SOUTHERN HIGHWAYS PROGRAM 2016-2020

INTRODUCTION

Creating Jobs and Building a Stronger Ontario

In 2016/17, the Ontario government will be investing more than \$2.1 billion to repair and expand provincial highways and bridges. This includes almost \$1.6 billion for Southern Ontario creating or sustaining approximately 16,000 direct and indirect jobs. Improving Ontario's transportation network is part of the government's plan to strengthen the economy.

PLANNING FOR THE FUTURE

Ontario continuously looks at its long-term transportation infrastructure needs to determine where the greatest benefits can be realized for our economy and the lives of Ontarians. Planning beyond 2020 ensures our highways and bridges are built and maintained to support traffic levels and transportation needs for decades to come. Identified on the following pages are some projects in the planning stages that could support growth, improve traffic flow and increase safety in southern Ontario. These projects are subject to further study and prioritization, and may be considered for future development.
