

Welcome to our home.

Our home is currently free from COVID-19.

General visitors who are visiting indoors must attest to a negative COVID-19 test within the last two weeks.

For the protection of our residents and staff, please follow these directions during your visit today. If at any time a visitor fails to follow these rules, we may be forced to discontinue visits:

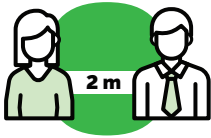

Review the home's visitor policy. It contains important information for keeping everyone safe.

Clean your hands. When you arrive, clean your hands using hand sanitizer, rubbing thoroughly over all areas of your hands.

Wear a mask. You should bring your own cloth mask or face covering for outdoor visits. Indoor visits require a surgical/procedure mask which we will provide. You must continue to wear your mask at all times during the visit.

Maintain physical distance. We know, this one's hard. But for everyone's safety, avoid physical contact during your visit and do your best to stay two metres (six feet) apart at all times.

Clean your hands (again). Before you leave, clean your hands thoroughly using hand sanitizer. If you're wearing a home-provided surgical/procedure mask please dispose of it in the receptacle provided.

Welcome to our home.

Our home is currently free from COVID-19.

Our staff may have additional requests. Your cooperation will help them keep everyone safe. While we know how much your visit means to our residents, our priority will continue to be keeping our home outbreak-free for the safety of our residents and staff. For this reason, if visitors don't follow the above guidance they will not be permitted to return.

Thank you for helping make everyone's visit successful and safe.
