professionals and infection prevention managers deliver healthy environments to their patients, staff and guests. The design and delivery of our services and products reflects Citron Hygiene's understanding of long-term care, community and public health facilities.

For information about Citron Hygiene, its products and services, visit [www.citronhygiene.com](http://www.citronhygiene.com).

### Class 1 Inc.

Class 1 Inc. is the global leader in Engineered Infection Prevention (EIP), smart automated infrastructure technology to reduce air, water and surface transmission of disease in healthcare facilities. EIP was named a 2017 Top 10 World Patient Safety Innovation by the Patient Safety Movement. Some of our innovative, world-first EIP solutions include:

- Asept.1x – AutoUV disinfection of bathrooms, utility rooms, and equipment rooms
  - Asept.2X – World's fastest mobile UVC patient room disinfection system;
  - Asept.3X – AutoUV disinfection of patient rooms
  - SmartFIO3 – self-disinfecting, wheelchair accessible, hand hygiene sink with programmable autoflush that dispenses point of use ozonated water
  - Fast-acting, self-sanitizing surfaces with Aereus Shield™ copper coatings
- EIP reduces dependence on human factors offering the potential to reduce healthcare acquired infections (HAIs) consistently, significantly and cost-effectively.

Class 1 is a founding member of the Coalition of Healthcare Acquired Infection Reduction (CHAIR) whose vision is to reduce the 2014 level of HAIs by 80% by 2024.

Please see [www.class1inc.com](http://www.class1inc.com) and [www.chaircanada.org](http://www.chaircanada.org) for more information.

## BRONZE

### healthHcentric

healthHcentric, a subsidiary of ergoCentric Seating Systems, combines ergonomics with durability that is hospital-grade tough. Dedicated to meeting the

need of the entire continuum of care, healthHcentric focuses on creating durable, easy-to-clean and affordable seating solutions. We are the only seating manufacturer to put infection prevention at the forefront of its design.

Our Patented IC+ Upholstery Solution meets infection prevention recommendations for environmental surface requirements related to cleaning and disinfection. IC+ is a seamless coating that stands up to all hospital grade disinfectants including sporicidal disinfectants. healthHcentric seating is ideal for the most demanding environments such as hospital emergency departments, patient rooms, long-term care and behavioral health. Seating with IC+ provides superior durability backed by a 10-year warranty against cracking, punctures and tears. To learn more about healthHcentric and IC+, visit [www.healthHcentric.com](http://www.healthHcentric.com).

### IPAC Consulting

IPAC Consulting offers a wide range of expertise to various sectors in the healthcare field. Our team consists of experienced Infection Control Practitioners, Environmental Services expertise,

Infectious Disease Physicians, Engineers and Infection Control Construction Consultants. Our services include infection control program planning and evaluation, education/training, policy development and implementation across the broad spectrum in health care, however, our current focus is within dentistry. IPAC Consulting offers resources and consultation in, but not limited to, outbreak management, environmental services and reprocessing. We are also experts in the design, planning and building of new healthcare construction and renovation. Our consultants are hands on and assist with implementing practical ways of incorporating IPAC requirements into daily workflows. We are pleased to offer our clients individualized infection control packages including personalized consultation, educational program development, policy manuals, program review, and assessment services.

### STERIS Canada

STERIS is a leading provider of infection prevention and procedural surgical products and services. As a result of a series of strategic acquisitions and continual innovation of new products, STERIS holds one of the broadest portfolios of products in the industry, including a long list of first to market products and industry leading service innovations. It stands at the forefront of efforts to prevent infection and contamination in healthcare, pharmaceutical and medical device environments. Please visit [www.steris.com](http://www.steris.com).

### The Stevens Company Ltd.

The Stevens Company has been a pillar in the Canadian healthcare community since

1874. Originally founded in 1830 in London, England, the company is still owned and operated by the Stevens family, now in their 6th generation. Over the decades, Stevens has continued to grow and today has six distribution centres across Canada in Brampton, Vancouver, Calgary, Winnipeg, Halifax and most recently, Montréal. Partnering with the industry leaders in Infection Prevention, Stevens provides customized solutions to effect positive changes in patient outcomes.
