ITS SERVICE BOOK	VERSION CONTROL

This Table of Contents should be updated and accompanied to each Service Book(s) update.

- Draft circulations should append a D to the version number until approved (vx.y**D**)

- Initial approved releases should be issued at v1.0

- Subsequent MINOR modifications should increment the Y (vx.**Y**)

- Subsequent MAJOR modifications should increment the X (v**X**.y)

- Major modifications may include significant template revisions, new solution updates affecting multiple sections and scheduled biennial updates

- File names should be structured as follow:

  Service Book Number_Service Book Title_Version Number.ext

  e.g. ITS304_Work Zone Management_v1.2.pdf

Number	Title	Rev	Date Modified
