SOUTHERN HIGHWAYS PROGRAM 2015-2019

INTRODUCTION

Creating Jobs and Building a Stronger Ontario

In 2015/16, the Ontario government will be investing more than \$2.4 billion to repair and expand provincial highways and bridges. This includes almost \$1.9 billion for Southern Ontario creating or sustaining approximately 19,000 direct and indirect jobs. Improving Ontario's transportation network is part of the government's plan to strengthen the economy.

2015 Planned Accomplishments Southern Ontario

New highways	27 km
New bridges	8
Highways rehabilitated	572 centreline km
Bridges rehabilitated	113

The timing of projects in the following lists is subject to change based on funding, planning, design, environmental approval, property acquisition, and construction requirements.

PLANNING FOR THE FUTURE

Ontario continuously looks at its long-term transportation infrastructure needs to determine where the greatest benefits can be realized for our economy and the lives of Ontarians. Planning beyond 2019 ensures our highways and bridges are built and maintained to support traffic levels and transportation needs for decades to come. Identified on the following pages are some projects in the planning stages that could support growth, improve traffic flow and increase safety in southern Ontario. These projects are subject to further study and prioritization, and may be considered for future development.
